

# NUTRITION ABSTRACTS AND REVIEWS

## COMMITTEE OF MANAGEMENT

*Chairman:* COL. E. BIRNIE REID, O.B.E., T.D., C.A.

*Representing the Commonwealth Agricultural Bureaux Council:*

W. F. C. MORTON

COL. J. G. ROBERTSON

HERBERT HOWARD

*Representing the Medical Research Council:*

PROFESSOR SIR RUDOLPH PETERS, M.C., M.D., F.R.S.

PROFESSOR B. S. PLATT, C.M.G., Ph.D., M.B.

MARIETTE CHICK, D.B.E., D.Sc.

*Representing the Reid Library:*

DEPUTY CHIEF SIR THOMAS TAYLOR, C.B.E., Q.C., M.A., LL.B.

PROFESSOR R. M. BARRER, D.Sc., Sc.D., F.R.I.C.

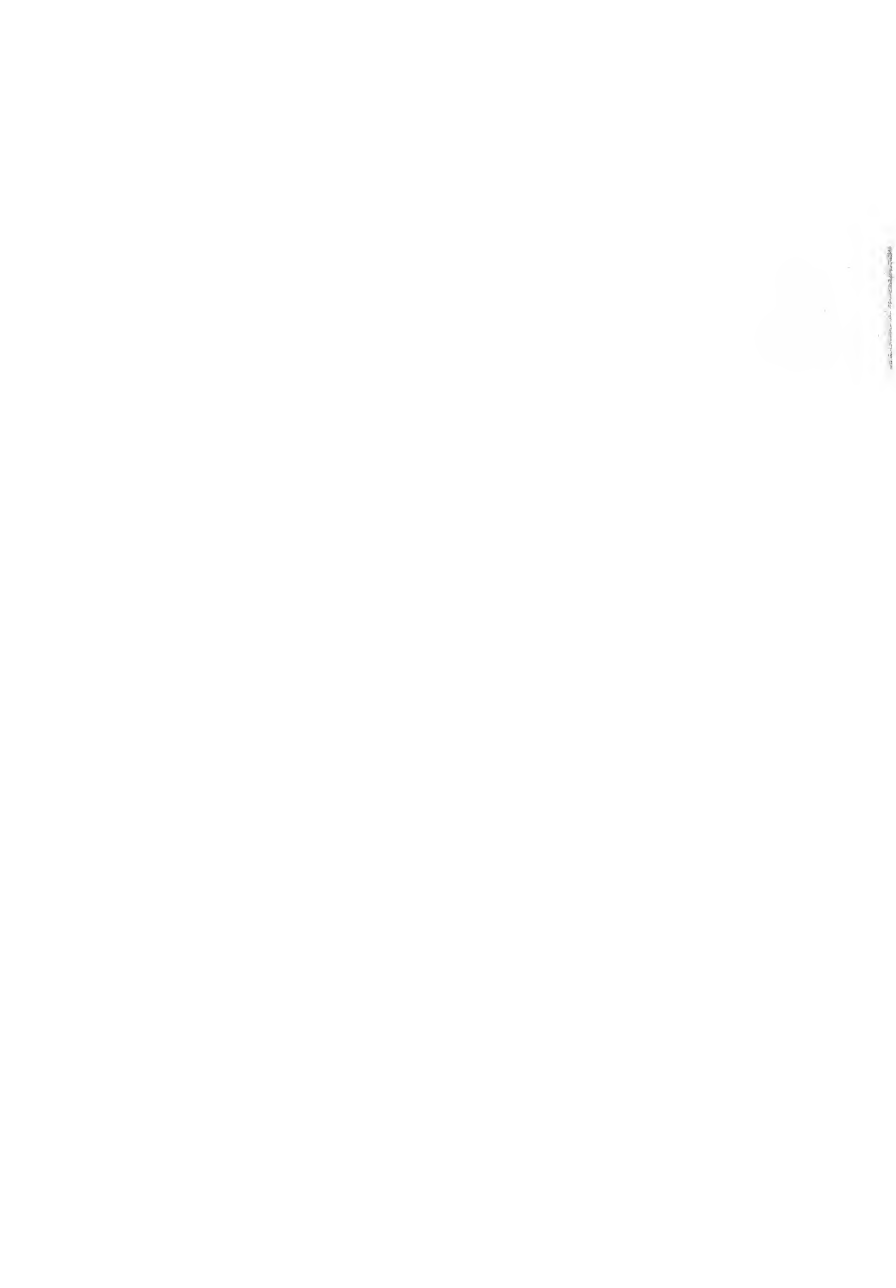

PROFESSOR E. W. H. CRUICKSHANK, M.D., D.Sc.,  
M.R.C.P., F.R.S.E.

All communications should be addressed to the Secretary, NUTRITION ABSTRACTS AND  
REVIEW, WETT INSTITUTE, BUCKSBURN, ABERDEENSHIRE, SCOTLAND.

The Executive Committee of the Commonwealth Agricultural Bureaux is a signatory to the  
Fair Copying Convention, details of which can be obtained from the Royal Society,  
Burlington House, London, W.1.

## CONSULTING EDITORS

LORD BOYD ORR, Newton of Stracathro, Brechin, Angus.

SIR CHARLES J. MARTIN, Cambridge.

## EDITORS

D. P. CUTHBERTSON, Rowett Research Institute, Aberdeen (*Chairman*).

H. CHICK, Lister Institute, London.

I. LEITCH, Commonwealth Bureau of Animal Nutrition, Aberdeen.

E. M. HUME, Lister Institute, London.

S. J. COWELL, University College Hospital Medical School, London.

J. A. B. SMITH, Hannah Dairy Research Institute, Kirkhill, Ayr.

### *Secretary :*

J. S. THOMSON, Commonwealth Bureau of Animal Nutrition, Rowett  
Institute, Bucksburn, Aberdeenshire.

## OVERSEAS CORRESPONDENT

U.S.A. H. H. MITCHELL, University of Illinois.

# SUBJECT INDEX, VOLUME 24

(\*Title and reference only)

- ABDOMEN**, wall, tensile strength, effect of protein in diet (rat), 896.\*
- Abomasum**, function, 996.\*
- passage of starch** (sheep), 829.
- Aboorigines**, Malayan, nutrition and health study, 655.
- Absorption** (see also under specific headings, e.g., *Calcium absorption*)
- from intestine, apparatus for study, *in vitro*, 37.\*
- relation to blood supply to intestine, 114.
- Acanthistius pictus*, flesh, composition, 520.
- Acetaldehyde**, formation from threonine, *in vitro*, effect of pyridoxal phosphate, 87.
- in peas, frozen, 51.\*
- test, *p*-hydroxydiphenyl, 277.
- Acetate**
- carboxyl carbon, incorporation into cholesterol by liver homogenates (rat), 627.
- conversion to fatty acids by mammary tissue, *in vitro* (rat, sheep), 167, 626.
- conversion to squalene and cholesterol by tissues, *in vitro* (hen, rat), 628.
- effect on amylase from saliva (man), 108.
- incorporation into arachidonic acid *in vivo* (rat), 610.
- incorporation into cholesterol (man), 613.
- metabolism by diaphragm muscle, *in vitro* (rat), 882.
- oxidation, by mammary tissue, *in vitro* (sheep), 167.\*
- effect of high vegetable fat diet (rat), 882.\*
- utilisation, by sea urchin embryos, 409.
- Acetic acid**
- dehydro-, identification in cheese, 280.\*
- estimation, in brand, 279.
- in cheese, 279.
- in urine, 279.
- Acetone**, conversion to fatty acids by liver slices, role of nutritional state (rat), 395.
- Acetoacetic acid**, in blood, detection, 749.
- Acetobacter xylinum*, vitamin requirements, 59.\*
- Acetonaemia** (see *Ketosis*)
- Acetone**, estimation in blood, 272.\*
- Acetone bodies** (see *Ketone bodies*)
- Achiote** (*Bixa orellana*), seeds, source of carotene and riboflavin (rat), 782.
- Acid(s)**
- ether-soluble, excretion, in rats on necrogenic diet, effect of antibiotics or vitamin B<sub>12</sub>, 541.
- fatty (see *Fatty acids*)
- free, estimation, in gastric contents, 756.
- hydrocyanic, in bamboo shoots, removal, 575.
- organic, effect on availability of iron in soya beans (rat), 876.
- estimation in plant material, 279.
- in canned tomato juice, effect of storage, 523.
- non-nitrogenous, identification and estimation in sugar cane, 749.
- non-volatile, in grass, 775.
- water-soluble, detection in foods, 749.\*
- polycarboxylic, estimation, 505.\*
- Acid base equilibrium**
- acid and potassium depletion, in surgical patients, 163.\*
- effect of starvation (dairy cow), 879.
- effect of vitamin factors (rabbit), 779.
- role of adenine (vitamin B<sub>12</sub>), 820.\*
- Acidity**, milk, estimation, 754.
- Acidosis**
- diabetic (see under *Diabetes*)
- experimental, effect on fructose utilisation (dog), 131.
- renal idiopathic, a new syndrome, 691.
- Acidotic substances**, effect on pigment and growth of hair (rabbit), 836.
- Acorn**, ascorbic acid content, 826.
- oil, fatty acid composition, 522.
- Acrodynia**, pathology, etiology and treatment, 922.
- Activity** (see *Energy output*; *Exercise*; *Physical activity*)
- Adenine**
- 2-methyl, hydrolytic product of pseudovitamin B<sub>12</sub>, 812.
- role in metabolism of organic substances and effect on acid base equilibrium, 820.\*
- Adenosine phosphates**, separation from inositol phosphates by paper chromatography, 26.\*
- Adenosinetriphosphate**, complex with calcium, *in vitro*, 168.
- Adenosinetriphosphate**, complex with calcium, *in vitro*, 168.
- effect on ascorbic acid in adrenal, before and after pituitary removal (rat), 574.
- Adernin** (see *Vitamin B<sub>12</sub>*)
- Adipic acid**, detection, 277.\*
- Adipose tissue**, fatty acid oxidase (chicken), 827.
- Adolescents**
- body measurements (height and weight), and basal metabolic rate, Japan (girls), 592.
- heights and weights, U.K. (boys), 632.
- nutritional state, 997.\*
- assessment, measurement of serum alkaline phosphatase, 917.\*
- review, 188.\*
- sexual maturation, criteria for comparison of groups, 886.
- Adrenal(s)**
- and pituitary hormone system, effect of vitamin B<sub>12</sub>, 550.
- ascorbic acid content, effect of adenosine triphosphate before and after pituitary removal (rat), 574.\*
- effect of oxygen poisoning, 574.\*
- effect of pressor amines and adrenergic block, 343.\*
- effect of rennin, 343.\*
- effect of X-ray exposure (rat), 343.
- cholesterol, resynthesis after stress, effect of ascorbic acid, pantothenic acid and protein (rat), 823.\*
- correlation between weight, blood pyruvic acid and vitamin B<sub>12</sub> in tissues in vitamin B<sub>12</sub> deficiency (rat), 560.
- distribution of ascorbic acid (ox), 673.
- effect of pantothenic acid deficiency (rat), 90.
- effect of salt intake (rat), 872.
- effect of starvation cachexia in Indonesians, 123.
- effect of swimming training and starvation (guinea pig), 588.
- effect on hyaluronidase spread in skin after injection (rat), 99.
- effect on insulin sensitivity (sheep), 366.
- effect on iron storage (rat), 149.\*
- function, and pantothenic acid, 805.\*
- in mother and foetus, effect of stress and hormones (rat), 105.
- in spruce, tropical, 588.\*
- Adrenal(s)**
- lipid content (dog), 835.\*
- morphological changes after treatment with thiocarbazon (guinea pig, rat), 574.\*
- oxygen consumption *in vitro*, effect of scurvy and of adrenocorticotrophic hormone (guinea pig), 104.
- scorbutic guinea pig, effect on deoxyepi-cholesterone in presence of ascorbic acid, 823.\*
- weight and cholesterol content, after pituitary removal, effect of ascorbic acid, 822.
- effect of injury and diet, 90.\*
- Adrenal cortex**
- activity, effect of vitamin C deprivation (guinea pig), 823.\*
- ascorbic acid, effect of adrenocorticotrophic hormone (man), 431.\*
- effect of tuberculostatics (guinea pig, rat), 574.\*
- effect on glycogen and vitamin B in liver (rat), 320.
- extract, effect on metabolic disturbances in vitamin B<sub>12</sub> deficiency (rat), 330.
- function, effect of energy intake, restricted (mouse), 128.
- relation to pantothenic acid, 561.\*
- hormones, cortisone, effect on ascorbic acid and cholesterol in adrenal (rat), 105.
- effect on blood 17-hydroxycorticosteroids and white cell count, influence of ascorbic acid (rat), 823.
- effect on blood neuroproteins, cholesterol and lecithin in scurvy (guinea pig), 823.
- effect on blood pressure, low, in potassium deficiency (rat), 558.\*
- effect on calcium therapy, 691.
- effect on galactose metabolism (man), 130.
- effect on growth in vitamin B<sub>12</sub> deficiency (rat), 323.
- effect on liver regeneration (rat), 642.
- effect on nitrogen excretion (rat), 135.
- effect on organisation of connective tissue ground substance in ascorbic acid deficiency (guinea pig), 103.
- effect on sensitivity to tuberculin, relation to protein metabolism (guinea pig), 638.
- effect on sulphate exchange in chondroitin sulphuric acid of cartilage (cattle, rat), 397.
- effect on vitamin B<sub>12</sub> excretion (rat), 429.
- growth inhibition, effect of dried liver (rat), 791.
- hydro-, effect in choline deficiency (rat), 613.
- influence on effect of 4-amino-N<sup>10</sup>-methylpteroylglutamic acid in leukaemia (mouse), 563.
- metabolism by liver slices, effect of ascorbic acid intake (rat), 343.
- protein breakdown, effect of vitamin B<sub>12</sub> (rat), 815.
- role in stress, response of carbohydrate metabolism (man), 124.
- treatment of rheumatoid arthritis, effect of ascorbic acid (man), 205.

- Adrenal cortex  
hormones, cortisone, with acid or basic diets, effect on lymphatic tissue and spleen (rat, guinea pig), 379.  
cortisone and derivatives, effect on microbial growth in absence of pteroylglutamic acid or citrovorum factor, 564.  
deoxycorticosterone, effect on liver glycogen (rat), 599.\*  
salt-retaining action, roles of sodium and chloride (man), 874.\*  
deoxycorticosterone acetate, with ascorbic acid, effect in rheumatic diseases, 431.  
effect on ascorbic acid in brain, 344.\*  
effect on glutamic-oxaloacetic transaminase activity of tissues (rat), 826.  
effect on liver regeneration (rat), 837.\*  
effect on nitrogen metabolism in protein deficiency (rat), 135.  
influence on fasting ketosis (rat), 358.\*  
response to stress, effect of food intake and composition (rat), 124.  
symposium (book), 984.\*
- Adrenal, homogenates, corticosteroid formation, effect of C<sub>12</sub>-dicarboxylic acids (pig), 629.  
medulla, effect on fat mobilisation (rat), 836.\*
- Adrenal removal  
effect on excretion of 17-ketosteroids in suury (guinea pig), 343.  
effect on glutamic-oxaloacetic transaminase activity of tissues (rat), 826.  
effect on hyaluronidase spread in skin after injection, influence of diet (rat), 99.\*  
effect on metabolic disturbances in vitamin B<sub>12</sub> deficiency (rat), 330.
- Adrenal slices, formation of corticosteroids, effect of ascorbic and dehydroascorbic acids and *pH*, 823.
- Adrenaline  
blood sugar and eosinophil responses in infants, newborn, 365.  
effect on rumen contractions (sheep), 829.  
in blood, effect of nicotinic or nicotinamide when injected (rabbit), 327.
- Adrenaline quinoxaline, reduction, effect of glycine and ascorbic acid, *in vitro* and *in vivo* (rabbit), 874.
- Adrenomone, treatment of ketosis in cows, 723.
- Adults, nutritional state, 188.\*
- Aerobacter aerogenes*, growth, *in vitro*, effect of *p*-aminobenzoic acid derivatives, 92.
- Aetobius peruvianus* (see *Skate*)
- Africa (see also specific territories, e.g., Kenya)  
Belgian Congo, blood red cell diameter in health and malnutrition (man), 410.  
blood serum iron, Bantu, 119.  
blood serum proteins, African adults, 832.  
East, camels, carcass composition, 234.  
kwashiorkor, prevention, 657.  
rural areas, mortality rates, 917.  
French Central, meat production, 478.\*  
Gold Coast, fertilisers, use and value, 299.  
West, blood serum protein, and liver disorders (man), 921.  
seasonal variations (man), 352.  
calcium in blood, Europeans and Africans, 355.  
effect of malaria treatment on growth (infant), 193.  
magnesium in blood, Europeans and Africans, 355.  
South (see *South Africa*)
- African palm oil, source of carotene and riboflavin (rat), 782.
- Agave, feeding value (rat), 898.
- Age, effect on body fat content and distribution (woman), 585.  
effect on composition of milk, 729.\*  
maternal, effect on reproductive performance and on infant, review, 399.\*  
old (*Old Age*)  
skeletal, evaluation, systematic errors in assessing X-ray photographs (children), 289.
- Ageing (see also *Longevity*; *Old age*)  
and blood composition, 892.\*  
and nutrition, 415.\*  
effect of vitamin B<sub>12</sub> (man), 929.\*  
effect on blood lipids (man), 119.  
effect on response to calcium and vitamin D<sub>2</sub> injections, relation to *areus senilis* (man), 206.  
effect on vitamin B<sub>12</sub> excretion after injection (man), 263.  
nutritional problems, 181.\*  
pathology, relation to diet (rat), 174.
- Agriculture  
Asia and Far East, development, FAO report, 252.  
economics, equal-product function, 243.  
recent trends, 720.\*

FAO, Expanded Technical Assistance Programme 1952-53, 252.  
report of Director-General 1952-53, 252.  
Latin America, outlook, FAO report, 252.  
population growth and living standards, 191.  
review and outlook 1954, FAO report, 995.  
statistics, FAO monthly bulletin, 252.\*  
statistics on farm produce, U.K., 243.\*
- Agriculture and world population, 715.
- Agrostis setacea* (bristle-leaved or heath bent grass), composition and probable feeding value, 523.
- Air Force, Royal, rations, emergency, 652.\*
- Alanine, absorption, effect of temperature, 584.\*  
estimation in protein hydrolysates, 277.
- Alaska, farm products, urban use, 416.\*
- Albumin  
blood (see under *Blood*)  
egg (see *Egg white*)  
osmotic, in blood, 500.\* 744.\*  
in food, 273.  
in wheat flour, 503.  
globulin ratio, estimation in blood (man, rabbit), 503.  
human, concentrated, low-salt, treatment of ascites, 440.\*  
in wheat, 50.  
iodinated, radio-active, digestion and absorption (man), 368.
- Albuminuria, in pregnancy, blood calcium, phosphorus and cholesterol (woman), 400.
- Alcohol (see also *Ethanol*)  
addiction, and liver disease, review, 822.\*  
oxidation, by liver homogenates, effect of diet (rat), 166.  
*in vivo* and in liver homogenates, effect of fasting (rat), 353.  
polyhydric, metabolism, 392.\*  
utilisation in diet (rat), 625.
- Alcoholism, fatty liver, clinical study (man), 440.  
treatment with vitamin B<sub>12</sub> and diet (man), 189.  
fatty or cirrhotic changes in liver (man), 688.  
production of magnesium deficiency, 922.
- Alfalfa  
carotene loss, 310.  
dehydrated, 445.\*  
dried, calcium, availability for rats, 153.  
for pigs, 230.  
pelleted, for cows, 955.  
effect of copper and zinc deficiency, 55.  
ground, for pigs, 965.  
hay and silage, nutritive value, differences not associated with rumen bacteria, 486.\*  
pasturing and soiling by beef cattle, 954.\* 699.  
processing, effect on vitamin A and carotenoids in milk (cow), 784.  
with barley, Sudan hay or molasses, the article, 952.  
xanthophylls, 780.
- Alfalfa ash, effect on digestibility of prairie hay (sheep), 945.
- Alfalfa cuttings, for cows, 488.\*  
for feeding lambs and wethers, 707.
- Alfalfa growth factor, relation to liver and whey growth factors (chickens), 716.
- Alfalfa hay  
chopped, ground and pelleted compared, for cows, 451.  
composition and yield, effect of management, 55.  
digestibility, effect of restricted water intake (cow), 210.  
*in vitro*, effect of antibiotics, 945.  
for heifers, 486.\*  
oestrogenic, estimation (mouse), 177.  
phosphorus, availability (sheep), 616.
- Alfalfa juice, with or without aureomycin and penicillin, effect on growth (chickens), 455.
- Alfalfa meal  
dehydrated, source of vitamins and unidentified factors for mature fowls, 320.  
in poultry rations, effect on blood coagulation, 493.\*
- Alfalfa saponin, effect on growth, feed consumption and feed utilisation (chickens), 486.\* 980.
- Alfalfa silage, composition, effect of stage of growth and preservatives, 56.  
for cows, effect of stage of cutting, 954.  
for heifers, 486.\*  
losses, effect of wilting before ensiling, 56.
- Alfalfa straw, digestibility, effect of stage of growth (sheep), 443.
- Algae (see also *Seaweed*)  
marine, amino-acid content, 53, 54.  
ascorbic acid content, 825.  
nitrogenous constituents, 53.  
*Scenedesmus obliquus*, protein, nutritive value for rats, 849.
- Alimentary tract (see *Digestive tract*)
- Alkaline earth cations, estimations, 31.
- Alkalosis, in infants, treatment with intravenous ammonium chloride, 438.
- Alkaptonuria, effect of vitamin B<sub>12</sub> on homogenetic acid excretion, 931.

- Allergy**  
dermatosis, vitamin B<sub>12</sub> in blood (man), 203.  
digestive, 210.\*  
in children, 435.  
orange, relation to effects of peel oil (man), 436.  
prophylaxis in infants, newborn, 680.  
*Althaea rosea* (see *Oxalis*)  
*Althaea rosea* (see *Gurlic*)  
Alloisimene, effect on blood coagulation (chicken), 393.  
Alloxan, effect on production of atherosclerosis by cholesterol (rabbit), 615.  
Allyl formate poisoning, effect of vitamin B<sub>12</sub> on liver damage (rat), 339.  
Alopecia (see *Hair loss*)  
Altitude  
effect on blood volume (man), 351, 581.\*  
high, effect on haemoglobin in blood (sheep), 116.  
Aluminium, contamination in foods from cooking utensils, 515.  
estimation, 750.\*  
Amaranth, dried, calcium content, availability for rats, 153.  
*Amaranthus gangeticus*, leaves, composition, 772.  
America, Central (see also *Mexico*; etc.)  
dietary allowances (man), 903.\*  
food plants, composition, 49,\* 768.\*  
foods, composition, 768.\*  
maize, composition, 51.  
nutritional problems, 912.\*  
serum lipids (man), 834.\*  
serum protein values, interpretation (man), 833.\*  
America, Latin, agricultural development, FAO report, 252.  
nutritional problems, conference report, FAO and WHO, 995.  
third conference, 652.  
America, North, infants, negro, birth-weight and growth, 855.  
America, tropical, forages in relation to nutrition, 948.\*  
America (U.S.), army (see under *Army*)  
beef cattle and pig prices, recent trends, 984.  
bone meals, composition, 521.  
breeds, nutritive value, effect of enrichment (m), 641.  
butter and margarine, competition, 478.\*  
cattle, beef, feeding, range pasture, effect of intensity of grazing on weight gains, 463.  
rearing on range in winter, 448.  
children (see also under *diet studies* below)  
body measurements, 887.\*  
dental caries, 434.  
feeding, nineteenth century, 905.\*  
growth, 395.\*  
in first year, 885.  
nutrient intakes and physical and biochemical measurements, 916.\*

## Amino-acids

in urine (infants), 604, 853.

high, and copper metabolism in hepatolenticular degeneration (man), 876.

in children, 604.\*

in infancy, and ascorbic acid deficiency, 673.\*

of mammals, 140.

in vegetable leaf proteins, 51.

in vegetable products, 436.\*

in which, release by enzymes, *in vitro*, relation to nutritive value, 848.

in willow phloem sap and aphid honeydew, 180.

in wool (sheep), 836.

in yeast, 303.

intake, effect on liver fat deposition (rat), 135.

for maximum growth (pig), 962.

iodinated (see *Iodinated amino-acids*)

metabolism, by rumen micro-organisms, 405.

effect of glucose or fat (man, rat), 138.

effect of vitamin B<sub>12</sub> and fasting (chicken), 97.function of vitamin B<sub>6</sub>, 328.\*

lactobacilli, 839.

in mammals, 725.

in Wilson's disease (man), 854.

in intermediary, 997.\*

of heart (man), 883.

review, 133.\*

mixtures (see also *Protein hydrolysates*)

containing cystine, chromatography.

use of N-ethylmaleimide, 276.\*

nitrogen utilisation (rat), 853.\*

parenteral, utilisation during inanition (man), 372.

effect of glucose infusion (man), 138.

therapeutic use, 680.

neutral, estimation, 747.

new sulphur-containing, isolation from cat urine, 142.\*

optical configuration, determination, 740.\*

oxidase (see under *Oxidase*)oxidation, by kidney slices, effect of amino-acids intake, *in vivo* (rat), 166.

relationships in developing chicken embryo, 46.\*

requirement, estimation from carcass analysis (chicken, pig, rat), 853.

interpretation of experimental results, 138.

of chickens, 853.

of crustacean, 902.\*

of man, 604.

of poultry, 997.\*

of *Tribolium confusum*, 901.

of young women, 486.\*

of *Streptococcus faecalis*, 177.

separation, chromatographic, 24, 26, 501, 852.

from protein hydrolysates, 277.

sulphur, deficiency, effect on cholesterol metabolism (mouse, rat), 613.

in crustacean proteins, 521.

in fish proteins, 520.

in human milk, India, 768.

role in liver injury caused by carbon tetrachloride (rat), 253.\*

utilisation in wound healing (rat), 141.

supplement to maize and sorghum ration for pigs, 863.\*

supplement to mulberry leaves for silkworms, 408.

supplement to polished rice and red kidney bean diet (rat), 853.\*

supplement to wheat flour, effect on growth (rat), 136.

synthetic, metabolism (chicken, rat), 130.

## Amino-acids

terminal, in protamines, 609.\*

treatment of liver cirrhosis (man), 439.

unsaturated, in groundnut plant, 302.\*

uptake by tumour slices, 631.\*

utilisation, in digestive tract disorders, 437.\*

D-Amino-acids, physiology, review, 138.\*

D-Amino-acid oxidase (see under *Oxidase*)

Amino-acid pattern, estimation in casein and albumin, 502.\*

Amino-acid preparations, use in veterinary medicine, 986.

Amino groups, estimation in amino-acids and proteins, 25.

## p-Aminobenzoic acid

and immuno-bacteriology, 562.\*

and milk diet, effect on survival in infection with *Plasmodium vinckei* (mouse), 807.

effect on ascorbic acid and dehydroascorbic acid in organs and tissues in ascorbic acid deficiency (guinea-pig), 105, 822.

effect on pentothal anaesthesia and streptococcal poisoning (rat), 561.

effect on *Rickettsia mooseri* toxicity (mouse), 92.

role in suppression of malaria by milk (monkey, rat), 637.

synthesis by *Lactobacillus arabinosus* in symbiosis, 332.

p-Aminobenzoic acid derivatives, effect on growth of bacteria, 92.

p-Aminobutyric acid, in cerebrospinal fluid, in nervous disorders (man), 356.

metabolism (rat), 374.

p-Aminocaproic acid, metabolism (rat), 374.

2-Amino-3-methylphenylalanine acid, formation from cyclole (rat), 141.

2-Amino-3-methylphenylalanine acid, effect of protein, riboflavin and pantothenic acid (dog), 792.

p-Aminobutyric acid, metabolism (rat), 374.

p-Aminobutyric acid, in urine, in starvation (man), 604.

p-Amino- $\alpha$ -methylbutyric acid, in groundnut plant, 302.\*Amino-nitrogen (see *Nitrogen, amino-*)Aminopterin (see *Pteroylglutamic acid, amino*)

p-Aminosalicylate, treatment of tuberculosis, effect on mineral metabolism (man), 615.

p-Aminosalicylic acid, effect on barbiturates, experimental (pig-iron), 551.

effect on excretion of nicotinic acid and vitamin B<sub>1</sub> (man), 425.

relation to ascorbic acid, 821.\*

p-Aminosalicylic acid derivatives, for colouring foods, toxicity, 514.\*

## Ammonia

decomposition in sealed-tube micro-Kjeldahl digestion, 272.

formation in rumen, effect of source of protein (sheep), 850.

in blood, effect of feeding non-protein nitrogen compounds (lamb), 857.\*

in rumen, 996.\*

nitrogen (see *Nitrogen, ammonia*)

Ammoniated products, for cattle, 226.\*

446, 950.

Ammonium chloride, prevention of urinary calculi in milk, 986.

## Amphibian

blood serum proteins, electrophoresis, 118.

embryo (see under *Embryo*)*Amphiphilic glabra* and *odorata*, composition, 305.

Amte kayi (Indian hog plum), vitamin C content, 345.

## Amylase

activity of wheat, 775.\*

from different sources, activity (man, pig, rat), 346.

digestion of raw starch, 825.\*

from pancreas, digestion of starches, 108.

from saliva, effect of acetate and chloride (man), 108.

pancreatic, estimation, 34.\*

p-Amylase, effect on digestibility of bread starch, 108.\*

Amyloid formation, cortisone and ascorbic acid, 344.\*

## Anaemia

and gastric lesions, 217.\*

Cooley's and hypochromic, treatment with iron ascorbate, effect on serum iron and transferrin, 159.

copper deficiency, comparison with iron deficiency (dog), 161.

dimorphic, diagnosis and bone marrow findings (man), 687.

experimental, regeneration of haemoglobin fractions during recovery (rabbit), 116.

folic acid utilisation, 426.

Anaemia, hyperchromic, non-megaloblastic, treatment with vitamin B<sub>12</sub>, 928.

produced by onions (rat), 640.

Anaemia, hypochromic (see also *Anaemia, iron-deficiency*)

in children, 216.

in infants, artificially fed, prevention, 866.

in young rats, 942.

Anaemia, idiopathic hyperchromic, etiology and iron storage (man), 876.

in children, produced by homocystin in flour, 942.\*

in infants, etiology, 686.\*

prevalence, effect of cobalt and iron salts, 941.

in kwashiorkor, 686.

in p-ligra, haemolytic component, 662.

in pregnancy, iron in blood plasma (woman), 356.

produced by iron deficiency (woman), 687.

treatment with iron by vein, 216.

in scurvy, in Bantu, 430.

treatment with pteroylglutamic acid, effect of ascorbic acid (man), 674.

Anaemia, iron-deficiency (see also *Anaemia, hypochromic*)

comparison with copper deficiency (dog), 161.

bone marrow and liver, histopathology (man), 942.

in infants, etiology and treatment, 216.

Anaemia, iron stores in bone marrow (man), 876.

leud, effect of liver extracts (rabbit), 554.

effect of liver extracts and vitamin B<sub>12</sub> (rabbit), 99, 339.effect of vitamin B<sub>12</sub> (man, rabbit), 201.

treatment with methionine, 217.\*

Anaemia, macrocytic (see also *Anaemia, pernicious*)

in infants, 667.

in pregnancy, treatment with vitamin B<sub>12</sub>, 407.nutritional, effect of vitamin B<sub>12</sub> (man), 201.

treatment with penicillin (man), 427.

Anaemia, Mediterranean, haemolytic forms with vitamin B<sub>12</sub> deficiency, 670.

in children, blood proteins, 831.

Anaemia, megaloblastic (see also *Anaemia, macrocytic*)after enterococcal anastomosis, treatment with vitamin B<sub>12</sub>, case report, 203.

differential diagnosis, 428.\*

**Anaemia, megaloblastic**  
 effect of vitamin B<sub>12</sub>, folic acid and ascorbic acid on nucleic acid in bone marrow, 667.\*  
 haematinic action of penicillin (man), 667.  
 in pregnancy and puerperium (women), 438.  
 of pregnancy, case reports, 927.\*  
*post partum* (woman), 216.  
 serum vitamin B<sub>12</sub>, effect of vitamin B<sub>12</sub>, folic acid or citrovorum factor (man), 202.  
 treatment, 428.  
 treatment with penicillin and vitamin B<sub>12</sub>, 428.  
 treatment with vitamin B<sub>12</sub> (infant), 667.  
 treatment with vitamin B<sub>12</sub> and formyl-folic acid, 427.  
 treatment with vitamin B<sub>12</sub> or folic acid, effect on serum iron and transferrin, 159.  
**Anaemia, megalocytic, in infants, effect of liver extract and vitamin B<sub>12</sub>, 927.**

 iron equilibrium, 216.\*  
**Anaemia, pernicious**  
 ascorbic acid oxidation, alteration, 670.\*  
 effect of antibiotics (man), 164.\*  
 effect on binding power of gastric juice for vitamin B<sub>12</sub>, 930.  
 effect on vitamin B<sub>12</sub> in blood and urine after oral administration, 928.  
 gastric mucosa, cellular changes, 929.  
 in old age, 942.  
 or megaloblastic, effect of vitamin B<sub>12</sub> without intrinsic factor on haematological response and vitamin B<sub>12</sub> in serum and urine, 930.  
 oral treatment, 668.\*  
 pathogenesis, 929.\*  
 relation of gastric intrinsic factor, 668.\*  
 role of folic acid and vitamin B<sub>12</sub>, 927.  
 tapeworm, effect of folic acid on nervous system, 201.  
 pathogenesis, 670.\*  
 vitamin B<sub>12</sub> in faeces, 670.\*  
 treatment, 202.\*  
 cytological study of stomach, 669.\*  
 with citrovorum factor, 201.\*  
 with folic acid and vitamin B<sub>12</sub>, 927.  
 with intrinsic factor concentrate and vitamin B<sub>12</sub>, 668.  
 with pyloric mucosa and vitamin B<sub>12</sub>, 930.  
 with vitamin B<sub>12</sub>, intravenous, 202.  
 with vitamin B<sub>12</sub> and folic acid, by mouth, 687.  
 with vitamin B<sub>12</sub> and glandular mucoprotein, 202.\*  
 with vitamin B<sub>12</sub> and mucin from hog stomach, 428.\*  
 with vitamin B<sub>12</sub> as snuff (man), 669, 669.\*  
 with vitamin B<sub>12</sub> by inhalation, 929.  
 with vitamin B<sub>12</sub> by mouth, 930.  
 vitamin B<sub>12</sub> excretion, 428.  
 vitamin B<sub>12</sub> in serum, 670.\*  
**Amenia, post-partum, treatment with liver extract or folic acid (woman), 201.**  
 preparations for treatment, estimation of vitamin B<sub>12</sub> potency, 668.  
 prevention by thyroxine and sex hormone after pituitary removal, effect of high protein intake (rat), 851.  
 produced by acetylphenylhydrazine, iron absorption (dog), 622.\*  
 produced by bleeding in pregnancy, effect on offspring (rat), 401.  
 produced by molybdenum, blood volume (rabbit), 624.  
 produced by onions (dog), 99.  
 effect of vitamin B<sub>12</sub> (rabbit), 99.

**Anaemia**  
 simple chronic, diagnosis, 511.\*  
 treatment, 686.\*  
 with cobalt and chlorophyll complex, 389.  
 with iron, and blood in faeces (pre-mature infant), 904.  
 with reaction products of vitamin B<sub>12</sub> and intrinsic factor (man), 669.  
 with malnutrition, choline in blood (man), 119.

 effect on animal protein requirement of chickens, 717.  
 effect on carbohydrate fermentation by rumen contents, *in vitro*, 176.  
 effect on carcass quality of bacon pigs, 967.  
 effect on digestibility of alfalfa hay, *in vitro*, 945.  
 effect on enzymes, *in vitro*, 347.  
 effect on excretion of phenolic acids (rat), 58.\*  
 effect on faecal microflora, when given by mouth or injection (turkey poult) 978.  
 effect on feed digestion, with bacteriological data (beef cattle), 950.\*  
 effect on fibre digestion by rumen micro-organisms, *in vitro*, 894.  
 effect on glucose tolerance, skin and hair (rat), 792.  
 effect on growth (calf), 224.\*  
 influence of ascorbic acid (chicken), 341.  
 effect on growth and antibody production, in pantothenic acid deficiency (rat), 331.  
 effect on growth and blood picture (chicken, man, rat), 164.\*  
 effect on growth and feed efficiency (turkey poult), 977.  
 effect on growth and feed utilisation (pig, rabbit), 100, 970.\*  
 effect on growth in folic acid deprivation (chicken), 810.  
 effect on growth in pantothenic acid deficiency (rat), 91.  
 effect on growth of chickens, 971, 977, 979.  
 effect on growth of chickens on high quality diet, 976.  
 effect on growth of chickens receiving inadequate vitamin B<sub>1</sub> by mouth or by injection, 82.  
 effect on growth of children, Guatemala, 888.\*  
 effect on growth of infants, 410.  
 effect on growth of rats, 406.  
 effect on intestinal micro-organisms (chicken), 405.  
 effect on metabolism of vitamin B complex components (rat), 76.  
 effect on nicotinic acid deficiency (chicken), 86.  
 effect on pantothenic acid excretion (man), 200.  
 effect on reproduction (sow), 967.\*  
 effect on *Rickettsia mooseri* toxicity (mouse), 92.  
 effect on rumen micro-organisms, utilisation of non-protein nitrogen, *in vitro*, 405.  
 effect on silkworms, 408.  
 effect on thyroid (rat), 589.  
 effect on toxicity of aminopterin (rat), 93.  
 effect on vitamin B complex components in tissues of pigs fed at different protein levels, 793.\*

## Antibiotics

- feeding, advantage and disadvantage, 965.\*  
 for animal feeding, and role of intestinal micro-organisms, 176.\*  
 for calves, 223.\* 446.\*  
 for chickens, 238.  
 breed differences in growth response, 406.  
 for chickens and pigs, effects of prolonged administration, 817.  
 for cockerels, 239.  
 for lambs, 960.\*  
 for livestock, 445.\*  
 review, 816.  
 for pigs, 238, 253,\* 457, 458,\* 728,\* 818, 962.  
 at different protein intake levels, with vitamin B<sub>12</sub>, 818.\*  
 effect on reproduction, 966.  
 fattening, 535, 712.  
 mathematical analysis of effect, 458.  
 for poultry, 468,\* 485.\*  
 laying hens, 472.\*  
 for rabbits, effects on enteritis, 486.\*  
 for ruminants (review), 695.\*  
 for turkeys, effect on flavour of flesh, 486.\*  
 for turkey poult, effect of egg, 976.  
 effect of feed pelleting process, 466.  
 effect on feather pigmentation, 976.  
 effect on physical and chemical characteristics, 466, 468.\*  
 on all-vegetable ration, 463.  
 growth-promoting response, mechanism (chicken), 717.  
 implants, effect on growth of lambs, 707.  
 effect on suckling pigs, 968.\*  
 in animal nutrition, review, 695.\*  
 in egg yolk of antibiotic-fed hens, effect on growth (rat), 888.\*  
 in preservation of fish and beef, 764.  
 inhibition of growth of bacteria *in vitro*, effect of vitamin B complex components, 75.  
 levels in digestive tract (chicken), 407.\*  
 methionine and fish products, interrelationships, 468.  
 mode of action in animal nutrition, 337.\*  
 mode of action in stimulating growth, 253.\*  
 production of fatty liver by prolonged use (man), 688.\*  
 singly and in combination, effect on growth of chickens, 979.  
 sparing action on B vitamins (rat), 793.\*  
 supplements to maize and cottonseed meal ration for fattening pigs, 713.  
 unidentified, from *Aerergillus clavatus*, toxicity for calves, 482.  
 vitamin-sparing effect (chicken), 810.  
 with  $\gamma$ -globulin, effect on survival of baby pigs, 967.\*  
 with vitamin B, effect on growth at different levels of protein intake (pig), 793.\*  
 with vitamin B<sub>12</sub>, effect on growth, influence of protein intake (bobwhite quail), 100.  
 with or without vitamin B<sub>12</sub>, for long periods, effect on egg production and hatchability (chicken), 472.  
 Antibody production (see *Immunity reactions*).  
 Antihistamines, effect on gastric secretion, 828.\*  
 Anti-oxidants  
 effect on auto-oxidation of methyl linoleate, 527.  
 effect on ceroid formation in liver in cholesterol deficiency (rat), 72.  
 for fats, glyceryl esters of citric acid and fatty acids, 40.  
 for ghee, 296.  
 new developments, for food preservation, 513.\*

- Antiscorbutics (see under *Scurvy; Vitamin C*).  
 Aorta, metabolic pattern, effect of cholesterol and oil diet (rabbit, rat), 868.\*  
 Apocrythin (see *Anaemia, anti-anaemia factor, intrinsic*).  
 Aphids, feeding behaviour, 180.\*  
*Tuberolachnus salignus*, amino-acids, intake and output in honeydew, 180.  
 Apparatus  
 all-glass micro-Kjeldahl, 271.\*  
 automatic, for collecting eluate fractions in chromatography, 497.  
 bone sectioning, 750.  
 climatic chamber for large animals, 38.\*  
 colorimeter, photo-electric, 10.  
 cuvettes and holders for quantitative spectroscopy, 271.\*  
 drinking tubes and bottles for small animals, 611.  
 electrophoresis cell for analysing flour samples simultaneously, 497.\*  
 fluorophotometer, construction, 102.  
 for automatic collection of fractions, 741.  
 for automatic pipetting and titration, 741.\*  
 for automatic recording of water consumption by small animals, 759.  
 for chromatography on cellulose sheets, 19.  
 for continuous extraction of mixtures from carrier columns, 20.  
 for continuous intravenous infusion without anaesthesia (dog), 759.  
 for continuous recording arterial concentration of T-1824, 509.\*  
 for countercurrent distribution, 271.  
 for direct photometry of dyed materials on filter paper, 500.  
 for electrophoresis of proteins on paper, 22.  
 for electrophoretic separation of proteins, 19.  
 for estimation of blood gases, 287.\*  
 for estimation of chemical elements in biological fluids, 509.\*  
 for estimation of moisture in bread and dough, 508.  
 for estimation of nitrogen, modified Dumas, 500.  
 for extraction with light and heavy solvents, 10.\*  
 for fractional titration of gastric juice, 510.\*  
 for iodine distillation, 19.  
 for measurement of basal metabolism in small animals, 510.\*  
 for measurement of energy exchange during work and exercise, 510.  
 for measurement of freezing-point depression, 741.\*  
 for preparative paper electrophoresis, 497.  
 for separate collection of urine and faeces from sheep, 759.  
 for study of intestinal absorption, *in vitro*, 37.\*  
 for transfers in paper chromatography, 19.  
 for wet ashing organic matter, 741.\*  
 freeze-drying, Altmann-Gorsch, simplified, 741.\*  
 gamma counting, 741.\*  
 manometer, optical, for measuring pressure in human gut with a polythene tube, 37.  
 metabolic cage for small animals, 759.  
 metabolism stall for bullocks, 759.  
 micro lipid extractor, 19.\*  
 microspectrophotometer, 497.  
 microtome, vibratory, for sectioning living tissue, 271.  
 mobile, for weighing cattle, 511.  
 photometer, flame, 33.  
 for evaluating paper electrophoresis, 497.

- Apparatus  
 polyethylene, for estimation of fluoride, 752.  
 rumen retractor, 511.  
 self-recording drip photometer for paper electrophoresis and paper chromatography, 271.  
 semi-automatic cryoscope for milk, 271.\*  
 tank for paper chromatograms, 497.  
 trough for paper chromatography, 497.  
 van Slyke manometer, modification, 271.  
 water container, automatic refilling for laboratory animals, 38.\*  
 Appetite  
 effect of cobalt deficiency (lamb), 246.  
 effect of hypophthalmus lesions, 177.\*  
 loss of (see *Anorexia*).  
 training during illness, 680.  
 Apple(s)  
 for pigs, 457.  
 residue from cider presses as feed for livestock, composition, 940.  
 storage qualities of varieties (Finland), 291.\*

- Arthritis (see also *Gout*)  
gouty, role of electrolytes (man), 386.  
rheumatoid, effect of deoxycorticosterone with ascorbic acid, 431.  
treatment with cortisone, effect of ascorbic acid, 205.
- Ascaridia galli*, infestation, effect of pteroylglutamic acid, vitamin B<sub>12</sub> and vitamin B<sub>6</sub> (chicken), 807.
- Ascaris lumbricoides*, roundworm, nutritional physiology, and malnutrition in tropical children, 922.
- Ascites (see also under *Liver disorders, cirrhosis*)  
Ascitic fluid, distribution of radio-active gold, 510.
- Ascorbic acid (see also *Vitamin C*)  
ascorbic decomposition, effect of pH and temperature, 571.  
and cortisone, formation of amyloid, 344.\*  
and oxidised flavours, 102.\*  
adrenal, effect of rennin, 343.\*  
antidote in experimental vanadium poisoning, 824.\*  
auto-oxidation, effect of glycine, 574.  
biosynthesis (plants), 103.  
(rat), 253.\*  
chromatography in mixtures, 571.  
deficiency, and amine-aeduria in infants, 673.\*  
carbohydrate metabolism (guinea pig), 573.  
effect on mucopolysaccharides and mast cells of skin (guinea pig), 821.  
17-hydroxy-corticosteroids in blood (guinea pig), 343.  
in experimental and surgical subjects, 671.\*  
organisation of connective tissue ground substance, effect of cortisone (guinea pig), 103.  
physical signs (children), 672.  
relation between physical signs, blood level and intake (children), 672.  
relation of ketogenesis to disturbance of carbohydrate metabolism (guinea pig), 822.\*  
destruction of anthocyanin in strawberry juice, 340.\*  
distribution in adrenal and liver cells (dog, ox), 573.
- Ascorbic acid  
effect on adrenal, after pituitary removal (rat), 822.  
effect on blood cholesterol (rabbit), 573.  
effect on citrovorum factor formation by *Leuconostoc citrovorum*, 564.  
effect on citrovorum factor formation by liver, *in vitro* (chicken), 335.  
effect on development of fatigue (rat), 824.  
effect on experimental hypertension, influence of pituitary removal (rat), 105.  
effect on growth, influence of diet and antibiotics (chicken), 341.  
effect on growth and health in pantothenic acid deficiency (guinea pig), 805.  
effect on ketosteroids excretion (man), 673.  
effect on microbiological estimation of vitamin B<sub>12</sub>, 811.  
effect on nucleic acid in bone marrow in anaemia, megaloblastic, 667.\*  
effect on oxalic acid excretion (man), 673.  
effect on pancreas (guinea pig), 573.  
effect on pentose nucleic acid to deoxypentose nucleic acid ratio in malignant tissue (rat), 824.\*  
effect on reduction of adrenaline quinone, *in vitro* and *in vivo* (rabbit), 574.  
effect on resistance to bacterial infections (guinea pig), 343.  
effect on resynthesis of adrenal cholesterol after stress (rat), 823.\*  
effect on treatment of rheumatoid arthritis with cortisone (man), 205.  
effect on vitamin A excess (guinea pig), 313.  
estimation, 340, 820.\*  
in rose hips, 820.  
formation, effect of chlorotone and penicobarbital (rat), 822.  
gluconic acid as precursor (rat), 573.  
in acorns, Italy, 825.  
in adrenal cortex, effect of adrenocorticotrophic hormone (man), 431.\*  
in adrenals, effect of adenosinetriphosphate, before and after pituitary removal (rat), 574.  
effect of oxygen poisoning, 574.\*  
effect ofpressor amino acids and adrenergic blockade (rat), 343.\*  
effect of stress and hormones (rat), 105.  
effect of X-ray exposure (rat), 343.  
in algae, marine, 825.  
in blood (horse), 344.  
effect of dehydro- and reduced ascorbic acid, 531.\*  
effect of drugs (man), 204.  
effect of insulin in diabetes (man), 205.  
effect of  $\alpha$ -tocopherol (rabbit), 541.  
in diabetes (rabbit), 106.  
in old age (man), 204.  
in blood and stomach secretion, in gastro-intestinal disease, 931.\*  
in blood serum, effect of pasture, rumen meal and sex (chicken), 307.  
effect of low intake after saturation or partial depletion (man), 931.\*  
in brain, effect of adrenal hormone, 344.\*  
in corpora lutea, follicles and ovaries (sow), 824.\*  
in date palm (neera) fruit, stability, 103.  
in gastric tissue, effect of gastritis (guinea pig), 342.  
in leaf lettuce, effect of mineral fertilisers, 575.  
in leaves, effect of sugars, 573.  
in lemon juice, effect of compressed carbon dioxide and oxygen, 571.  
in liver, effect of congestion (rat), 341.  
in liver and adrenals, effect of *Senecio* alkaloid pterophine (rat), 106.
- Ascorbic acid  
in liver, blood and spleen, effect of liver necrosis (rat), 341.  
in milk, effect of handling and storage, 344.  
in organs, effect of high atmospheric pressure (guinea pig), 574.  
in organs and tissue, in vitamin C deficiency, effect of folic acid or *p*-aminobenzoic acid (guinea pig), 105.  
in ovary, effect of oestrous cycle (rat), 107.  
in pancreas, 344.  
in parsnips and potatoes, effect of cooking, relation to rate of oxidases inactivation, 103.  
in peas, effect of home canning and freezing, 575.  
in potatoes, effect of storage and variety, 107.  
in school meals, 205.\*  
in scurvylike hydroxyphenyluria, 573.\*  
in sea beans, effect of sprouting and cooking, 528.  
in sweat and urine of acclimatised Europeans in tropics, 673.  
in testes, effect of age (rat), 105.  
in tissues, effect of whole body X-ray irradiation (rat), 575.  
in transudates and oxidates, 424.\*  
in tumours, effect of X-ray irradiation (mouse), 824.\*  
in urine, and menstrual cycle, pregnancy and climacteric (woman), 204.  
in vegetables, canned, effect of processing, 345.  
influence on effect of cortisone on blood 17-hydroxycorticosteroids and white cell count (rat), 823.  
intake, effect on cortisone metabolism by liver slices (rat), 343.  
low, after saturation or partial depletion, effect on blood white cells and spleen, 431.\*  
metabolism, effect of adrenocorticotrophic hormone (guinea pig, man), 673, 674.\*  
oxidation, alteration in pernicious anaemia, 670.\*  
by liver tissue, effect of pH (rat), 103.  
effect of terramycin, 821.  
in presence of copper, effect of carotene, 102.  
physiology and biochemistry, 572.\*  
prevention or delay of multiple B vitamin deficiencies (rat), 822.\*  
protective action in biotin deficiency (rat), 332.  
relation to *p*-aminosalicylic acid, 821.\*  
relation to acid, adrenocorticotrophic hormone and surgery, 671.\*  
role in tyrosine oxidation in liver (rat), 109.  
saturation tests, effect of initial blood levels (children), 671.  
synthetic, in diet for rearing guinea pigs, 103.\*  
transfer, effect on lactic acid in aqueous humour after unilateral carotid ligation, 824.\*  
treatment of Menière's disease (man), 662.  
treatment of skin tuberculosis, 205.\*  
with deoxycorticosterone, effect in rheumatic diseases, 431.  
with pteroylglutamic acid, treatment of anaemia in scurvy (man), 674.  
Ascorbic and dehydroascorbic acids, effect on formation of corticosteroids by adrenal slices, 823.  
estimation, 571.  
Ascorbic acid, D-arabo, estimation, 340.  
Ascorbic acid, D-glucose, effect on tumours (guinea pig, mouse, rat), 342.

## L-Ascorbic acid

- and D-ascorbic acid, chemical and biological properties, 340.  
enzyme formation from L-galactono-γ-lactone by plant mitochondria, 572.\*  
estimation, 340.  
formation, in plants and animals, 572, 572.\*  
in fruit, effect of stage of maturity, 345.  
in tissues in vitamin C deficiency, effect of vitamin B<sub>1</sub>, biotin or p-aminobenzoic acid (guinea pig), 822.  
L-Ascorbic acid, dehydro-, in tissues in vitamin C deficiency, effect of vitamin B<sub>1</sub>, biotin or p-aminobenzoic acid (guinea pig), 822.  
Ascorbic acid, dehydro-,  
diabetes, prevention by atropine, 342.\*  
production when given with glucose (rat), 106.  
effect on ascorbic acid in blood, 931.\*  
excretion after temperature shock (rat), 343.\*  
in blood, effect of typhoid fever, 430.  
in blood plasma (man), 673.\*  
in milk, effect of handling and storage, 344.  
in organs and tissues in vitamin C deficiency, effect of folic acid or p-aminobenzoic acid (guinea pig), 105.  
in sweat and urine of acclimatised Europeans in tropics, 673.  
injection, effect in rabbits, 106.  
Ascorbigen, chemical properties, 821.  
Ash (see *Minerals*)  
Asia, agriculture development, FAO report, 232.  
South and East, FAO Nutrition Committee, report, 484.  
Aspartate, metabolism by rumen bacteria, 693.  
Aspartic and glutamic acids, esterification, 24.  
*Aspergillus clavatus*, toxic fungus isolated from feed pellets, 482.  
*Aspergillus oryzae*, enzymes, digestion of casein or groundnut cake, effect on nutritive value (rat), 849.  
Assam  
cattle, food problem, 221.\*  
energy exchange, basal, study, 254.\*  
A.T.10 (see *Dihydroxyacetone*)  
*Atalaya hemikauca* (see *Whitehead*)  
Atherosclerosis (see also *Arteriosclerosis*)  
and lipoproteins in blood serum (man), 910.  
in chicks given cholesterol, effect of pyridoxine-high intake, 88.  
produced by cholesterol, effect of choline (rabbit), 867.  
effect of food restriction (rabbit), 867.  
produced by cholesterol and cottonseed oil, influence of sources and of breed (poultry), 868.  
relation to *arcus senilis* and blood cholesterol, 910.  
treatment, review, 943.\*  
Atherosclerosis, produced by cholesterol, phospholipids in liver and aorta (rabbit), 867.  
Athletes, feeding, 652.  
Athletics, effect of vitamin administration for runners, 656.  
Aureomycin (see also *Antibiotics*)  
and death of guinea pigs, effect of vitamin B complex, vitamin C and cortisone, 75.  
and fishmeal, for turkeys, effect on palatability of flesh, 239.  
and grass juice concentrate, effect on cellulose digestion in artificial rumen with different nutrients, 830.\*  
and vitamin B<sub>12</sub> for sows on low-protein diet, effect on survival of young, 486.\*

## Aureomycin

- and vitamin B<sub>12</sub>, relative effects on growth (rat), 667.  
supplement to fattening ration for pigs, 712.  
as growth factor (rat), 567.  
detection in presence of amino-acids and proteins, 35.  
effect of level on reproduction (pig), 907.  
effect on arteriosclerosis, experimental, and cholesterol in blood (rabbit), 380.  
effect on biological value of soya bean meal (rat), 138.  
effect on digestibility of ration (pig), 945.  
effect on egg quality, 472.  
effect on growth (calf), 446.  
(rat), 888.\*  
effect on growth and body composition, sex difference (mouse), 100.  
effect on growth and feed efficiency (lamb, beef cattle), 950.\* 959.  
effect on growth and protein utilisation (pig), 567.  
effect on growth, digestion of feed, rectal temperature and urine volume (sheep), 960.\*  
effect on growth during folic acid deprivation in successive experiments (chicken), 562.  
effect on growth efficiency in chronic respiratory disease (chicken), 468.\*  
effect on growth in new housing (chicken), 464.  
effect on growth, intestinal flora and vitamin B<sub>12</sub> synthesis (rat), 338.  
effect on growth on limited rations (pig), 968.\*  
effect on inhibition of growth by linseed meal (chicken), 804.  
effect on manganese and nicotinic acid requirements (chicken), 86.  
effect on nitrogen absorption from soya bean meal (rat), 137.  
effect on nucleic acid formation by *Lactobacillus casei*, influence of folic acid and vitamin B<sub>12</sub>, 819.  
effect on reproduction in turkeys, 568.  
effect on resistance to *Aeridella galli* infection (chicken), 817.  
effect on rumen micro-organisms, clinical significance (goat, sheep), 175.  
effect on vitamin A utilisation (rat), 64.  
effect on vitamin B in blood of calves on milk replacement diet, 78.\*  
effect on vitamin B<sub>12</sub> in muscle (pig), 818.  
for calves, 223.\* 224, 224.\* 254.\* 950.  
by mouth, or intramuscularly, 224.\*  
subcutaneously or intramuscularly, 224.\*  
long-term effects, 228.\*  
on alfalfa or prairie hay, 224.\*  
for cattle, effect on rumen micro-organisms, 176.  
for chicken, on different types of diet, 465.  
for fattening lambs, 959.\*  
for growing and fattening beef cattle, 700.  
for lambs, 959.  
for pigs, Agricultural Research Council report, 232.  
effect of continuous or intermittent administration, 966.  
effect of different protein levels, 713.  
influence on growth retardation induced by radio-active phosphorus (rat), 869.  
on low-protein ration, effect on growth (weanling pig), 90.  
parenteral administration to calves, mode of action, 950.\*  
with inorganic nitrogen, effect on growth and feed utilisation (chicken), 466.

## Aureomycin

- with vitamin B<sub>12</sub>, effect on growth of children, 929.\*  
effect on resistance to *Ascariis* infection on all-vegetable protein diet (chicken), 100.  
effect on vitamin B<sub>12</sub> in muscle (pig), 819.  
for chickens, effect on subsequent reproductive performance, 241.  
with or without alfalfa juice and casein, effect on growth (chicken), 466.  
with or without bacitracin, for pigs, 907.  
Australia  
cattle and sheep, vitamin D supplements, 537.  
cattle, beef, feeding, 952.  
investigation, 224.  
production, 224.\* 984.  
children, aboriginal, bones, ossification times, 886.  
dental caries, 678.  
dental caries and diet, 208.  
clover, subterranean, yields on different soils, effect of fertilisers, 298.  
coastal lands of Queensland, dairying improvement, 705.\*  
conservation of native grasses, 515.\*  
copper-deficient areas, top-dressing, 485.\*  
cows, feeding, concentrates or no concentrates, 226.  
crops and pasture, deficiencies of major and minor elements, 525.\*  
factory meals, pattern, 913.  
fluorosis, endemic, in sheep, 247, 481.  
fodders, composition and nutritive value, 220.  
conservation for livestock, 690.\*  
goitre, endemic (man), 940.  
law, use and development (Review article), 731.  
molybdenum deficiency in crops, 298.\*  
pasture plants, oxalate content, 55.  
plasma and blood volume (woman), 831.  
sheep, copper in blood and liver, 996.\*  
disorders, fluorosis, 247, 481, 996.\*  
feeding, by hand, in drought, 485.\*  
vitamin D requirement, 537.  
sulphur fertilisers, effect on yield of subterranean clover grown on sulphur-deficient soils, 525.  
Austria, children, growth, height and weight standards, 171.  
goitre, control by iodised salt (man), 215.  
endemic, control by iodine (man), 940.  
Avidin concentrate, preparation from dried egg white, 806.  
Avitaminosis (see *Vitamin deficiency*)  
Azo compounds, prevention of tumours (see under *Cancer and Tumours*)  
BARABSI MOUL, for cows, 226.\*  
Bacilli, source of growth stimulants for poultry, 470.\*  
Bacitracin, effect on growth (chicken), 467.  
for chickens, effect of hormone treatment on differential sex response, 979.  
with aureomycin, for pigs, 967.  
Bacon, cureness, estimation of fat and lean content, 755.\*  
pigs, breeding, 458.  
quality, effect of roughage, 232.  
Bacteria (see also *Micro-organisms* and *specific bacteria*, e.g., *Lactobacillus casei*)  
as protein supplement for livestock, 221.  
effect of 2-deaminopteroylglytamic acid, 334.

## Bacteria

- growth, *in vitro*, inhibition by antibiotics, effect of vitamin B complex components, 75.
- nicotinamide desaturation, 326.
- physiology, introduction (book), 993.
- propionic acid forming, in rumen, feed-ingstuffs and soil, 175.
- rumen (see *Rumen micro-organisms*) with or without penicillin, effect on growth and caecal pH and flora (chicken and turkey poult), 237.
- Bacterium coli*
- as protein supplement for livestock, 221.
- growth factors, in ants, grasshoppers, millipedes, mushrooms and human blood, 95.
- growth *in vitro*, effect of *p*-aminobenzoic acid and its derivatives, 92.
- protein, effect on growth (chicken, rat), 221.
- response to vitamin B<sub>12</sub>, 95.
- Bajra (see *Millet, pearl*)
- Bakery products, role of glycerides, 514.\*
- Balaenoptera physalis* (see *Whale*)
- Baldness (see *Hair loss*)
- Bamboo shoots, hydrocyanic acid removal, 515.
- Barley, for fattening pigs, effect of fineness of grinding, 905.
- proteins, chloroplastic and cytoplasmic, amino-acids content, 309.
- composition, 209.
- Bantu (see under *Africa*)
- Basal metabolism (see *Energy exchange, basal*)
- Basew, total, estimation in blood, 749.
- Bask, ash content, in estimation of vitamin D, 786.
- Beau(s)
- carob (see *Carob bean*)
- cocoa (see *Cocoa bean*)
- cull, or lambs, 907.\*
- French, market in Palmira, 192.\*
- locust (see *Carob bean*)
- mung, protein, solubility, 51.
- Phaseolus acutifolius*, composition, 772.
- soya (see *Soya bean*)
- Beaver (*Castor fiber*), feeding habits, 232.
- Beef
- dehydration, effect of carcass quality, ageing, muscle and electrolysis pre-treatment, 513.
- nicotinic acid content, 555.
- precooked, frozen, losses, 763.\*
- preservation with antibiotics, 764.
- production (book), 483.
- quality, evaluation, 701.
- rate of dehydration and structural changes, effect of cooking, 40.
- rounds, effect of cooking time on palatability and cost of different grades, 514.\*
- Beer, estimation of yeast fermentable sugar, 272.\*
- Beet (see also *Sugar beet*)
- fodder, digestibility, 693.
- for cows, 451.\*
- for pigs, 246.
- review, 949.\*
- Beet leaf silage, for sheep, digestibility and effect of ascorbates, 692.
- losses, effect of method of making, 526.
- Bestle, carpet, *Attagenus piceus*, digestion of wool, excretory products, 180.\*
- flour, *Tribolium confusum*, carnitine requirement, 509.
- larvae, amino-acid requirements, 901.
- growth inhibitor in soya beans, 701.
- physiology of nutrition, 819.
- test organism for vitamin B complex components, 543.
- Tribolium castaneum*, food preferences, 644.\*

## Beetle

- Japanese, *Popillia japonica*, larvae, effect of starvation on blood composition, 409.
- Befri (*Indigofera glandulosa*) seed, composition and biological value, 849.
- Belgium, diet study, 186.
- dictyosis, teaching, 416.\*
- Bentonite, effect on fattening lambs, 961.\*
- production of nutritional deficiency and hepatomas (mouse), 631.
- Beriberi (see also *Polyneuritis*; *Vitamin B complex deficiency*; *Vitamin B<sub>1</sub> deficiency*)
- atypical neuropathy related to shoulder girdle syndrome, 660.
- curative action of vitamin B<sub>1</sub>, effect of excess folio or nicotinic acids (pigeon), 549.
- effect of rice enrichment programme on incidence, Philippines, 727.
- experimental, effect of isonicotinic acid hydrazide or *p*-aminosalicylic acid (pigeon), 551.
- heart failure, fluid and electrolyte balance during recovery, 660.
- initial signs, in Viet-Nam, 422.
- world problem to-day, 660.
- Beriberi heart, in alcoholics (man), 423.
- Bersem (*Trifolium alexandrinum*), composition and feeding value, 220, 522.
- Betaine, role in formation of labile methyl groups (chicken), 97.
- Betaine concentrate, effect on growth of chickens, 468.\*
- Beverages, phosphate and phosphoric acid content, health aspects, 57.\*
- Bicarbonate, estimation, in blood, 750.\*
- in body fluids, 281.
- excretion, in infants, premature, 382.\*
- Biocholesterinase, antirachitic effect, 729.\*
- Bifidus factor, a new vitamin-like substance, 107.\*
- Bile
- dehydrogenation of fats, relation to absorption (dog), 349.
- effect on vitamin K absorption from intestine (dog), 542.
- pigments, effect on vitamin A absorption and oxidation, 782.
- role in digestion of triglycerides, review, 580.\*
- role in fat absorption (rat), 114.
- salts, in diet, effect on blood cholesterol (rat), 613.
- Biochemistry, general (book), 483.\*
- practical methods (book), 993.\*
- recent advances (book), 250.\*
- Biological mixtures, separation by counter-current distribution, 271.
- Biotin deficiency
- effect of methylene blue (rat), 91.
- protection by oxidation-reduction compounds (rat), 806.
- protective action of ascorbic acid (rat), 332.
- Biotin, effect in starter rations, influence of season (turkey poult), 77.
- effect on ascorbic and dehydroascorbic acids in tissues of vitamin C-deficient guinea pigs, 892.
- effect on cholesterol esterase, *in vitro*, 561.
- effect on tumour production by dimethyl-aminoozobenzene (rat), 91.
- formation, in digestive tract (rat), 807.\*
- in intestine, effect of sulphascidine and terramycin, and deficiency of vitamin B complex components (rat), 332.
- in eggs, effect of storage (hen), 91.
- metabolic function, 332.\*
- oxy-, effect on tumour production by dimethylaminoozobenzene (rat), 91.

## Biotin

- requirement of rats, 332.
- role in carbohydrate metabolism of *Saccharomyces cerevisiae*, 807.\*
- Biotin antagonists, effect on growth of *Mycobacterium tuberculosis*, 91.
- in *Streptomyces cinnamonensis*, 807.
- Birds, desert pectos, water metabolism, 164.
- economic importance and nutrition, U.S.S.R., 719.
- insectivorous, nutrition of fledglings, 512.
- predatory, food supply, Turkmen, 933.
- Bixa orellana* (see *Achiote*)
- Blackberry, juice and wine, citric acid content, 532.\*
- Blackcurrant juice, vitamin C content, 824.
- Bleeding (see *Haemorrhage*)
- Blindness, night (see *Dark adaptation*)
- Bloat, and rumen motility, effect of forage extracts (cow), 830.\*
- historical survey, 246.\*
- in cattle, experimental production, 986.\*
- in cows and sheep, 721.\*
- relation to grazing behaviour, 479.\*
- 485.\* 721.\*
- Blood (see also *Haemoglobin*; *Anaemia*; for constituents such as Blood calcium, see *Calcium in blood*)
- albumin: globulin ratio, estimation in serum, 744.\*
- arterial gases and acid base balance in children, 352.
- catalase (see under *Catalase*)
- Blood, cell volume, estimation, 509.\*
- in splenectomised dog, comparison of methods, 288.\*
- measurements, validity in bled, splenectomised dog, 288.\*
- seasonal variations, India (goat, ram), 116.
- changes, after high fat meal or injections of large macrolous (hamster), 610.
- Blood, cholesterol (see *Cholesterol in blood*)
- cholesterinase (see under *Cholesterinase*)
- circulation, disease of liver, Jamaica (man), 919.\*
- diseases, thrombo-embolism and diet, 919.\*
- in dehydration and malnutrition (infant), 501.
- peripheral, effect of cold (dog, marmot, rabbit), 365.\*
- Blood coagulation (see also *Blood prothrombin*; *Thrombosis*)
- and  $\alpha$ -tocopherol (man), 198.
- effect of alfalfa meal in ration (poultry), 449.\*
- effect of blood lipids content (man), 145.
- effect of coenzyme and aldoimene (chicken), 393.
- effect of fat intake (man), 145.
- effect of fatty liver produced by cholesterol (guinea pig), 865.
- effect of vitamin E on bleeding time (rabbit), 541.
- in liver disorders, effect of vitamin K<sub>1</sub> and Synkavit, 431.\*
- time, effect of sulphaliquinoxaline, *p*-aminophenylarsonic acid or oxytetra-cycline (chicken), 790.
- Blood composition
- calves, from birth to one year, 830.\*
- changes during paresis and calving, effect of adrenocorticotrophic hormone (cow), 173.\* 830.\*
- domestic animals, Guatemala, 116.
- effect of ageing, 892.\*
- effect of carotene deficiency (cow), 66.\*
- effect of glucose or galactose, in health and diabetes (man), 131.
- effect of haem and globin intakes (rat), 603.

- Blood composition**  
effect of high environmental temperature (rat), 778.  
effect of minerals and phenothiazine (calf), 224.  
in infants, 584.\*  
newborn, 830.\*  
in old age, effect of calcium intake (man), 151.  
in pregnancy, effect of iron intake, Bantu, South Africa, 581.  
variations (woman), 910.  
relation to diabetic retinitis, 353.\*
- Blood disorders (see also Anaemia and other specific disorders)**  
*polycythaemia vera*, iron stores in bone marrow, 876.  
treatment with diet, 217.\*
- Blood fat (see also Blood lipids)**  
after feeding, effect of protamine (dog), 148.  
chylomicron count, after oleic acid absorption (dog), 609.  
in atherosclerosis, effect of heparin (man), 866.  
Blood fibrinogen, estimation, 274.
- Blood, flow, coronary, measurement (dog, man), 510.\***  
through liver, effect of lipotropic substances, 882.\*  
foetal, cord, hydrogen ion concentration at delivery (man), 163.
- Blood formation**  
and vitamin B<sub>12</sub>, 996.\*  
effect of cobalt (chicken), 877.  
(rat), 96.  
relation to digestive tract disorders, 217.\*
- Blood, gases, estimation, 287.\***  
growth factor for *Bacterium coli* (man), 95.
- Blood lactic acid (see under Lactic acid)**
- Blood lipase (see under Lipase)**
- Blood lipids (see also Blood fat)**  
after fat meal, relation to age (man), 145.  
effect of fasting (rat), 561.\*  
effect of fat source in synthetic milks (calf), 145.  
effect of inositol (man), 614.  
effect of tumours (rat), 168.  
effect on coagulation time (man), 145.  
fractions, in old age (man), 145.  
high, in diabetes, 597.\*  
in myxoedema (man), 124.  
relation to milk yield and fat content (cow), 174.  
staining of fractions, after paper electrophoresis, 274.
- Blood lipoproteins, disappearance after injection (rabbit), 860.**  
effect of malnutrition (man), 847.  
effect of methionine (man), 605.  
effect of thyroid extract (man), 866.  
electron microscope studies (man), 833.\*  
relation to adiposity, 370.\*
- Blood loss (see Haemorrhage)**
- Blood, nitrogenous constituents (man), 353.**
- Blood phosphatase (see under Phosphatase)**
- Blood picture**  
(rat), 116.\*  
after bleeding, effect of vitamin B<sub>12</sub> or folic acid (rabbit), 95.  
effect of age (sheep), 831.  
effect of bracken (ruminant), 106.  
effect of breed and environmental temperature (bull), 582.  
effect of combined deficiency of vitamin B<sub>12</sub> and E (rat), 803.  
effect of malnutrition, India, 254.\*  
effect of vitamin B complex deficiencies (rat), 74.  
effect of work, factorial analysis (man), 352.  
in cattle, India, 115.  
in green toad, during fasting, 643.  
in infants, newborn, India, 115.
- Blood picture**  
in muscular stiffness disease (guineapig), 898.  
in old age (man), 892.  
in pregnancy (woman), 830.  
in pregnant African women, 582.  
in students and nurses, India, 581.  
in young women, India, 581.
- Blood plasma**  
dehydroascorbic acid, 673.\*  
distribution of radio-active gold, 510.  
"extra", estimation (dog), 288.\*  
in haematocrit measurements, estimation, 509.  
lipids, diurnal variation, effect of diet (calf), 140.\*  
effect of age and of coronary artery disease (man), 379.  
separation by chromatography, 26.
- Blood plasma proteins**  
adsorption on cellulose, 744.  
equilibrium with extravascular plasma proteins (man), 354.  
formation in liver and other tissues (rat), 627.  
in adults, Malaya, 353.  
in cases of cervix (woman), 168.  
in carbohydrate dystrophy (infant), 117.  
in infants, effect of digestive disturbance, 831.  
in nephrosis (children), 583.
- Blood plasma volume**  
(cattle), 116.  
during labour and early puerperium (woman), 173.  
estimation, 36, 287, 288,\* 757.  
in normal women, Australia, 831.
- Blood pressure**  
effect of  $\alpha$ -tocopherol (rat), 787.  
effect of diet (dog), 605, 505.\*  
effect of protein and carbohydrate intakes (dog), 598.  
effect of salt given during dietary stress (dog), 618.  
effect of sodium chloride intake (rat), 874.  
effect of sodium chloride poisoning (rat), 619.  
effect of vitamin A, synthetic (man), 421.  
high, after kidney removal, effect of protein intake (dog), 601.  
and sleeplessness, treatment with vitamin A (man), 198.  
dietary treatment (man), 689.\*  
effect of potassium-deficient diets (man), 217.  
effect of potassium intake (rat), 618.  
effect of vitamin C, influence of calcium chloride (man), 294.  
essential, effect of potassium depletion (man), 156.\*  
treatment with sodium-low diet and exchange resins, 217.\*  
experimental, and pantothenic acid deficiency (dog), 90.  
effect of ascorbic acid before and after pituitary removal (rat), 105.  
incidence in vegetarian and non-vegetarian adults (man), 909.  
in pregnancy, relation to infant mortality, 196.  
physiology and treatment by diet, review, 942.\*  
salt metabolism (man), 618.  
treatment, review, 217.\*  
treatment during pregnancy (woman), 689.  
treatment with rice diet (man), 439, 943.  
effect on excretion of electrolytes (man), 943.  
treatment with sodium-low diets (man), 439,\* 942.  
low, in potassium deficiency, effect of hormones (rat), 588.\*
- Blood protein (see also Blood albumin; Blood globulin; and under Blood plasma; Blood serum)**  
effect of vitamin B complex deficiency in children, 200.  
in man (book), 725.  
in mothers of premature or full-term infants, 917.  
isolation and research, review, 117.\*  
precipitation by tungstic acid, 500.\*  
red cell, treatment of liver cirrhosis and nephrosis (man), 680.  
total and fractions, estimation, 273.
- Blood protoporphyrin, deficiency, treatment with vitamin K, effectiveness of preparations, 431.\***
- Blood, pyridine nucleotide, effect of diet (man), 834.\***  
pyruvic acid, effect of vitamin B<sub>12</sub> deprivation (rat), 322.
- Blood, red cell(s)**  
adenosine triphosphate content, glycolytic activity and size, effect of age and of maternal vitamin B<sub>12</sub> intake (rat), 565.  
basophilic, punctate, effect of vitamin B<sub>12</sub>, 428.\*  
carbohydrate and phosphorus metabolism, *in vitro* (man), 394.  
diameter, in health and malnutrition, 419.  
measurement, 757.\*  
formation of pyridine nucleotide from methionine and tryptophan, *in vitro*, 86.  
fragility, effect of diet (rat), 896.  
glucose utilisation and potassium and sodium exchanges (man), 165.\*  
haemoglobin formation, *in vitro* (rabbit), 336.  
in foetus, relation to oxygen content of cord blood (man), 115.\*  
iron uptake, *in vitro* (rabbit), 630.  
labelled with radio-active chromium, survival, 882.\*  
resistance to haemolysis, effect of folic acid and vitamin B<sub>12</sub> (dog), 439.  
total and inagglutinable (Ashby) count, technique, photographic, 36.  
transfused, survival in scurvy (man), 431.  
transport of cations and reversal of methuenoglobulin, 882.  
use as source of protein, parenteral (man), 680.
- Blood, red cell count, effect of exercise (cattle), 75.**
- Blood, red cell volume**  
(cattle), 116.  
and plasma volume, simultaneous estimation (man), 287.
- Blood serum albumin**  
disappearance from circulation in oedema (horse), 584.\*  
relation to calcium (chicken), 354.\*
- Blood serum, analyses, laboratory differences in results, 778.**  
chromatography, 741.\*  
combining power with vitamin B<sub>12</sub> (nutriment), 599.  
composition (horse), 353.  
cytotoxic, in treatment of dystrophic children of tubercular mothers, 430.  
electrophoretic study (cattle), 583.\*  
(dog), 354.\*
- Blood serum globulin, and antibody titre, effect of colostrum (calf), 175.**
- Blood serum iron, effect of vitamin PP before and after splenectomy (dog), 327.**
- Blood serum, iron-binding capacity (children, infants), 585.\***  
in adults and infants (man), 119.  
measurement with radio-active iron (man), 768.

- Blood serum lipids, in adults, Central America, 834.\*  
in normal and alloxan diabetic rats, 834.\*
- Blood serum lipoproteins, effect of weight reduction and energy intake (man), 118.  
electron microscope studies (man), 833.\*  
in arteriosclerosis, 118, 832, 919.
- Blood serum, nitrogenous constituents, effect of age (horse), 117.\*
- Blood serum phospholipids, and rheumatic fever (man), 656.  
relation to each other and to cholesterol, in health and diabetes, 119.\*
- Blood serum, power to clarify chyle, effect of fat absorption (rat), 867.
- Blood serum protein (cattle, horse), 863.  
after partial liver removal, effect of liver parenchyma factor (rat), 820.  
and vitamin values, in Guatemala, and parasitological findings (man), 833.\*  
association with carotene, 923.\*  
composition (man), 833.\*  
(turkey), 354.\*  
effect of choline deficiency (rat), 370.  
effect of egg production or oestrogen on composition and phosphorus distribution (poultry), 120.  
effect of exercise, 833.\*  
effect of lipids (rat), 583.  
effect of oestrogens in immature pullets, 744.  
effect of pasture, ruminant meal and sex (chicken), 307.  
electrophoretic patterns (several animals), 117.  
electrophoretic study (infant), 117.  
(amphibian, mouse, opossum, rat), 118.  
(poultry), 583.  
estimation, 275,\* 832.  
by paper electrophoretograms, 22, 744.  
formation (dog), 850.  
and function in transport, radio-active study, 138.\*  
effect of blood loss (rat), 608.  
fractionation, 274, 503.  
fractions, relation to calcium, protein-bound (man, rabbit), 152.  
transport of phosphatides, 354.\*  
in Africans, 832.  
in Central America and Panama (man), 833.\*  
in chicken embryo, ultracentrifugal studies, 354.\*  
in children with Cooley's anaemia, 831.  
in choline deficiency, effects of age and sex (rat), 583.  
in infants, newborn, African, 831.  
West Indies, 582.  
premature, effect of casein and calcium or protein hydrolysate, 182.  
effect of protein intake, 582.  
in kwashiorkor (infant), 353.  
in liver disorders (man), 921.  
in malnutrition, in Africans, 847.  
in nephrotic syndrome (man), 600.  
in pregnancy, working class women, Venezuela, 583.  
in snakes and turtles, 643.  
in subjects normal and pathological, Guatemala, 833.  
in surgical patients, 583.\*  
in vitamin D poisoning (children), 433.  
isolation and research, review, 117.\*  
pathological, composition, 833.\*  
relation to calcium (man, mouse, rat), 152.  
relation to vitamin B<sub>12</sub> and materials with intrinsic factor activity, 931.\*  
seasonal variation, West Africa (man), 352.  
turnover (rat), 832.
- Blood serum, ultrafiltration studies on calcium and phosphorus (man), 355.  
ultraviolet absorption curves (man), 353.  
vitamin and protein content, effect of pasture, ruminant meal, and sex (chicken), 307.  
vitamin and protein values in Guatemala, and parasitological findings (man), 833.\*
- Blood sugar (see also *Carbohydrate metabolism*; *Diabetes*; *Insulin*)  
and rumen development (calf), 907.\*  
arteriovenous difference, in obese diabetic (man), 597.\*  
changes after sugar administration by vein, effect of vitamin B<sub>12</sub> (man), 198.  
effect of amount and source of protein intake (woman), 129.  
effect of carbohydrates administered into abomasum (calf), 132.\*  
effect of dihydroxycholesterol (cow), 315.  
effect of fasting and re-feeding (poultry), 397.  
effect of growth hormone, in obesity (mouse), 611.  
effect of haemorrhagic shock in pregnancy (woman), 597.  
effect of nicotinamide (rabbit), 86.  
effect of nicotinic acid (man), 199.  
nicotinamide or adrenaline when injected (rabbit), 327.  
effect of pantothenic acid, influence of altitude (man), 664.  
effect of pyridoxine (rabbit), 557.  
effect on glucose absorption from the intestine, isolated, *in situ* (guinea-pig), 590.  
estimation, 272,\* 742, 742.\*  
galactose, high, and cataract production (man), 687.  
in children with abnormal metabolism of lactose, 687.  
in infants and children, 180.\*  
high, and high blood fat in diabetes, 597.\*  
effect on glucose absorption (guinea-pig), 596.  
pancreas factor, 130.\*  
in foetal and newborn mammals, distribution in cells and serum, 844.  
in fowls, 598.  
in infants, newborn, of diabetic mothers, 365,\* 597.  
premature, 120.  
in mothers of premature or full-term infants, 917.  
in ruminants, effect of ketosis, 846.\*  
relation to rumen contractions (sheep), 829.  
low, after insulin, review, 436.\*  
produced by insulin in diabetic patients, 683.\*  
polysaccharides, in premature labour (woman), 889.  
precursor of lactose in mammary gland (goat), 367.\*  
relation to hunger, review, 117.\*  
relation to rumen movements (sheep), 350.  
response to adrenaline, in infants, newborn, 365.  
tolerance, compatible hyperglycaemia during treatment of diabetes, 212.  
effect of antibiotics (rat), 792.  
effect of diphosphothiamine (rabbit), 81.  
in infants, dystrophic, 597.  
tolerance test, double, in kidney disorders (man), 845.  
in normal and fat children, 844.\*  
effect of stress and cortisone (man), 124.  
in peptic ulcer (man), 130.  
intravenous, 130.
- Blood, uric acid, normal and in gout, 439.
- Blood vessels, disorders, and nutrition, 193.  
geographical pathology in relation to salt intake, 873.
- Blood volume (cattle), 116.  
(man), 115.  
apparatus for continuous recording of dye concentration in arterial blood, 509.\*  
changes in epidemic dropsy (man), 880.  
effect of altitude (man), 351.  
estimation, 36, 287, 288,\* 509, 757.  
effect of circulatory state, 681.\*  
effect of distribution of cells and plasma in splenectomised dogs, 288.\*  
in anaemia produced by molybdenum (rabbit), 624.  
in Eskimo adults, 839.  
in mammals, 831.  
in normal women, Australia, 831.  
in pregnancy (woman), 172.  
in workers exposed to heat, 352.  
variations at high altitude, 581.\*
- Blood, white cells  
ascorbic acid content, effect of ascorbic acid intake, low, after saturation or partial depletion (man), 931.\*  
count, effect of vitamin B<sub>6</sub> deficiency (rat), 802.  
eosinophil count, effect of fasting and refeeding on diets high in carbohydrate or protein (dog), 896.\*  
effect of protein and tyrosine (man), 600.  
effect of vitamin B<sub>6</sub> deficiency and inanition (rat), 556.  
response to stress, effect of vitamin B<sub>6</sub> deficiency (rat), 329.  
white cell count, effect of work (man), 115.
- Blowfly, pupal metamorphosis, energy exchange and enzyme activity, 180.
- Blown (see *Blot*)
- Body composition (cow), 47.  
body fat in adults, review (man), 121.\*  
effect of aureomycin and vitamin B<sub>12</sub>, sex difference (mouse), 100.  
effect of tumours (rat), 168.  
estimation and clinical application (man), 357.  
in adult man, 121.

- detection of margarine as adulterant, 508.
- keeping quality, effect of feeding linseed cake (cow), 703.
- storage, effect on fishness, 291.\*

## Butter

- storage, effect on quality and vitamin A content, India, 785.  
tocopherol content and keeping quality, effect of tocopherol intake, 819.  
vitamin A, effect of storage, India, 785.  
effect of storage temperature, 308.  
vitamin D, India, 538.  
Butter and margarine, competition in America (U.S.), 478.\*  
Butter dyes, annatto, pigments, 57.\*  
Buttercrumbs, in grass silage for cows, 946.  
Butterfat (see also *Milk fat*)  
  buffalo, nutritive value of fractions (rat), 858.  
  composition, effect of low-roughage, high-concentrate ration, 253.\*  
  effect of diet (cow), 227.\*  
  effect of feeding linseed cake (cow), 703.  
  effect of feeding thyroprotein (buffalo), 954.\*  
  fatty acids, 295.  
  for calves, comparison with vegetable oils, 222.\*  
  from cows fed on DDT, effect on rats, 179.  
  globules, size distribution, effect of stage of lactation, 617.  
  lauric acid, isolation and characterisation, 27.  
  oxidation, thiobarbituric acid test, 28.\*  
  percentage in milk, lactation differences, 227.\*  
  peroxide value, estimation in dry and fluid milk, 26.\*  
  production, effect of oxylochin (monozygous twin cow), 954.  
  effect of plane of nutrition (monozygous twin cow), 449.  
  effect of superphosphate top-dressing, 453.\*  
  goat, effect of high-fat ration, 486.\*  
  quality, effect of low- and high-fat concentrates, 451.  
  trans-octadecenoic acid content, 295.  
  vitamin A content, 67.  
Buttermilk, as antioxidant for margarine, 39.  
  density, estimation, 754.  
  Butter yellow (see *Azo compounds*)  
  Butyric acid, estimation in cheese, 279.  
  Buznard (*Butes buteo*), feeding habits, 243.

## CABBAGE

- antithyroid substances, production of goitre, 940.\*  
goitrogenic effect (man), 216.\*  
  comparison with that produced by sulphur compounds (rabbit, rat), 685.  
  treatment of cirrhosis and nephritis, 218.\*  
Cacao (see *Cocoa*)  
Caecum (see under *Intestine, large*)  
Caesium, metabolism (farm animals, rat), 162.\*  
Caffeine, estimation in coffee, 29.\*  
*Cajanus cajan* (see *Pigeon pea*)  
Calciferol (see *Vitamin D*)  
Calcification, bone (see under *Bone*)  
  teeth (see under *Teeth*)  
Calcinosis, in cotton rats, effect of diet and age, 871.  
Calcium absorption  
  by rectum, 534.\*  
  effect of calcium depletion (rat), 153.  
  Calcium, availability, effect of oxalic acid, influence of protein, 729.\*  
  from Indian vegetables, effect of rice (rat), 383.  
Calcium balance (see *Calcium metabolism*; *Calcium retention*)  
Calcium, complex with adenosinetriphosphate, in *in vitro*, 108.  
  deficiency, of hepato-digestive origin, 690.\*

## Calcium

- deposition in shell (oyster), 181.  
effect on growth on purified diet of varying fat and protein content, 874.\*  
  effect of intravenous injection (cattle), 382, 868.  
  endogenous, faecal, estimation, 30.  
Calcium estimation, 750.\*  
  in biological materials, 30, 281, 750.\*  
  in blood, 30, 31, 281, 284.\* 506, 507, 750.  
  in milk, 31, 281, 508.  
  in plant material, 31.  
  in urine, 30, 281, 284.  
Calcium, excretion, faecal, radio-active study (cattle), 152.  
  fertilisation of lespedeza hay and wheat, effect on nitrogen digestibility (rabbit), 219.  
  in blood, buffaloes grazing suspected deficiency areas, Malaysia, 486.\*  
  children and adults, Bantu, South Africa, 584.  
  effect of calcium by rectum, 834.\*  
  effect of calcium chloride and vitamin D<sub>3</sub> relation to age and *arcus senilis* (man), 206.  
  effect of dihydrocholesterol (cow), 315.  
  effect of parathyroid hormone, influence of blood phosphorus (dog), 590.  
  Europeans and Africans, West Africa, 355.  
  low, skin changes, 690.  
  relation to serum albumin (chicken), 354.\*  
  in bone, exchangeable, *in vitro* (rabbit), 869.  
  in dried milk, alfalfa and amaranth, availability for rats, 153.  
  in herbs, availability (rat), 154.  
  in insect haemolymph, relation to diet, 180.  
  in leafy vegetables, 301.  
  in milk, secretion, radio-active study, 153.\*  
  in pig carcases, 771.  
  in rice, effect of parboiling method, 485.\*  
Calcium intake  
  effect on bone growth (rat), 154.  
  effect on nitrogen and mineral metabolism and blood composition in old age (man), 151.  
  effect on serum alkaline phosphatase (rat), 110.  
  effect on skeleton during pregnancy and lactation (ewe), 870.\*  
  low, in prevention of milk fever (cow), 988.  
  with fluorine, production of *osteitis fibrosa cystica* (rat, 870.\*  
Calcium metabolism  
  after gastrectomy (man), 868.\*  
  cows on different forages, 702.  
  during lactation, effect of diet (rat), 635.  
  effect of calcium citrate (rat), 154.  
  effect of calcium compounds in intestine (rabbit), 869.  
  effect of cortisone, 691.  
  effect of fat intake (woman), 383.  
  effect of fatty acids, volatile (rat), 869.  
  effect of low calcium intake (laying hen), 870.  
  effect of methyliouracil (ram), 64.  
  effect of parathyroid extract (sheep), 837.  
  in adults, 720.\*  
  in bones and teeth, 153.\*  
  in cattle, seasonal variation, 870.\*  
  in dairy cows, 702.  
  in dogs, 153.  
  in endocrine disorders, test, 37.\*  
  in frog and toad, effect of vitamin D<sub>3</sub>, 70.  
  in steatorrhea, 933.  
  physiology, review, 151.\*

- Calcium, migration in bone (cat, dog), 623.  
  milk and human diet (book), 991.  
  protein-bound, and ionic, in blood (man, mouse, rat), 152.  
  in blood, relation to protein fractions (man, rabbit), 152.  
  radio-active, absorption from intestine, 869.\*  
  distribution in long bones (rabbit), 616.  
  study of bone mineralisation, 383.\*  
  uptake in tibia, measurement (chicken), 288.  
  use in metabolism experiments, 728.\*  
  requirement of turkey poults, 460.  
  retention, effect of vitamin D in old age (man), 432.  
  effect of water intake (rat), 883.  
  role of vitamin D (rat), 69.  
  true digestibility, estimation in feeds, 759.\*  
  turnover by skeleton, effect of sex hormones (poultry), 155.  
  uptake by bone particles, *in vitro*, 630.  
  uptake by chicken, 461.\*  
Calcium utilisation  
  and requirement of cattle, effect of age, 616.  
  by poultry, isotope study, 254.\*  
  effect of magnesium, 729.\*  
  effect of vitamin B<sub>12</sub> and antibiotics, 729.\*  
Calcium and phosphorus  
  balance, effect of folliculin (rat), 127.  
  deficiency, and toxicity of pulses (rat), 898.  
  in blood, effect of calciferol (man), 675.  
  in pregnancy, with albuminuria (woman), 400.  
  with helminth infestation (woman), 534.  
  with pre-eclamptic toxemia (woman), 584.\*  
  ultrafiltration studies (man), 355.  
Calcium and phosphorus metabolism  
  during lactation, Sahiwal cows, 870.  
  effect of parathyroid (rat), 590.  
  in old age (man), 151.  
  in teeth (dog), 382.  
  in tuberculosis (woman), 616.  
Calcium and phosphorus ratio, in diet, relation to retention (woman), 151.  
Calcium and phosphorus retention, effect of pregnancy (rat), 173.  
  on poor rice diet, effect of topioca (man), 599.  
Calcium and phosphorus uptake, in healing fractures and bone transplants (dog, rat), 154.  
Calcium oxalate, effect on man, 720.\*  
Calcium pantothenate, effect in starter rations, influence of season (turkey poults), 77.  
  in low-protein ration, effect on growth (weanling pig), 90.  
Calcium salts, fortification of bread, 729.\*  
Calculi, biliary, effect on blood lipase, 827.  
  silica, in sheep, 996.\*  
  urinary, in lambs receiving stilboestrol, 960.  
  in milk, prevention with ammonium chloride, 986.  
  in sheep, produced by high-phosphorus ration, 986.  
  in steers, composition, 356.  
  new concept of etiology and possible prevention by hyaluronidase, 721.  
Calorie requirement (see *Energy requirement*)  
Calorie value (see *Energy value*)  
Calves (see also *Cattle*; *Cows*)  
  auromycin given parenterally, mode of action, 950.\*  
  auromycin supplement as growth stimulant, 700.

- Calves  
 beef, birth and weaning weights, 399.  
 energy requirements, equation, 698.  
 birthweight, effect of "steaming up" of cow before parturition, 440.  
 Egyptian, causes of variation, 222.\*  
 blood composition and growth, effect of minerals and phenothiazine, 224.  
 blood composition from birth to one year, 830.\*  
 blood plasma lipids, diurnal variation, effect of diet, 146.\*  
 dairy, replacements, reducing raising costs, 984.\*  
 digestion and nitrogen retention, effect of rumen inoculations and ratio of hay to grain, 223.\*  
 disorders, broken poisoning, experimental, 724.  
 dyspepsia due to vitamin deficiency, treatment with sintonycin, 819.  
 dystrophy, effect of tocopherol before and after birth, 318.  
 produced by unsaturated acids of conditivorol, effect of anti-oxidants, 318.  
 goitre, treatment with iodised salt, Switzerland, 481.  
 hyperkeratosis, caused by maize infected with *Aspergillus clavatus*, 482.  
 effect of vitamin A and an unknown factor, 65.\* 532.  
 from consumption of pellets contaminated with chlorinated naphthalenes, 888.  
 produced by oil-based insecticide carriers, 632.  
 muscle dystrophy, treatment with  $\alpha$ -tocopherol, 789.  
 muscular disease, relation to diet, 539.\*  
 salt deficiency, U.S.S.R., 987.  
 scouring, biochemistry and physiology, 479.  
 tetary, on milk diet, 247.\*  
 white muscle disease, caused by coconut meal, 71.  
 effect of fat-free diets in early life, 859.  
 effect on heart and respiration of calcium, potassium and magnesium given by vein, 898.  
 fat deficiency, 859.  
 Calves feeding  
 acidified skimmed milk, 951.  
 alfalfa or prairie hay with or without aureomycin, 224.\*  
 aureomycin, 224, 228.\* 254.\*  
 butterfat or vegetable oils, 222.\*  
 cod liver oil supplement, 314.  
 colostrum, nutritive value, 64.  
 effect of antibiotics, detergent and frequency of milk replacement feeding, 223.\*  
 filled milk, containing butyrate, 149, 950.  
 use of different fats, 222.\*  
 grass, 728.\*  
 iodinated casein, effect on growth and feed utilisation, 698.  
 maize, ground, infected with *Aspergillus clavatus*, toxicity, 482.  
 milk, chromatographed, 222.\*  
 of differing fat content, 951.  
 milk replacements, dried whey, skimmed milk and fat, 222.\*  
 replacement formulae containing soya bean flour and whey solubles, 949.  
 roughage : concentrate ratio, 223.  
 semi-synthetic milk diet, production of magnesium deficiency, 222.\*  
 soya bean meal, special processed, 222.\*  
 surface-active agents, 223.\*  
 terramycin, effect on growth, vitamin B synthesis and digestion of cellulose by rumen contents, *in vitro*, 792.
- Calves, gossypol poisoning, effect of breed, 248.\*  
 growth, effect of age and milk yield of cow, 950.  
 effect of antibiotics, 224.\* 446.  
 effect of aureomycin and housing, 950.  
 effect of birthweight and sex, 223.  
 effect of iodinated casein, 698.  
 effect of plane of nutrition and heredity, monozygous twin study, 222.  
 effect of sex hormones, 952.\*  
 effect of time to weaning, 447.

 Year Book 1952-53, 483.\*  
 Cancer (see also *Tumours*)  
 carcinoma cells, accumulation of amino acids, *in vitro*, effect of pyridoxal, 88.  
 cervix, plasma protein reserve (woman), 168.
- Cancer  
 effect of 8-azaguanine, with or without flavotin (mouse), 325.  
 mammary, effect of food intake, restricted (mouse), 169.  
 produced by cobalt (rat), 884.  
 production by cottonseed oil products when injected (mouse), 630.  
 statistical review, U.K., 1949, 727.\*  
 treatment with vitamins A and C (man), 924.  
 vitamin B<sub>12</sub> in tumour and host tissues (mouse), 330.  
 with proximal motor neuropathy, effect of vitamin B complex, 604.  
 Cancer-producing substances  
 azo dye, riboflavin activity for *Neurospora crassa*, 799.\*  
 butter yellow, effect of vitamin A deficiency on nucleic acid changes (rat), 66.\*  
 Canned foods (see *Food*, canned and under specific kinds, e.g., *Pens*)  
 Cannulation of portal vein (dog), 287.  
 Capillary effect of salt intake (man), 873.  
 Capillary fragility, in hypertension, effect of vitamin C, influence of calcium chloride (man), 204.  
 produced by maize diet or puff adder venom, effect of ultraviolet irradiation and vitamin D (rat), 315.  
 tests in vascular disease, 432.\*  
 Capillary permeability, effect of fats and fatty acids (rat), 146.  
 effect of vitamin C in blood (guinea-pig, man), 204.  
 Capillary resistance, and solar irradiation changes, 432.\*  
 effect of fasting and refeeding on high-carbohydrate or high-protein diet (dog), 899.\*  
 in infants, newborn, 677.  
 in late pregnancy, labour and early puerperium (woman), 477.  
 measurement, 432.\*  
 Caponisation, effect on carcass quality, surgical and chemical methods compared, 979.  
 table poultry, 979.  
 3-Carboxymethylidene hydrides, vitamin activity, 85.\* 326.\*  
 Carbohydrate(s) (see also *Sugars* and specific kinds, e.g., *Glucose*)  
 and related compounds, paper chromatography in presence of boric acid, 498.\*  
 and phosphoric esters, estimation, 21.\*  
 by vein, effect on ketosis in diabetic patients, 682.  
 chemistry, advances (book), 725.\*  
 review, 129.\*  
 detection on paper chromatograms, spray reagent, 742.  
 effect on blood pressure and heart rate (dog), 598.  
 effect on nitrogen metabolism (hullook), 847.\*  
 effect on nitrogen reserves (man), 847.\*  
 estimation, 272.\*  
 in biological material, 499.  
 in grass, breakdown during wilting and ensiling, 304.  
 in Italian rye grass, 523.\*  
 in subterranean clover, 996.\*  
 in synthetic milk diet for baby pigs, 710.  
 intake, high, effect on teeth (rat), 897.  
 formation of ketone bodies (rat), 846.\*  
 low, contra-indication in diabetes with hepatitis, 681.  
 protection of carotet (rat), 133.\*  
 quality and quantity, effect on cellulose digestion (sheep), 219.

- Carbohydrate(s)**  
metabolism (see also *Blood sugar*; *Glycogen*)  
citric acid cycle, review, 365.\*  
disturbance, and ketogenesis in ascorbic acid deficiency (guinea pig), 822.\*  
effect of cold (rat), 367.\*  
effect of injury, 597.\*  
effect of riboflavin and its monophosphate ester (man), 663.  
effect of stress and cortisone (man), 124  
effect of vitamin B<sub>12</sub> (rat), 596.  
effect of vitamin K (rabbit, rat), 541.  
effect of xanthuronic acid on glycogen content of tissues (rat), 804.  
hormonal factors (book), 993.\*  
in ascorbic acid deficiency (guinea pig), 573.  
in blood red cells, *in vitro* (man), 394.  
in fatigue, effect of co-carboxylase and vitamin B<sub>12</sub> (guinea pig), 548.  
in heart, *in vivo* (man), 130.\* 393.  
(dog), 598.  
in liver slices, effect of fasting and hormone deficiencies (rat), 395.  
in mammary gland homogenates, 167.\*  
in marsupial, 846.\* 847.\*  
in perfused liver (cat), 627.  
in pregnant ewes, 996.\*  
in rumen epithelium (sheep), 167.  
in *Saccharomyces cerevisiae*, role of biotin, 807.\*  
intermediary, 996.\*  
kidney slices, effect of alloxan diabetes and insulin (rat), 833.\*  
review, 120.\*  
role of somatotrophin (sheep), 907.\*  
role of zinc, review, 391.  
when administered into abomasum (calf), 132.\*  
oxidation, alternative routes, 129.\*  
paper chromatograms, photographic recording, spraying reagent, 488.  
protein-bound, estimation, effect of tryptophan, 742.  
protein-sparing (dog, man), 600.  
source, effect on growth, intestinal flora and vitamin B<sub>12</sub> synthesis (rat), 338.  
effect on nitrogen metabolism (rat), 372, 601.  
utilisation, by ruminants, 219.\*  
effect of low-protein, high-fat diet (rat), 146.  
water-soluble, effect on incidence of ovaries (hamster), 642.  
**Carbon**, single unit, metabolism, effect of vitamin B<sub>12</sub> complex components, 74.\*  
**Carbonate**, radio-active, excretion and tissue distribution (rat), 164.  
utilisation, by sea-urchin embryos, 409.  
**Carbonic anhydride**, in bone salts, 836.\*  
**Carcase composition** (see under the specific animal, e.g., *Pig*)  
**Carcase grading**, objective tests (cattle), 700.  
**Carcase quality**, lambs, effect of castration method, 709.  
pigs, effect of antibiotics or trace element supplements, 967.  
effect of restricted feeding, 964.  
**Carotene** (see under *Cancer*)  
**Carotinochrome** (see *Carotene*)  
**Cardiovascular system and dietary choline** (rat), 881.\*  
*Carotx* silage, 444.\*  
**Caribbean area**, poisonous plants and animal diseases, 989.\*  
**Caries**, dental (see under *Tooth*)  
**Carmitine** (see *Vitamin B<sub>12</sub>*)  
**Carob bean meal**, as fodder, 946.\*  
treatment of diarrhoea, in adults, 213.  
in infants, 213.\*  
**Carob germ meal**, composition and digestibility (sheep), 442.
- Carotene** (see also *Carotenoids*; *Vitamin A*)  
and blood serum proteins, association, 923.\*  
and colourless polyenes, relation between physical properties and structure, 60.\*  
conversion to vitamin A, effect of alloxan diabetes (rat), 63.  
effect of parasites (sheep), 312.  
in intestine, 62, 728.\*  
site (rat), 312.\*  
deficiency, effect on blood composition (cow), 86.\*  
effect on life pattern (young rat), 254.\*  
dietary, and liver reserves of carotene and vitamin A, importance for reproduction and lactation (cow), 784.\*  
effect on ascorbic acid oxidation in presence of copper, 102.  
estimation, 307.\*  
in alfalfa meal, 308.  
extraction from vegetable tissues, 780.  
for cows, supplement to pasture, effect on carotene and vitamin A in blood, 784.  
from water hyacinth, stability in vegetable oils, effect of temperature, ultraviolet light and anti-oxidants, 300.  
in blood, effect of carotene supplement to pasture (cow), 784.  
effect of exercise (man), 421.  
effect of parturition (cow), 67.\*  
high, review, 198.\*  
in skin disorders, 658, 923.  
in carrots, effect of fermentation, drying and storage, 314.  
in ghee, stability, 533.  
in green feeds, production of rickets (rat), 315.  
in groundnut oil, effect of anti-oxidant during heat treatment, 309.  
in hydrogenated groundnut oil, effect of sesame oil during storage, 309.  
in leaves of vegetables, India, 314.  
in margarine, effect of storage temperature, 309.  
in milk, effect of hay and silage (cow), 532.  
in oil solutions and in alfalfa, as source of vitamin A (cow), 784.\*  
in orchard grass, heritable variation, 68.  
in vegetables and fruits, Nanking, 68.  
intake, effect on esterification of vitamin A in blood and milk (cow), 631.  
labelled, metabolism (rat), 781.  
loss from alfalfa, 310.  
metabolism, anti-oxidant studies (rat), 782.\*  
role of proteins, 64.\*  
oxidase (see under *Oxidase*)  
oxidation by lipoxidase in presence of linoleate, effect of hydrogen ion concentration, 539.  
placental and mammary transfer (cow), 67.  
rachiogenic factor in green feed, 435.\*  
stability in mixed feeds, 533.  
utilisation, after intravenous injection (cattle, sheep), 784.\*  
by dairy cows, 530.  
by sheep, effect of level in diet, pelleted or unpelleted feed and admixture of fat, 486.\*  
effect of Chinese foods (rat), 312.  
effect of proteins (rat), 311.  
effect of  $\alpha$ -tocopherol (rat), 63.  
effect of vitamin B<sub>12</sub> (rat), 63.  
 **$\beta$ -Carotene**, absorption, effect of solvent, 782.\*  
action of boron trifluoride etherate, 60.\*  
conversion to vitamin A, site (rat), 530.  
estimation, in plant materials, 529.  
from echinone (rat), 529.
- $\beta$ -Carotene**  
in maize, effect of variety and altitude, Guatemala, 533.  
in red palm oil, Venezuela, 534.  
stereoisomeric conversion, *neo*- $\beta$ -carotene B as product, 60.\*  
*cis*- $\beta$ -Carotene C, biological activity 780.  
 **$\gamma$ -Carotene**, 308.  
**Carotenoids** (see also *Carotene*)  
estimation, in plant materials, 529.  
in yellow maize meal, comparison of chemical and biological methods, 60.  
in blood, effect of carotene in feeds or by injection (horse), 66.  
effect of pasture, ramie meal, and sex (chicken), 307.  
liver and ovaries (cow, ewe, frog, rat), 66.  
in echinone carapace, 780.\*  
in marine invertebrates, 61, 728.\*  
in milk, effect of alfalfa, dried pelleted (cow), 955.  
effect of form of alfalfa in feeds (cow), 784.  
in plankton organism, 61.  
in tissues, effect of dietary carotenoids (chicken), 66.  
in tomato, formation, effect of light, 785.  
in yellow maize, as source of vitamin A for sows, 784.\*  
in yellow maize meal, 60.  
leaf, estimation, 308.\*  
liver, effect on visual purple regeneration (amphibian), 781.  
partition, by paper chromatography, 780.  
retention from dried forages, achiole seeds and palm oil (rat), 782.  
Carp, protein digestion, 644.  
Carrot(s), carotene content, effect of fermentation and drying, 314.  
Carrot meal, treatment of dyspepsia and enteritis in infants, 213.  
Cartilage, malleable, presence of phosphate ester (rat), 335.  
calcification, *in vitro*, effect of glucose or glycogen, 397.  
chondroitin sulphuric acid, sulphate exchange, effect of cortisone (cattle, rat), 397.  
*in vitro* (cattle), 397.  
localisation of sulphate sulphur (rat), 878.  
sulphate uptake (rat), 946.  
sulphur uptake, in foetal rat, 390.  
*Carya cordiformis* (see *Hickory*)  
**Casein**  
and non-casein proteins, distribution between skimmed milk, buttermilk and butter serum from same whole milk, 45.\*  
constitution and structure, recent work, 518.\*  
dephosphorylation, by phospho-protein phosphatase and phosphomonoesterase, 111.  
digestion by sheep, 850.  
heated, with or without glucose, effect on amino-acids, 763.  
hydrolysate (see under *Protein hydrolysate*)  
iodinated (see under *Iodinated protein*)  
liberation of lysine, effect of conditions of hydrolysis, 746.  
nitrogen retention, effect of methionine supplement (dog), 847.\*  
source of protein for chickens, amino-acid deficiencies, 971.  
structure and constitution, 293.\*  
with lard distillate, vitamin A activity (rat), 64.  
with or without alfalfa juice and aureomycin, effect on growth (chicken), 466.  
Cassava flour, amino-acids, 301.

- Castor fiber* (see *Beaver*)  
 Oestrification, effect of methods on carcass quality (lamb), 709.  
 effect on carcase production and fluorine storage (rat), 874.  
 Cat, nutritive requirements, 714.  
 vitamin A deficiency, 783.\*  
 Catalase, in blood, effect of vitamin B<sub>12</sub> and infection (rabbit), 82.\*  
 in liver, effect of hormones, protein intake or cancer (rat), 109.  
 in riboflavin deficiency (mouse), 553.\*  
 Cataract (see under *Eye disorders*)  
 Cathartin, in duodenal mucosa (cat, cattle, dog, pig), 826.  
 in stomach, 826.  
 Cations, effect on cholesterol formation by liver, *in vitro* (rat), 396.\*  
 estimation in tissues, 29.  
 transport, by red blood cells, 882.  
 Cattle (see also *Buffaloes*; *Cabres*; *Cows*; *Heifers*; *Livestock*; *Ruminants*)  
 activity and metabolism when housed loose (dairy cows), 543.  
 Cattle, beef  
 carcass characteristics, effect of hormones, 951.  
 carcass composition in relation to specific gravity and creatinine excretion, 770.  
 carcass grade, prediction from body measurements, 953.  
 carcass yield, estimation, 782.\*  
 crossbred types for Gulf Coast, U.S., 954.\*  
 digestibility and dry matter consumption of feeds, 997.\*  
 dressing percentage and wholesale cuts, relation to linear measurements, 700.  
 fattening, effect of stilboestrol, 954.\*  
 on maximum amount of pasture and minimum of grain, 997.\*  
 supplements to maize silage, 954.\*  
 Sweden, 953.  
 Cattle, beef, feeding  
 alfalfa silage or pasture, 699.  
 alfalfa with barley, Sudan hay or molasses, 952.  
 ammoniated products or urea, 950.  
 aureomycin supplements for growing and fattening, 700.  
 Australia, 952.  
 effect of antibiotics on feed digestion with bacteriological data, 950.\*  
 grass silage, 448.  
 hay and pasture, Holsteins, 953.  
 hay of poor quality with different supplements, 447.  
 joy-john (*Leucaemum rugosum*), composition, digestibility and nutritive value, 220.  
 maize silage, effect of different supplements, 448.  
 pasture, 447.  
 effect of intensity of grazing on weight gains, America (U.S.), 453.  
 salt as regulator of protein intake, 486.\*  
 silage, 452.  
 sour veld pasture, effect of spring resting on weight gain, South Africa, 445.  
 sucrose, effect on weight gain and carcass quality, 443.  
 supplements to Florida pastures, 698.  
 urea, 693, 950.  
 winter, supplements to veld hay, South Africa, 952.  
 wood molasses, 959.\*  
 Cattle, beef, growth  
 and carcass characteristics, effect of sex hormone implants, 951.\*  
 and fattening, effect of sex hormones, 699.  
 and feed efficiency, effect of hormones, 951.  
 Cattle, beef, growth  
 and feed utilization, effect of aureomycin, 950.\*  
 effects of heredity and environment on adaptability to different feeding conditions, 698.  
 relation to grade, 952.  
 relation to serum protein bound iodine, 834.\*  
 Cattle, beef, wintering and outwintering, 953.  
 measurements, relation to wholesale cuts and dressing percentage, 700.  
 metabolism stall, 769.  
 nitrogen metabolism, effect of cereals, 847.\*  
 nutritive requirements, 447.\*  
 pasture intake and digestibility, 945.\*  
 pasturing and selling alfalfa, 954.\*  
 prices, recent trends in U.S., 984.  
 production, Australia, 224.\* 984.  
 repeatability of birth and weaning weights, 399.  
 subtropical territory, climatological research, 449.  
 U.K., 474.  
 rearing, Australia, 224.  
 on range in winter, America (U.S.), 448.  
 urea utilisation, effect of different carbohydrate feeds, 947.  
 effect of minerals in diet, 951.\*  
 weight gain, effect of testosterone, 360.  
 blood, plasma and red cell volumes, 116.  
 red cell count and vitamins B<sub>12</sub> and B<sub>2</sub> content, effect of exercise, 75.  
 blood electrolytes, interrelation, 382.  
 blood picture, bulls, effect of breed and environmental temperature, 682.  
 India, 116.  
 blood serum proteins, 682.  
 body composition and quality, effect of age and level of nutrition, 997.\*  
 body temperature, respiration and pulse rates, effect of sun, shading and sprinkling, Egypt, 595.  
 Cattle, breeding  
 effect of level of nutrition on fertility of dairy bulls, 228, 485.\*  
 fructose in semen, relation to fertility, 391.  
 growth and reproductive development of bulls, effect of digestible nutrient intake, 453.  
 progeny testing, Denmark, 701.  
 semen production, effect of animal protein in ration, 705.  
 Cattle, calcium requirement, effect of age, 616.  
 carcass composition, effect of methionine, 447.  
 cobalt deficiency, America (U.S.), 247.  
 copper deficiency, New Zealand, 987.\*  
 suspected, Fiji, 247.\*  
 dairy, feeding, "marcitis" pasture, Italy, 704.  
 dairy and pea silage, 955.  
 Holstein steers for beef production, 953.  
 profitability, 984.  
 self-efficiency on the farm, 718.\*  
 dairy and dual-purpose, effect of iodinated casein and L-thyroxine on performance, 450.  
 Cattle disorders  
 blood, experimental, 988.\*  
 blood copper, low, Republic of Ireland, 721.  
 bracken poisoning, pathology, 723.  
 America (U.S.), 479.  
 hyperkalemia, relation to nutrition and rumen micro-organisms, 733.\*  
 hypomagnesaemia and grass tetany, relation to ammonium sulphate fertiliser, 728.\*  
 Cattle disorders  
 in Caribbean area, 989.\*  
 ketosis, rumen digestion, 175.\*  
 leucosis, role of mineral deficiency, 987.  
 metabolic and liver, treatment with methionine, 246.  
 phalaris staggers, 248.\*  
 Cattle, dry matter intake, measurement by indicators, 442.  
 experiments with monozygous twins, 290.\*  
 fattening, South Africa, 224.\*  
 Cattle feeding  
 alfalfa silage, effect on rumen micro-organisms, 175.\*  
 aureomycin, effect on rumen micro-organisms, 176.  
 coffee pulp, 956.\*  
 conserved fodder, 701.\*  
 cottonseed cake supplement to beet feed, 953.  
 defluorinated phosphate, availability of phosphorus, 951.\*  
 fahsai and wheaten meal, 700.\*  
 grass, preserved and fresh, 449.  
 hay, grass and legumes, buoyancy of rumen content, 830.\*  
 maize cake, composition and digestibility, India, 692.  
 methylthiourea, effect on carcass composition, 447.  
 molasses, with or without urea, 951.  
 pasture, costs, U.K., 245.  
 peavine silage, 997.\*  
 problems, Netherlands, 226.\*  
 roughage or grain diets, effect on rumen micro-organisms, 175.\*  
 silage, self-fed, 452.  
 standards, development, 954.\*  
 substitutes for forage, 694.  
 sugar beet tops, 997.\*  
 urea, 947.  
 winter nutritional depression, effect on growth, reproduction and production, South Africa, 699.  
 Cattle, food problem in Assam, 221.\*  
 grazing, selection of herbage, 699.  
 grazing habits, 445.\*  
 growth, relation to serum alkaline phosphatase, 827.\*  
 heat regulation, effect of humidity on evaporation and surface temperature, 843.  
 relative efficiency in different breeds, 842.  
 heat tolerance, and respiratory activity, 363.  
 effect of humidity at high temperatures, in Jersey, Holstein, Brahman and Brown Swiss, 364.  
 European and Indian breeds, 363.  
 Holstein and Red Sindhi-Holstein heifers, 127.\*  
 reaction to direct sunlight, Egypt, 843.  
 hydrogen ion concentration of rumen, effect of ash content of lucerne, 829.  
 improvement, effect of plane of nutrition, 485.\*  
 industry, recent results and use, processing and preservation of animal products, 984.\*  
 liveweight and carcass weight, production from heart girth, 700.  
 losses, U.K., 245.  
 manganese deficiency, Netherlands 480.  
 metabolism, effect of stress, 364.  
 mineral requirements, 254.\*  
 mobile weighing machine, 511.  
 monozygous twins, effect of adding trace minerals to rations, 951.\*  
 variation and fertility, 450.\*  
 nitrogen, calcium and phosphorus metabolism, seasonal variation, 870.\*  
 organs, amino-acid content, 770.

- Cattle  
phosphorus-deficient, feeding behaviour, 948.  
phosphorus in saliva and rumen, effect of phosphorus deficiency, 153.
- Cattle poisoning  
by nitrate, relation to use of ammonium nitrate as fertiliser, 248.\*  
molybdenum, Canada, 248.  
Cattle, problem in Chile, 224.\*  
rango, growth, 949.\*  
rearing, Swaziland, 449.
- Cattle, rumen (see under *Rumen*)  
swat glands, function, 364.  
urinary calculi, composition, 356.  
vitamin A metabolism, effect of phosphorus deficiency, 784.  
vitamin B<sub>12</sub> in blood, 669.  
vitamin D supplements, Australia, 537  
wintering costs, U.K., 477.  
Zebu, grazing habits, 956.  
zinc content of liver, 588.
- Celery tops, dehydrated, for chickens, 716.  
Cellulase, in gut of termites, 902.
- Cell(s) (see also *Tissue*)  
protein metabolism, *in vitro*, 166.\*  
Cell division, effect of folic acid antagonists, influence of nitrofurantoin factor (man, mouse), 909.  
Cellulose, in gut of termites, 902.  
Cellulose (see also *Fibre*; *Roughage*)  
biological transformations, 365.\*  
breakdown in rotting-rumen, effect of different concentrations, 728.\*  
digestion, by cows, effect of salt, 219.  
by rumen micro-organisms, effect of fat and diethylstilboestrol (sheep), 830.\*  
*in vitro*, 830.\*  
effect of fish or whale solubles, 638.  
nutritional requirements, *in vitro*, 806.\*  
stimulation by B vitamins, 793.\*  
effect of quality and quantity of carbohydrate and protein (sheep), 218.  
effect of terramycin (calf), 792.  
in artificial rumen, effect of aureomycin and grass juice concentrate, 830.\*  
stimulation by unidentified substance (lamb), 197.  
osmiation, 272.  
for pigs, effect on growth and feed utilisation, 711.  
in coarse fodder, digestion, role of rumen, 350.\*  
wood, for pigs, 232.
- Central nervous system (see under *Nervous system*)  
Cephalin (see also *Phospholipins*)  
estimation in egg powders, 278.
- Cereal(s) (see also under specific cereals, e.g., *Maize*)  
calcium, magnesium and phosphorus, solubility, effect of increasing acidity, 773.  
composition, effect of soil zone, Canada, 50.\*  
consumption, India, 903.  
exports by source and destination, 1952-1953, FAO report, 484.\*  
fat, digestibility (man), 375.  
fluorine content, U.S.S.R., 298.  
forage, production, effect of grazing management, 948.\*  
for turkey poult, singly or together, effect on growth, 460.\*  
fumigation with methyl bromide, effect on vitamin B complex components, 321.  
lipase, cause of off-flavours in baked products, 900.  
nicotinic acid distribution, 253.\*  
phosphatide-splitting enzyme, 775.\*
- Cereal(s)  
phytase activity, effect of time, temperature, pH and calcium carbonate, 773.  
protein degradation by use of buffer solutions, 729.\*  
pure-bred, nutritive value, 253.\*  
replacement in diets of children, India, 906.  
value for dairy heifers, 729.\*  
vitamin B<sub>12</sub> content, 253.\*  
yield, effect of fertilisers, Gold Coast, 948.
- Cereal by-products (see under specific products, e.g., *Bran*)  
Cereal crops, production and trade, 243.\*  
Cerebrosides, brain, fatty acids, unsaturated, content, 122.\*  
Cerebrospinal fluid, glutamine, glutamic acid and  $\gamma$ -aminobutyric acid content (man), 356.  
lipoproteins, electrophoretic study 356.\*  
pressure, effect of vitamin A deficiency (pig), 783.  
Cerium, effect on glucose absorption from intestine, 343.\*
- Ceylon  
cereals, fruits and vegetables, riboflavin content, 324.  
children, disorders, 418.  
goitre, endemic, in children, 941.  
Chapati, scalded sweet potato flour and groundnut flour with wheat, 765.  
Charcoal, minerals, availability for pigs, 150.

Jamaican seed meal, 236.  
lupin seed meal, 971.  
maize and soya bean meal ration, effect of vitamin B<sub>12</sub> from different sources, iodinated casein, vitamin B<sub>12</sub>, antibiotics and fishmeal, 971.  
maize of high and low protein content, 603.  
mangrove seed kernel, 236.  
meat scrap ration with antibiotics, vitamins and other supplements, 238.  
methionine, 236.  
methionine hydroxy analogue, with or without fishmeal or whey, 973.  
molasses and bagasse pith, 975.  
Nitrofurazone, 713.  
penicillin, effect on feed consumption and faecal flora, 717.  
effect of housing on administration of clostridia, 975.  
phosphate supplements, availability, 617.  
protein utilisation, effect of penicillin, 239.  
sesame seed meal, deficiencies, 236.  
soya bean meal, effect of heat and moisture, 238.  
soya bean oil, 469.  
starter and broiler rations, effect of methionine, 462.  
terramycin with vitamin B<sub>12</sub>, 236.  
thiouracil, 240.\*  
tryptophan-deficient ration, effect of soya bean growth inhibitor, 716.  
whole solubles, condensed, 235.  
wheat, effect of methionine, 236.
- Chicken(s), formation of choline, methionine and serine, 855.\*
- Chicken(s), growth  
and feed consumption, effect of energy intake, 970.  
effect of antibiotics and fibre intakes, 970.  
and feed efficiency, effect of heat, 461.  
and pigment factor requirement, 464.\*  
and rate of maturing, effect of 3-nitro-4-hydroxy phenylarsonic acid, 970.  
as criterion of response, design of experiments, 997.\*  
bones, measurements, 399.  
caecal pH and flora, effect of bacteria with or without penicillin, 237.  
development, effect of characters, effect of vitamin T, 825.  
effect of alfalfa juice, aureomycin and casein together or separately, 466.  
effect of animal protein, terramycin, sex and housing, 979.  
effect of antibiotics, 238, 979, 977.  
breed differences, 463.  
mechanism, 717.

- Chicken(s), growth  
effect of an arsenical, 468.  
effect of aureomycin and housing, 464.  
effect of aureomycin with different types of diet, 465.  
effect of bacitracin, 467.  
effect of *Bact. coli* protein with or without fish solubles, 231.  
effect of bacteria with or without lactose and penicillin, 217.  
effect of betaine concentrate, 468.\*  
effect of cobalt, 877.\*  
effect of cottonseed meals, differently processed, with or without lysine or protein supplements, 462.  
effect of detergents, 468.\*  
effect of detergents and antibiotics, 970.  
effect of egg size, 235.\*  
effect of egg yolk, fat and fish solubles, 971.\*  
effect of histamine, 463.\*  
effect of lactose, 971.\*  
effect of lactose or galactose, 133.  
effect of L-lyxoflavin, 85.  
effect of methionine and its hydroxy analogue, 855.\*  
effect of DL-methionine, with ratios of different protein content, 461.  
with or without vitamin B<sub>12</sub> and penicillin, 462.  
effect of methyl testosterone, 468.  
effect of nitrogen with or without aureomycin, 466.  
effect of ovine acid, 975.\*  
effect of penicillin, 465, 467.  
effect of selenium, arsenicals and vitamin B<sub>12</sub>, 339.\*  
effect of source of growth factors supplied to hen, 473.\*  
effect of sulphacinoxaline, 237.  
effect of surface-active agents, 977, 979.  
experiments, value of paired individual comparisons, 289.  
feed consumption and feed utilisation, effect of alfalfa saponin, 488,\* 980.  
feed utilisation and average grade, effect of beak removal, 980.  
inhibition by linseed meal, effect of vitamin B<sub>12</sub> and aureomycin, 804.  
on deep litter, 718.  
on high quality diet, effect of antibiotics, 979.  
on rations containing unidentified growth factors, effect of maternal diet, 974.\*  
on rations of different levels of vitamin D and phosphorus, effect of penicillin, 786.  
stimulators and inhibitors in forage and forage juice concentrate, 240.\*  
vitamin B<sub>12</sub> with terramycin as substitute for animal protein, 467.  
Chicken(s), growth factor(s)  
effect of experimental variables on response, 464.\*  
in fatty acid concentrates and vegetable oils, 240.  
in fish solubles and dried whey, 464.\*  
response, effect of season and carbohydrate source, 464.\*  
unidentified, in animal products and in fermentation by-products, 974.  
unsaturated fats as source, 464.\*  
Chicken(s), iodine retention, 388.\*  
nicotinic acid requirement, 327.\*  
phosphorus requirement, effect of energy content of ration, 460.  
phosphorus utilisation, phytate and inorganic, 870.\*  
poisoning with trichloroethylene-extracted soya bean meal, effect on immunity of survivors, 248.  
proteins and vitamins in blood, effect of pasture, rattle meal and sex, 307.  
rearing, effect of deep litter, 470.
- Chicken(s)  
requirements for vitamin B complex components, 77.  
resistance to *Acaridia galli*, effect of aureomycin and vitamin B<sub>12</sub>, 817.  
retention of amino-acids, 372.  
retention of vitamin B<sub>12</sub>, 486.\*

 malformation of embryo, review, 892.\*  
 Venezuela (man), 657.  
 Dehydration (see also *Water metabolism*)  
 chronic, source of error in estimation of body fat by skinfold measurement, 758.\*  
 in infants, relation of circulation and kidney function, 591.  
 treatment, 683.  
 of foods (see *Drying*; *Food*, *dried*; and under specific foods, e.g., *Egg*)  
 Dehydroascorbic acid (see *Ascorbic acid*, *dehydro*)\*  
 7-Dehydrocholesterol (see *Vitamin D<sub>2</sub> precursors*)  
 Dehydrogenases, in mammary gland, changes during pregnancy and lactation (rat), 576.  
 succinate, in liver, inhibition by selenium (rat), 169.\*  
 7-Dehydrosterol (see *Sterol*, *7-dehydro*)-  
 Denmark  
 children, body measurements, weight and height relation, 900.  
 infants, prematurity, growth and development, 884.\*  
 milk, for children and infants, arrangement of distribution, 914.\*  
 pig experiments at state-recognised breeding centres, 234.\*  
 progeny testing with bulls, 701.  
 Dental caries (see under *Teeth*)  
 Denture (see under *Teeth*)  
 Deoxycoorticosterone (see under *Adrenal cortex hormone*)  
 Deoxyriboflavin (see *Pyridoxine, deoxy*)-  
 Deoxyribonucleic acid (see under *Nucleic acid*)  
 Dermatitides (see under *Skin disorders*)  
 Detergents, effect on growth (chick), 488.\*  
 (rat), 968.  
 for calves, 232.\*  
 Dextran, effect on antibody production (rabbit), 638.  
 estimation in body fluids, 499.  
 transfer to digestive tract when given by vein (dog, man), 625.  
 Dextrin, as carbohydrate in synthetic milk for baby pigs, 710.  
 from maize, effect on nitrogen metabolism (rat), 601.  
 Dextrose (see *Glucose*)  
 Diabetes (see also *Insulin*)  
 acidosis, fructose utilisation when given by vein (man), 396.\*  
 and cardiovascular-renal disease (man), 212.  
 and nutrition, 212.\*  
 ascorbic acid in blood, effect of insulin (man), 205.  
 blood cholesterol and phospholipids, effect of fat, vegetable, (man), 148.  
 lecture report, 119.\*  
 blood composition, effect of glucose or galactose (man), 131.  
 body measurements of infants born of mothers subsequently diabetic, 938.  
 change in incidence during wartime, Greece, 682.  
 coma, magnesium in blood (man), 355.  
 treatment with potassium, 938.\*  
 compatible hyperglycaemia during treatment, 212.  
 diet prophylaxis, 682.\*  
 diketogluconic acid in blood, 431.  
 due to dehydroascorbic acid, prevention by atropine, 342.\*  
 effect of Glucagon, 212.\*  
 experimental, acidosis, effects of fructose and glucose, 131.\*  
 alloxan, ascorbic acid in blood (rabbit) 106

## Diabetes

- experimental, alloxan, blood serum lipids (rat), 834.\*  
 effect of fatty acids in diet (rat), 378.  
 effect of glucose or fructose diets (rat), 845.  
 effect of riboflavin (rabbit), 84.  
 effect on conversion of carotene to vitamin A (rat), 63.  
 effect on glucose or fructose utilisation by liver slices (rat), 628.  
 effect on vitamin A production from carotene by intestine, *in vitro* (rat), 63.  
 relation between glucose excretion, food intake and bodyweight (rat), 846.  
 fructose metabolism in liver (man), 131.\*  
 fructose tolerance, 938.  
 glucose and fructose utilisation by liver slices (rat), 165.\*  
 glucose tolerance test, blood sugar and pyruvic acid changes (man), 369.  
 glucose-1-phosphate in blood (man), 598.\*  
 glucuronic acid excretion, 132.\*  
 hyperglycaemia and hyperlipaemia, 697.\*  
 hypoglycaemia, after insulin, review, 439.\*  
 survey of cases (man), 683.\*  
 in children, 212.\*  
 treatment in summer camps, 436.  
 in father, relation to birthweight of infant, 631.\*  
 in mother, and blood sugar of infants, newborn, 365.\* 597.  
 care of children, 682.  
 morphological study of foetuses, 682.  
 relation to foetal abnormalities 173.\*  
 in obesity, arteriovenous glucose difference (man), 597.\*  
 in pregnancy, detection (woman), 633.  
 insulin resistance, effect of potassium (man), 386.\*  
 ketosis, effect of added carbohydrate (man), 682.  
 treatment with fructose, 682.  
 neuropathy (man), 683.\*  
 polycythaemia, treatment with vitamin B<sub>12</sub>, 671.  
 produced by glucose and dehydroascorbic acid when given together (rat), 106.  
 produced by glucose or pituitary, anterior, growth hormone, in cystine deprivation (rat), 141.  
 produced by pituitary, anterior, growth hormone (dog), 126.  
 produced by riboflavin, massive doses (rat), 84.  
 produced by xanthurenic acid (rat), 89.  
 retinopathy, vitamin B<sub>12</sub> excretion, 429.  
 role of zinc, review, 391.  
 survey, America (U.S.), 682.\*  
 treatment, 212.\*  
 (man), 938.\*  
 insulin-zinc suspensions, 683.\*  
 with diet, effect on insulin sensitivity, 212.\*  
 uric acid in blood, 143.  
 with hepatitis, treatment, contra-indication of diet low in carbohydrate, 681.  
 with or without insulin, effect on acetoacetic conversion to fatty acids by liver slices (rat), 395.  
 xanthurenic acid in urine, 426.\*  
 Diacetyl, estimation, 279.  
 Diaphragm, metabolism, *in vitro*, effect of heat adaptation *in vivo* (rat), 626.\*  
 Diarrhoea (see under *Digestive tract disorders*)  
 Diastase (see *Amylase*)

- Diathesis, exudative, in chicken, effect of  $\alpha$ -tocopherol, 71.  
 Dicarboxylic acids, C<sub>6</sub>, effect on corticosteroid formation in adrenal homologates (pig), 629.  
 separation and estimation, 278.  
 Diamine, racemic, as methyl group donor (rat), 570.  
 Di-Diamine, effect on growth and survival of mealworm larvae, 569.  
 Dicoumarol (see also *Blood prothrombin*)  
 treatment during lactation (woman), 207.  
 Diet (see also *Food*; *School meals*)  
 acid and basic, with or without hormones, adrenal, effect on lymphatic tissue and spleen (cat, guinea pig), 879.  
 and disease (see *Diet treatment* and under the specific disease, e.g., *Diabetes*) and growth (see under *Growth*)  
 and immunity (see under *Immunity*; *Infection*)  
 and performance, 362.\*  
 and reproduction (see under *Reproduction*)  
 and resistance to disease (livestock), 482.  
 Chinese, foods affecting carotene utilisation (rat), 312.  
 deficient (see *Malnutrition*; *underfeeding*; and under the specific item deficient, e.g., *Vitamin C*)  
 Indian, poor rice, effect of protein and amino-acid supplements (rat), 596.\*  
 effect of tapioca supplement (child-ran), 647.  
 effect of tapioca supplement on nitrogen, calcium and phosphorus retention (man), 699.  
 supplemented with ghee, effect on composition of liver fat (rat), 579.  
 poor vegetarian, value of tuber flours (rat), 642.  
 in mental institutions, 420.  
 in pregnancy (see under *Pregnancy*)  
 isocaloric, utilisation, effect of differing protein, fat and carbohydrate contents, 729.\*  
 liquid, 415.\*  
 protective function in old age, review, 637.\*  
 protein-rich, planning, 436.  
 recommended nutrient allowances (man), 645, 646.\*  
 relation to infectious disease, 58.  
 restricted (see *Food intake, restricted*; *Underfeeding*)  
 Scotland, eighteenth century (book), 900.  
 Diet planning, a low-cost, high-protein, low-calorie food, 653.  
 fat intake, restricted, 938.\*  
 for hospitals, 415.  
 India (book), 991.  
 menus to meet average requirements, Netherlands, 188.  
 sodium-low diets, 681.\*  
 U.K., "human needs" diet, 913.  
 Diet selection (see *Food selection*)  
 Diet studies  
 America (U.S.), 413, 414, 907, 910.  
 children, 186.  
 children with rheumatic fever, 906.  
 old people, 910.  
 pregnant women, 649.  
 southern farming areas, 486.\*  
 women, 909.  
 Belgium, 186.  
 cadets in training, 907.  
 children with diabetes, 938.  
 Czechoslovakia, children, 935.  
 El Salvador, 912.  
 Finland, lumberjacks, 187.

## Diet studies

- food intake, accuracy of estimation by subjects, 648.  
 France, 187, 648, 911.  
 bibliography and methods, 412.\*  
 Guatemala, 912.  
 India, children, 649.  
 consumption of cereals, 903.  
 nurses, 188.  
 young women, 581.  
 Italy, children and women, 186.  
 Japan, 729.\*  
 Netherlands 1951, 416.  
 fishermen, 187.  
 Peru, 414, 661.  
 Serbia, children, 412.  
 Spain, and incidence of heart disease, 909.  
 technique, 647.  
 analysed and calculated values for nutrients, 729.\*  
 instruction manual, Venezuela, 189.  
 U.K., 908.  
 industrial workers, food intake, relation to nutritional state and energy expenditure, 907.  
 Venezuela, 651.  
 children, 650.  
 Diet studies with clinical observations  
 America (U.S.), 413, 414.  
 children, 916.\*  
 pregnant women, 910.  
 and infants, 649.  
 vegetarians and non-vegetarians, 909.  
 India, 418, 658.  
 depressed classes, 414.  
 Jamaica, 650.  
 Netherlands, children, 186, 412.\*

 Nigeria, 420.  
 schoolgirls, 913.  
 Nova Scotia, children, 645.  
 obese children, 417.  
 Philippines, 727.  
 Diet supplements (see *Food supplements*;  
*Vitamin supplements*)  
 Diet treatment  
 acute illness, 436.\*  
 after burns, 438.\*  
 arteriosclerosis, conference report, 217.\*  
 blood pressure, high, and heart failure, rice diets, 943.  
 review, 942.\*  
 cataract in children, galactose-free diet, 218.  
 coeliac disease in children, 939.  
 constipation, 214.\*  
 dehydration in infants, 683.  
 diabetes, effect on insulin sensitivity, 212.\*  
 diarrhoea, in adults, with carob bean meal, 213.  
 in children, 437.  
 review, 939.\*  
 dyspepsia and enteritis in children, 213.  
 dystrophy, muscular, 943.  
 emaciation, constitutional, 217.\*  
 gastric acidity, alkaline caramels, 213.  
 gout, 218.\*  
 hepatitis, acute and chronic, review, 440.\*  
 hypertension, during pregnancy (woman), 689.  
 rice diet (man), 439.  
 effect on excretion of electrolytes (man), 943.  
 sodium-low diet, 942.  
 hypertonus (man), 681.\*  
 infertility (man), 890.  
 kidney disorders (man), 217.  
 kwashiorkor, with plant proteins, 667.  
 liver cirrhosis, control of ascites (man), 689.  
 liver disorders, experimental (man), 439.\*  
 nutritive failure, children, 654.\*

## Diet treatment

- obesity (man), 440.  
 (woman), 218.  
 in pregnancy (woman), 690.\*  
 metabolic studies (woman), 362.  
 unrestricted energy intake, 440.\*  
 oedema, sodium-low diet (man), 689.  
 plethoric disease, 217.\*  
 postcibal signs in patients with partial gastrectomy, 639.  
 review, 937.\*  
 skin disorders in children, 441.  
 stomach disorders, 212.\*  
 ulcer, and production of scurvy, 931.\*  
 gastro-duodenal, 213.  
 peptic (man), 213.\*  
 effect of rest and drugs, 683.  
 treatment with alkali, production of kidney disorders, 684.  
 Diabetics, for nurses, handbook, 250.  
 teaching, Belgium, 416.  
 Brazil, 416.\*  
 Netherlands, 416.\*  
 Switzerland, 416.\*  
 Dietitians, profession, U.K., 416.\*  
 Digestibility, coefficients, estimation and calculation, 760.  
 effect of aureomycin in ration (pig), 945.  
 effect of rate of intake and feed regimen, 996.\*  
 feedingstuffs (see under specific feeding-stuffs)  
 Digestibility trials, direct and indicator methods compared (hen), 511.  
 indicators, 38, 644.  
 (sheep), 760.  
 plant pigments as a marker, 38.\*  
 sodium copper chlorophyllins as indicator, 761.\*  
 technique (livestock), 944.  
 chromium oxide as indicator (rat), 760.  
 with poultry, indicator method, 692.  
 Digestion  
 effect of Mann-Williamson operation (dog), 350.  
 effect of prolonged sleep (rat), 113.  
 in herbivora, domestic, review, 830.\*  
 in hypothyroidism produced by methyl-chloroacetyl (rat), 350.\*  
 microbiology (farm animals), 403.\*  
 studies, miniature artificial rumen, 894.  
 Digestive tract (see also specific organs, e.g., *Stomach*)  
 absorption of amino-acids, localisation (rat), 113.  
 absorption of iron (man), 875.\*  
 acid proteases, 576.  
 activity, method of studying in Bactrian camel, 510.  
 antibiotic levels (chicken), 407.\*  
 bacterial flora (pig), 728.\*  
 cation exchange in presence of resins (man), 620.  
 Digestive tract disorders (see also *Coeliac disease*; *Sprue*; *Steatorrhoea*; *Ulcer*)  
 acid indigestion caused by mangolds (sheep), 985.  
 amino-acid utilisation, 437.\*  
 ascorbic acid in blood and stomach secretion, 931.\*  
 chronic, riboflavin metabolism (man), 663.  
 constipation, chronic, old age, effect of pantothenic acid alcohol, 926.  
 treatment, 214.\*  
 diarrhoea, in adults, treatment with carob bean meal, 213.  
 in children, 437.  
 treatment with diet, 437.  
 in infants, treatment with carob bean flour, 213.  
 in sheep on beet leaf silage, effect of ascorbates, 692.  
 review, 939.\*  
 treatment with rye bread, 437.

## Digestive tract disorders

- diarrhoea with dehydration, incidence, Israel, 194.  
 dysentery, nicotinic acid metabolism (man), 661.  
 dyspepsia, and enteritis, in infants, treatment with carob meal, 213.  
 enteritis, effect of antibiotics and vitamin B<sub>12</sub> (rabbit), 486.\*  
 enterotoxaemia, effect of sulphur (lamb), 229.  
 gastro-enteritis, in infants, 683.\*  
 resistance during breast feeding, 938.  
 production of calcium deficiency, 690.\*  
 relation to haemopoiesis, 217.\*  
 scouring in calves, biochemistry and physiology, 479.  
 sprue, 437.\*  
 surgical operations, feeding of patients, review, 681.  
 symposium, 685.\*  
 toxicosis and dystrophy, in infants, blood plasma proteins, 631.  
 tumours (see under *Tumours*)  
 ulcer, duodenal, treatment with Piromen, 684.  
 gastro-duodenal, treatment with diet (man), 213.  
 peptic, 212.\*  
 in children, 212.\*  
 treatment, review, 213.\*  
 ulcerative colitis, appraisal of immunogen (man), 936.  
 Digestive tract, function, effect of emulsifying agents (man), 685.  
 hydrogen ion concentration, in teleost fish, 408.\*  
 micro-organisms, and fermentations, 828.\*  
 role in herbivores, review, 403.\*  
 starch content (sheep), 829.  
 passage of alfalfa hay, effect of water intake (cow), 219.  
 passage of starch (sheep), 829.  
 rate of passage of food (rat), 828.  
 small intestine, X-ray studies with different diets (infant), 827.  
 Dihydrocholesterol, effect on cholesterol in blood, and production of arteriosclerosis (rabbit), 381.  
 effect on cholesterol and steroid content of liver (mouse), 866.  
 Dihydrochalcylsterol, effect on blood calcium, inorganic phosphate and sugar (cow), 315.  
 treatment of renal osteoporosis, with amino-aciduria (child), 676.  
 treatment of renal rickets, refractory to vitamins D<sub>2</sub> and D<sub>3</sub> (children), 933.  
 treatment of rickets resistant to vitamin D, with calcification of kidney (child), 932.  
 Dihydroxyacetone esters, role in fat absorption (rat), 114.  
 Di-iodotyrosine (see *Thyroxine*)  
 Diminorolene, toxicity, effect of diet (rat), 643.  
 Dipoptidos, hydrolysis, estimation, 745.  
 Diphtheria, paralysis, treatment with vitamin B<sub>12</sub> (guinea-pig, man), 657.  
 Diplococcus pneumoniae, growth, *in vitro*, effect of p-aminobenzoic acid derivatives, 62.  
 Distiller's dried solids, for pigs, 456.  
 Distiller's feeds, for cows, 451.  
 Diuresis (see under *Water*)  
 Dog(s)  
 blood serum, electrophoretic study, 354.\*  
 calcium metabolism, 153.  
 cholesterol metabolism, 804.\* 865.  
 effect of pituitary, anterior, growth hormone, 126.  
 feeding, parental, effects of fat deprivation, 375.

- Dog(s)  
 fetus, time and order of appearance of skeletal elements, 907.\*  
 hair growth, valeric acid, 356.\*  
 milk, iodinated protein, 518.  
 vitamin B<sub>1</sub> utilisation and excretion, 796.
- Dough (see under *Wheat flour*)
- Dried egg, milk, vegetables (see *Egg, dried; Milk, dried*)
- Drinking water (see *Water, drinking*)
- Dropsy, epidemic, body fluid changes (man), 880.
- Indin (man), 937.\*  
 role of toxic oil (man), 679.\*
- Drought, feeding of sheep, 900.\*
- Drugs, nicotinic acid and vitamin B<sub>1</sub> content, 794.
- Drying (see also specific foods, e.g., *Milk, dried*)  
 freeze-, human milk, effect on composition and antibacterial properties, 30.  
 meat, effect on chemical and histological characteristics, 47.\*
- Dry matter, consumption by grazing animals, estimation, 38.
- Duck(s)  
 liver fat, effect of diet, 612.  
 Pekin, egg production, 473.  
 meat production, 470.
- Ducklings, growth factor, in maize starch, 240.  
 magnesium deficiency, 385.
- Ductless glands (see *Endocrine glands and specific glands, e.g., Thyroid*)
- Duodenal ulcer (see under *Ulcer*)
- Duodenum (see under *Intestine, small*)
- Dupuytren's contracture, effect of a-tocopherol after operation, 600.
- Dyspepsia (see under *Digestive tract disorders*)
- Dystrophy, in infants of tubercular mothers, treatment with amino-acids, cytotoxic serum or vitamin B<sub>12</sub>, 430.  
 in prisoners of war after return, 194, 658.  
 infants, electrophoretic analysis of muscular (see under *Muscle disorders*)
- EAGLE (*Aquila pomarina*), feeding habits, 243.
- Ear, auditory function, effect of nicotinic acid on disturbances due to noise (man), 425.
- Earthquakes (see *Groundquakes*)
- Earthworm, regeneration, effect of nutrition and temperature, 181.
- East Africa (see under *Africa*)
- Echinoderm, carapace, carotenoids, 780.\*
- Echinonem, source of  $\beta$ -carotene (rat), 520.
- Ecuador, foods, vegetable, composition, production and uses, 50.
- Eczema (see under *Skin disorders*)
- Eel, eel (*Geniparus maculatus*), composition, 48.
- Egg : nutrition refer to hen eggs unless otherwise stated.  
 accumulation of phosphorus compounds, 617.  
 amino-acids, losses during storage, 291.\*  
 arsenic content, effect of arsenic acid in ration, 46, 473.\*  
 biotin, effect of storage, 91.  
 blood spot incidence, relation to vitamin B<sub>12</sub> intake, 314.\*  
 citric acid content (different birds), 46.  
 coagulability, effect of incubation, 82.  
 consumption and preferences, America (U.S.), 478.  
 duck, composition, 473.  
 omelet, effect on protein digestion, 670.
- Egg, fertility, and hatchability, different breeds and crosses (geese), 981.  
 effect of artificial light, 892.
- Egg hatchability  
 and size, effect of molasses, 241.  
 and vitamin B<sub>12</sub> content, effect of vitamin B<sub>12</sub> given by mouth or injection, 101.  
 effect of antibiotics, with or without vitamin B<sub>12</sub>, 472.  
 effect of aureomycin with vitamin B<sub>12</sub>, 241.  
 effect of factor in liver (turkey), 473.\*  
 effect of fish solubles, 242.  
 effect of low-phosphorus rations, 471.\*  
 effect of shape, weight, specific gravity and incubation weight loss (turkey), 473.\*  
 effect of vitamin B<sub>12</sub> intake, 817.  
 variation, 240.
- Egg, in diet, and rheumatic fever (man), 656.  
 incubated, phosphorus, radio-active, distribution, 165.\*  
 nicotinic and pantothenic acids content, effect of intake by hen, 77.  
 preservation, effect of method on physical, chemical and cooking qualities, 41.  
 protein content, effect of storage, 296.
- Egg quality  
 effect of aureomycin, 472.  
 effect of ration and production level, 473.\*
- Egg, riboflavin, nicotinic acid and pantothenic acid contents, 321.  
 riboflavin deficiency, genetic, 800.  
 specific gravity, 770.\*  
 sulphur, protein-bound, distribution, 770.  
 sulphur content, effect of injected methionine, 854.  
 vitamin B<sub>12</sub>, deposition, 486.\*  
 egg albumin (see *Egg white*)  
 egg lecithin (see under *Lecithin*)
- Egg production  
 and mortality rate of hens, 473.  
 calcitriol, 861.  
 costs, America (U.S.), New York, 1926-1952, 478.  
 different breeds and crosses (geese), 981.  
 effect of climate, Egypt, 473.  
 effect of feeding (see *Poultry feeding (laying hens); Ducks, feeding; Turkeys, feeding*)  
 effect of fineness of grinding all-mash ration, 718.  
 effect of iodinated casein, 472.  
 effect of synthetic vitamin A, 531.  
 effect of ultraviolet light (turkey), 473.  
 effect on blood serum proteins, 120.  
 first year, method of assessment, 981.  
 mathematical-statistical study, 39.  
 on all-vegetable ration, effect of antibiotics and vitamin B<sub>12</sub>, 882.  
 Pekin duck, 473.  
 utilisation of feed in different breeds, 982.\*  
 variation, 240.  
 White Leghorn x Australorp hens, 485.\*  
 981.
- Egg protein, preparation, changes during refrigeration, 763.
- Egg shell, composition, 636.
- Egg size, effect on growth of chickens, 235.\*
- Egg solids, freed of sugars by enzymes, identification, 285.\*
- Egg weight  
 effect of climate, Egypt, 473.  
 effect of hot climate, 129.  
 seasonal variation (turkey), 473.\*
- Egg white  
 and lysozyme, toxicity for small organisms, 940.  
 duck, nutritive value (rat), 253.\*  
 trypsin inhibitor, 263.\*
- Egg white  
 lysozyme concentration, 770.\*  
 proteins, composition (chicken, duck, turkey), 519.
- Egg yolk, amino-acids, free, during development of chicken, 637.  
 effect on growth (chicken), 971.\*  
 from antibiotic-fed hens, effect on growth (rat), 888.\*  
 powder, poisoning of infants, 679.\*  
 vitamin B<sub>12</sub> binding substance, 813.\*
- Egg powder, whole, choline content, 278.
- Egypt, poultry, effect of climate on egg production and weight, 473.  
 sheep, heritability of birth-, weaning- and slaughter-weight, Ossimi lambs, 961.
- Electrolyte(s)  
 balance and fluid balance disturbances, 392.\*  
 during recovery from beriberi heart failure, 600.  
 in nutritional oedema (man), 253.\*  
 distribution, in healthy and acromegalic subjects, 545.  
 excretion, in hypertension, effect of rice diet (man), 943.  
 in blood, in carbohydrate dystrophy (infant), 117.  
 in nutritional oedema (man), 385.  
 interrelation (cattle), 332.  
 in gastric juice, fasting (man), 578.  
 in muscle, in potassium deficiency (rat), 157.  
 in sweat, thermal (man), 120, 120.\*  
 in urine, during potassium depletion (man), 872.  
 effect of sodium or potassium salts by mouth (man), 873.  
 metabolism, effect of restricted energy, protein and water intakes (man), 800.  
 in renal stenosis (man), 615.

 in man, 846.\*  
 in tissues, relation to vitamin C (guinea-pig), 104.  
 Estimations, microbiological, planning, 57.  
 Ethanol (see also *Alcohol*).  
 effect on nitrogen excretion during nitrogen deprivation (rat), 602.  
 oxidation, inhibition by antabuse, reversal by vitamins, 779.\*  
 Ethanolamine, dimethyl-, effect on incidence of perosis (chicken), 97.  
 Ethionine  
 effect on protein in liver, influence of choline (rat), 142.  
 effect on tumour growth and liver amino-acids (rat), 169.  
 production of liver tumours (rat), 169.  
*Ethionine choline* (fish), flesh, composition, 520.  
 Europe, hybrid maize tests, 727.\*  
 Evans blue, retention in heparinized plasma, 287.  
 spectral absorption in plasma, recovery of dye by extraction, 288.\*  
 Ewald test meal, modification, effect on pseudo-achylia, 510.  
 Ewe(s) (see also *Sheep; Lambs*).  
 and lambs, rotational grazing, 710.\*  
 breeding, effect of nutrition on performance, 990.\*  
 feeding, indoors and outdoors, 229.\*  
 carotenoids in blood, liver and ovaries, 66.

## Ewe(s)

- feeding, concentrates in late pregnancy, effect on milk yield and birthweight and growth of lambs, 958.\*  
 effect of plane of nutrition on milk yield, 485.\*  
 effect on karakul fleece, 229.  
 effect on skeleton of lamb at birth, 958.\*  
 hay silage and hay with maize silage during pregnancy, 959.\*  
 rotational grazing or set-stocking, 485.\*  
 roughage, effect of supplements on lamb and wool production, 707.  
 seaweed, demineralization in lambs, 247.  
 silage compared with turnips, 706.  
 thyroprotein, effect on weight of lamb, 958.  
 urea, 961.  
 flushing before tupping, 958.  
 Ewe milk  
 amino-acids, 45.  
 and whey, composition, Poland, 518.  
 yield, effect of plane of nutrition, 485.\*  
 on hill grazing and growth of lamb, 402.  
 Ewes, pregnant, carbohydrate metabolism, 996.\*  
 range, sulphur requirement, 958.\*  
 skeleton composition during pregnancy and lactation, effect of calcium intake, 870.\*  
 undernourished, disease effects, 721.\*  
 Exercise (see also *Energy output*).  
 effect on blood serum proteins, 833.\*  
 effect on blood white cell count (man), 115.  
 effect on carotene and vitamin A in blood (man), 421.  
 effect on food intake and bodyweight in normal and obese rats, 841.\*  
 effect on food intake and selection (rat), 841.  
 effect on metabolic products in spinal motor root cells and on metabolism of vitamin B<sub>12</sub> (guinea-pig), 815.  
 effect on organ weights in scurvy (guinea-pig), 103.  
 effect on specific dynamic action (man), 729.\*  
 effect on water metabolism in hot humid environment (man), 880.  
 energy intake, lumbermen, 907.  
 relation to vitamins B<sub>1</sub> and B<sub>12</sub> in blood and red cell count (cattle), 75.  
 swimming, effect on selection of diet (rat), 640.  
 Expeditions, Himalayas, rations, 653.\*  
 polar, rations, 653.\*  
 tropical, rations, 653.\*  
 Extracellular water (see under *Water*).  
 Eye (see also *Dark adaptation*).  
 accumulation of rhodopsin in retina, effect of green light (rabbit), 61.  
 aqueous humour, proteins, electrophoresis (rabbit), 121.\*  
 Eye disorders  
*arcus senilis* and cholesterol in blood, 919.  
 arteriolar constriction and deposition of cholesterol in retina, after ingestion of cholesterol (dog), 865.\*  
 cataract, in foetus, production by thyroxine, role of riboflavin (rat), 84.  
 in infants, treatment with galactose-free diet, 218.  
 produced by carbohydrates (rat), 133.\*  
 produced by galactose, high, in blood (infants), 687.  
 produced by lactose (rat), 598.  
 produced by xylose (pig), 904.  
 corneal vascularisation, in riboflavin deficiency produced by galactoflavin, effect of protein and fat intake (rat), 800.

## Eye disorders

- diabetic retinitis, relation to serum globulin, cholesterol and lipoproteins, 353.\*  
 kerato-conjunctivitis, effect of maize diet (man), 921.  
 keratomalacia, genetically determined, role of vitamin A (mouse), 408.  
 lesions, in deficiencies of vitamins A and B<sub>12</sub> (rat), 328.  
 in vitamin A deficiency (pigeon), 65.  
 myopia, relation to growth (children), 632.  
 retrolental fibroplasia, etiology, 854.  
 treatment, 854.  
 trachoma and leucoma, as causes of blindness among Bantu, 193.  
 treated with vitamin E, 422.  
 Eye, incisions, effect of vitamin B<sub>12</sub> (rabbit), 566.\*  
 optic nerve, effect of vitamin B<sub>12</sub> and riboflavin deficiencies (rat), 550.  
 pigment, cyanopsin, 308.  
 retina, pigment epithelium and vitamin A deficiency, 253.\*  
 regeneration of rhodopsin (ox), 529.  
 visual purple regeneration, effect of liver carotenoids (amphibian), 731.  
 visual threshold, effect of vitamin A, 658.  
 zinc content (mammals), 162.\*  
 Factor T, effect on growth of hamster, 340.\*  
 Factory workers (see *Workers, industrial*).  
 Faeces  
 calf, substances with vitamin B<sub>12</sub> activity, 337.  
 composition, in steatorrhoea (man), 144.  
 micro-organisms, and feed consumption (chicken), 402.\*  
 effect of terramycin (rat), 176.  
 output by grazing cows, marker technique for estimation, 442.  
 vitamin B<sub>12</sub> activity, 253.\*  
*Fagopyrum esculentum* (see *Buckwheat*).  
 Family budgets, estimation of equivalent-adult scales, 903.  
 Famines, prophecy (book), 250.  
 Famine oedema (see *Oedema, starvation*).  
 Farming, in Finland, without cattle, economics, 720.\*  
 Farms, standards of living, America (U.S.), 458.\*  
 Fasting (see also *Inanition; Starvation*).  
 and refeeding, effect of vitamin B<sub>1</sub>, riboflavin, and pantothenic acid on bodyweight (rat), 644.  
 and refeeding on high-carbohydrate or high-protein diet, effect on capillary resistance and blood eosinophils (dog), 896.\*  
 effect on adrenal cholesterol, liver glycogen and water intake (rat), 836.\*  
 effect on alcohol oxidation, *in vivo*, and in liver homogenates (rat), 893.  
 effect on amino-acid metabolism (chicken), 970.  
 effect on blood composition after pituitary removal (pig), 834.\*  
 effect on lipid distribution in blood and tissues (rat), 861.\*  
 effect on phosphatase, alkaline, in blood and intestine (rat), 110.  
 effect on rumen, 830.\*  
 effect on tissue lipogenesis (rat), 861.  
 Fat (see also *Lipids; Fatty acids; Oils; and specific fats, e.g., Lard*).  
 Fat absorption (child), 609.  
 after oesophago-gastric surgery (man), 349.  
 after partial or total gastrectomy (man), 340.  
 and transport (dog), 829.\*  
 by small intestine, *in vitro*, 181.\*

**Fat absorption**

- effect of choline deficiency (rat), 862  
 effect on blood (hamster), 810.  
 effect on blood serum, power to clarify chyle (rat), 857.  
 in absence of bile (rat), 114.  
 in intestine, review, 114.\*  
 in premature infants, effect of surface-active agents, 197.  
 in sprue, effect of gluten and antibacterial agents, 939.\*  
 relation to dehydrogenation by bile (dog), 349.  
 role of dihydroxyacetone esters (rat), 114.  
**Fat, animal, studies, New Zealand, 375.\***  
 unidentified substances with vitamin A activity, 810.\*  
 beef, for pigs, effect on carcase, 965.\*  
 beef and mutton, stability, deleterious effect of trace metals, suppression, 813.  
 beef kidney, volatile fatty acids, 771.  
**Fat, blood (see Blood fat; Blood lipids)**  
 blubber, composition (seal), 122.  
**Fat, body**  
 composition (hedgehog), 357.  
 effect of dietary fats (rat), 376.  
 content, effect on basal metabolism and metabolic cost of work, 839.\*  
 content and distribution, changes with age (woman), 685.  
 density (man, mammals), 357.  
 estimation (pig), 121.  
 by skinfold measurement, dehydration as source of error, 758.\*  
 formulae (mammals), 762.\*  
 fatty acid composition (camel, deer, python), 47.  
 in adults, review (man), 121.\*  
 pigs, composition, effect of dietary fat, 771.  
 relation to blood cholesterol and lipoprotein, 378.\*  
 relation to plasma pseudocholinesterase (man), 913.\*  
**Fat, butter (see Butterfat; Milkfat)**  
 butyric acid content, estimation for detection of substitute fats in dairy products, 743.\*  
 cereal (see under Cereal)  
 chicken and turkey, effect of tocopherol content on stability, 317.\*  
 clearance from blood, effect of removal of viscera (rat), 376.  
 composition, structure and utilisation, relation to physical and chemical properties, 729.\*  
 deficiency (calf), 869.  
 effect of fats or fatty acids on capillaries (rat), 146.  
 deprivation, effect on growing rat, 860.\*  
 effect on incidence of liver necrosis (rat), 862.  
 in parental feeding, effects (dog), 375.  
 digestibility, effect of alcohol or wine (rat), 760.  
 digestion, formation of monoglycerides (man), 857.\*  
 digestion products, effect on composition of lymph lipids (rat), 835.\*  
 effect of type on performance and carcase characteristics (pig), 965.\*  
 effect on cellulose digestion by rumen micro-organisms (sheep), 830.\*  
 effect on ceroid formation in liver in choline deficiency (rat), 72.  
 effect on growth and corneal vascularisation in riboflavin deficiency produced by galactosavin (rat), 805.  
 effect on growth of chickens, 971.\*  
 on maize and soya bean meal ration, 468.\*  
 effect on nitrogen economy after protein depletion and energy restriction (rat), 847.\*

**Fat**

- effect on vitamin B<sub>1</sub> synthesis in intestine (rat), 546.  
 emulsified, removal from blood of reticuloendothelial system, 860.\*  
**Fat estimation**  
 in bacon carcases, 755.  
 in cream, Gerber method, critical study, 747.  
 in milk, 747.  
 curdled and fermented, 503.  
 in soft cheese, 277.  
**Fat excretion, after stomach removal,**  
 effect of surface-active agent (dog), 134.  
 effect of protein intake (dog, rat), 369.  
 effect of thornic diet ligature (dog), 144.  
**Fat, food, essential fatty acids content,**  
 Portugal, 767.  
 for laying hens, 486.\*  
**Fat formation, 144.\***  
 by mammary tissue, *in vitro*, utilisation of glucose or acetate (rat, sheep), 628.  
 by ovary, *in vitro* (hen), 166.\*  
 in *Rhodotorula gracilis*, effect of phosphate content of medium, 406.  
**Fat, fractions, effect on incidence of hepatitis (mouse), 884.\***  
 in cereals and legumes, digestibility, apparent and true (man), 375.  
 in diet, and serum cholesterol (man), 834.\*  
 relation to growth and work, 375.\*  
 in mackerel, relation to fat in plankton, 49.  
 in obese mice, effect of diet restriction, 880.\*  
 in synthetic milks, effect on blood lipids (calf), 145.\*  
 in tissues, effect of free choice diet after dietary restriction (rat), 835.\*  
**Fat intake**  
 composition, effect on blood cholesterol (rat), 149.\*  
 effect on acetylphosphatides in blood (man), 379.  
 effect on biosynthesis of riboflavin in caecum (rat), 253.\*  
 effect on blood cholesterol and incidence of heart disease, Italy (man), 908.  
 effect on blood coagulation (woman), 145.  
 effect on calcium metabolism (man), 383.  
 effect on cholesterol in blood and liver (chicken), 150.  
 effect on development of vitamin B<sub>1</sub> deficiency (rat), 707.  
 effect on energy intake and oxygen consumption by obese mice, 365.  
 effect on feed consumption and efficiency and weight gain (pig), 962.  
 effect on liver necrosis (rat), 862.\*  
 effect on nitrogen metabolism, 847.\*  
 effect on phosphatase, alkaline, in blood and intestine, after fasting (rat), 110.  
 effect on tocopherol tolerance (man), 421.  
 high, effect on blood coagulation time (man), 145.  
 effect on growth and carcase quality (pig), 965.\*  
 effect on growth and longevity of rats, 402.  
 effect on length of life (mouse), 892.  
 effect on vitamin B<sub>12</sub> requirement (chicken), 816.  
 formation of ketone bodies (rat), 846.\*  
 low, effect of stress agents on growth of mice, 147.  
 relation to atherosclerosis (man), 919.  
 relation to histological changes in skin (dog), 859.  
 restricted, planning of diets, 938.\*

**Fat, liver (see also Lipids, liver)**

- composition, after high-fat and poor rice diet (rat), 376, 377.\*  
 effect of carbohydrate source (rat), 601.  
 effect of choline deprivation (guinea-pig), 613.  
 effect of diet (duck), 612.  
 effect of protein or amino-acids intake (rat), 135.  
 effect of substances other than choline (rat), 612.  
 effect of trypsin (rat), 108.  
**Fat metabolism (see also Obesity)**  
 after gastrostomy (man), 808.\*  
 and physiology, 897.\*  
 by liver homologues, effect of fat deficiency and fatty acids (rat), 106.  
 effect of vitamin B<sub>1</sub> deficiency (rat), 803.  
 in liver, effect of choline, methionine and inositol (rat), 863.  
 effect of hyperglycaemic-glycogenolytic factor (rat), 627.  
 in nephrotic hyperlipaemia (rat), 610  
 in obesity (mouse), 860.\*  
 in steatorrhea (man), 144.  
 in tissue cultures, 166.\*  
 lipotropic activity of phytol, 862.  
**Fat, milk (see Milk, fat content; Milk fat; Butterfat)**  
 mobilisation, effect of adrenal medulla (rat), 836.\*  
 natural, separation of glyceride concentration, 28.  
 oxidation, choline-copper chloride complex salts as catalysts, 40.  
 oxidised, relation of effects to protein and vitamins in diet (rat), 377.  
 phosphatides, estimation, 729.\*  
 physical and chemical properties, relation to composition, structure and utilisation, 729.\*  
 protein-sparing action (rat), 600.  
 rancid, effect on growth, relation to other dietary constituents (rat), 147.  
 in feedstuffs, effect on chicks, 248.  
 mechanism of oxidation, 512.\*  
 relation to cholesterol in effect on reproduction (rat), 860.  
 relation to sugars and vitamin B<sub>1</sub>, effect on growth (rat), 788.  
 requirement, of lambs and goats, 610.  
 of young calves, effect of deficiency, 859.  
 stabilised, effect on stability of vitamin A in feeds, 533.  
 subcutaneous, distribution, in adult men, 916.  
 tolerance tests in infants, 906.  
 transport, role of liver, review, 144.\*  
 unsaturated, source of chicken growth factors, 464.\*  
 utilisation, effect of low-protein, high-fat diet (rat), 146.  
 from cow's milk (man), 857.  
 vegetable, effect on oxidation of acetate (rat), 882.\*  
 intake, effect on blood cholesterol and phospholipids in diabetes (man), 148.  
**Fat(s) and other lipids, chemistry, progress (book), 725.\***  
**Fat cells, diameter, relation to nutritional state (man), 357.**  
**Fat emulsion**  
 administration to ill patients, 681.  
 clinical use, 211, 211.\*  
 effect on liver function when injected (man), 375.  
 for feeding after stomach removal (man), 681.  
 for parenteral nutrition, surface phenomena, 938.\*  
 rate of utilisation when injected (rat), 146.

- Fat globule membrane, of milk proteins, amino-acid composition, 294.
- Fat peroxides, in meat, estimation, 504.
- Fatigue, development, effect of ascorbic acid (rat), 824.
- Fatness-leanness, relation to creatinine coefficient (man), 357.\*
- Fatty acids
- absorption (rat), 376.
  - branched-chain, in butterfat, isolation, 748.
  - deficiency effect on hair growth (rat), 378.
  - effect on alloxan diabetes (rat), 378.
  - effect on excretion of xanthronenic acid, 328.\*
  - effect on growth of *Lactobacillus bifidus*, 895.
  - essential, biological standardisation (rat), 377.
  - deficiency, development of cholesterol fatty liver (rat), 806.\*
  - depletion, effect of stearolic acid (rat), 811.
  - for young rats, 378.
  - in food fats, Portugal, 767.
  - esterified, in blood, effect of glucose (man), 845.
  - effect of insulin (man), 300.\*
  - estimation, in blood, 27.
  - formation, by mammary tissue *in vitro* (rat, sheep), 107.\* 629.
  - from acetate, by mammary gland cell fluid (rat), 629.\*
  - by mammary gland cell fractions (rabbit), 107.
  - from acetate, by liver slices, role of nutritional state (rat), 395.
  - in liver, *in vitro*, effect of diet (rat), 882.\*
  - in liver slices (rat), 305.
  - formed from labelled acetate, distribution, effect of fasting (rat), 800.
  - free, digestion (rat), 808.
  - in feedings, effect on chicks, 248.
  - higher, separation, 27.
  - in blood, daily fluctuations (infants), 905.
  - effect of age (man), 119.
  - in butterfat, 205.
  - in carnel fat, 47.
  - in deer fat, 47.
  - in lipids of *Lactobacillus casei*, 405.
  - in liver, straight-chain, identification and estimation by paper chromatography, 278.
  - turnover, effect of linoleic acid (rat), 881.\*
  - in liver fat, in rats on high-fat rice diet, 377.\*
  - in mammary gland fat (cow), 835.
  - in milk fat (buffalo, cow), 46.
  - in oil of acorn, groundnut and hickory nut, 522.
  - in python fat, 47.
  - in safflower seed oil, 303.
  - in whole milk fat, 46.
  - labelled, absorption, role of chylomicrons (rat), 808.\*
  - long-chain, estimation 277.\*
  - metabolism, and fat formation in liver, 883.\*
  - and intracellular potassium and sodium, 860.\*
  - by isolated mammary gland (cow), 629.
  - by liver and kidney slices, influence of sodium, potassium and lithium, 396.
  - by rumen epithelium, *in vitro* (sheep), 620.
  - effect of oxidised linoleate preparations (rat), 861.
  - in *Neurospora crassa* mutants, 177.
  - role of co-enzyme A and derivatives, 347.\*
- Fatty acids
- oxidation, by extract of adipose tissue (chicken), 837.
  - by liver tissue *in vitro*, role of choline (rat), 396.
  - by poultry meat extract, 291.\*
  - by tissue enzymes, 109, 827.\*
  - rate of absorption (rat), 867.
  - requirements of children, 486.\*
  - saturated, estimation in faecal fat, 27.
  - straight-chain, higher, estimation, 278 separation, 504.
  - and estimation, 278.
  - by paper chromatography, 748.
  - short-chain, metabolism by caecal tissue *in vitro* (guinea pig), 860.
  - straight chain, higher, estimation, 748.
  - substituted, estimation, 748.
  - synthetic, feeding experiments, 378.\*
  - unsaturated, deficiency, effect on liver cell fractions (rat), 883.
  - estimation in faecal fat, 27.
  - growth factors for chickens, 240.
  - in blood (children), 833.
  - in brain cerebroside, 122.\*
  - in cod liver oil, toxicity to calves, 318.
  - in liver fractions, effect of age and diet (rat), 611.
  - in milk fat, fractionation and isolation, 769.
  - intake, effect on earles incidence (hamster), 147.
  - poly-, estimation, 27.
  - volatile, absorption from rumen (sheep), 351.
  - effect on calcium metabolism (rat), 869.
  - formation during fermentation of grass and water mixtures, 43.
  - in beef kidney fat, 771.
  - in silage, 56.\*
  - grass or kale, 526.
  - production in rumen, effect of diet, 147.\*
  - separation by paper chromatography, 504.
  - water-insoluble, estimation in butter and cream, 504.
- Fatty liver (see under *Liver disorders*)
- Favism, in children, case reports, 937.
- Fechers, pigmentation, in turkey poult, effect of high levels of antibiotics, 976.
- sulphur uptake from injected methionine or sulphate (chicken), 878.
- Fecundity (see *Fertility*)
- "Feed-Aid", for poultry and livestock, 716.
- Feed(s), energy value, total digestible nutrients as measure, 293.\*
- heating, effect of moisture, 282.\*
- natural, protective effect against thyrotoxic action of iodinated casein (rat), 102.
- Feed efficiency, Lehmann utilisation index as measure, 441.\*
- Feed utilisation, for egg production in different breeds, 982.\*
- variations (chicken), 460.
- Feeding, athletes, 652.

- nasogastric, tolerance of different preparations, 210.
- Feeding, parenteral (see also under specific foods, e.g., *Protein hydrolysates*; *Fat emulsions*)
- fluid, homeostatic limits, 211.\*
  - metabolic effects in surgical patients, 872.
  - value of modified human globulin, 368.
- Feeding board (see under *Wheat straw*)
- Feeding experiments, concept of an "appetite quotient", 289.
- Feeding intensity, effect on body composition and quality (cattle), 997.\*
- Feeding trials, accuracy, 729.\*
- Feedingstuffs (see also *Fodder*; *Forage*; *Silage*; and specific feedingstuffs, e.g., *Maize*)
- animal, changing world supply, 721.\*
  - composition, Madagascar, 767.
  - digestibility, and rate of consumption, measurement by indirect methods (ruminants), 997.\*
  - new coefficients (pig), 442.
  - poultry, 443.
  - relation to digestible energy and nitrogen excretion, 996.\*
  - evaluation, review, 944.\*
  - from fish and sea animals (Norway), 720.
  - gross energy value, relation to method of estimating fat, 692.
  - isoflavone derivatives, oestrogenic activity, 892.\*
  - poisons, 248.\* 301, 482.
  - review, 946.
  - roughage, green artificially dried, Poland, 766.
  - spillage, 762.\*
  - stability of procaine penicillin during storage, 778.
  - statistics, U.S.A., 474.\*
  - storage (see under *Storage*).
- Fermentation (see also *Yeast*)
- ration containing roughage and urea, effect on growth of pigs, 966.\*
- Fermentation by-products, source of unidentified growth factors for chickens and poult, 974.
- Fermentation meals, source of growth factors for chickens, 974.\*
- Ferritin, estimation, 749.\*
- fractionation, in tissue, 274.\*
- relation to haemosiderin (man, rabbit), 383.\*
- Fertiliser(s) (see also specific fertilisers, e.g., *Molybdenum fertiliser*; *Phosphate fertiliser*)
- effect on butterfat production, 453.\*
  - effect on nutritive value of soya bean forage (rabbit), 715.
  - effect on sugar content of timothy 524.
  - effect on yields of subterranean clover grown on different soils, Australia, 288.
- fish-pond, composition, India, 304.
- for pasture, effect on milk yield (cow), 225.
- inorganic and organic, relation to production and consumption of food for man and animals, 474.
- nitrogen, effect on botanical and chemical composition of pasture, 54.
- effect on composition and nutritive value of hays, 777.
- effect on yields of dry matter and nitrogen from a ryegrass-white clover sward, 534.
- use and value in Gold Coast, 299, 948.

Fertility (see also *Reproduction*; *Sterility*)

  - effect of climate changes (bull), 453.
  - effect of environment, 173.
  - effect of nutrition (livestock, bull), 228, 485.\*
  - effect of *Pisum sativum* (mouse), 542.
  - improvement, effect of dietary and hormone treatment (man), 890.
  - in eggs (see *Egg fertility*)
  - in monozygous twin cattle, 450.\*
  - relation to fructose in semen (bull), 891.

Fibre (see also *Cellulose*; *Roughage*)

  - Fibre, crude
  - estimation, comparison of methods, 21.
  - optimum, for pigs, 964.

- Fibre, digestion, by rumen micro-organisms, *in vitro*, 894.  
 effect on carcass quality (pigs), 968.  
 effect on growth (turkey), 460.\*  
 effect on growth and feed efficiency (turkey), 973.  
 effect on pregnancy toxæmia (woman), 196.  
 estimation in roughages, 743.\*  
 in foodstuffs, absorption capacity, estimation, 286.  
 intake, high, effect on growth and carcass characteristics (pig), 964.\*  
 relation to enteritis in rabbits, 486.\*  
 Fibrinogen (see under Blood)  
 Fiji, cattle, copper deficiency, suspected, 247.\*  
 Filberts, oil-free meals, amino-acids and vitamin B complex components, 546.  
 Finland  
 bread, phytic acid content, 50.  
 caries, in Lapp children, 936.  
 cows, housing in loose barns in cold regions, 453.  
 farming without cattle, economics, 720.\*  
 lumbermen, food intake in competitions, 907.  
 milk supplies and demand, 476.  
 pigs, feed consumption and carcass measurement, 234.  
 recording 1961, 459.  
 Fish (see also specific kinds, e.g., *Herring*)  
 amino-acid content, Peru, 48.  
 choline content, India, 787.  
 composition, 52, 296, 520.  
 consumption, Pescara 1951, 915.  
 decomposition, estimation, 285.\*  
 dried, composition, India, 297.  
 freshwater, amino-acid content, Peru, 48.  
 composition, Canada, 779.  
 frozen, defrosting, myosin denaturation, 765.  
 herring, Sorokaky, food supply, 900.  
 muscle, amino-acids, effect of species, 530.  
 nicotinic acid, isolation of bound form, 253.\*  
 proteins, electrophoretic patterns, 297.  
 occurrence of poisons (man), 879.  
*Paralichthys peruanus*, flesh, composition, 520.  
 pike-perch, feeding habits, 900.  
 preservation, experimental, with antibiotics, 764.  
 production, contribution to world's food supplies, 252.  
 fish farming and inland fishery management, 996.\*  
 proteins, nutritive value, 297.\*  
 sulphur-containing amino-acids, 520.  
 teleosts, hydrogen ion concentration in digestive tract, 408.\*  
 thiaminase, effect of hydrogen ion concentration, dialysis, magnesium and cobalt, 552.  
 vitamin content, 253.\*  
 vitamin B<sub>1</sub>, riboflavin, nicotinic acid and non-protein nitrogen contents, India, 794.  
 Fish by-products, occurrence of poisons (man), 679.  
 Fish liver oils  
 groper, composition, 49.  
 vitamin A content, 69.  
 Nile species, 785.  
 Fishmeal  
 and aureomycin, for turkeys, effect on palatability of flesh, 239.  
 biological value, 135.\*  
 composition, Peru, 49.  
 effect on growth of chickens, 463, 971.  
 for cattle, 700.\*  
 keeping quality, India, 297.  
 production of disorders in pigs, 478.  
 Fish ponds, fertilisers, composition, India, 306.  
 Fish products, methionine and antibiotics, interrelationships, 463.\*  
 Fish roe, treatment of tissue diseases with preparations, 212.  
 Fish solubles  
 as source of animal-protein factor and as protein supplement for bacon pigs, 710.  
 condensed, supplement to wheat flour diet, effect on growth and reproduction (rat), 136.  
 effect on cellulose digestion by rumen micro-organisms, *in vitro*, 638.  
 effect on growth of chickens, 971.\*  
 effect on hatchability of eggs, 242.  
 for chickens and turkey poult, supplement in mash mixtures containing meat, 567.  
 growth factor, fractionation and properties, 463, 464.\*  
 Fishermen, diet study, Netherlands 187.  
 Fishery, agricultural and forestry products, utilisation, U.K., 243.\*  
 Fitness, physical and nutrition (book), 990.  
 Flavones, *iso*-, in soya bean meal, oestrogenic effect (mouse), 178.  
 oxidised, and ascorbic acid, 102.\*  
 Flavour, assessment, 286.\*  
 physiological background, 286.\*  
 cheese, effect of spoilage bacteria, 45.\*  
 in baked products, caused by high lipase content of cereals, 300.  
 Fleece (see also Wool)  
 effect of ewe's ration, U.S.S.R., 229.  
 follicle population, development in Suffolk sheep, 709.\*  
 weight, and bodyweight (sheep), 961.  
 Flies, larvae, digestive enzymes, 901.\*  
 Flour(s) (see also specific kinds, e.g., *Wheat flour*)  
 enrichment with bonemeal, production of anaemia (children), 942.\*  
 wheat, raffinose, fructosyl, 50.\*  
 Flour beetle (*Tribolium confusum*), larvae, nutrition, 819.  
 Fluid(s), administration, parenteral, magnesium deficiency production, 922.  
 intake, throughout life, relation to disorders in senescence (rat), 174.  
 Fluoride(s)  
 control of dental caries (man), 936.  
 effect of application to teeth, 434.  
 effect on bone repair, 382.\*  
 effect on stomach secretion (rat), 347.\*  
 effect on teeth enamel, *in vitro*, 630.  
 estimation, 282, 751, 752.  
 in water, 32, 282.  
 in dentifrice, effect on dental caries, 209.  
 in drinking water, removal, 754.  
 prevention of caries, relation to acid-solubility of enamel (rat), 621.  
 sodium, effect on dental caries (man), 209.  
 effect on soft tissues (rat), 168.\*  
 sodium and stannous, relative effects on incidence of caries (hamster), 620.  
 Fluoride compounds, effect on surface structure of teeth enamel, 387.\*  
 Fluorine  
 addition to drinking water, 434,\* 678, 679.\*  
 addition to milk and prevention of caries (man), 434.  
 control of dental caries, 936.\*  
 deposition in bones and teeth, in rickets (rat), 387.\*  
 effect on fracture healing (rat), 874.  
 effect on susceptibility of teeth enamel to caries (man), 936.  
 effect on teeth formation in transplanted tooth germs (guinea-pig, mouse, rat), 158.  
 Fluorine  
 estimation, in biological material, 751.  
 in bones and teeth, 283.  
 in drinking water, 32.  
 in plant material, 32.  
 in teeth, 283.  
 for lambs, metabolic studies, 874.\*  
 in agricultural products, soil and drinking water, Sweden, 56.  
 in blood, after fluorine medication (man), 874.  
 in bone, after fluoride poisoning (rat), 387.  
 in cereals and vegetables, U.S.S.R., 298.  
 in drinking water, Cuba, relation to dental caries incidence in children, 208.  
 effect on dental caries and saliva lactobacilli, children, 208.  
 India, 527.  
 Nigeria, 528.  
 Poland, 528.  
 relation to urban mortality rates, America (U.S.), 920.  
 Switzerland, relation to caries incidence and general health, 208.  
 effect on dental caries and saliva lactobacilli, children, 208.  
 with special reference to water, 729.\*  
 in natural waters, U.S.S.R., 524.\*  
 in saliva, relation to caries incidence, 835.  
 in tea, effect on skeletal calcification and teeth caries (rat), 620.  
 in teeth enamel, distribution (man), 157.\*  
 in tissues, relation to milk and water intake (woman), 620.  
 intake, high, effect on pregnant beef heifers, 875.\*  
 metabolism (rat), 342.  
 poisoning, effect on bone growth (rabbit), 621.  
 storage, in rats, effect of enstration and desaturation, 874.  
 in skeleton, effect of vitamin C (guinea-pig), 824.  
 toxic effects on soft tissues (monkey, rat), 158.  
 toxicity for rats, 387.  
 with calcium-low diet, production of osteitis fibrosa cystica (rat), 870.\*  
 Fluorosis  
 and addition of fluorine to drinking water, Southern Rhodesia, 480.\*  
 chronic (man), 656.  
 effect on vitamin C in soft tissues and iodine in thyroid (monkey, rat), 342.  
 endemic in sheep, Australia, 247.  
 dental, in children, European, Kenya, 434.  
 endemic, treatment with vitamin C (man), 656.  
 India (man), 209.  
 in sheep, Australia, 481, 996.\*  
 Japan (man), 434.  
 Kenya (man), 208.  
 Foals, disorders, rickets, possible role of molybdenum excess, 247.  
 weaning, effect on nitrogen compounds in blood, 683.  
 Fodder (see also under *Feedingstuffs*)  
 Forages: and specific fodders, e.g., *Alfalfa*  
 better utilisation, 696.\*  
 coarse, cellulose digestion, role of rumen, 350.\*  
 composition and nutritive value, Australia, 220.  
 conservation, for livestock, Australia, 696.\*  
 methods, 515.\*  
 utilisation of native grasses, 515.\*  
 conserved, for cattle, 701.\*  
 digestibility, estimation by chromogen technique, source of error, 760.

- Fodder**  
 fermented, for stallions, 221.  
 for sheep, U.S.S.R., 229.  
 forage, palatability, measurement, 511.\*
- Fodder beet** (see *Beet, fodder*)

 milk yield and fluid intake (woman), 401.  
 nitrogen metabolism (rat), 890.  
 performance, in guinea-pigs, technique for obtaining qualitative data, 997.\*  
 stage, effect on lactose, chlorine, sodium and potassium in milk, 45.  
 suckling stimulus, effect on food intake and growth (rat), 891.  
 vitamin B<sub>12</sub> metabolism (woman), 928.
- Lactic acid**  
 estimation, 28.  
 in biological material, 29.  
 in aqueous humour after unilateral carotid ligation, effect of ascorbic acid transfer, 824.\*  
 in blood, effect of low temperature and work (deer mouse), 844.\*  
 effect of nicotine acid (man), 199.  
 effect of stress (cattle), 364.  
 effect on alkali reserve (man), 131.  
 production in mouth after glucose rinse (man), 177.
- Lactobacilli**  
 effect of vitamin B complex derivatives, 543.  
 nutrition, 896.\*  
 rumen, physiology and nutrition, 895.\*  
 toxicity of sodium chloride and vitamin B<sub>12</sub> derivative, 505.  
*Lactobacillus acidophilus*, in saliva and curies (hamster), 407.  
*Lactobacillus arabinosus*, and *L. casei*, amino-acid metabolism, 639.  
 co-enzyme A formation, 560.  
 formation of citrovorum factor and folic acid, 254.\*  
 formation of vitamin B complex components, effect of vitamin K antagonists, 543.  
*Lactobacillus bifidus*, and *L. leichmannii*, requirements, 176.\*  
 effect of fatty acids, 895.  
 from poultry, requirements, 59.  
 growth factor in milk, 639, 640.
- Lactobacillus casei*, fatty acids composition, 405.  
 formation of nucleic acid, effect of aureomycin, with or without folic acid and vitamin B<sub>12</sub>, 819.
- Lactobacillus casei*  
 6-mercaptopurine-resistant, purine metabolism 406.\*  
 production of citrovorum factor from folic acid, 83.  
*Lactobacillus delbrueckii*, nutritional requirements, 640.\*  
*Lactobacillus leichmannii*, molybdenum toxicity, effects of vitamin B<sub>12</sub> and reducing substances, 99.  
 Lacto-n-tetraose, in human milk, 44.  
 Lactones, role in deterioration of stored milk fat, 512.
- Lactose**  
 effect on calcium balance during lactation (rat), 635.  
 effect on growth of chickens, 133, 971.\*  
 effect on loss of skeletal weight during lactation (rat), 636, 892.\*  
 estimation in dairy products, 742.  
 estimation in milk, 498, 743.  
 formation from glucose (goat), 367.  
 formation in mammary gland, homogenates and protein preparations, 628.  
 in milk, effect of stage of lactation, 45.  
 relation to fat and protein, 729.\*  
 in urine, in pregnancy and puerperium (woman), 401.  
 metabolism, abnormal, in children, blood lactose content, 687.  
 physiological effects in pigeons, 165.  
 production of extract, pathogenesis rat, 598.  
 reaction with protein in heated milk, 39.\*  
 with or without bacteria and penicillin, effect on growth (chicken), 237.
- Laevulose** (see *Fructose*)
- Lamb(s)** (see also *Sheep*)  
 birthweight and growth, effect of feeding ewes on concentrates in late pregnancy, 958.\*  
 effect of protein content of ewe's ration, 997.\*  
 relation to milk yield and weight of ewe, 402.  
 blood composition, effect of worm infestation, 708.  
 blood serum globulin and antibody titre, effect of colostrum, 175.  
 calcification of long bones, 633.  
 carcass quality, effect of castration methods, 709.  
 digestion, cellulose, stimulation by unidentified factor, 957.
- Lambs, disorders**  
 cobalt deficiency, effect of vitamin B<sub>12</sub>, 812, 813.\*  
 effect on appetite, 246.  
 demyelination produced by disturbance of copper metabolism, 247.  
 enterotoxaemia, not prevented by sulphur, 229.  
 fatty liver, 988.  
 paralysis, from consumption of peavine silage, 997.\*  
 rickets, 721.\*  
 stiff lamb disease, relation of feeding and management, 997.\*
- Lamb(s), effect of high-salt intake of ewe, 959.**  
 fat, management, 710.\*  
 production, relation to rate of stocking, 485.\*  
 fattening, effect of hormone implants, 960.\*  
 effect of surface active agents and bentonite, 961.\*
- Lambs, feeding**  
 antibiotics, 960.\*  
 aureomycin, 959.  
 cobalt, 959.  
 cull beans, 997.\*  
 fat-free diets, 810.  
 fluorine, metabolism studies, 874.\*
- Lambs, feeding**  
 high sodium chloride intake, effect on growth, feed digestibility and efficiency, and nitrogen balance, 959.\*  
 legume seed screenings, 997.\*  
 low-plane ration, effect of worm infestation on growth and blood composition, 989.  
 maize, effect of protein content, 968.  
 non-protein nitrogen, effect on blood urea and ammonia, 857.\*  
 pea supplements and peavine silage, 997.\*  
 peavine silage, 959, 997.\*  
 potatoes, 997.\*  
 rotational grazing or set-stocking, 485.\*  
 sorghum, 454.  
 sugar beet tops, 997.\*  
 sulphur, 229.  
 urea, with maize silage in winter, 981.\*  
 wood molasses, 959.\*
- Lambs, growth**  
 and fattening, effect of natural oestrogens from feeds, 960.\*  
 effect of progesterone-oestrogen combinations, 961.\*  
 and feed efficiency, effect of aureomycin, 959.  
 and wool production, effect of inorganic or organic sulphur, 706.  
 effect of ked infestation, 708.  
 carcass grade and dressing percentage, effect of stilboestrol implants, 960.  
 effect of antibiotic implants, 707.  
 effect of arsenic supplements, 961.\*  
 effect of milk yield of ewe, 228.  
 effect of monthly anthelmintic treatment, 724.  
 effect of stilboestrol, 960.  
 effect of sub-clinical worm infestation, 961.\*  
 effect of thyroprolactin given to ewe, 958.
- Lambs, heat adaptation, effect of shearing, 843.**  
 hill, home wintering, 709.  
 organs, amino-acid content, 770.  
 production, effects of breed and environment, Canada, 329.  
 effect on pasture improvement, 706.  
 protein requirement, 958, 997.\*  
 range, vitamin A reserves, 997.\*  
 skeleton, effect of diet of ewe, 958.  
 wool production, effect of inorganic or organic sulphur, 706.
- Lamb (meat)** (see *Mutton*)
- Laminaria**, effect on growth and antlers of spotted deer, 714.
- Land, use and development in Australia** (Review article), 731.
- Lard**  
 butyrated, in filled milk for calves, 950.  
 treatment of skin disorders, children, 441.  
 vitamin A activity (rat), 810.
- Lard distillate**, with casein, vitamin A activity (rat), 64.
- Lathyrism**, production by substance isolated from *Lathyrus odoratus* (rat), 899.\*
- Lathyrus odoratus* (see *Peas, sweet*)
- Lauric acid**, isolation from butterfat, 27.
- Lead**  
 estimation, 283.\*  
 in biological material, 752.  
 in blood, 761.  
 in foodstuffs, 752.\*  
 exchange in body (dog), 623.  
 in foods, Canada, 767.  
 poisoning, anaemia, effect of liver extract and vitamin B<sub>12</sub> (rabbit), 339.  
 radio-active, toxicity (dog), 623.  
 Leaves, ascorbic acid content, effect of sugars, 573.
- Lecithin** (see also *Phospholipids*)  
 estimation in egg powders, 278.

## Lecithin

for laying hens, effect on egg production and composition, 472.  
in blood, in serum, effect of cortisone (guinea pig), 233.  
in brain, composition, 122.\*  
soya bean, effect on vitamin A absorption (calf), 64.

Lecithin derivatives, separation by paper chromatography, 505.

Legumes (see also specific legumes, e.g., *Pean*)

fat, digestibility (man), 376.  
pulses, amino acid content, 302.  
as sources of amino-acids for rats, 373.  
nutritive value, effect of autoclaving (rat), 254.\*  
pure-bred, nutritive value, 253.\*  
toxicity (rat), 898.  
vitamin B complex components, effect of germination, 545.  
vitamin B<sub>2</sub> content, 253.\*

Legume seed screenings, for lambs, 997.\*  
Lehmann utilisation index, as measure of efficiency of feed utilisation, 441.\*

*Lepidium* spp., cause of milk taint due to indole and skatole (cow, goat, sheep), 295.

Leprosy, neuritis, treatment with vitamins (man), 199.

Lespedeza hay, nitrogen, effect of calcium fertiliser and stage of maturity on digestibility (rabbit), 219.

*Lespedeza sericea*, nutritive value for cows, 729.\*

Lettuce, leaf, ascorbic acid, effect of mineral fertilisers, 575.

## Leucemia

chemotherapy, review, 666.\*  
effect of 4-amino-N<sup>10</sup>-methylpteroylglutamic acid, influence of cortisone (mouse), 563.

follicle acid utilisation, 426.  
in children, treatment, 827.\*  
lymphatic, acute, effect of pyridoxine deficiency produced by doxypyridoxine, 665.

treatment with aminopterin, effect of citrovorum factor (mouse), 663.

Leucine, in wool, 358.  
requirement of baby pigs, 856.

iso-Leucine, in wool, 358.

Leucocytes (see *Blood*, *white cells*)

*Leuconostoc citrovorum* factor, competitive

antagonism with aminopterin, 94.

effect on aminopterin in treatment of leucemia (mouse), 663.

effect on cell division arrested by follicle acid antagonists (man, mouse), 809.

effect on growth in follicle acid deprivation (chicken), 810.

effect on pernicious anaemia, 201.

effect on toxicity of aminopterin (rat), 93.

effect on vitamin B<sub>12</sub> in blood in megaloblastic anaemia (man), 202.

effect on X-ray injury (rat), 563.

estimation, 336.

excretion (man), 927.\*

follicle acid and vitamin B<sub>12</sub>, review, 95.\*

metabolic relation (chicken), 336.

formation by *Lactobacillus arabinosus*, 254.\*

formation by liver, *in vitro*, effect of ascorbic acid (chicken), 335.

formation, effect of ascorbic acid, 564.\*

formation from follicle acid, by liver, *in vitro*, 808.

effect of homocysteine (chicken), 808.\*

formation from pteroylglutamic acid in liver slices (guinea pig), 808.\*

formation in germ-free rat, 808.\*

function, 803.\*

in natural products, effect of heat, 92.

in sewage sludge, 339.

*Leuconostoc citrovorum* factor

production from follicle acid by *Lactobacillus casei*, 93.

treatment of tropical sprue, 927.

utilisation after intravenous injection, 426.

*Leuconostoc mesenteroides*, growth factor, in

plant hydrolysates, 177.

in white sugar, 321.

serum and follicle acid requirements, 808.

value for lysine estimation, 406.

Leucovorin, relation to pteroylglutamic acid, 562.

Lichenic acid, estimation, 277.\*

Lichenin, utilisation as carbohydrate source (rat), 307.

Light (see also *Sunlight*)

continuous, effect on sexual development

(rabbit), 892.\*

effect on egg fertility, 892.

ultraviolet (see *Ultraviolet light*)

Lignin, estimation, 500, 744.

Lind, James, laudatory address, 671.\*

Linoleic, intake, effect on protection

against X-ray irradiation (mouse), 861.

oxidation by haematin, *in vitro*, effect of

$\alpha$ -tocopherol, 317.

oxidation in foods, catalysis by haematin, haemoglobin and cytochrome c, 613.

Linoleic acid, effect on fatty acids turnover

in liver (rat), 861.\*

effect on hair growth (rat), 378.

peroxide formation, effect of bile pigments, 782.\*

preparations, effect on fatty acid metabolism (rat), 861.

Lined, production of goitre (mouse, sheep), 500.

Lined cake, amino-acid content, 300.

effect on properties of butterfat and

keeping quality of butter, 703.

Lined meal, expeller-process and solvent-

extraction, effect on cows, 451.

growth inhibitor for chickens, properties,

804.

## Lipase

estimation, 285.

in cereals, 753.

in blood, and pancreatic juice (dog, man), 577.

in nutritional oedema (children), 253.\*

in patients with biliary calculi, 827.

in cereals, cause of off-flavours in baked

products, 300.

in oats, 800.

Lipids (see also *Fats*; *Oils*; *Cholesterol*; *Phospholipids*)

blood (see *Blood lipids*; *Blood fat*)

chemistry, progress (book), 725.\*

review, 144.\*

chromatography on filter paper discs, 26.

distribution in fatty liver, 612.\*

effect on serum proteins (rat), 583.

formation, effect of fasting (rat), 861.

relation of co-enzyme A (rat), 89.

in adrenal (dog), 855.\*

in blood and tissues, distribution, effect

of fasting (rat), 861.\*

in epidermis, effect of age and sex (man),

121.

in haddock flesh, 49, 297.

in mammalian heart, hypertrophied

(dog, guinea pig), 835.\*

in orange juice, composition, effect of

storage, 53.

effect of pasteurisation, 53.

in placentas, fractionation, 122.

insect-containing, in soya bean, 52.\*

liver (see also *Fat, liver*)

effect of excess nicotinamide (normal

and follicle acid-deficient rats), 253.\*

lymph, composition, effect of fat diges-

tion products, 885.\*

## Lipids

metabolism, effect of high sodium chlo-

ride intake (rat), 872.\*

effect of vitamin B<sub>12</sub> (man, rat), 566.

review, 144.\*

milk (see *Milk fat*)

oxidative deterioration, 201.\*

phospholipid, in soya bean phospho-

lides, 52.

requirement of calves, 222.\*

role in production of arteriosclerosis,

148.\*

Lipins (see *Lipids*)

Lipoic, lipotropic action (rat), 381.

Lipoic acid, metabolism, in tissue, 322.\*

Lipoid phosphoric acid, estimation in eggs

and noodles, 28.

Lipoproteins, in blood (see under *Blood*)

in cerebrospinal fluid, electrophoretic

study, 356.\*

in lymph (dog), 585.\*

Lipotropic substances (see also specific sub-

stances, e.g., *Choline*), 612.\*

effect on blood flow through liver, 882.\*

effect on portal fatty liver produced by

maize diet (rat), 863.

in liver extract (rat), 893.\*

trypsin as precursor, 108.\*

Lipoxygenase, in wheats, 50.\*

oxidation of carotene in presence of lipo-

enate, effect of hydrogen ion concentra-

tion, 529.

Lithium, influence on effect of pyruvate on

oxalate metabolism by tissue

slices, 167.

influence on fatty acid metabolism in

liver and kidney slices, 306.

Litter, deep, nutritional and sanitary pro-

perties, 470.\*

Liver: the entries are divided into two

groups:

(a) those relating to the liver as an

organ;

(b) those relating to liver as a food, or to

liver preparations as therapeutic

agent or source of vitamins.

For constituents such as Liver glyco-

gen, see *Oxygen in Liver*.

arginase activity, during fasting (guinea-

pig), 346.\*

botane transmethylease, effect of diet

(rat), 630.

carotenoid content (cow, ewe, frog, rat),

80.

cell(s), distribution of ascorbic acid (dog),

273.

number and composition, relation to

postnatal growth (rat), 122.\*

role in cholesterol metabolism (rat),

865.

size of nuclei, effect of protein intake

(rat), 601.

cell fractions, cholesterol content and

distribution (rat), 380.

effect of unsaturated fatty acid defi-

ciency (rat), 883.

nucleic acid and phospholipid contents,

effect of energy intake (rat), 107.

vitamin A distribution (rat), 61.

ceroid formation, in choline deficiency,

effect of anti-oxidants and fat (rat),

72.

cholesterol content (see under *Cholesterol*)

cholesterol formation from squalene,

150.\*

cholesterol formation, *in vitro*, 864.

composition, after partial removal, effect

of vitamin B<sub>12</sub> and growth hormone

(rat), 815.\*

effect of starvation (rat), 122.

L-cystic acid decarboxylase, effect of

vitamin B<sub>6</sub> deficiency (rat), 329.

L-cysteine sulphonic acid metabolism

(rat), 141.\*

## Liver disorders

and alcohol addiction, review, 922.\*  
and nutrition, biochemistry, 193.\*  
bile duct diseases, diet treatment, 690.\*  
blood circulation disease and cirrhosis, *Tamania* (man), 919.\*  
blood coagulation, effect of vitamin K<sub>1</sub> and Synkavit, 431.\*  
cirrhosis, choline in blood (man), 119.  
control of ascites (man), 689.  
copper metabolism (man), 854.  
deficiency dermatoses, 921.  
production by alcohol, 688.  
relation to protein deficiency in Indonesians, 195.  
riboflavin deficiency (man), 663.  
role of nutrition, 254.\*  
treatment, 440, 688.\*  
of ascites, with low-salt concentrated albumin, 440.\*  
with amino-acids (man), 439.  
with blood proteins, parenteral (man), 690.  
with cabbage, 218.\*  
with terramycin (man), 688.\*  
vitamin B<sub>12</sub> excretion (man), 430.  
damage, association with blood protein changes (man), 921.  
caused by carbon tetrachloride, role of sulphur amino-acids (rat), 255.\*  
in allyl formate poisoning, effect of vitamin B<sub>12</sub> (rat), 339.  
of nutritional origin, Malaya, 486.\*  
fatty liver (lamb), 988.  
cell structure, 612.\*  
clinical study (man), 440.  
effect of choline, lipocae, trypsin or inositol in low-protein diet (rat), 108.  
in alcoholism, treatment with vitamin B<sub>12</sub> and diet (man), 199.  
inhibitors in food, 377.\*  
metabolic disturbances, 612.\*  
oxygen uptake, *in vitro*, 627.\*  
portal type, production by maize (rat), 863.  
produced by antibiotics (man), 688.\*  
produced by cholesterol, effect of azo dye (rat), 149.  
effect of dihydrocholesterol (mouse), 866.  
effect on blood coagulation and complement titre (guinea-pig), 865.  
on essential fatty acid deficient diet (rat), 866.\*  
produced by diet, plasmalogen content (rat), 614.  
relation to choline oxidase in liver (rat), 167.  
relation to response to water load (mouse), 370.  
review, 612.\*  
produced by hormonal imbalance, review, 612.\*  
produced by maize diet and response to lipotropic substances (rat), 863.\*  
fibrosis, produced by carbon tetrachloride, effect of pantothenic acid (rat), 551.  
fructose metabolism (man), 131.  
glucose and galactose metabolism (man), 130.  
glucuronic acid excretion, 132.\*  
hepatitis, acute and chronic, treatment, review, 440.\*  
due to vitamin A deficiency (sheep), 784.  
in diabetes, contra-indication of low carbohydrate intake, 681.  
hepatolenticular degeneration, amino-aciduria and copper metabolism (man), 876.  
injury, effect of yeast and casein diet (mouse), 863.\*  
necrosis, and fibrosis, production by water (rat), 392.

## Liver disorders

necrosis, effect of food supply and fat intake (rat), 862.\*  
incidence on fat-free diet (rat), 862.  
liver co-enzymes (rat), 827.\*  
liver function (rat), 896.  
oxygen consumption of tissues (rat), 853.\*  
produced by diet (rat), 179.\*  
effect of cysteine, methionine or tocopherol (rat), 318.  
effect on glutathione and ascorbic acid in liver, blood and spleen (rat), 341.  
produced by mushroom diet (rat), 377.  
produced by protein deficiency (pig), 246.  
production and treatment by dietary protein (man), 439.\*  
production of calcium deficiency, 690.\*  
treatment, 688.\*  
with methionine (cattle), 246.  
tumours (see *Tumours*)  
Liver, enzymes, effect of lysine deficiency (rat), 826.  
effect of vitamin B<sub>6</sub> deficiency (mouse), 559.  
fat (see *Fat, liver*; *Lipids, liver*)  
fat content and enzyme activity, effect of threonine deficiency (rat), 607.  
fatty, distribution of lipids and sterols, 612.\*  
in birds destined for consumption, 718.\*  
in polikilotherms, 643.\*  
fatty acids (see under *Fatty acids*)  
fructose metabolism, normal and in diabetes (man), 131.\*  
fructose-1-phosphate metabolism, 131.\*  
Liver function  
and action of vitamin D, 69.\*  
effect of fat emulsions given intravenously (man), 375.  
effect of necrosis (rat), 896.  
mucinolysis tolerance test, 372.\*  
vitamin K load test (children), 676.  
Liver, glutathione (see under *Glutathione*)  
glycogen (see *Glycogen, liver*)  
growth factor, relation to growth factors in alfalfa and whey (chicken), 716.  
(vitamin B<sub>12</sub>), for chickens, 570.  
histology, effect of cobalt and vitamin B<sub>12</sub> (rat), 565.  
Liver homogenates  
alcohol oxidation, effect of diet (rat), 166.  
effect of fasting (rat), 393.  
D-amino-acid oxidase activity, effect of protein intake (rat), 166.  
cholesterol formation, effect of co-enzymes A (rat), 628.\*  
from carboxyl carbon of acetate (rat), 627.  
fat metabolism, effect of fat deficiency and fatty acids (rat), 166.  
formylfolate acid formation and breakdown, 93.  
fractions, fatty acids, unsaturated, effect of age and diet (rat), 611.  
vitamin A esterification and hydrolysis (rat), 62.  
vitamin B<sub>1</sub> pyrophosphate (rat), 547.  
oxygen consumption, effect of nicotinamide (rat), 554.  
vitamin B<sub>12</sub> and transmethylation, 815.\*  
Liver, in anaemia, iron deficiency, haemopathology (man), 943.  
iron uptake and storage (mouse), 160.  
isolated and perfused, carbohydrate metabolism (cat), 627.  
ketone bodies, metabolism, effect of lipocae (rat), 381.  
lipids (see *Lipids, liver*; *Fat, liver*)  
lipogenesis, and fatty acid metabolism, 883.\*

## Liver

manganese content, effect of methylthiourea (cattle), 358.  
nitrogen (see under *Nitrogen*)  
nucleic acids (see *Nucleic acids*)  
oxidation of Krebs cycle intermediates, effect of vitamin E deficiency, 787.\*  
phospholipids (see under *Phospholipids*)  
phosphorus compounds, effect of vitamin B<sub>6</sub> deficiency (rat), 82.  
plasma protein formation (rat), 627.  
protein (see *Protein, liver*)  
regeneration, effect of adrenocorticotrophic and adrenal cortical hormones (rat), 837.\*  
effect of cortisone and restricted food intake (rat), 642.  
role in assimilation of fructose given by vein (man), 368.\*  
role in fat transport, review, 144.\*  
Liver slices  
acetoacetate conversion to fatty acids, role of nutritional state (rat), 395.  
carbohydrate metabolism, effect of fasting and hormone deficiencies (rat), 395.  
cholesterol formation, effect of cations (rat), 396.\*  
effect of cholesterol intake and thyroid damage (rat), 614.  
effect of diabetes (rat), 628.  
choline oxidase activity, effect of diet (rat), 110.  
conversion of pteroylglutamic acid to citrovorum factor, 808.  
cortisone metabolism, effect of vitamin C intake (rat), 343.  
fat metabolism, effect of hyperglycaemic-glycogenolytic factor (rat), 627.  
fatty, oxygen uptake, 627.\*  
fatty acid formation (rat), 395.  
fatty acid metabolism, influence of sodium, potassium and lithium, 396.  
fatty acid oxidation, role of choline (rat), 396.  
formation of orotic acid, 396.  
glucose and fructose utilisation, normal and in diabetes (rat), 135.\*  
squalene and cholesterol formation from acetate (rat), 628.  
Liver, structural changes in starvation and refeeding (rabbit), 178.  
succinic dehydrogenase, inhibition by selenium (rat), 109.\*  
transaminase, effect of deoxypyridoxine (rat), 87.  
transamination, effect of vitamin B<sub>6</sub> (rat), 87.  
Liver vitamins (see under specific vitamins, e.g., *Riboflavin*; *Vitamin B<sub>12</sub>*)  
Liver, xanthine oxidase formation, role of molybdenum (rat), 162.  
zinc content (cattle), 588.  
Liver, dried, effect on growth inhibition by cortisone (rat), 791.  
Liver extracts  
anti-anaemia factors, estimation, 811.  
effect on anaemia produced by lead (rabbit), 99, 339, 564.  
effect on growth of mice on low-fat diet, 147.  
growth factor for yeast and hyperthyroid rats, 56.  
haemopoietic activity, estimation (mouse), 811.  
lipotropic action (rat), 393.\*  
treatment of anaemia, megalocytic (infant), 927.  
post-partum (woman), 201.  
treatment of liver cirrhosis (man), 440.  
treatment of liver injury (rat), 393.  
treatment of sores in piglets, 818.  
vitamin B<sub>12</sub> estimation, 335.

- Liver hydrolysate, effect on liver damage produced by carbon tetrachloride (mouse), 609.  
effect on liver regeneration and serum proteins after partial liver removal (rat), 820.
- Liver oils, fish (see under *Fish* and specific fish oils, e.g., *Cod liver oil*)
- Liver preparations, protective effects against thionuracil (rat), 838.
- Liver residue, for chickens on different types of diet, 465.
- Livestock (see also *Animals* and specific animals, e.g., *Cattle*)  
behaviour and grazing management, 945.\*  
cobalt requirements, 997.\*  
composition of live meat animals, estimation, 486.\*
- Livestock disorders  
bloat, relation to grazing behaviour, 479.\* 485.\* 721.\*  
heritability, 482.  
present situation and suggestions for improvement, U.K., 719.  
prevention, role of diet, 482.  
urinary calculi, new concept of etiology and possible prevention by hyaluronidase, 721.
- Livestock fattening, effect of thyroid and antithyroid compounds, 695.
- Livestock feeding  
antibiotics, 445.\*  
bacteria as protein supplement, 221.  
brewery residues, 946.\*  
cider apple residues, composition, 946.  
composition of available feedstuffs, Madagascar, 767.  
concentrates, review, 946.  
contribution of grazing, 691.\*  
dry matter intake, estimation, 38.  
effect of cyrogenetic compounds in plants, 724.\*  
eliminating waste, 696.  
hormones and thyroid active products, 947.  
minerals, 445.\*  
oestrogens, activity in tissues after slaughter, 695.  
production of roughage, Puerto Rico, 948.  
recent advances, 944.\*  
reed and reed grass silages, 444.  
urea, 693, 947.\*  
winter, silage, grass and arable, 696.
- Livestock, grazing, amount and digestibility of forage consumed estimated by internal and external indicator ratios, 486.\*
- husbandry, place in Norwegian agriculture, 985.  
hypothyroidism, Jugoslavia, 722.  
in America (U.S.), 1945-50, 474.\*  
metabolism, hormonal regulation, review, 836.\*  
nutrition, effect of antibiotics, mechanism, review, 695.\*  
mode of action of antibiotics, 337.\*  
recent advances, 944.\*  
role of molybdenum, 877.\*
- Livestock production  
and pasture quality, 445.\*  
Canada, seasonal variations, 101.  
efficiency, 441.\*  
New Zealand, 441.\*  
role of nutrition adviser, 696.\*  
U.K., 474.
- Livestock products, Canada, production, seasonal variations, 191.  
processing and preservation, recent results, 934.\*
- Livestock rearing in the Adamawa, French Camerouns, 696.\*
- Liveweight, recording, technique, 729.\*
- Longevity, and obesity, 218.\*  
effect of strain and diet (mouse), 892.  
effect of variations in nutrient composition of diet (rat), 729.\*
- Lotus (*Nelumbium speciosum*), rhizome, composition, 303.
- Lucerne (see *Alfalfa*)
- Lumbermen, food intake in competitions, 324.
- Luminal, effect on vitamin B<sub>6</sub> metabolism and diuresis (rat), 324.
- Lung disorders, oedema, effect of maize diet (man), 921.
- Lupin seed meal, for chickens, 971.
- Lupus (see *Tuberculosis, skin*)
- Lymph, thymicirons, composition (rat), 585.  
composition and flow during absorption (rat), 356.  
fatty acids, after absorption of phospholipids (rat), 857.  
lipids, composition, effect of fat digestion products (rat), 835.\*  
lipoproteins (dog), 585.\*
- Lymphocytes (see under *Blood, white cells*)
- Lyophilisation (see *Drying, freeze*)
- Lysine  
deficiency, effect on liver oxidases (rat), 826.  
food intake and utilisation, effect of energy content (poultry), 374.\*  
estimation, 25.  
in soya beans, effect of sprouting and cooking, 528.  
liberation from casein, effect of conditions of hydrolysis, 746.  
metabolism (dog), 855.  
role of pipicollic acid (rat), 856.  
related compounds, effect on growth of *Leuconostoc mesenteroides*, 406.  
supplement to cottonseed meal, for chickens, 462.  
supplement to maize and soya bean oil meal ration for pigs, 963.\*  
supplement to practical rations for pigs, 963.\*  
L-lysine, conversion to L-pipecolic acid (rat), 140.  
Lysozyme, in egg white, 770.\*  
L-Lyxoflavin, effect on growth (chicken, turkey), 85.
- Macaroni, discs, reducing groups and colour changes, 306.\*
- Mackerel (*Rastrelliger kanagurta*), fat content, relation to fat in plankton, 49.  
vitamin A and vitamin B complex components, 779.
- Madagascar, livestock feeds, composition, 767.  
pastures, botanical and chemical composition, 776.
- Magnesium  
deficiency, effect on energy exchange (calf), 128.\*  
on semi-synthetic milk diet (calf), 223.\*  
production by paracental fluid administration or in chronic alcoholism (man), 922.  
deprivation, effect on ducklings, 385.  
effect on hamsters, 385.\*  
effect of intravenous injection (cattle), 382, 968.  
effect on alkaline phosphatase activity, 577.  
effect on calcium utilisation, 729.\*  
effect on thiaminase from fish, 652.  
estimation, 750.\* 752.  
in milk, 31.  
in milk ash, 508.  
in urine, 281.
- Magnesium  
in blood, effect of potassium bicarbonate (sheep), 156.  
Europeans and Africans, West Africa, 355.  
low, in disease (man), 355.  
relation to ammonium sulphate fertiliser, 728.\*  
relation to botanical composition of pasture and fertiliser treatment (cow), 722.  
in insect haemolymph, relation to diet, 180.  
intake, effect on calcinosis syndrome (cotton rat), 871.  
metabolism, after gastrectomy (man), 863.\*  
and effect of deficiency (calf), 871.  
requirement during protein formation (rat), 871.  
requirement of calf, 871.  
for cows, 956.
- Maize  
amino-acids, effect of variety and nitrogen fertiliser, 299.  
and soya bean oil meal, substitution ratios in pig rations, estimation, 966.\*  
arousal content, natural, 775.\*  
biological value for rats, effect of added amino-acids, 137.  
 $\beta$ -carotene and carotenoids, effect of variety and altitude, Guatemala, 538.  
composition, Guatemala, 51.  
diet, protein value of rice supplement (rat), 901.\*  
relation to kerato-conjunctivitis and pulmonary oedema (man), 921.  
for lambs, effect of protein content, 958.  
for pigs, amino-acid supplements, 963.\*  
hybrid, performance tests in Europe and Mediterranean countries, FAO report, 251.\* 727.\*  
of high and low protein content, nutritive value for chickens and rats, 603.  
production of fatty liver, response to lipotropic substances (rat), 863.\*  
production of portal fatty liver (rat), 863.  
protein content, distribution in kernel, 299.  
treated with lime, production of nicotinic acid deficiency (man), 925.\*  
yellow, for pigs, carotenoids as source of vitamin A, 784.\*
- Maize bread, retention of B vitamins added to meal, 78.
- Maize cake, composition and digestibility, India (cattle), 692.
- Maize cobs, for cows, partial replacement of hay, 226.\*
- Maize flour, riboflavin content, 324.
- Maize meal, enrichment, America (U.S.) 415.  
with calcium, nicotinic acid and riboflavin, 485.\*  
with iron, vitamin B<sub>6</sub>, nicotinic acid and riboflavin, 486.\*  
with vitamin E, effect on growth (rat), 544.  
vitamin B complex components, effect of enrichment and cooking, 78.  
yellow, carotenoids, 60.
- Maize silage, for cattle, effect of supplements, 448, 954.\*  
for cows, 729.\*
- Maize starch, carbohydrate in synthetic milk for baby pigs, 710.  
growth factor for ducklings, 240.
- Malachite green, vitamin E activity, 71.\*
- Malaya  
adults, blood plasma protein, 353.  
calcium and phosphorus in blood of buffaloes grazing suspected deficiency areas, 486.\*

- Malaya  
haemoglobin survey of rural communities, 486.\*  
infants, birthweights, Chinese and Indian, 170.  
growth, Chinese, 170.  
kwashiorkor, 921.  
nutrition and health of Aborigines, 655.  
rice, composition, effect of soil, cultural conditions and variety, 486.\*  
Malic acid, estimation in fruit, 280.  
Malnutrition (see also *Deficiency diseases*) and eye disorders, Bantu, 193.  
blood serum proteins, cholinesterase and lipoproteins, Africans, 847.  
chronic, endocrine disturbances (man), 588.\*  
effect on nitrogen retention, Africans, 847.  
effect on phenolic acids excretion (rat), 58.\*  
effect on physique and blood picture, India, 254.\*  
in forced labour camps, clinical state, U.S.S.R., 104.  
in infants, relation of circulation and kidney function, 591.  
in infants and mothers, Joint FAO/WHO Expert Committee report, 485.  
in man, diagnosis (review article), 1.  
in old age (man), 413.  
in patients, observations, 920.\*  
with oedema, 838.\*  
malignant (see *Kwashiorkor*)  
social and medical problems, review, 193.\*  
with anaemia, choline in blood (man), 119.  
*Malpighia punicifolia* (see *Cherry*, West Indian)  
Malt, ragl, pyrophosphatases, 51.\*  
Mammals, body fat estimation, formulae, 702.\*  
Mammary gland (see also *Udder*)  
carotene and vitamin A transfer (cow), 67.  
cell fluid, fatty acid formation from acetate (rat), 829.  
cell fractions, fatty acids formation from acetate (rabbit), 187.  
dehydrogenase activity during pregnancy and lactation (rat), 576.  
effect of vitamin E (guinea pig), 72.  
endocrine control, 253.\*  
enzymes, effect of pregnancy, lactation and involution (rat), 826.  
fat, fatty acid composition (cow), 835.  
fat formation, *in vitro*, utilisation of glucose or acetate (rat, sheep), 628.  
fatty acids formation, *in vitro* (rat, sheep), 829.  
functional capacity (woman), 891.  
homogenates, carbohydrate metabolism, 167.\*  
homogenates and protein preparations, lactose formation, 628.  
isolated, fatty acid metabolism (cow), 629.  
lactating, acetate and glucose oxidation, *in vitro* (sheep), 167.\*  
metabolism, *in vitro*, 997.\*  
slices and homogenates, fatty acids formation (rat), 167.\*  
Mammes (*Mammea americana*) fruit, composition, 52.\*  
Manganese  
deficiency, in cattle in Netherlands, 480.  
in chickens, production of perosis, 722.  
in plants, Portugal, 775.  
effect on ovaries (rat), 389.\*  
in liver, effect of methylthiouracil (cattle), 358.  
in raspberry juice, 522.  
in seeds, 56.  
Manganese  
in vegetable foods, relation to vitamin C content and occurrence of goitre, 438.  
requirements of chickens, effect of auro-mycin, 86.  
Mango-seed meal, for chickens, 238.  
Mangolds, production of acid indigestion (sheep), 985.  
*Manihot utilisima* (see *Cassava*)  
Manioc (see *Cassava*)  
Manure (see *Fertilisers*)  
Maro(e)  
breeding efficiency, Brazil, 445.  
breeding, for milk production, 446.\*  
milk, amino-acids, 45.  
fermented (koumiss), production, 221.  
vitamin A content, 67.  
vitamin C content, 107.  
Margarine  
carotene and vitamin A, effect of storage temperature, 309.  
detected in butter, 508.  
recommended vitamin standards, 528.  
skimmed milk and buttermilk as antioxidants, 39.  
vitamin A, effect of storage temperature, 308.  
stability, Canada, 309.  
Marmot (*Marmota flaviventris*), blood circulation and composition, effect of cold and hibernation, 365.\*  
Marrow, bone  
aspiration, monkey, 37.\*  
cells, iron uptake, *in vitro* (poultry), 630.  
changes in dimorphic anaemia, 687.  
cytochemical changes in subjects without pernicious anaemia, effect of high intake of vitamin B<sub>12</sub>, 686.  
effect of folic acid deficiency (chicken), 800.\*  
effect of vitamin B complex deficiencies (rat), 74.  
histology in anti-anaemia factor (intrinsic) deficiency (man), 670.  
in anaemia, iron-deficiency, histopathology (man), 942.\*  
iron stores in anaemia and other diseases (man), 876.  
Masai (see under *Kenya*)  
Mawa (see under *Milk, evaporated*)  
Mealie cob meal (see *Maize cob meal*)  
Meals, factory, pattern, Australia, 913.  
Mealworm, larvae, effect of DL-diaminoptine, 569.  
growth inhibitor in soya beans, 901.  
*Tenebrio molitor*, larvae, vitamin B<sub>12</sub> deficiency, 819.  
Meat (see also specific meats, e.g., *Pork*)  
amino-acids, 296.  
carcass composition (see under *Pigs: etc.*)  
composition, bulls treated with diethylstilboestrol, 772.\*  
consumption, Canada, effect of price of beef and pork, 191.  
Pesceara, Italy 1951, 915.  
cooking, loss of juice, 40.  
demand in Canada, 478.\*  
dried, chemical and histological characteristics, 47.\*  
fat peroxide, estimation, 504.  
for infants, as substitute for milk, 184.  
from lambs fed on DDT, effect on rats, 179.  
frozen, defrosted, losses by drip, 254.\*  
lean, estimation in bacon carcasses, 755.  
pre-cooked, use in institutions, 415.\*  
production, French Central Africa, 478.\*  
residual hormone content, after treatment of cattle with synthetic oestrogens, 772.  
ripeness, effect on stomach secretion and motility (dog), 828.  
Meat products, detection of horsemeat, 34.\*  
Meat scraps, for chickens, with antibiotics, vitamins and other supplements, 235.  
for pigs, 230.  
Medical research, methods, Volume 6 (book), 993.\*  
Medicine, annual review (book), 251.\* 992.

amino-acid requirements, 604.  
Bantu, physiological efficiency, 593.  
old and young, protein metabolism and basal metabolic rate in starvation, 561.  
requirement for riboflavin and vitamin B<sub>12</sub>, 254.\*  
young, capacity for work, 593.  
Menière's disease, treatment with vitamins (man), 662.  
Menopause, climacteric syndrome, treatment with vitamin E (woman), 198.  
Menstrual cycle, effect on serum vitamin A (woman), 420.  
Mental disorders, retardation, physiology and pathological anatomy, 691.  
treatment with vitamins, 922.\*  
Merkor grass (*Pennisetum purpurascens*) and silage, for cows, 226.  
Metabolism (see also under specific headings, e.g., *Calcium metabolism*)  
basal (see under *Energy exchange*)  
changes after injury (man), 600.\*  
experiments, long term, technique (rat), 759.  
studies, apparatus (see under *Apparatus*)  
total, after parturition or pseudo-parturition (mouse), 400.  
Metal(s) (see also *Minerals* and specific metals, e.g., *Copper*)  
heavy, combination with pteridines, purines and riboflavin, 84.  
trace, estimation, 30.  
Methaemoglobin, in blood, production by high nitrate content of wall water (livestock), 985.\*  
reversion, in red blood cells, 882.  
Methanol, estimation in biological fluids, 749.\*  
Methionine  
added to wheat ration, for chickens and turkey poult, 236.  
and hydroxy analogue, equivalence for growth (chickens), 855.\*  
antibiotics and fish products, interrelationships, 463.\*  
deficiency, signs (rat), 855.\*  
deprivation, effect on nitrogen balance (rat), 608.  
distribution of sulphur in tissues after injection (chicken), 878.  
effect of addition to casein (rat), 253.\*  
effect on biological value of soya bean meal (rat), 139.  
effect on blood cholesterol (rabbit), 614.\*  
effect on blood lipoproteins (man), 605.  
effect on composition of weight gain due to terramycin (rat), 373.  
effect on fat metabolism in liver (rat), 863.  
effect on growth (rat), 855.\*  
effect on growth and wool production (lamb), 706.  
effect on growth of turkeys on all-vegetable ration, 463.  
effect on nitrogen absorption from soya bean meal (rat), 137.  
effect on rhodospin regeneration and dark adaptation (man, toad), 781.  
effect on riboflavin, nicotinic acid and xanthine oxidase in liver (rat), 815.\*  
effect on sunlight flavour in milk, 39, 799.  
estimation, 543.  
in feedstuffs, 746.

## Methionine

- excretion, in children, 138, 372.\*  
for chickens, 236.  
for infants, effect on growth, 372.  
for poultry, review, 236.\*  
formation, by chicken, 855.\*  
from glycine, serine or formate, effect of vitamin B<sub>12</sub> (rat), 97.  
from labelled sodium sulphate, 856.\*  
hydroxy analogue, effect on feed utilisation (chicken), 973.  
in yeasts, 303.  
incorporation of sulphur into ergothioneine in semen (boar), 140.  
intake, effect on glutathione content of blood red cells (rat), 354.  
metabolism (rat), 865.\*  
effect of diet (hen, pig), 608.  
effect of protein and tryptophan intakes (laying hen), 854.  
role in vitamin B<sub>12</sub> protection against choline deficiency (rat), 98.  
supplement to maize and soya bean oil meal ration for pigs, 963.\*  
supplement to practical ration for pigs, 963.\*  
supplement to rations of chickens, 461, 462, 973.  
treatment of lead anaemia, 217.\*  
treatment of metabolic and liver disorders (cattle), 246.  
utilisation for hair formation, effect of route of administration (guinea pig), 855.  
DL-Methionine, effect on growth on diets high in raw soya beans (chicken), 320.  
effect on liver necrosis, when given by mouth or vein (rat), 313.  
transformation to guanidoacetic acid, *in vitro*, activation by vitamin B<sub>12</sub>, 81.  
with or without vitamin B<sub>12</sub> and penicillin, effect on growth (chicken), 462.  
Methionine sulphone, metabolism (rat), 609.  
Methyl alcohol (see *Methanol*)  
Methylation (see also *Transmethylation*)  
effect of folic acid (mouse), 562.  
Methyl groups, donor, racemic dicarbitate (rat), 370.  
formation from glycine, effect of vitamin B<sub>12</sub>, 815.\*  
labile, compounds furnishing requirements of poultry, 997.\*  
deprivation, production of liver lesions, effect of vitamin B<sub>12</sub> (rat), 818.\*  
formation, and folic acid, 254.\*  
effect of methyl groups in diet (rat), 392.  
role of vitamin B<sub>12</sub>, betaine and homocysteine (chicken), 97.  
Methyl ketones, estimation, 279.\*  
Methyl linoleate, auto-oxidation, effect of vitamins and anti-oxidants, 527.  
α-Methyl-β-alanine (see *β-Aminoisobutyric acid*)  
3: 3'-Methylene-bis (4-hydroxycoumarin) (see *Decoumarol*)  
Methylene blue, effect in biotin deficiency (rat), 91.  
Methylglyoxal excretion, effect of vitamin B<sub>12</sub> deficiency (rat), 797.  
Methylthiourea (see *Thiourea*, methyl-)  
Mexico, goitre, endemic, prevention by iodine (man), 215.  
Microbiology, annual review (book), 483.\*  
in digestion (farn animals), 403.\*  
Micro-organisms (see also *Bacteria* and specific micro-organisms)  
digestive tract, role in nutrition, 253.\*  
effect of coriariae and derivatives in absence of pteroylglutamic acid or citrovorum factor, 564.

## Micro-organisms

- growth, riboflavin-like effect of pteridine, 799.\*  
in digestive tract of pigs, 728.\*  
in faeces, effect of antibiotics (turkey poult), 978.  
effect of chloromycetin mycelium and vitamin B<sub>12</sub> (pig), 966.  
intestine (see under *Intestine*)  
metabolism, effect of folic acid and related compounds, 93.\*  
mouth, sugar oxidation (man), 638.\*  
role in digestive tract of herbivores, review, 403.\*  
rumen (see under *Rumen*)  
saliva (see under *Saliva*)  
Middle East, social development, rural 653.\*  
Milk(s): all entries refer to cow's milk unless otherwise stated (see also *Butter*; *Buttermilk*; *Casein*; *Cheese*; *Colostrum*; *Lactation*; *Lactose*; *Udder*; *Whey*)  
acid, effect on digestion and absorption (dog), 113.  
acidic, estimation, 754.  
alkaline phosphatase, association with particulate lipoprotein complex and purification, 294.  
amino-acids (cow, ewe, mare, sow), 45.  
ascorbic acid, dehydroascorbic acids, effect of handling and storage, 344.  
ashing, reaction of sodium carbonate and calcium phosphate, 281.  
bacterial spoilage, effect of saffron and nutmeg, 290.  
bitch, iodinated protein, 518.  
breast (see *Milk*, human; *Lactation*; *Infant feeding*, breast)  
buffalo, composition and quality, 45.  
solids-not-fat content, 293.  
vitamin B complex components, effect of sunlight, 78.  
bulk, density, 769.\*  
calcium secretion, radio-active study, 153.\*  
camel, composition, use in cheese making, 518.  
carbohydrates, 768.  
carotenoid and vitamin A, effect of alfalfa pellets for cows, 784, 955.  
certified, arrangement of distribution for children and infants, Denmark, 914.\*  
chlovdane and toxaphene content when cows ingest these substances, 296.\*  
chlorine: sugar ratio, relation to physico-chemical properties, 517.  
chromatographed, for calves, 222.\*  
churned and curdled, analysis, 34.  
coagulation by rennet, 376.\*  
Milk, composition, 45.\*  
effect of adrenocorticotrophic hormone, 723.\* 838.  
effect of age, 729.\*  
effect of high plane of nutrition, 227.\*  
effect of humidity, 450.  
effect of low protein intake, 225.  
effect of thyroxine (buffalo), 954.  
Friesian cows, 517.  
night and morning, 729.\*  
relation of fat, lactose and protein, 729.\*  
research in France, 293.\*  
Milk, composition and yield  
effect of 3: 5: 3'-triiodothyronine and thyroxine, 581.  
effect of underfeeding, 225.  
Milk, condensed, nutritive value, 45.\*  
constituents, formation from injected propionate, 147.  
Milk, costs, quality and price, America (U.S.), 915.\*  
digestion after stomach resection (man), 345.  
Milk, dried  
calcium content, availability for rats, 153.

## Milk, dried

- chemical changes during storage, 39.\*  
keeping quality, effect of fat content, 39.\*  
nutritive value, 45.\*  
skimmed, effect of addition of lysine on protein metabolism (rat), 728.  
effect on incidence of tooth caries, influence of processing (rat), 179.  
nutritive value for dogs, effect of heat, influence of water content, 136.  
reconstituted, relation between pH and titratable acidity during lactic acid fermentation, 518.\*  
reconstitution, 763.\*  
Milk, effect of addition of fluorine on dental caries, 434.  
effect of light, 295.\*  
effect of methods of pasteurisation and storage temperature, 512.  
effect on loss of skeletal weight during lactation (rat), 636.  
Milk, evaporated  
fat, effect on protein formation (infant), 647.  
for infants, 183.  
homogenisation, fat separation and viscosity tests, 503.\*  
loss of protein value after sterilisation (rat), 849.  
Milk, ewe  
composition, India, 769.  
Poland, 518.  
morino, yield and length of lactation, 957.  
vitamin B complex content, effect of ration, 77.  
Milk, fat (see also *Butterfat*)  
relation to vitamin A content, effect of shark liver oil, 97.  
contribution of stearic acid, 891.\*  
deterioration, role of ketones, 512.  
effect of special roughage diets, 227.\*  
formation, 492.\*  
globule membrane proteins, amino-acids  
composition, 294.  
Holstein-Friesian cows, breeding for increase, 997.\*  
iso-cleic acids (buffalo, cow), 46.  
production at first lactation, relation to age at first calving and production life, 957.\*  
unsaturated fatty acids, fractionation and isolation, 769.  
vitamin A content, effect of shark liver oil, 97.  
whale, fatty acid composition, 46.  
Milk, fat content  
effect of level of roughage intake (ruminant), 253.\*  
relation to blood lipids, 174.  
relation to protein content, 44, 768.  
Milk, fermented, composition, Brazil, 296.\*  
for infants, 183.\*  
in whale, composition, 519.  
Milk, flavour  
due to indole and skatole, caused by *Lactobacillus* spp. (cow, goat, sheep), 295.  
effect of grazing *Ischaemum aristatum*, L., 724.\*  
effect of light, 295.\*  
effect of methionine and riboflavin, 799.  
effect of ragweed or wild onion in silage, 765.  
methionine as cause, 29.  
oxidised (see *Milk, oxidised flavour*)  
Milk, for infants, from cows given brewer's grains or silage, 226.  
fortification, review, 914.\*  
freezing point, estimation, 271.\*  
variation, 293, 769.\*  
frozen, estimation of protein denaturation, 745.  
stability, effect of freezing rate, 763.  
Milk, glucosamine (cow, woman), 44.

- Milk, goat, composition, India, 769.
- Milk, growth factor for *Lactobacillus bifidus*, 639.
- identity, 640.
- heat treatment in bottle, 763.\*
- heated, lactose reaction with protein, 39.\*
- hippuric acid content, 294.
- Milk, human
- abnormal substances, excretion, 411.
  - adultulation tests, 34.\*
  - amino-acids, 293, 517.
  - carbohydrates, 768.
  - composition, and yield, diurnal variation and variation during a feeding, 516.
  - New Hebrides, 44.
  - South African Bantu, 996.\*
  - effect of methods of pasteurisation and storage temperature, 512.
  - fractions, effect on virus multiplication, 637.\*
  - growth factor(s) for *Lactobacillus acidophilus* and *L. bifidus*, 293.
  - neuraminic acid content, 293.
  - nicotinic acid content, effect of high maize diet, Bantu, 661.
  - oligosaccharide, nitrogen-containing, 44.
  - preservation by freeze drying, effect on composition and antibacterial properties, 39.
  - protein and sulphur amino-acid content, India, 768.
  - transmission of radio-active iodine, 621.
  - vitamin B<sub>1</sub>, 486,\* 925.
  - vitamin B<sub>2</sub>, 604.
  - vitamin B<sub>6</sub> activity, 339.
  - vitamin B<sub>12</sub>, 254.\*
- Milk, humanised preparations, protein component, analysis, 646.
- intake, relation to fluorine in tissues (woman), 620.
- iodine content, effect of season and stage of lactation, 294.
- irradiated, vitamin D content, 787.\*
- lactose and minerals content, effect of stage of lactation, 45.
- lactones (see *Buttermilk*)
- lipoprotein particles, 768.
- Milk, mare
- fermented (koumiss), production, 221.
  - vitamin A content, 87.
  - vitamin C content, 107.
- Milk, mineral content, relation to minerals in pasture, 45.
- nutritive value, effect of processing (rat), 641.
- oxidised flavour, effect of hay and silage, 632.
- penicillin content after intramammary infusion, 769.\*
- physical properties, effect of stage of lactation, 517.
- potassium content, 284.
- Milk, powder (see *Milk, dried*)

 Nitrogen excretion  
 after stomach removal, effect of surface-active agent (dog), 134.  
 changes during stress, relation to thyroid, 142.\*  
 during nitrogen deprivation, effect of ethanol (rat), 602.  
 effect of burns, relation to thyroid (rat), 359.  
 effect of injury and oestrogen (rat), 135.  
 in black snake embryo, 408.\*  
 in vitamin B<sub>3</sub> deficiency (rat), 803.\*  
 Nitrogen, for rumen micro-organisms, urea and protein as sources, 895.\*  
 in cheese during ripening, 770.  
 in chickpea (*Cicer arietinum*), effect of season and variety, 61.  
 in feedstuffs, conversion to microbial nitrogen in rumen (sheep), 143.  
 in foetus, human, accumulation, 884.  
 in hair (cattle), 836.\*

## Nitrogen

- in lespedeza hay and wheat grain, digestibility, effect of calcium fertiliser and stage of maturity (rabbit), 219.  
 in liver, effect of fasting and of dietary protein source (rat), 134.  
 in peas, effect of environment, 302.  
 inorganic, with or without aureomycin, effect on growth and feed utilisation (chicken), 466.  
 intake, from rations low in nitrogen, protein utilisation (poultry), 369.\*  
 metabolic fission, estimation (rat), 846.  
 Nitrogen metabolism  
 after stomach removal (man), 868.\*  
 effect of amino-acid diets low in histidine (rat), 857.\*  
 effect of animal-protein factor or of terramycin with fishmeal (chicken), 238.  
 effect of burns (rat), 851.  
 effect of carbohydrate source (rat), 601.  
 effect of ceruleus (bullock), 847.\*  
 effect of diet (rat), 372.  
 effect of diets lacking methionine or histidine (rat), 608.  
 effect of fat intake (rat), 847.\*  
 effect of fruit (rat), 369.  
 effect of protein-low diet (rat), 253.\*  
 effect of restricted energy, protein and water intakes (man), 600.  
 estimation in man, 289.  
 in cattle, seasonal variation, 870.\*  
 in infants, effect of glucose and fructose, 366.  
 in lambs on high sodium chloride intake, 959.\*  
 in muscle, *in vitro*, normal and in vitamin B deficiency (hamster), 71.  
 in normal subjects and patients with Cushing's syndrome, relation to protein intake, 847.  
 in old age, review (man), 637.\*  
 in potassium deficiency (rat), 157.  
 in pregnancy and lactation (rat), 890.  
 in rats, protein requirement for equilibrium, 848.  
 in silkworm during embryonic development, 900.  
 prediction of faecal nitrogen (man), 847.  
 relation to energy and protein intakes (man), 847.\*  
 Nitrogen, non-protein (see also *Purines*; *Urea*)  
 for lambs, effect on blood urea and ammonia, 857.\*  
 in blood, effect of high protein intake (man), 183.  
 in fish, 814, 794.  
 of normal and branched-chain fatty acids, metabolism (dog), 800.  
 utilisation by rumen micro-organisms, *in vitro*, effect of antibiotics, 405.  
 Nitrogen, requirements of animals, 997.\*  
 reserves, effect of carbohydrates (man), 847.\*  
 Nitrogen retention  
 after protein depletion and calorie restriction, effect of fat (rat), 847.\*  
 by surgical patients treated with protein hydrolysates, need for supplementation with potassium, 436.  
 effect of different levels of protein and starch in diet, 998.\*  
 effect of different sources (sheep), 996.\*  
 effect of energy and potassium intake (man), 599.  
 effect of low iron retention (man), 875.\*  
 effect of malnutrition (man), 847.  
 effect of rumen inoculations and ratios of hay to grain (calf), 223.\* 697.  
 effect of sulphur (sheep), 161.  
 in old age, effect of calcium intake (man), 151.  
 in pregnancy (rat), 173.

## Nitrogen retention

- in pregnancy, effect of energy and protein intakes (rat), 848.  
 in ruminants, effect of stilboestrol, 694.  
 on casein or methionine-supplemented casein diet (dog), 847.\*  
 on poor rice diet, effect of tapioca (man), 599.  
 Nitrogen, total, estimation in serum and urine, 500.  
 urinary, partition on vegetable and animal protein diets (man), 253.\*  
 utilisation, from amino-acid mixtures (rat), 853.\*  
 Nitrogen fertiliser, and improvement of Lothian seeds hay, 304.  
 effect of late applications on composition and yield of grass, Republic of Ireland, 304.  
 effect on composition and yield of spring oats, U.K., 300.  
 effect on yields of dry matter and nitrogen from a ryegrass-white clover sward, 524.  
 Nitrogenous compounds, in blood, effect of weaning (foal), 528.  
 utilisation by rumen micro-organisms, 895.\*  
 Nitrogenous constituents, blood serum, effect of age (horse), 117.\*  
 Nitrogen-free extract, estimation in roughage, 743.\*  
 Non-protein nitrogen (see *Nitrogen, non-protein*)  
**Norway**  
 agriculture, place of animal husbandry, 985.  
 pastures, composition and yield, effect of copper and molybdenum, 825.  
 pigs, progeny testing, 234.  
 production and marketing of potatoes, 720.  
 reindeer production, 234.\*  
 Nucleic acid(s)  
 changes after feeding butter yellow, effect of vitamin A deficiency (rat), 66.\*  
 deoxyribo-, estimation in plant extracts, 29.\*  
 formation by *Laetobacillus casei*, effect of aureomycin, with or without folic acid and vitamin B<sub>12</sub>, 819.  
 in liver cell, relation to postnatal growth (rat), 122.\*  
 in liver cell fractions, effect of energy intake (rat), 167.  
 in nervous, effect of vitamin B<sub>12</sub> deficiency (rat), 551.  
 pentose and deoxyribose, in pancreas and adrenals, effect of protein deprivation, 602.\*  
 thymo-, with adenine, effect on folic acid deficiency with Rous sarcoma (chicken), 336.\*  
 Nucleotides, di- and triphosphorylridine, estimation in green leaves, 755.  
 pyridine, formation from senecioninamide or tryptophan by blood red cells, *in vitro* (man), 86.  
 in blood, effect of diet (man), 834.\*  
 in tubercle infection (guinea pig), 654.  
 removal from vitamin B<sub>12</sub>, 812.\*  
 Nutmeg, effect on bacterial spoilage of milk preparations, India, 290.

study in "underdeveloped" countries,  
652.\*  
use of proteins and protein hydrolysates,  
680.\*  
Nutritional deficiencies, effect on bones  
(young rat), 254.\*  
Nutritional state  
adolescents and pre-adolescents, 997.\*  
and diet study, America (U.S.), women,  
during and after pregnancy, 910.  
India, children, 192, 618.  
Iraq, infants and young children, 411.  
Nutritional state assessment  
measurement of serum alkaline phos-  
phatase in adolescents, 917.\*  
measurement of thigh girth (man), 916.  
Nuts (see also specific nuts, e.g., *Walnuts*)
- Oat(s)  
and mixed concentrate, digestibility,  
effect of texture (ruminant), 945.\*  
crosses, heritability of nicotinic acid,  
riboflavin and protein, 801.  
spring, composition and yield, effect of  
nitrogen fertiliser, 300.  
vitamin B complex components, effect  
of variety and location, 321.  
Oat lipase, 300.  
Oat silage, digestibility, 729.\*  
Obesity  
amenorrhoea, effect of weight reduction  
(woman), 690.  
and longevity, 218.\*  
assessment and results, 690.\*

## Obesity

- clinical aspects, 690.\*  
effect of weight reduction on blood lipo-  
protein and cholesterol (man), 118.  
emotional factors and weight reduction,  
653.\*  
energy exchange (man), 440.  
etiology, 218.\* 440.\*  
fat metabolism (mouse), 860.\*  
group treatment (woman), 218.  
hereditary or produced by gold thioglu-  
cose, effect of growth hormone or  
insulin (mouse), 611.  
in children, 218.\*  
clinical study, 417.  
physiological causes, 440.  
in mice, effect of fat intake on energy  
and oxygen consumption, 366.  
in mother, relation to foetal abnormali-  
ties (woman), 173.\*  
in pregnant women, and diet, effect on  
birthweight and length of infants,  
889.  
incidence, etiology and treatment, 218.\*  
pathology and physiology, 920.\*  
produced by gold thioglucose, dietary  
dilution studies (mouse), 179.\*  
psychosomatic origin, 690.\*  
treatment, during pregnancy (woman),  
690.\*  
group approach to weight reduction,  
943.\*  
history, 943.\*  
with unrestricted energy intake, 440.\*  
with diabetes, inherited, cholesterol in  
blood (mouse), 611.  
*Ochromonas malhamensis*, specificity for  
assay of cyanocobalamin, 334.  
Octanoate, metabolism by tissue slices,  
effect of pyruvate with or without  
potassium and lithium, 107.  
*Octopus* spp., salivary gland secretions,  
antamine, octopamine and tyra-  
mine, 644.  
*Octopus vulgaris*, alkaline phosphatase in  
tissues, 400.\*  
Oedema (see also *Dropsy, epidemic*)  
blood serum albumin, disappearance  
from circulation (man), 584.\*  
disturbance of electrolyte metabolism,  
943.  
dystrophic, in infants, 195.  
exchangeable sodium (man), 617.\*  
nutritional, and blood plasma esterase  
and lipase (children), 253.\*  
and rehabilitation, changes in basal  
metabolism (man), 839.  
body composition, disturbances in elec-  
trolyte metabolism, pathogenesis  
and histopathology (man), 253.\*  
electrolyte studies (man), 385.  
in children, India, 418.\*  
in infants, 195.  
in men, effect on body composition,  
195.  
India, cause (man), 658.  
occurrence in malnourished patients,  
symposium, 195.\*  
treatment, 441.\*  
(book), 483.  
with cation exchange resins (man),  
619.  
Oestrogens (see *Hormones, sex*)  
Oestrus, effect of protein-low diet (rat),  
653.\*  
Oil(s) (see also *Fats and oils; Lipids*; and  
specific oils, e.g., *Olive oil*)  
*Cruciferae*, identification and estimation  
in edible oils, 504.\*  
fish liver (see *Fish liver oil* and specific  
liver oils, e.g., *Cod liver oil*)  
groundnut and mustard, storage, solu-  
tion of zinc from galvanised con-  
tainers, 513.

## Oil(s)

- intake, effect on metabolic pattern of  
aorta (rabbit, rat), 868.\*  
nutritive value, 610.\*  
*Sapindus saponaria* seed, composition,  
523.  
toxic, production of dropsy (man), 679.  
vegetable, development of peroxides on  
storage, 291.\*  
for calves, comparison with butterfat,  
222.\*  
growth factors for chickens, 240.  
volatile, in grapefruit juice, 53.\*  
Oil mixture, test for erucic acid, 277.\*  
Oileaks, as feeds, 445.\*  
Old age (see also *Ageing*)  
amino-acids absorption (man), 348.  
anaemia, pernicious, 942.  
ascorbic acid in blood (man), 204.  
blood composition and nitrogen and  
mineral metabolism, effect of cal-  
cium intake (man), 151.  
blood lipids, fractions (man), 145.  
blood picture (man), 892.  
blood uric acid, sex difference (man),  
354.  
calcium and phosphorus metabolism  
(man), 151.  
calcium retention, effect of vitamin D  
(man), 432.  
chronic constipation, effect of pantothe-  
nic acid alcohol, 926.  
creatinine excretion, effect of  $\alpha$ -tocopherol  
(man), 659.  
diet (man), 181.  
diet study, America (U.S.), 910.  
effect of vitamin B<sub>6</sub>, 665.  
iodine, radio-active, excretion (man),  
387.  
malnutrition (man), 413.  
nitrogen balance, review (man), 637.\*  
nutrition, clinical correlations, 418.\*  
*Olea europaea* (see *Olive*)  
Oleic acid, absorption, and chylomicron  
count (dog), 609.  
iso-, in milk fat (buffalo, cow), 46.  
Oligosaccharides, and sugars, separation,  
identification and estimation by  
circular paper chromatography, 20.  
nitrogen-containing, in human milk, 44.  
Olive (*Olea europaea*), composition, 53.  
Olive oil, effect on growth in vitamin E de-  
ficiency (rat), 71.  
vitamin E content (rat), 542.  
Onion (*Allium cepa*), composition, 53.  
production of anaemia (dog), 99.  
(rat), 640.  
wild, in silage, effect on milk flavour  
(cow), 705.  
Onyala (see under *Purpura, thrombocyto-  
penia*)  
Operations (see *Surgical patients*)  
Opssum, blood serum proteins, electro-  
phoresis, 118.  
Orange, peel oil, effect in relation to allergy  
(man), 438.  
Orange juice, intradermal tests (children),  
937.  
lipid, composition, effect of storage, 53.  
effect of pasteurisation, 53.  
Organic acids, in pasture grasses, 775.  
in sugar beet, fractionation by ion ex-  
change resin, 280.  
Organic matter, destruction before analysis,  
741.  
Organs, weight, changes in surgery, effect of  
exercise (guinea-pig), 163.  
effect of sodium chloride intake (rat),  
874.\*  
effect of underfeeding or vitamin B<sub>6</sub>  
deficiency (rat), 323.  
Orotic acid, effect on growth (mouse), 393.  
effect on growth of chickens and turkey  
poult, 974, 975.\*  
formation in liver slices, 396.

- Oryzatoxin, effect on co-carboxylase in liver and muscle (pigeon), 550.  
*Osteitis fibrosa* (see under *Bone disorders*)  
*Osteomalacia* and *Osteoporosis* (see under *Bone disorders*)
- Ovary**  
 ascorbic acid content (sow), 824.\*  
 effect of oestrous cycle (rat), 105.  
 carotenoid content (cow, ewe, frog, rat), 66.  
 fat and cholesterol formation, *in vitro* (hen), 166.\*  
 Ovumucoid, from duck's eggs, effect on protein digestion, 676.  
 Oxalate, in pasture plants, Australia, 55.  
 intake, effect on serum alkaline phosphatase (rat), 110.  
 Oxalic acid, effect on calcium availability, 729.\*  
 effect on man, 729.\*  
 estimation in plants, 280.\*  
 excretion, effect of ascorbic acid (man), 673.  
 in foods, 298.  
 Oxidase, *p*-amino-acid, in blood (domestic animals), 110.\*  
 in liver and kidney, effect of protein intake (rat), 166.  
 choline, in liver, relation to fatty liver produced by diet (rat), 167.  
 in liver and kidney, effect of diet (rat), 110.  
 fatty acid, from adipose tissue (chicken), 827.  
 in liver, effect of lysine deficiency (rat), 826.  
 in parsnips and potatoes, inactivation by cooking, effect on ascorbic acid, 103.  
 lipid (see *Lipoidase*)  
 tyrosine, in liver, co-enzymes (rat), 109.  
 xanthine, effect of vitamin E deficiency (rabbit), 540.  
 estimation in animal tissues, 753.\*  
 factor, in foods, 293.  
 formation, in liver and intestine, role of molybdenum, 162.  
 in Chelonia, relation to nitrogen and purine metabolism, 900.\*  
 in liver, effect of carbohydrate source (rat), 601.  
 effect of vitamin B<sub>12</sub> and methionine (rat), 812.\*  
 relation to dietary protein (rat), 826.  
 in liver and intestine, effect of protein, molybdenum, riboflavin and energy intake (rat), 326.  
 in tortoise tissues, relation to habitat, 179.  
 relation to molybdenum (cow), 346.  
 (rat), 877.  
 synthesis, *in vitro*, effect of folic acid and aminopterin, 254.\*  
 Oxidation, biological, review, 108.\*  
 Oxygen  
 consumption (see *Tissue respiration* and under *Energy exchange*)  
 lack (see *Anoxia*)  
 poisoning, effect on ascorbic acid in adrenals, 574.\*  
 therapy, for premature infants, relation to retrolental fibroplasia, 654.  
 toxicity, effect of vitamin E deficiency (rat), 72.\*  
 Oyster, calcium deposition in shell, 181.
- pn** (see *Hydrogen ion concentration*)  
 Palm oil, red, *p*-carotene content, Venezuela, 534.  
 Panama, dietary allowances (man), 908.\*  
 foods, composition, 768.\*  
 serum protein values, interpretation (man), 833.\*
- Pancreas**  
 effect of ascorbic acid (guinea pig), 573.  
 effect of diet producing fatty liver (rat), 377.  
 effect of protein deficiency (rat), 851.  
 function, estimation, 289, 767.\*  
 hyperglycaemia factor, 130.\*  
 insulin content (man), 360.\*  
 juice, role in digestion of triglycerides, review, 580.\*  
 lipotropic substances (see *Lipotropic substances*: *Lipocate*)  
 removal, effect on dehydrogenation of fats by bile (dog), 349.  
 effect on fructose utilisation when given by vein (man), 366.\*  
*Panicum purpurascens* (see *Para grass*)  
*Panicum virgatum* (see *Switch grass*)  
 Pantothenate, calcium, estimation, 89.  
 Pantothenic acid (see also *Co-enzyme A*) and adrenal function, 805.\*  
 and vitamin B<sub>12</sub>, interrelation in metabolism of *Bact. coli*, 565.\*  
 combined form, in liver, heart and kidney, liberation and separation (rat), 331.  
 deficiency (guinea pig), 805.  
 adrenal function (rat), 805.\*  
 and blood pressure, high, experimental (dog), 90.  
 effect of antibiotics on growth (rat), 91.  
 effect on antibody production (rat), 331.  
 effect on content in maternal livers and on foetus (rat), 560.  
 effect on duodenal mucosa (rat), 90.  
 effect on intestinal motility (rat), 561.  
 effect on pituitary and adrenal (rat), 90.  
 effect on resistance to bacterial infection (rat), 805, 806.  
 effect on seminal vesicles (mouse), 806.\*  
 growth and antibody production, effect of antibiotics (rat), 331.  
 effect on blood sugar, influence of altitude (man), 664.  
 effect on bodyweight during refeeding after a fast (rat), 544.  
 effect on liver fibrosis produced by carbon tetrachloride (rat), 561.  
 effect on resynthesis of adrenal cholesterol after stress (rat), 823.\*  
 effect on skin regeneration (guinea pig), 331.  
 enzyme liberation from animal tissues, 330.  
 estimation, 560.\*  
 in animal tissue, 330.  
 in foods, 805.  
 in liver of embryo rats, 89.  
 excretion, effect of antibiotics (man), 200.  
 identification, 805.  
 in eggs, effect of intake (hen), 77, 321.  
 in liver, maternal and foetal (rat), 500.  
 effect of folic acid deficiency (rat), 560.  
 in milk, effect of alfalfa meal (sow), 793.  
 in oats, effect of variety and location, 321.  
 in pollen and honey, 794.  
 intake, effect on 2-aminofluorene metabolism (dog), 792.  
 metabolic function, 331.\*  
 phosphorylation by *Lactobacillus arabinosus*, 560.\*  
 relation to adrenal cortical function, 561.\*  
 requirement, of baby pig, 486.\*  
 of poultry, 997.\*  
 Pantothenic acid alcohol, effect on basal metabolism and on neurovegetative system (man), 926.  
 treatment of chronic constipation in old age (man), 926.
- Pantothenic acid** ointment, effect on wound healing, 200.  
 Papain, digestion of casein or groundnut cake, effect on nutritive value (rat), 849.  
 Papaw (see *Papaya*)  
 Papaya, ascorbic acid and sugar content, 344.  
 Para grass (*Panicum purpurascens*) and silage, for cows, 226.  
 Paraffin, liquid, absorption from intestine (rat), 114.\*  
 Paralysis, in diptheria, treatment with vitamin B<sub>12</sub> (guinea pig, man), 557.  
 infantile (see *Poliomyelitis*)  
 Parasites (see also *Worms*)  
 effect on carotene conversion to vitamin A (sheep), 312.  
 effect on nutrition (mare), 680.\*  
 Parathyroid(s)  
 disorders, hypoparathyroidism, with normal serum calcium, 126.\*  
 effect on calcium and phosphorus metabolism (rat), 590.  
 extract, effect on bone metabolism (rabbit), 853.  
 effect on calcium and phosphorus metabolism (sheep), 837.  
 effect on phosphorus exchange in bone (rat), 837.  
 hormone, effect on blood calcium, influence of blood phosphorus (dog), 590.  
 effect on phosphate in blood and urine (rat), 126.  
 in rickets and tetany of dietary origin (rat), 536.  
 morphology and function, relation to vitamin D (rat), 315.  
 removal, effect on phosphate excretion (rat), 837.  
 Parosmia, variant (see *Milk fever*)  
 Parotid gland, extract, effect on dentine formation (rabbit), 165.  
 Parsnips, ascorbic acid, effect of cooking, relation to inactivation of oxidases, 103.  
 Parturition, and pseudo-parturition, total maternal metabolism (cow), 400.  
 blood composition, effect of adrenocorticotrophic hormone (cow), 830.\*  
 carotene and vitamin A in blood (now), 67.\*  
 post-partum anaemia, treatment with liver extract or folic acid (woman), 201.  
 pyruvic acid in blood of mother and infant, 881.  
 Pasteurisation, effect of method on quality and lysozyme activity of cow's and human milk, 512.  
 orange juice, effect on lipid fraction, 53.  
 Pasture(s) (see also *Grasses*)  
 analysis, methods, 442.  
 and pasture plants, nutritive value, measurement, 720.\*  
 and supplements for fattening cattle, America (U.S.), 698.  
 as source of minerals, 691.\*  
 cobalt content, effect of topdressing from air, 625.  
 composition, and digestibility (bullock), 442.  
 and yield, effect of late applications of nitrogen, Republic of Ireland, 304.  
 effect of ground water-level, 54.  
 leys and permanent, effect of fertilisers, Kenya, 776.  
 New Zealand, 304.  
 botanical and chemical, effect of nitrogenous fertilisers, 54.  
 Madagascari, 776.  
 copper deficiency, dressing with copper sulphate, 966.\*

- Pasture(s)  
deficiencies of major and minor elements, Australia, 525.\*  
digestibility, effect of cold storage (sheep), 692.  
measurement (cattle, sheep), 692, 944.  
effect on salt intake (cow), 226.  
evaluation, and animal performance, 761.\*  
with cows, 452.  
for cattle, 448.  
costs, U.K., 245.  
for cows, effect of fertiliser on milk yield, 225.  
for pigs, 457.  
grazed, digestibility, relation to digestibility of pasture cut as representative sample, 699.  
growth, effect of clovers, fertilisers, and grazing, New Zealand, 525.  
herbs, calcium availability (rat), 154.  
hill, effect of biotic factors, U.K., 696.\*  
improvement, effect on sheep and lamb production, 706.  
improvement of Lethian seeds hay, 304.  
intake and digestibility (beef cattle), 945.\*  
measurement (sheep), 38,\* 944.  
irrigated, production and quality, effect of cutting interval, 54.  
management and worm infestation (sheep), 989.  
melilot, ecology and chemical composition, Portugal, 776.  
minerals content, effect on minerals in milk, 45.  
Schleswig-Holstein, 987.  
mountain, hay, composition, digestibility and nutritive value, Italy (ram), 220.  
natural, rational use, 948.\*  
oestrogens, effect on milk secretion, 253.\*  
oxalate content, Australia, 55.  
protein-deficient, urea as supplement, Australia, 485.\*  
quality, and animal production, 445.\*  
range, for cattle, effect of intensity of grazing on weight gains, America (U.S.), 453.  
rosebed hill, for wintering ewes, 709.  
ryegrass and white clover, nitrogen content, effect of fertilisers, 524.  
sour veld, for beef cattle, effect of spring resting on weight gains, South Africa, 448.  
tropical, 776.\*  
utilisation, on northern Great Plains, America (U.S.), 701.\*  
vitamin D content, 728.\*  
with or without supplement for fattening culled ewes, 455.  
yield, measurement, 761.
- Pataua (*Jessenia bataua*) oil, composition and characteristics, 303.
- Peas  
Alaska, protein, nutritive value for rats, effect of cooking and methionine supplement, 849.  
ascorbic acid and total solids content and palatability, effect of home canning and freezing, 676.  
frozen, acetaldehyde and related compounds content, 51.\*  
nitrogen and amino-acid content, effect of environment, 302.  
(*Pisum sativum*), effect on fertility (mouse), 543.  
southern (see *Coupepe*)  
supplements, for lamb fattening, 959.\*  
sweet (*Lathyrus odoratus*), crystalline substance, production of thylaxine (rat), 899.\*  
production of bone lesions (rat), 899.  
production of mesodermal tissue lesions (rat), 899.\*
- Pea vine silage, for lamb fattening, 959.\*  
for lambs and cattle, 997.\*  
production of paralysis (lamb), 997.\*  
Peach, L-quinic acid content, 522.\*  
Peanut(s) (see *Groundnuts*)  
Pectic substances, in tomatoes, 522.\*  
Pellagra (see also *Nicotinic acid deficiency*)  
anaemia, haemolytic component, 662.  
glossitis, aspects of tongue, 199.\*  
in French Guiana, 199.  
incidence, Yugoslavia, 423.  
infantile (see *Kwashiorkor*)  
Penicillin  
antagonism to vitamins of the B complex in staphylococcal infection (mouse), 75.  
effect on activity of vitamin D in experimental rickets (rat), 534.  
effect on intestinal flora (turkey poults), 894.  
effect on nicotinic acid requirement of dam and progeny (turkey), 327.  
effect on protein utilisation (chicken), 239.  
effect on sheep in cobalt deficiency, 819.  
effect on skeleton at different levels of vitamin D and phosphorus intake (chicken), 786.  
effect on vitamin A in blood and dark adaptation (man), 420.  
effect on vitamin B<sub>12</sub> requirement of laying hens, 817.  
estimation, in compound feedingstuffs, 755.  
for chickens, effect of housing or administration of clostridia, 978.  
effect on feed consumption and faecal flora, 717.  
for hens, effect on feed efficiency, egg production and hatchability, 76.  
for pigs, 457.  
Agricultural Research Council report, 362.  
effect on appetite, liveweight increase and efficiency, 967.  
reचित, 481.  
for poultry, 465, 467, 468,\* 568, 718.  
for turkey poults, 239, 465, 467.  
for turkeys, effect on egg production, hatchability and weight, 242.  
effect on feed consumption, 242.  
haematinic action in anaemia, megaloblastic (man), 667.  
in cow's milk, after intramammary infusion, 769.\*  
in feedingstuffs, stability, 778.  
N-ethyl-piperidine-, metabolism (laying hen), 164.  
treatment of macrocytic anaemia (man), 427.  
treatment of megaloblastic anaemia, relation to vitamin B<sub>12</sub> (man), 423.  
with or without bacteria, effect on growth and caecal pH and flora (chicken, turkey poults), 237.  
with or without bacteria and lactose, effect on growth (chicken), 237.  
with or without herringmeal, effect on growth (turkey poults), 467.  
Penicillamine, for turkey poults, comparison with penicillin, 465.  
*Penicillium notatum*, residues, digestibility and biological value for rats, 136.

in rickets (children), 675.  
relation to growth of cattle, 827.\*  
in blood and intestine, effect of fasting and fat administration (rat), 110.  
in epiphyseal cartilage, effect of vitamin A (rat), 313.  
in milk, association with a particulate lipoprotein complex and purification, 294.  
in *Ocotyus vulgaris* tissues, 409.\*  
optimum hydrogen ion concentration, effect of magnesium, 577.  
estimation, 34.\*  
from pig stomach, rat liver, and human prostate and ejaculate, characteristics, 111.  
in brain, histochemistry, 346.\*

## Phosphate

- availability for chickens, 617.  
 estimation, 284.  
 excretion, in vitamin D-resistant rickets (man), 932.  
 fertiliser, in diet, effect on earies formation (rat), 350.\*  
 hexose (see *Hexose phosphate*)  
 in blood and urine, effect of parathyroid hormone (rat), 126.  
 inorganic, in blood, effect of dihydro-tachysterol (cow), 315.  
 response to glucose administration, effect of progressive muscular dystrophy (man), 384.  
 with adenosine triphosphate, effect on amino-acid absorption by small intestine, *in vitro* (rat), 852.  
 metabolism, in blood red cells, *in vitro* (man), 394.  
 in kidney, effect of  $\alpha$ -tocopherol (rat), 739.  
 primary, in beverages, health aspects, 57.\*  
 soft, for pigs, 711.  
 with colloidal clay, for pigs, 966.\*  
 Phosphate esters, in muscle, separation by paper chromatography, 380.\*  
 role in calcification (rat), 385.  
 Phosphatide(s), aetial, estimation in blood and organs, 28.\*  
 in blood, effect of fat meat (man), 379.  
 in fats, estimation, 729.\*  
 protein-bound, in blood, radio-active study, 138.\*  
 total, estimation in commercial lecithin, 278.  
 transport by serum protein fractions, 354.\*  
 Phosphocholine, uptake by tumour cells (mouse), 631.  
 Phospholipins (see also *Lecithin*; *Lipids*)  
 absorption (rat), 857.  
 chromatography, paper, 748.\*  
 estimation in blood, 748.  
 in blood, high, in diabetes, effect of vegetable fat intake (man), 148.  
 (man), 748.  
 in liver and aorta, effect of cholesterol (rabbit), 867.  
 in liver cell fractions, effect of energy intake (rat), 187.  
 in nerves, effect of vitamin B<sub>12</sub> deficiency (rat), 551.  
 iodine value, estimation, 748.  
 metabolism, effect of energy and protein intakes (rat), 381.  
 when given by vein (dog), 381.\*  
 Phosphopeptides, fractionation from casein, 274.\*  
 Phosphoric acid, in beverages, health aspects, 67.\*  
 Phosphorus (see also *Calcium and phosphorus*)  
 absorption (rat), 115.  
 acid-soluble, in blood, after insulin administration, 384.\*  
 activated, in defluorinated phosphate, availability for cattle, 951.\*  
 balance (see *Phosphorus metabolism*;  
*Phosphorus retention*)  
 compounds, estimation in plant material, 33.  
 in liver, in vitamin B<sub>12</sub> deficiency (rat), 82.  
 in muscle, chromatography separation (frog), 753.\*  
 deficiency, effect on vitamin A metabolism (cattle, sheep), 784.  
 in cattle and sheep, feeding behaviour, 943.  
 deposition in bones and teeth, effect of diet (rat), 384.

## Phosphorus

- effect on utilisation of protein hydroly-sates when injected (rat), 139.  
 estimation, in fruit spreads, 507.\*  
 in plants and soils, 741, 753.  
 in alfalfa hay, availability (sheep), 616.  
 in blood, buffaloes grazing unsupplemented deficiency areas, Malaysia, 480.\*  
 influence on effect of parathyroid hormone (dog), 590.  
 in blood serum proteins, effect of egg production or oestrogen (poultry), 130.  
 in bone, turnover, effect of parathyroid extract (rat), 837.  
 in leafy vegetables, 301.  
 in pig carcasses, 771.  
 in rice, effect of variety and environment, 301.  
 in saline and rumen, effect of phosphorus deficiency (cattle, sheep), 153.  
 incorporation into nucleic acids, effect of burns (rat), 851.  
 inorganic, effect on perosis (turkey), 789.  
 estimation in biological material, 33.  
 in blood, effect of amino-acids (rabbit), 905.  
 intake, effect on hatchability of eggs (hen), 471.\*  
 interaction with vitamin D and penicillin, effect on skeleton (chicken), 786.  
 low, effect on bone structure (hypophysectomised rat), 836.\*  
 effect on distribution and excretion of radio-active phosphorus (rat), 316.  
 lipid, in blood, effect of age (man), 119.  
 relation to cholesterol in arterio-sclerosis (man), 865.  
 Phosphorus metabolism  
 after gastrectomy (man), 868.\*  
 cows on different forages, 702.  
 effect of growth modification by hormones, 384.\*  
 effect of parathyroid extract (sheep), 837.  
 effect of parathyroid removal (rat), 837.  
 effect of vitamin D<sub>3</sub> (rat), 535.  
 in bone transplants, 617.\*  
 in cattle, seasonal variations, 870.\*  
 in dairy cows, 702.  
 in muscle, 617.\*  
 in vitamin E deficiency (rat), 556.  
 in osteomalacia (rabbit), 155.  
 in *Rhodotorula gracilis*, 406.  
 rate of turnover (man), 152.  
 Phosphorus, phytate and inorganic, utilisation by chickens, 870.\*  
 assimilation (dairy cow), 870.  
 availability for laying hens, 471.  
 Phosphorus, radio-active  
 distribution, in eggs, incubated (hen), 156.\*  
 in health and disease (rabbit), 355.  
 distribution and excretion, effect of vitamin D deficiency and low phosphorus intake (rat), 316.  
 effect on growth, influence of aureomycin (rat), 869.  
 injected, secretion in gastric juice and saliva (man), 383.  
 uptake by bone, effect of rickets (rat), 316.  
 uptake by thyroid, estimation of thyro-tropic hormone (chicken), 125.  
 Phosphorus, rate of exchange in muscle dystrophy, effect of vitamin B<sub>12</sub> deficiency (rabbit), 71.  
 Phosphorus requirement, effect of energy content of ration (chicken), 460.  
 of laying hens, 471.  
 of turkey poults, 460.  
 Phosphorus, retention, after vitamin D in old age (man), 432.

- Phosphorus, transfer to egg, and distribution in yolk (hen), 617.  
 uptake, by bone, *in vitro* and *in vivo* (dog, man), 151.  
 by grasses, relation to base saturation in acid soils, 55.\*  
 by tissues, effect of dose injected, 384.\*  
 uptake and metabolism, effect of vitamin D<sub>3</sub> in rachitic and normal rats, 535.  
 utilisation by poultry, isotope study, 354.\*  
 Phosphorylase, in bone, relation to calcification (rat), 111.  
 Phosphorylation, oxidative, by liver mitochondria, *in vitro*, effect of vitamin K<sub>1</sub>, 542.  
 sugars, and absorption (rat), 347.  
 Physical activity, effect of glutamic acid level in diet (rat), 857.\*  
 Physical condition, effect on minerals in sweat (man), 121.  
 Physical fitness, modified Harvard step test (man), 563.  
 Physical performance, test, excretion of vitamin B<sub>12</sub>, 667.\*  
 Physiology, annual review (book), 992.\*  
 Physique, effect of malnutrition, India, 254.\*  
 Phytase, in cereals, effect of time, temperature, pH and calcium carbonate, 773.  
 in intestine, effect of vitamin D (chicken, rat), 536.  
 Phytate, interaction with protein, effect of calcium carbonate, 774.  
 Phytic acid, effect on iron absorption (rat), 876.  
 in breads, Finland, 50.  
 in rice, effect of parbuling method, 486.\*  
 role in human nutrition, review, 914.\*  
 Phytic acid phosphorus (see under *Phosphorus*)  
 Phytin, in cottonseed meal, effect on metabolism of calcium, phosphorus and vitamin D, 486.\*  
 Phytone, isolation and properties, 780.\*  
 occurrence in plant material, 60.  
 Phytol, lipotropic activity, 862.  
 Pig(s) (see also *Sow*)  
 aureomycin and vitamin B<sub>12</sub> intake, effect on vitamin B<sub>12</sub> in pork, 818.  
 Pig(s), baby  
 effect of antibiotic implants, 968.\*  
 effect of copper supplement, 728.\*  
 feeding and management, 907.\*  
 feeding, glucose and xylene in purified ration, 964.  
 growth and feed efficiency, effect of protein intake, 134.  
 growth and survival, effect of pig  $\gamma$ -globulin and antibiotics, 967.\*  
 immunity in absence of colostrum, effect of vitamin B<sub>12</sub> deficiency, 813.  
 leucine requirement, 856.\*  
 nutrition, 962.\*  
 pantothenic acid requirement, 486.\*  
 protein requirement, 230.  
 rearing, artificial, 230, 455.  
 effect of balency-gangways on rate of growth and haemoglobin level, 455.  
 on sow's milk substitute, 728.\*  
 requirements, 907.\*  
 riboflavin requirements, 800, 801.\*  
 synthetic milk diet with different carbohydrates, 710.  
 Pig(s), birthweight, growth and mortality rates, 728.\*  
 blood composition, Guatemala, 116.  
 blood protein-bound iodine, relation to rate of weight gain and morphology, 834.\*  
 blood volume, 831.  
 body fat and body water, estimation, 121.

- Pig(s)**  
bodyweight, heritability, 714.  
breeding, for bacon production, 458.  
general principles, 458.  
growth and viability of litters from crossbred and purebred gilts, 234.  
management of sow, 457.  
carcass, calcium and phosphorus content, 771.  
carcass composition and feed utilisation, 233.  
effect of restricted feeding and heterosis, 455.  
carcass evaluation, 968.\*  
carcass measurement, correlations with percentage of lean, 38.  
relation to live score, 968.  
carcass quality, effect of antibiotics or trace element supplements, 967.  
effect of fibre, 968.  
effect of inadequate protein, 233.  
effect of restricted feeding, 964.  
estimation, 761.\* 762.\*  
liveweight and efficiency, effect of age at castration, 713.  
specific gravity as a measure, 702.  
castration, effect of age on carcass, liveweight and efficiency, 713.  
cholinesterase activity of blood, milk and salivary glands, 346.
- Pig(s), disorders**  
catarract on rations containing xylose, 964.  
fishmeal diseases, 478.  
liver, produced by protein deficiency, 240.  
scours, treatment with liver extract, 818.  
virus pneumonia, effect on growth and feed utilisation, 233.  
yellow fat disease, pathology, 540.
- Pig(s), effect of antibiotics, prolonged administration, 817.**  
effect of surface-active agents, 458, 968.\*  
experiments at state-registered breeding centres, Denmark, 234.\*  
fat and meat after feeding with DDT, effect on rats, 642.  
fattening, effect of antibiotics, 712.  
methods, review, 458.\*  
feed consumption and carcass measurements, Finland, 234.  
feed utilisation, and growth rate, effect of protein intake, 962.  
effect of penicillin, 457.  
effect of restricted feeding and heterosis, 455.
- Pig(s), feeding**  
activated sewage sludge as source of vitamin B<sub>12</sub>, 569.  
alfalfa, dried, 230.  
ground, 965.  
alfalfa hay, effect of DDT content, 642.  
animal protein, 711.  
animal protein factor, and vitamin B<sub>12</sub>, 336.  
effect on feed utilisation and carcass weight, 456.  
animal protein substitutes, 231.  
antibiotics, 232.\* 238, 457, 458, 712, 713, 728.\* 962, 967.  
effect on reproduction, 966.  
antibiotics and endocrine stimulants, for growth promotion, 712, 728.\*  
antibiotics and vitamin B<sub>12</sub>, 818.  
economic return, and effect on growth rate, efficiency and carcass quality, 712.  
apples, 457.  
aureomycin, and vitamin B<sub>12</sub>, 567.  
at different protein levels, 713.  
effect on digestibility of ration, 945.  
aureomycin or penicillin, Agricultural Research Council report, 232.  
barley, effect of fineness of grinding, 965.
- Pig(s), feeding**  
beef fat, effect on carcass characteristics, 965.\*  
cane sugar, 966.\*  
cellulose, effect on growth and feed utilisation, 711.\*  
chloromycetin mycelium, effect on faecal microflora, 966.  
cobalt supplement to maize and soya bean meal ration, 230.  
cottonseed meal, 966.\*  
dishwater containing detergent, 968.  
distiller's dried solubles, 456.  
economies, 714.\*  
effect of alfalfa, soil, vitamin B<sub>12</sub> and terramycin, 100.  
effect of concentrate intake on forage consumption, 486.\*  
effect of roughage on bacon quality, 232.

relation to fat, 44.  
relation to fat and lactose, 729.\*  
in nutrition, 368.\*  
in oat crosses, heritability, 801.  
in organs, composition (rat), 586.  
in pig duodenal preparations, vitamin B<sub>12</sub> binding capacity, 98.  
in poultry meat, effect of refrigeration and storage of carcasses, 40.  
in rice and groundnuts, methionine content and nutritive value for rats, effect of methyl bromide fumigation, 603.  
in rumen bacteria, amino-acid composition, 604.  
in rumen micro-organisms and yeast, nutritive value for rats, 604.  
in seaweed, biological value for rats, 370.  
in teeth, enamel (man), 835.\*  
in wheat, effect of variety and rotation, 996.\*  
iodinated (see *Iodinated proteins*)  
Protein intake  
before injury, effect on response (rat), 850.\*  
during gestation, effect on size and number of young (rat), 401.  
effect on amino-acids excretion (woman), 138.  
effect on 2-aminofluorene metabolism (dog), 792.  
effect on antibody production (infant), 435.  
effect on blood pressure after kidney removal (dog), 601.  
effect on blood sugar of source and quantity of breakfast protein (woman), 129.  
effect on choline oxidase in tissues (rat), 110.  
effect on fat excretion (dog, rat), 369.  
effect on feed consumption and efficiency, and weight gain (pig), 922.  
effect on growth, influence of antibiotic with vitamin B<sub>12</sub> (bobwhite quail), 100.  
effect on growth and feed efficiency of pigs, baby, 134, 962.  
effect on liver catalase (rat), 109.  
effect on liver cell nucleoli (rat), 601.

## Protein intake

- effect on liver disorders (man), 439.\*  
effect on liver fat (duck), 612.  
effect on liver fat deposition (rat), 135.  
effect on liver thionase (rat), 88.  
effect on magnesium requirement during protein synthesis (rat), 871.  
effect on metabolism of injected methionine (laying hens), 854.  
effect on muscle training and protein stores (man), 368.  
effect on nitrogen excretion from labelled glycine (man), 140.\*  
effect on phospholipid metabolism (rat), 381.  
effect on rumen digestion and micro-organisms (sheep), 112.  
effect on tensile strength of abdominal wall (rat), 596.  
effect on thyroid response to thiouracil (rat), 838.\*  
effect on uric acid formation from glycine (man), 143.  
effect on vitamin B<sub>12</sub> requirement (chicken), 815.  
effect on xanthine oxidase in liver and intestine (rat), 525.  
high, diet planning, 428, 6.  
effect on anaemia after pituitary removal (rat), 851.  
in infants, toxic effects, 183.  
in kidney disorders (man), 217.  
influence on cobalt requirement for reproduction (mouse, rat), 623.  
treatment after burns, 438.\*  
interaction with high salt intake, physiological effects (rat), 602.  
low, effect in pregnancy (rat), 173.  
effect of aureomycin and calcium pantothenate on growth (weanling pig), 90.  
effect on D-amino-acid oxidase in liver and kidney (rat), 166.  
effect on bodyweight and milk composition and yield (cow), 225.  
effect on growth, nitrogen balance, haemoglobin, basal metabolism and oestrus (rat), 253.\*  
harmful effect when long continued, 195.  
with high fat intake, effect on fat and carbohydrate utilisation (rat), 146.  
of chickens in hot weather, 461.  
relation to nitrogen balance and energy intake (man), 847.\*  
relation to nitrogen excretion, normal and in Cushing's syndrome, 847.  
Protein(s), isoelectric points, measurement, 22.  
leaf, amino-acid content, 51.  
legume seeds, amino-acid composition, 522.  
Protein(s), lipo- (see *Lipoproteins*)  
Protein(s), lipotropic action (rat), 862.\*  
Protein(s), liver  
effect of esthionine, with or without choline (rat), 142.  
formation and maintenance, effect of vitamin B<sub>12</sub> (rat), 328.  
in disease (man, rat), 851.  
soluble, separation by paper electrophoresis (rat), 744.  
Protein(s), maize, biological value, effect of added amino-acids (rat), 137.  
Protein metabolism (see also *Nitrogen metabolism*)  
by tissue cells, *in vitro*, 166.\*  
effect of dried skimmed milk with addition of lysine, 728.\*  
effect of pregnancy (rat), 847.\*  
effect of protein intake and age (rat), 728.\*  
effect of sterile abscess (dog), 369.  
effect of vitamin B<sub>12</sub> (rat), 728.\*

## Protein metabolism

- effect of vitamin B<sub>12</sub> and animal protein factor (pig, rat), 336.  
in starvation, in newborn infants and young and old men, 591.  
isotope studies, review, 133.\*  
mathematical treatment of data, 368.  
relation to effect of cortisone on sensitivity to tuberculin (guinea pig), 638.  
relation to energy intake, effect of time between energy and protein meals (dog, man, rat), 600.  
review, 133.\*  
Protein(s), milk  
and dairy products mixed, digestibility and biological value, 254.\*  
biological value for dogs, effect of heat, influence of water content, 136.  
fat globule membrane, amino-acid composition, 294.  
formation, effect of fasting (goat), 134.  
preparation, as high-protein, low-sodium food supplement, 937.  
serum, (see *Protein, whey*)  
with vitamin D<sub>3</sub>, prevention of hair loss caused by hepatitis (woman), 676.  
Protein(s), mixtures, solubility of components, estimation, 748.\*  
mung bean, solubility, 51.  
muscle, non-structural, electrophoresis (man, rabbit), 122.\*  
nitrogen source for rumen micro-organisms, 895.\*  
nutritive value, effect on nitrogen content of liver (rat), 134.  
estimation, 758.  
by analysis of livers (rat), 253.\*  
728.\*  
plant, in feeding of children, 183.  
plant or animal, for pigs, 457.  
quality and quantity, effect on cellulose digestion (sheep), 219.  
reaction with lactase in heated milk, 39.\*  
reports and discussions (book), 483.\*  
Protein requirements, for heavy work (man), 368.  
of baby pigs, 230.  
of crustacean, 902.\*  
of lambs, 958, 997.\*  
of man, relation to agriculture, 914.\*  
of pigs for fattening, 713.  
of poultry, 997.\*  
of rats, effect of fat, rancid, 147.  
for nitrogen equilibrium, 848.  
Protein(s), rice, nutritive value (dog), 848.  
rice germ, nutritive value (rat), 849.\*  
role in carotene metabolism, 64.\*  
seeds, amino-acids, 996.\*  
separated by electrophoresis, estimation, 500.  
separation, 19, 22.  
skin, relation of collagen and other fractions (rabbit), 852.  
soluble, in liver cells, separation by paper electrophoresis (rat), 744.  
source, and antibiotics, effect on reproduction (sow), 967.\*  
effect on liver xanthine oxidase (rat), 828.  
specific dynamic action, effect of protein source (woman), 594.  
staining of fractions after paper electrophoresis, 274.  
supplements, effect on growth, children, Guatemala, 429.  
boarding school children, India, 906.  
for beef steers given poor quality hay, 447.  
for pigs on maize diet, effect of interval between maize feed and supplement, 134.  
synthesis, review, 368.\*  
total, estimation in spinal fluid, 273.  
total and fractions, estimation in blood, 273.

- Protein(s)  
 utilisation, effect of aureomycin and vitamin B<sub>12</sub> (pig), 567.  
 effect of carbohydrate source (rat), 601.  
 effect of penicillin (chicken), 239.  
 effect of protein intake and growth (rat), 996.\*  
 effect of rations low in nitrogen (poultry), 369.\*  
 effect of vitamin B<sub>12</sub> (rat), 253.\*  
 effect of vitamin B<sub>12</sub> and antibiotics, 729.\*  
 wheat flour, biological value, effect of added amino-acids (rat), 136.  
 whey, coagulation by heat, 294.  
 effect of heat treatment, 518.\*  
 effect on loaf volume, 41.  
 estimation in non-fat, dry milk solids, 745.  
 ferric complexes, feeding value for rats, 371.  
 fractionation by rolling-out and electrophoresis, 274.  
 removal of iron from ferriactins, 852.
- Protein, animal, factor  
 deficiency, effect of vitamin B<sub>12</sub> as supplement to vegetable protein diets (chicken), 816.  
 effect on young rats, 570.  
 occurrence of neoplasms, 340.\*  
 effect on feed utilisation and carcass weight (pig), 456.  
 effect on growth and protein metabolism (pig, rat), 336.  
 effect on nitrogen metabolism and riboflavin and vitamin B<sub>12</sub> content of liver (chicken), 238.  
 nature, 728.\*
- Protein concentrates, relative values for non-ruminants, 682.\*  
 restricted, for pigs, 231.
- Protein hydrolysate(s) (see also *Amino-acid mixtures*)  
 beef, treatment of anaemia and achylia in reptiles, 180.\*  
 casein, effect on amino-acid excretion (children), 937.  
 casein and soya bean compared, 653.  
 continuous enteral feeding in sickness, 211.  
 digested by papain or *Aspergillus*, effect on growth of rats, 849.  
 effect of minerals on utilisation when injected (rat), 139.  
 effect on amino-acids in blood and urine of healthy and dystrophic children, 139.  
 for surgical patients, need for supplementation with potassium, 436.  
 globin, human, metabolism when injected (man), 368.  
 use in nutrition, 680.\*
- Protein-vitamin paste, effect on growth of pigs, 528.\*
- Proteinases (see *Proteases*)
- Proteinuria, in children, in holiday camps, 368.\*
- Prothrombin, blood (see *Blood prothrombin*)
- Protozoa, rumen (see under *Rumen*)
- Toxicity of egg white and lysozyme, 640.
- Provitamin A (see *Carotene*; *Carotenoids*)
- Provitamin pigments, in marine invertebrates, 263.\*
- Psidium guajava* (see *Guava*)
- Pteridine, riboflavin-like effect on growth of micro-organisms, 799.\*
- Pteridine derivatives, biological functions, 93.
- Pterins, physiological relation to folic acid, 809.
- Pteris aquilina* (see *Bracken*)
- Pteroylglutamates, in scurvy with hydroxyphenyluria, 573.\*
- Pteroylglutamic acid(s) (see also *Folic acid*)  
 chromatography, 807.\*  
 conversion to citrovorum factor in liver slices (guinea-pig), 808.\*  
 effect on infestation with *Ascaridia galli* (chicken), 807.  
 metabolism (chicken, rat), 93.  
 production of kidney lesions, effect of sunlight (guinea-pig), 562.  
 relation to leucovorin, vitamin B<sub>12</sub> and vitamin C (chicken), 582.  
 toxicity for chicken, 810.  
 treatment of anaemia in scurvy, effect of ascorbic acid (man), 674.
- Pteroylglutamic acid, amino-, and citrovorum factor, competitive antagonism, 94.  
 effect on co-enzyme A, 806.\*  
 effect on embryonic malformation (rat), 810.  
 effect on excretion of phenolic acids (rat), 58.\*  
 effect on response to sex hormones (pullet), 94.  
 toxicity, effect of citrovorum factor, folic acid and antibiotics (rat), 93.  
 treatment of leucemia, effect of citrovorum factor (mouse), 563.
- Pteroylglutamic acid, 4-amino-N<sup>10</sup>-methyl-, effect in leucemia, influence of cortisone (mouse), 563.  
 persistence in mouse tissues, 94.\*
- Pteroylglutamic acid, 2-deamino-, effect on bacterial growth, 334.
- Pteroylglutamic acid and related compounds, separation and estimation, 333.
- Pteroylglutamic acid antagonist, effect on diphosphopyridine nucleotide, 563.\*
- Puerperium, anaemia, megaloblastic (woman), 438.
- Puerto Rico  
 production of roughage, 948.  
 sweet potato, consumer preference, 915.\*
- Pullets (see under *Poultry*)
- Pulses (see *Legumes*)
- Purine  
 chromatographic separation, 26.  
 effect on blood uric acid in gout, 439.  
 effect on liver damage production by carbon tetrachloride (mouse), 609.  
 formation, 143.\*  
 in grassland herbage, 55.  
 in vitamin B<sub>12</sub>, 812.\*  
 metabolism, in gout, 374.\*  
 in *Lactobacillus casei*, 6-mercaptopurine-resistant, 406.\*
- Purpura, thrombocytopenic, clinical and laboratory study, 691.  
 history, incidence, pathology and etiology, 196.
- Pyramin, estimation, 796.
- Pyridine, N<sup>1</sup>-alkylates, excretion, effect of vitamin B<sub>12</sub> (rat), 565.  
 N<sup>1</sup>-substituted compounds, in trans-urates and excreted, 424.\*  
 toxicity, relation to vitamin E intake (rat), 72.
- Pyridine nucleotide(s) (see *Nucleotides, pyridine*)
- 6-Pyridone, end product of nicotinic acid metabolism (rabbit), 253.\*
- Pyridoxal, antithaemolytic action, 893.\*  
 decarboxylation of amino-acids, 809.\*  
 effect on accumulation of amino-acids by carcinoma cell *in vitro*, 88.  
 phosphate (see also *Codecarboxylase*)  
 effect on threonine conversion to acetaldehyde, *in vitro*, 87.  
 phosphorylation, enzyme in brewer's yeast, 558.  
 transamination with peptides, 558.
- Pyridoxine (see *Vitamin B<sub>6</sub>*)
- Pyridoxine, deoxy-, effect on liver transaminase (rat), 87.  
 4-deoxy-, homologues, 87.\*
- Pyrimidine(s)  
 chromatographic separation, 26.  
 formation, 143.\*
- neo-Pyrimithamine, effect on energy expenditure and vitamin B<sub>12</sub> in tissues (rat), 797.
- Pyrophosphatases, in ragi and ragi malt, 51.\*
- Pyrrulidone carboxylic acid, identification in tomato juice stored in cans, 523.  
 metabolism, *in vitro* and *in vivo* (rabbit), 374.
- Pyruvate, effect on octanoate metabolism by tissue slices, influence of potassium and lithium, 167.  
 metabolism, by kidney slices (rat), 883.\*
- Pyruvic acid  
 in blood, detection, 749.  
 effect of glucose by mouth (man), 131.  
 effect of *Venerupis decussata* extract (pigeon), 552.  
 effect of vitamin B<sub>12</sub> intake (woman), 423.  
 effect of vitamin B<sub>12</sub> pyrophosphate (man), 924.  
 effect on alkali reserve (man), 131.  
 in diabetes, effect of glucose tolerance test (man), 366.  
 in health and disease (man), 117.  
 in vitamin B<sub>12</sub> deficiency, effect of glucose (man), 423.  
 of mother and infant at birth, 881.  
 significance, 199.\*  
 in urine, 132.\*  
 metabolism, effect of vitamin B<sub>12</sub> deficiency (rat), 548.  
 oxidation by muscle homogenates, effect of vitamin B<sub>12</sub> deficiency (pigeon), 797.
- Python fat, fatty acids composition, 47.
- QUAIL, bobwhite, feeding, low-protein rations, 474.  
 protein, kind and amount in starting diets, 422.  
 survival, effect of vitamin A intake, 312.
- L-Quinolinic acid, in peach fruit, 522.\*  
 Quinolinic acid, in hen eggs, 555.
- RABBIT(s)  
 bone growth in relation to age and body weight, 633.  
 disorders, enteritis, effect of antibiotics and vitamin B<sub>12</sub>, 486.\*  
 relation to fibre and physical form of roughage, 486.\*  
 muscle dystrophy from choline deficiency, 881.\*
- Rabbit(s), feeding  
 horn hydrolysate, effect on growth and sulphur content of wool, 715.  
 oats, effect on blood ergothioneine, 833.\*  
 purified diet, effect of adding kale meal, 715.
- Rabbit(s), fryer, feeding and management, 469.  
 growth, influence of breed, size of mother and nutrition, 172.  
 growth and feed utilisation, effect of antibiotics, 970.\*  
 growth on purified diets, effect of potassium, sodium and calcium, 874.\*  
 toxic effects of molybdenum, 389.
- Radio-active substances, measurement of <sup>14</sup>C-labelled material, 35.
- Radium, deposition in skeleton (man), 162.\*
- Raffinose, estimation in sugar beet products, 743.  
 fructose, in wheat and wheat flour, 50.\*

- Ragi (*Eleusine coracana*), and ragi malt, pyrophosphates, 51.\*  
 flour, riboflavin content, 324.  
 Ragweed, in silage, effect on milk flavour (cow), 705.  
 Rame meal, effect on protein and vitamins in blood (chicken), 307.  
 Rapeseed meal, effect on growth (mouse), 178.  
 toxic principles, methods of removing, 523.  
 Raspberry juice, manganese content, 532.  
*Rastrilliger kanagurta* (see *Mackerel*)  
 Rationing (see *Food rationing*)  
 Rat(s)  
   biotin requirement, 332.  
   blood picture, 116.\*  
   blood serum proteins, effect of *Trichinella* infection, 118.  
   body fat composition, effect of dietary fats, 376.  
   carcase composition, effect of deprivation of vitamins B<sub>1</sub> and B<sub>6</sub>, 87.  
   carotenoids in blood, liver and ovaries, 66.  
   embryo, pantothenic acid in liver, 89.  
   energy expenditure, 363.\*  
   energy value of organic nutrients, estimation, 841.  
   growth, effect of antibiotics, 406.  
   effect of cobalt, 877.\*  
   effect of methionine and glycocyanine, 855.\*  
   effect of protein-low diet, 253.\*  
   relation between muscle weight and bodyweight, 399.  
   suckling, 888.\*  
   growth and longevity, effect of fat intake, 402.  
   effect of variation in nutrient composition of diet, 730.\*  
   growth and sexual development, effect of thymus removal, 591.  
   intestine, metabolism, 626.\*  
   milk, carbohydrates, 768.  
   nicotinic acid metabolism, strain differences, 801.\*  
   obese, effect of exercise on food intake and bodyweight, 841.\*  
   oxygen consumption, 363.  
   passage of food through digestive tract, 828.  
   reproduction, effect of protein intake during gestation, 401.  
   selection of diet, effect of swimming exercise, 640.  
   sex organs, 7-dehydrosterol content, 69.  
   tryptophan requirement, 374.  
   vitamin B<sub>1</sub> requirement, 996.\*  
 Ray (see *Skate*)  
 Reductone, estimation, 820.\*  
   formed during processing and storage of foods, nature, 571.  
 Reed (*Phragmites communis*) silage, 444.  
 Refrigeration  
   effect on lipid phosphoric acid in eggs and noodles, 28.  
   egg proteins, changes, 763.  
   freeze-drying (see *Drying, freeze-*)  
   meat, conditions affecting quality, 282.  
   pasture, effect on digestibility (sheep), 692.  
   peas, effect on ascorbic acid and total solids and palatability, 676.  
   pork, effect on quality and vitamin content, 793.  
   poultry carcasses, changes in meat proteins, 40.  
   vegetables, conditions affecting quality, 292.  
 Registrar-General for Scotland, report (1952), 727.\*  
 Reichstein's compound L (see under *Adrenalin*), steroid  
 Reindeer, production, Norway, 234.\*  
 Relishes, plant, native, Southern Rhodesia, 485.\*  
 Renal function (see *Kidney function*)  
 Rennet, effect on casein in milk, 576.\*  
 Reproduction (see also *Fertility*; *Sterility*; *Pregnancy*; *Gestation*; *Lactation*)  
   amphibia, amino-acids in embryos, 899.  
   blood plasma volume during labour and early puerperium (woman), 173.  
   effect of antibiotics (rat), 888.\*  
   effect of cholesterol and different dietary fats (rat), 490.  
   effect of *o*-cresol esters (rat), 73.  
   effect of digestible nutrient intake (bull), 453.  
   effect of excess vitamin D<sub>2</sub> (guinea pig), 538.  
   effect of massive doses of vitamin B<sub>12</sub> (rat), 813.\*  
   effect of protein intake during gestation (rat), 401.  
   effect of restricted diet (pig), 944.\*  
   effect of Spanish moss (rat), 408.  
   effect of thymus removal on sexual development (rat), 591.  
   effect of vitamin A deficiency (rabbit), 783.  
   (sow), 783.\*  
   effect of vitamin B<sub>1</sub> deficiency (rat), 795.\*  
   effect of *m*-xylohydroquinone from *Pisum sativum* (rat), 634.  
   importance of dietary carotene and liver reserves of carotene and vitamin A (cow), 784.\*  
   in pigs, effect of aureomycin, 967.\*  
   in cows, effect of sequences of full and limited feeding, 964.\*  
   menstrual cycle, pregnancy and climacteric, ascorbic acid in urine (woman), 204.  
   on high protein diet low in vitamin B<sub>12</sub>, effect of cobalt (mouse, rat), 623.  
   performance, effect of maternal age, review, 399.\*  
   of crossbred and purebred girls, 234.  
   riboflavin requirement (sow), 325.  
 Reptiles, with anaemia and achylia, treatment with beef hydrolysates, 180.\*  
 Requirements (see also under specific nutrients, e.g., *Amino-acids*; *animals*, e.g., *Sheep*)  
   energy, beef calves, equation, 698.  
   in pregnancy (woman), 903.  
   of baby pigs, 907.\*  
   of laboratory animals, effect of hormone levels in body, 836.\*  
   of man, 645, 646.\*  
   America, Central, 903.\*  
   energy, 903.\*  
   in old age, 181.\*  
   recommended allowances, Czechoslovakia, 645.  
   U.S.S.R., 409.  
   of rats, for vitamin B<sub>12</sub>, 996.\*  
 Resins, cation exchange, 619.\*  
   absorption of sodium and potassium in colon (man), 872.  
   action in digestive tract (man), 620.  
   in treatment of oedema (man), 619.  
   sodium uptake, effects of oedema and sodium intake (man), 155.  
   treatment of pre-eclampsia (woman), 689.  
   use with sodium-low diets, 681.\*  
 Resins, ion exchange, sodium removal, in tissue (rat), 386.  
 Resistance to disease (see *Immunity*)  
 Respiration, tissue (see *Tissue respiration*)  
 Respiratory metabolism (see under *Energy exchange*)  
 Reticulo-endothelial system, removal of emulsified fat from blood, 860.\*  
 Retina (see under *Eye*)  
 Rheumatic fever, and consumption of eggs (man), 656.  
 Rheumatism (see *Arthritis*)  
 Rheumatoid arthritis (see *Arthritis, rheumatoid*)  
 Rhodopsin, accumulation in retina, effect of green light (rabbit), 61.  
   regeneration, by ox retina, 529.  
   effect of methionine (toad), 781.  
   review, 781.\*  
 Rhodophyceae (see *Sauvages, red*)  
 Rhodotorula gracilis, phosphorus metabolism, 406.  
 Riboflavin  
   added to maize meal, retention in bread, effect of pH, 78.  
   and its monophosphate ester, effect on carbohydrate metabolism (man), 669.  
   aromatic and ribityl portions, biosynthesis, 799.\*  
   biosynthesis in caecum, effect of fat intake (rat), 253.\*  
 Riboflavin deficiency  
   effect on optic nerve and retina (rat), 650.  
   glucose metabolism (infant), 109.  
   in eggs, genetic (chicken), 800.  
   in liver cirrhosis (man), 663.  
   in Menière's disease (man), 662.  
   in *Neurospora* mutant, activity of an azo dye carcinogen, 799.\*  
   liver catalase activity (mouse), 553.\*  
   produced by galactoflavin, effect of protein and fat intake on growth and corneal vascularisation (rat), 800.  
   produced by thyroxine during pregnancy (rat), 84.  
   tongue lesions (dog), 320.\*  
 Riboflavin, destruction by heat, 798.  
   effect on blood sugar in diabetes (rabbit), 84.  
   effect on bodyweight during refeeding after a fast (rat), 544.  
   effect on sunlight flavour in milk, 799.  
   effect on tumour production by butter yellow, 398.  
   effect on xanthurenic acid excretion after tryptophan intake in vitamin B<sub>2</sub> deficiency (rat), 580.  
   estimation, 83.  
   in cereals, fruits and vegetables, 324.  
   in plant materials, 83.  
   excretion, effect of pituitary removal (rat), 320.  
   in cardiac decompensation, effect of coarboxylase (man), 663.  
   in disease, 200.\*  
   in pregnancy, 662.  
   on controlled diets (woman), 425.  
   formation, by mutant strain of *Saccharomyces cerevisiae*, 799.  
   in rumen, effect of ratio of hay to grain (calf), 798.  
   heritability in oat crosses, 801.  
   in blood, effect of pasture, ramie meal and sex (chicken), 307.  
   in health and disease (man), 83.  
   in cereals, fruits and vegetables, Ceylon, 324.  
   in eggs (huhn), 321.  
   in fish, India, 794.  
   in foods, America (U.S.), 545.  
   in liver (man), 926.  
   effect of animal-protein factor or of terynnin with fishmeal (chicken), 238.  
   effect of penicillin in practical ration (hen), 76.  
   effect of vitamin B<sub>12</sub> and methionine (rat), 815.\*  
   in milk, destruction by heat, 728.\*  
   seasonal variation, 544.  
   in milk and milk products, 254.\*

- Riboflavin**  
in Mung beans, distribution, effect of germination, 79, 486.\*  
in oats, effect of variety and location, 321.  
in sow's milk, effect of alfalfa meal and meat scrapings, 793.  
in wheat, losses in making bulgur, 85.
- Riboflavin intake**  
effect on 2-aminofluorene metabolism (dog), 792.  
effect on xanthine oxidase in liver and intestine (rat), 325.
- Riboflavin, massive doses, production of diabetes (rat), 84.**  
metabolic functions, review, 320.\*  
metabolism, 324.  
in chronic intestinal disorders (man), 663.  
pigment of skins of green snakes, 553.  
requirement (man), 254.\*  
of baby pigs, 800, 801.\*  
of sows for reproduction, 325.  
retention from dried forages, achiotse seeds and palm oil (rat), 732.  
transport by placenta (vratman), 662.

 Silkworm, *Bombyx mori*, effect of antibiotics and amino-acid mixture, 408.  
 nitrogen metabolism in embryonic development, 900.  
 gaseous metabolism during pupal development, 644.\*  
 metabolism during metamorphosis, 644.\*  
*Platygamia scroptia*, energy exchange during diapause and development, 409.  
 Silver, radio-active, estimation in biological samples, 507.\*  
*Sitophilus oryzae* (see under *Weevil*)  
 Skate (*Aetobatus peruvianus*), composition, 48.  
 Skatole, in milk, caused by *Lepidium* spp. (cow, goat, sheep), 295.  
 Skeleton (see also *Bone*)  
 calcium turnover, effect of sex hormones (poultry), 155.  
 development, at birth, effect of dam's ration (lamb), 958.  
 children, pre-school, U.K., 885.  
 effect of calcium intake during pregnancy and lactation (ewe), 870.\*  
 elements, time and order of appearance in foetus (dog), 997.\*  
 fluorine storage, effect of vitamin C (guinea pig), 824.  
 growth, effect of thyroid destruction (monkey), 359.  
 in health and disease (children), 632.\*  
 interaction of vitamin D, phosphorus and penicillin (chicken), 786.  
 loss of minerals in laying hens on low calcium intake, 870.  
 loss of weight during lactation, discussion (rat), 936.  
 effect of diet (rat), 535.  
 effect of lactose (rat), 636, 892.\*  
 effect of milk diet (rat), 636.  
 radium deposition (man), 162.\*

## Skin

- allergic, hyperergic inflammation, effect of hyaluronidase and rutin, 825.\*  
 changes, effect of high intake of vitamin D (rat), 70.  
 $\Delta^7$ -cholesterol, distribution, 835.\*  
 collagen, relation to other protein fractions (rabbit), 852.  
 Skin disorders (see also *Tuberculosis, skin*)  
 acne vulgaris, treatment with vitamin A, 923.  
 carotene and vitamin A in blood, 658.  
 deficiency dermatoses in liver cirrhosis, 921.  
 dermatosis, treatment with vitamin A, 197.\*  
 treatment with vitamin D<sub>2</sub>, 207.\*  
 eczema, treatment with vitamin D (infant), 207.  
 vitamin B<sub>12</sub> in blood, 208.  
 in hypocalcaemia (man), 690.  
 leprosy, treatment with vitamin K and derivatives, 934.  
 treatment with vitamins, review, 920.\*  
 treatment with vitamin A, 421.  
 vitamin A and carotene in blood, 923.  
 vitamin A in blood (man), 196.  
 Skin, effect of antibiotics (rat), 792.\*  
 epidermis, biochemistry and physiology, review, 165.\*  
 histology, effect of level of fat intake (dog), 859.  
 iron excretion (man), 388.\*  
 lipids content, effect of age and sex (man), 121.  
 mucopolysaccharides and mast cells, effect of ascorbic acid deficiency (guinea pig), 821.  
 regeneration, effect of pantothenic acid (guinea pig), 331.  
 respiration, effect of vitamin D (rat), 316.  
 role in sodium metabolism (frog), 900.\*  
 sodium-potassium ratio (man), 538.\*  
 temperature, effect of nicotinic acid (man), 925.  
 water evaporation, measurement (domestic animals), 758.\*  
 Skinfold thickness, as measure of body fat, effect of dehydration, 758.\*  
 Sleep, prolonged, effect on digestion (rat), 119.  
 Snail, *Helix pomatia*, intestine, fat absorption, *in vitro*, 181.\*  
 Snake, black, embryo, nitrogen excretion, respiratory exchange, 408.\*  
 blood serum protein, 643.  
 green, riboflavin as skin pigment, 553.  
 Sodium  
 and potassium exchange, in blood red cells (man), 165.\*  
 body, in patients after operation, 681.  
 in pregnancy (woman), 888.  
 total exchangeable and extracellular (sheep), 163.  
 depletion, effect on tissue composition (dog), 872.\*  
 effect on growth on purified diet of varying fat and protein content (rabbit), 874.\*  
 estimation, 284.  
 in biological fluids, 33.  
 in blood, 284, 507, 757.  
 in milk ash, 508.  
 in plant extracts, 507.\*  
 in urine, 33, 284.  
 exchangeable, in bone, 874.\*  
 normal and in ascites (man), 617.\*  
 in blood, high, syndromes, 555.\*  
 in patients after operation, 681.  
 in bone, exchangeability (dog, man), 587.  
 relation to carbonate (rat), 587.  
 in foods, India, 253.\*  
 restriction of intake (man), 689.  
 in milk, effect of stage of lactation, 45.  
 in vegetables, frozen, 772.

## Sodium

- influence on fatty acid metabolism in liver and kidney slices, 396.  
 intake, low, planning of diets (man), 859.  
 restricted, effect of sodium in drinking water, Canada, 439.  
 treatment of hypertension (man), 439.\* 942.  
 intracellular, and fatty acid metabolism, 806.\*  
 metabolism, in kidney cortex slices (guinea pig), 630.\*  
 physiology, 881.\*  
 review, 871.\*  
 role of skin (frog), 900.\*  
 ratio to potassium in skin (man), 588.\*  
 removal, value of ion exchange resins, in ewe (rat), 386.  
 requirement of chickens, relation to potassium, 157.  
 retention, role of colon (man), 872.  
 role in salt-retaining action of deoxycorticosterone (man), 874.\*  
 toxic effect in potassium deficiency (rat), 157.  
 uptake by cation exchange resin, effects of oedema and sodium intake (man), 155.  
 Sodium and potassium, exchangeable spaces, measurement (man), 56.\*  
 Sodium chloride (see also *Salt*)  
 and bicarbonate, by mouth, effect on nocturnal electrolyte excretion (man), 873.  
 effect on lactobacilli, relation to vitamin B<sub>12</sub>, 565.  
 intake, effect on ultimate size, blood pressure and organ weights (rat), 874.\*  
 high, effect on growth, feed efficiency, nitrogen balance and feed digestibility (lamb), 959.\*  
 effect on heart, lipid metabolism and survival (rat), 872.\*  
 toxic effects (rat), 157, 886.\* 619.  
 Sodium iodate, effect on man and animals, 875.\*  
 Sodium metabisulphite, as silage conditioner, 486.\*  
 Solids-not-fat, milk (see under *Milk*)  
 Somatotrophin (see *Pituitary, anterior, growth hormone*)  
 Sorbic acid, use in cheese, 513.\*  
 Sorghum (see also *Millet*)  
 for lambs, 454.  
 hydrocyanic acid content, 301.  
 Sorghum flour, riboflavin content, 324.  
 Sorghum grain, as fodder, 946.\*  
 South Africa  
 anaemia, megaloblastic in women, *post partum*, 216.  
 Blood, blood calcium, 564.  
 blood composition in pregnancy, 531.  
 breast milk composition, 996.\*  
 calcium metabolism, 996.\*  
 cattle, beef, feeding, sour veld pasture, effect of spring resting on weight gains 448.  
 winter supplements to veld hay, 952.  
 cattle fattening, 224.\*  
 children, growth, Bantu, 650.  
 European and Bantu, 170.  
 tongue, ultraviolet fluorescence, 192.  
 tongue patterns in health and disease, 192.  
 effect of winter nutritional depression on growth, reproduction and production of cattle, 699.  
 food production, 983.  
 food resources, relation to population, 654.

- South Africa  
infants, newborn, weight in first days, Bantu, 170.  
iron intake and haemosiderosis (man), 417.  
kwashiorkor, 657.\* 996.\*  
malnutrition and incidence of blindness (man), 193.  
rickets, 996.\*  
sheep, Dorper breed, 708.  
winter supplements to veld hay, 962.  
siderosis (man), 193.  
South America (see specific countries, e.g. Argentina)
- Southern Rhodesia  
fluorosis, addition of fluorine to drinking water, 486.\*  
iodine deficiency, use of iodised salt, 486.\*  
kwashiorkor, investigation, 486.\*  
native plant relishes, 485.\*  
tempe (fermented soya bean), commercial production, 485.\*  
tortilla (Mexican maize bread) production, 485.\*
- Sows (see also Pigs)  
colostrum and milk, composition, 253.\*  
farrowing date and litter performance, 959.  
feeding, aureomycin and vitamin B<sub>12</sub> supplement to low-protein ration, effect on survival of young, 486.\*  
effect of plane of nutrition on milk production, 485.\*  
full and limited sequences, effect on reproduction, 964.  
litter size, repeatability, 714.  
milk, amino-acids, 45.  
carbohydrates, 768.  
composition, changes during lactation, 518.  
nutritive value, 253.\*  
production, and composition, 710.  
effect of plane of nutrition, 485.\*  
nutritional properties and factors involved in ejection, 728.\*  
substitute for rearing pigs, 728.\*  
vitamin B<sub>12</sub>-binding factor, 728.\*  
pregnant, feeding, ladino clover pasture and grass and legume silage, 966.\*  
reproduction, effect of alternate full and limited feeding, 964.\*  
effect of protein source and antibiotics, 967.\*  
effect of vitamin A deficiency, 783.\*
- Soya bean  
ascorbic acid, lysine, tryptophan and vitamin B<sub>1</sub>, effect of sprouting and cooking, 528.  
effect on growth, influence of vitamin supplements and DL-methionine (chicken), 320.  
fermented (tempe), commercial production, Southern Rhodesia, 485.\*  
growth inhibitor for *Tribolium confusum* larvae, 901.  
lipids, inositol-containing, 52.\*  
phosphatides, occurrence of phospho-aminolipid, 52.  
storage, effect of spontaneous heating, 765.  
Soya bean cake, supplement to rice- and wheatbran diet, effect on rickets and osteomalacia (rabbit), 172.  
Soya bean flour, effect on xanthine oxidase formation, role of molybdenum, 162.  
in replacement formulae for calves, 949.  
Soya bean forage, nutritive value, effect of phosphate fertiliser (rabbit), 715.  
Soya bean inhibitor, accentuation of amino-acid deficiency (chicken), 716.  
Soya bean lecithin (see under Lecithin)
- Soya bean meal, effect of quality on vitamin B<sub>12</sub> requirement of chickens, 568.  
for chickens, effects of heat and moisture, 236.  
for pigs, effect of extraction method on weight gains, 456.  
for rats, effect of aureomycin or methionine, 138.  
growth inhibitor, effect of trypsin (chicken), 108.  
nitrogen absorption, effect of heat, or aureomycin or methionine supplementation (rat), 137.  
oestrogenic effects (mouse), 643.  
oestrogenic substances, 178.  
processed, for calves, 223.\*  
quality, assessment by laboratory methods and chicken experiments, 716.  
trichloroethylene-extracted, poisoning of chickens and effect on immunity of survivors, 248.  
Soya bean milk, in allergy prophylaxis for newborn infants, 680.  
Soya bean oil, for chickens, 469.  
Soya bean protein, hydrolysate and casein hydrolysate, compared, 653.  
Soya bean sterols (see under Sterols)  
soy, immunochemical properties, 52.\*  
physical characteristics, 52.\*
- Spain  
diet, body fatness and serum cholesterol (man), 909.  
foods, composition, 188.  
goitre, endemic (man), 438.  
Specific dynamic action (see under Energy exchange)  
Sphingomyelin, estimation in egg powders, 278.  
Spinach, effect on calcium turnover (rabbit), 869.  
folic acid distribution, 794.  
Spleen cord (see Nervous system, central)  
Spleen  
effect of acid or basic diets with or without adrenal hormones (cat, guinea-pig), 870.  
histology, effect of cobalt and vitamin B<sub>12</sub> (rat), 665.  
removal, effect on serum iron, influence of vitamin PP (dog), 327.
- Sprue  
diagnosis, 684.\*  
endemic, picture, 666.\*  
etiology, 193, 437.\*  
fat absorption, effect of gluten and anti-bacterial agents, 939.\*  
non-tropical, excretion of uric acid, effect of folic acid, 201.  
treatment with vitamin B<sub>12</sub>, case report, 931.  
tropical, and adrenals, 588.\*  
treatment with clostridium factor, 927.  
vitamin B<sub>12</sub> excretion (man), 430.  
with osteomalacia (man), 207.
- Spruey, chemical composition, Kenya, 776.  
Squalene, conversion to cholesterol in liver, 160.\*  
effect on arteriosclerosis (rabbit), 150.  
estimation in sebum, 356.\*  
formation from acetate by liver slices and ovarian membranes *in vitro* (hen, rat), 628.  
Squash, butternut (*Cucurbita moschata*), composition, effect of storage, 514.  
Staining procedures used by Biological Stain Commission (book), 249.\*  
Staphylococcus aureus, uptake or destruction of vitamin B<sub>12</sub> (man), 925.
- Starsh  
biological transformation, 365.\*  
bread, digestibility, effect of staling and  $\alpha$ -amylase, 108.\*
- Starsh  
effect of source and physical state on choice of diet (rat), 132.  
enzyme digestion, estimation, 272.\*  
estimation, in foods, 21.  
in wheat by proteases, 500.  
from different sources, enzymic hydrolysis, 108.  
in bread, digestion by enzymes *in vitro*, effect of storage, 108.  
intake, effect on rumen digestion and micro-organisms (sheep), 112.  
maize, growth factor for ducklings, 240.  
raw, digestion by amylases from different sources, 825.\*  
Starvation (see also Fasting; Immunity; Underfeeding)  
amino-acid metabolism (rat), 853.  
 $\beta$ -aminoisobutyric acid in urine (man), 604.  
cachexia, effect on adrenals, Indonesia, 123.  
effect on acid base balance (cow), 879.  
effect on adrenals (guinea-pig), 588.  
effect on course of *Plasmodium berghei* infection (rat), 637.  
effect on glycogen deposition in uterus after pituitary or ovaries removal (rat), 132.  
effect on injury to protozoa by ultraviolet light, 902.  
effect on iron storage (rat), 160.\*  
effect on liver composition (rat), 122.  
effect on liver structure (rabbit), 178.  
prolonged, physiological effects (man), with hard work, effect on bodyweight, body fluids and metabolism (man), 840.  
Statistical methods, experimental design, in dairy husbandry, 760.  
Statistical methods in agriculture, introduction (book), 728.  
Steroid acid, contribution to milk fat, 891.\*  
Steroid acid, effect in fatty acid depletion (rat), 611.  
Sterosteron  
after oesophago-gastric surgery (man), 314.  
calcium metabolism, 933.  
case reports, 939.\*  
etiology, 144, 810.\*  
faeces composition (man), 144.  
idiopathic, effect on water metabolism, 880.  
relation to blood supply to intestine, 114.  
vitamin A absorption test, 531.  
iron metabolism (man), 622.  
other than sprue (man), 213.  
total exchangeable potassium (man), 617.  
Steers (see Cattle, beef)  
Sterility (see Fertility; Reproduction)  
dietary and hormone treatment, 890.  
effect of m-xylolhydroquinone on culomestrium (woman), 890.  
Steroids, antimetabolic, in fish liver oils and grass, 68.  
17-hydroxycorticosterone, in blood, after adrenal removal, effect of cortisone and with and without ascorbic acid (rat), 823.  
in ascorbic acid deficiency (guinea-pig), 343.  
keto-, excretion, relation to basal oxygen consumption (children), 839.  
17-keto-, and cortisone, excretion in vitamin C deficiency (guinea-pig), 104.  
excretion in scurvy, effect of adrenocorticotrophic hormone or adrenal removal (guinea-pig), 343.  
17-keto- and 17:21 dihydroxy-20-keto, excretion, effect of ascorbic acid (man), 673.

- $\beta$ -Steroids, in liver, effect of dihydrocholesterol (mouse), 866.
- Sterol(s) (see also specific sterols, *e.g.*, *Cholesterol*)
- 7-dehydro-, in sex organs of rat, 69.
  - effect on cholesterol absorption and esterification (rat), 114.
  - in brain tissue (man), 586.
  - intake, effect on cholesterol content of blood and liver (chicken), 150.
  - metabolism, in cockroach, 901.
  - soya bean, effect on cholesterol absorption (rat), 863.
- Stomach (see also *Digestive tract*)
- (see also *Stomach secretion*)
  - control, 683.\*
  - effect of pepper (man), 347.\*
  - free estimation, without tube, 37.
  - in peptic ulcer (man), 347.
  - reduction in gastric disorders, 683.
  - ascorbic acid content, effect of gastritis (guinea-pig), 342.
  - bovine, post-partum development of compartments, 254.\*
  - cytology during treatment of pernicious anaemia, 660.\*
  - disorders, in anaemia, 217.\*
  - treatment, 212.\*
  - with alkali, production of kidney disorders, 684.
  - effect of amino-acid deficiency, 605.\*
  - emptying time, with sterile or pasteurised milk (infant), 904.
  - function, with vegetarian foods (man), 828.
  - motility, in ruminants, 112.\*
  - nervous control (sheep), 112.
  - mucosa, cellular changes in anaemia, pernicious, 920.
  - cyanocobalamin-protein complex (pig), 813.
  - extracts, composition, 835.\*
  - peptic digestion, glycine test, effect of achlorhydria and partial stomach removal (man), 828.
  - protease, activation, and occurrence in secretion, 576.\*
  - secretion, in health and in stomach disorders (children, infants), 576.
  - removal, effect on nitrogen, fat and mineral metabolism (man), 868.\*
  - effect on protein breakdown, 578.\*
  - effect on sugar absorption and milk digestion (man), 348.
  - effect on vitamin B absorption (man), 659.
  - fat and nitrogen excretion, effect of surface-active agent (dog), 134.
  - ileo-jejunal insufficiency, 939.\*
  - partial, postcibal signs, dietary treatment (man), 939.
  - partial or total, effect on fat and protein absorption (man), 349.
  - total, effect on secretion of intrinsic factor (man), 930.
  - use of fat emulsion (man), 681.
- secretion (see also *Stomach, acidity*)
- acid, and oxygen consumption, *in vitro* (mouse), 165.\*
  - estimation, 766.\*
  - acidity, new preparation as supplement, 939.
  - adaptation to diet (horse), 112.
  - effect of antihistamines, 828.\*
  - effect of benedust (dog), 578.
  - effect of quaternary ammonium compounds (dog), 578.
  - effect of sodium fluoride (cat), 347.
  - electrophoretic study (man), 347.
  - fasting, electrolyte concentrations (man), 578.
  - fixation of vitamin B<sub>12</sub> (man), 202.
  - fractional titration, apparatus, 510.\*
- Stomach
- secretion, given by mouth, effect on vitamin B<sub>12</sub> excretion after stomach removal (man), 203.
  - in dystrophic infants, effect of vitamin B<sub>12</sub>, 109.
  - nocturnal, normal and in patients with duodenal ulcer, 828.
  - pepsin content, relation to uropepsinogen excretion (man), 578.
  - phosphorus, radio-active, content after injection (man), 383.
  - protein pectus (man), 578.\*
  - secretion and motility, effect of ripeness of meat (dog), 828.
  - temperature, relation to hunger and gastric ulcer activity (man), 111.
  - vitamin B<sub>12</sub> binding effect, effect of anaemia, pernicious (man), 930.
  - localisation (pig), 813.
- Stomach extract, treatment of gastro-duodenal ulcer (man), 684.
- Storage
- bread, effect on starch digestion by enzymes, *in vitro*, 103.
  - butter and ghee, effect on quality and vitamin A content, 785.
  - butter and margarine, effect of temperature on vitamin A, 308.
  - butternut squash (*Cucurbita moschata*), effect on composition, 514.
  - canned vegetables, effect on nutritive value, India, 253.\*
  - cold (see *Refrigeration*)
  - eggs, effect on biotin, 91.
  - effect on protein content, 296.
  - fat, milk, deterioration, role of lactones, 512.
  - groundnut oil, deterioration, 290.
  - hormeds, 762.\*
  - margarine, effect of temperature on carotene and vitamin A, 309.
  - milk, effect of temperature on quality and lysozyme activity (cow, human), 512.
  - effect on ascorbic and dehydroascorbic acids, 344.\*
  - oils, groundnut and mustard, solution of zinc from galvanised containers, 513.
  - orange juice, effect on lipid composition, 53.
  - potatoes, effect on ascorbic acid, 107.
  - losses, 43.
  - soya beans, effect of spontaneous heating, 765.
  - tomato juice, effect on organic acids, 523.
  - wheat, losses by rice weevil infestation, 291.
  - mould growth, effect on respiration, viability and composition, 765.\*
- Straw (see also under specific type, *e.g.*, *Wheat straw*)
- alfalfa, digestibility, effect of stage of growth (sheep), 443.
  - Beckmann treatment, 767.\*
  - wheat, hemicelluloses, chemical structure, 306.\*

 reducing, identification in urine (man), 401.  
 in milk, autoclaved and raw, 45.\*  
 reducing and total, in West Indian cherry juice, 802.  
 relation to fat and vitamin E, effect on growth (rat), 788.  
 tolerance (see *Blood sugar, tolerance*)  
 utilisation, effect of age (man), 844.  
 when given by vein (man), 845.  
 white, growth promoting substances for *Leuconostoc mesenteroides*, 321.  
 yeast fermentable, estimation in beer, 272.\*
- Sugar beet, for pigs, 714.\*  
 Sugar beet pulp, dried or ensiled, for cows, 955.  
 Sugar beet tops, for lambs and cattle, 907.\*  
 Sugar cane, organic acids, identification and estimation, 749.  
 Sugar cane silage, for cows, 223.  
 Sulphasuccinate, effect on biotin formation in intestine (rat), 332.  
 effect on nitrogen metabolism (rat), 372.  
 Sulphate(s) (see also under *Sulphur*)  
 effect on copper-molybdenum interrelation in sheep, 454.  
 estimation, 33.  
 exchange, in chondroitin sulphuric acid of cartilage, effect of cortisone (cattle, rat), 897.  
 in vitro (cattle), 397.  
 incorporation into cartilage (rat), 878.  
 intake, effect on limitation by molybdenum of copper storage in liver (sheep), 389.  
 metabolism, effect of age (rat), 877.  
 effect of pituitary removal and growth hormone (rat), 824.  
 in the pregnant and foetal rat, 390.  
 reduction to sulphide by rumen micro-organisms (sheep), 638.  
 Sulphonamide(s), succinylsulphathiazole, effect on growth of mice on low-fat diet, 147.  
 sulphaquinoxaline, effect on growth of chickens, 237.  
 Sulphone, diaminodiphenyl-, treatment of skin tuberculosis, 207.  
 methionine, metabolism (rat), 608.  
 Sulphur  
 compounds, goitrogenic effect (rabbit, rat), 885.  
 deficiency, effects in lambs, 161.  
 elemental, metabolism (man), 624.  
 elemental or sulphate, conversion to cystine in wool (sheep), 161.  
 for lambs, 229.  
 from sulphate, distribution in skeletal tissues (rat), 878.  
 in urine, relation to nitrogen, in nutritional disturbances (infant), 824.  
 in wool, effect of horn hydrolysis (rabbit), 715.  
 inorganic, in formation of cystine (rat), 877.  
 utilisation and incorporation into cystine (hen), 379.  
 utilisation by sheep, isotope study, 486.\*  
 inorganic or organic, effect on growth and wool production (lamb), 706.  
 neutral, excretion, effect of normal pregnancy or toxæmia (woman), 390.  
 organic compounds, biological importance, 890.\*  
 organic, estimation, 33.  
 protein-bound, distribution in hen's egg, 770.  
 radio-active, from methionine, uptake by tissues after injection (chicken), 878.  
 in sulphur dioxide silage, metabolism in lactating cow, 390.  
 requirement, of range ewes, 958.\*
- Sulphur  
 treatment of enterotoxaemia (lamb), 229.  
 Sulphur dioxide, as preservative in making legume silage, 515.  
 Sulphur fertilisers, effect on yield of subterranean clover grown in sulphur-deficient soils, Australia, 525.  
 Sulphuric acid, estimation in foods, 34.\*  
 Sulphydryl compounds, non-protein, in liver and blood, effect of vitamin B<sub>12</sub>, 566.  
 Sulphydryl groups, estimation in biological material, 502.  
 Sunflower seed meal, amino-acid content, effect of processing temperature, 42, 290.\*  
 Sunlight, effect on capillary resistance (rat), 315.  
 Suprarenal (see *Adrenal*)  
 Surface-active agents  
 effect on digestive tract (man), 685.  
 effect on fat and nitrogen excretion after stomach removal (dog), 134.  
 effect on fattening lambs, 961.\*  
 effect on growth (chicken), 977, 979.  
 (pig), 458, 968.\*  
 for calves, 223.\*  
 in diet, effect on children and infants, 625.  
 in fat emulsions given by vein, effect on rate of utilisation (rat), 146.  
 Surgical patients  
 acid base equilibrium and potassium depletion, 153.\*  
 blood serum proteins, 583.\*  
 diet treatment, review, 681.  
 embolism, treatment with  $\alpha$ -tocopherol, 108.  
 low sodium syndromes, treatment, 681.  
 metabolism, effect of electrolyte, carbohydrate and amino-acid intakes, 872.  
 nutrition after gastric operations, 684.  
 potassium deficiency, intracellular and extracellular, 156.\*  
 protein and vitamin deficiencies, 681.  
 Swallow, cattle rearing, 449.  
 Sweat  
 ascorbic and dehydroascorbic acids and vitamin B<sub>1</sub> content, acclimatised Europeans in tropics, 673.  
 composition, review, 835.\*  
 secretion, in nutritional oedema (infant), 594.  
 thermal, composition (man), 120.\*  
 mineral composition (man), 120.\*  
 effect of physical condition and sex (man), 120, 121.  
 Sweat glands, function, in cattle, 364.  
 Swede turnips (see *Turnips*)

## Trace elements

- in bone meals, America (U.S.), 521.  
in foods, importance 707.  
in nutrition of ruminants, 692.\*  
in rice, 391.  
requirements for reproduction, strain differences (mouse), 58.  
Transaminase, glutamic-oxaloacetic, in tissues, effect of adrenal removal or adrenal cortex hormones (rat), 826.  
Liver, effect of decarboxyribozyme (rat), 87.  
Transamination, by small intestine (rat), 166.\*  
by tissue homogenates, in vitamin B<sub>1</sub> deficiency (rat), 81.  
in liver, effect of vitamin B<sub>6</sub> (rat), 87.  
non-enzymic, peptides and pyridoxal, 558.  
Transformylation, role of activated formic acid and formyl donors, 93.  
Transmethylation, effect of vitamin B<sub>12</sub> and coenzyme B<sub>12</sub> (man, rat), 81.  
from methionine to choline, effect of vitamin B<sub>12</sub> (baby pig), 814.  
relation of vitamin B<sub>12</sub> (liver homogenates), 815.\*  
Trauma (see Injury)  
*Tribolium confusum* (see Beetle, flour)  
*Trichostrongylus colubriformis* infestation, effect of nutrition and of age (sheep), 249.  
*Trichosurus vulpecula*, carbohydrate metabolism and alloxan diabetes, 845.\*  
*Trifolium alexandrinum* (see Berseem)  
*Trifolium subterraneum* (see Clover, subterranean)  
Triglycerides, digestion (rat), 858.  
role of bile and pancreatic juice, review, 580.\*  
synthetic, utilisation (rat), 858.\*  
Trigonellin, estimation in coffee, 29.\*  
excretion, after test dose of tryptophan and vitamin B<sub>3</sub> (children), 426.  
effect of coenzyme B<sub>12</sub> (children), 661.  
*Triodia decumbens*, composition and probable feeding value, 524.  
Tripalmitin, absorption (rat), 857.  
Tropics  
adaptation of Merino rams, 485.\*  
beef cattle production, climatological research, 449.  
domestic animals, blood composition, 116.  
pasture, 776.\*  
rations for expeditions, 653.\*  
*Trypanosoma vivax* infection, course in rats, effect of milk diet, 402.  
Trypsin  
effect on fat in liver (rat), 108.  
effect on growth inhibitor in soya bean meal (chicken), 108.  
in infancy and childhood, review, 576.\*  
precursor of lipotropic substances, 108.\*  
Trypsin inhibitor(s)  
estimation in blood, 285.  
in duck egg white, 253.\*  
Tryptophan, and metabolites, excretion, after ingestion of D- and DL-tryptophan (man), 854.\*  
and nicotinic acid, interrelation in hen eggs, 326.\* 555.  
deficiency, effect on resistance to infection (rat), 801.  
conversion to pyridine nucleotides by washed red cells (man), 86.  
Tryptophan deficiency  
effect on jaws (rat), 374.\*  
in adult rats, 854.  
Tryptophan, effect on nicotinic acid and trigonellin excretion (children), 426.  
estimation, 25, 270.  
in soya beans, effect of sprouting and cooking, 528.  
intake, effect on liver betaine trans-methylase (rat), 630.

## Tryptophan

- intake, effect on metabolism of injected methionine (laying hens), 854.  
relation to susceptibility to *Ascariidia galli* infection (chicken), 990.  
metabolism, effect of insulin (rat), 559.  
in rice moth larvae, 405, 644.  
place of kynurenine and hydroxykynurenine (man), 607.  
metabolites, excretion, in loading test, effect of vitamins A and B<sub>6</sub> deficiencies (rat), 559.  
in urine (man), 142.\*  
(rat), 606.  
relation to 6-methyltryptophan (monkey), 637.  
requirement of rats, 374.  
Tubercle bacillus, effect of biotin antagonists, 91.  
infection, effect on nicotinic acid and pyridine nucleotides in blood (guinea pig), 554.  
Tuberculosis  
calcium and phosphorus metabolism (woman), 616.  
diet, 691.\*  
in adolescent girls, relation to nutrition (book), 502.  
mineral metabolism (man), 615.  
phosphorus, radio-active, distribution in tissues (rabbit), 385.  
skin, treatment, with ascorbic acid, 205.\*  
with calciferol, streptomycin and sulphones, 207.  
with vitamin D<sub>2</sub>, after-effects (man), 333.  
skin and bones, treatment with vitamin D<sub>2</sub>, 207.\*  
Tuberculo-statics, effect on adrenal cortex (guinea pig, rat), 574.\*  
Tumour(s) (see also Cancer)  
ascorbic acid, effect of X-ray exposure (mouse), 824.\*  
effect of ethionine (rat), 169.  
effect of D-glucoscorbic acid (guinea pig, mouse, rat), 342.  
effect of mineral intake (mouse), 160.  
effect on body and organ weights in forso-fed rats, 168.  
formation of vitamin B<sub>12</sub>, 816.\*  
hepatomas, incidence, effect of bentonite (mouse), 631.  
effect of dietary fat fractions (mouse), 884.\*  
in animal-protein factor deficiency, 340.\*  
liver, production by azo dye, effect of cholesterol (rat), 149.  
production by ethionine (rat), 169.  
ovarian, effect of thyroid and of food intake (mouse), 884.  
phosphocholine uptake (mouse), 631.  
production by butter yellow, biochemistry, review, 398.  
production by dimethylaminoazobenzene, effect of biotin or oxybiotin (rat), 91.  
Rous sarcoma, effect of adenine and thymonucleic acid in folic acid deficiency (chicken), 333.  
slices, amino-acids uptake, 631.\*  
Tung meal, detoxification, toxicological studies (rat), 766.  
Turkey, wheats and bulgars, vitamin B<sub>1</sub> content, 83.  
Turkey(s)  
blood serum proteins, 354.\*  
Bronze, growth, 460.\*  
disorders, perosis, effect of vitamin E and inorganic phosphorus, 789.  
egg production, effect of ultraviolet light, 473.  
Turkey(s), feeding  
antibiotics, effect on flavour of flesh, 486.\*

- autocynin and fishmeal, effect on palatability of flesh, 239.  
effect of fibre, 978.  
effect of vitamin E and nicotinic acid, 317.\*  
penicillin, effect on egg production, hatchability and weight, 242.  
effect on feed consumption, 242.  
Turkey(s), growth, effect of fibre and energy content of diet, 460.\*  
effect of L-lyxoflavin, 85.  
growth and carcass quality, effect of growing mash, concentrate and pelleted concentrate, free choice, 469.\*  
reproduction, effect of aureomycin and vitamin B<sub>12</sub>, 568.  
Turkey poult  
calcium and phosphorus requirements, 460.  
calcium pantothenate and biotin in starter rations, effect of season, 77.  
carcass composition, 461.  
disorders, hock disorder, 480.\*  
effect of nicotinic acid and vitamin E, 86.  
effect of yeast, 974.  
perosis, prevention with 4-nitrobenzenearsonic acid, 980.  
effect of orotic acid, 975.\*  
effect of penicillin or penicillamine given orally or injected, 465.  
Turkey poult, feeding  
all-vegetable ration, effect of antibiotics, methionine and distiller's solubles, 463.  
animal products and fermentation by-products, 974.  
antibiotics, at high levels, effect on feather pigmentation, 976.  
effect of age, 978.  
effect on growth and feed efficiency 977.  
effect on physical and chemical characteristics, 466, 468.\*  
relation of effect to feed pelleting process, 466.  
fish solubles and vitamin B<sub>12</sub> with antibiotics, supplements to mash containing meat, 667.  
grains, singly or mixed, 469.\*  
low-protein rations, 461.\*  
penicillin, 230, 465, 467.  
protein at different levels, effect on feed utilisation, 461.  
wheat, effect of methionine supplement, 238.  
Turkey poult, growth and caecal pH and flora, effect of bacteria with or without penicillin, 237.  
growth and faecal microflora, effect of antibiotics by mouth and injection, 978.  
intestinal micro-organisms, effect of penicillin, 894.  
methylation of homocysteine in presence of vitamin B<sub>12</sub>, 98.  
Turkey meat, quality, effect of sealding temperature, 764.  
Turnip(s)  
antithyroid substances, production of goitre, 216,\* 940.\*  
for cows, comparison with silage, 449.  
Turtles, blood serum protein, 643.  
loggerhead (*Thalassechelys caretta*), uric acid metabolism, 900.  
Twins  
as experimental animals, efficiency, 729.\*  
monozygous, experiments (cattle), 222, 290,\* 449, 697, 698,\* 701.  
performance, effect of previous differential treatment (cow), 485.\*  
variation and fertility (cattle), 450.\*

- Typhoid fever, dehydroascorbic acid in blood, 430.
- Tyrosine  
effect on eosinophil count (man), 600.  
estimation, 25.  
metabolism (guinea pig), 253.\*  
and vitamin C (chicken), 342.\*  
effects of folic acid, vitamin C and vitamin B<sub>12</sub> (guinea pig), 104.  
oxidation in liver, co-enzymes in system (rat), 109.
- UCUUBA (*Virola surinamensis*) fat, composition and characteristics, 303.
- Udder (see also *Mammary gland*)  
physiology, 253.\*
- Ucler, duodenal, post-operation nutrition of patients, 684.  
treatment (man), 684.
- Ucler, gastric, post-operation nutrition of patients, 684.
- Ucler, gastro-duodenal, treatment with extract of stomach and intestine (man), 684.
- Ucler, peptic  
and blood sugar tolerance (man), 130.  
constancy of stomach acidity in repeated tests (man), 347.  
management (man), 689.  
postcibal signs in patients with partial gastrectomy, dietary treatment, 689.  
treatment with diet containing vitamin U, 934.\*  
treatment with rest and drugs, 683.
- Ucler, treatment with diet and production of scurvy, 931.\*
- Ultraviolet light, effect on arteriosclerosis production by cholesterol (rabbit), 149, 615.\*  
effect on capillary fragility produced by maize diet or puff-adder venom (rat), 615.  
effect on egg production (turkey), 473.  
injury to protozoa, effect of starvation before exposure, 902.
- Underfeeding (see also *Starvation*; *Food intake*; *restricted*)  
effect of gonadotropin (mouse), 329.  
effect on bodyweight and milk composition and yield (cow), 225.  
effect on intestinal motility (rat), 113.  
effect on organ weights and histology (rat), 323.  
energy output during rehabilitation (pigeon, rat), 365.\*
- Union of Soviet Socialist Republics  
bread costs in Soviet fiscal system, 416.  
calves, salt deficiency, 987.  
collective farms, combination of agriculture and animal husbandry, 696.\*  
fluorine in cereals and vegetables, 298.  
food costs, 417.  
herbivores, mineral deficiency, 987.  
koumiss production, 983.\*  
requirements of man, 409.  
sheep, feeding, 229.  
fodder supply in dry region, 229.
- Ukraine, food prices and ration scale, 1946, 417.

Vitamin A excess, central nervous system lesions (guinea pig), 313.

effect (rat), 70.

effect of ascorbic acid (guinea pig), 313.

production of acute hydrocephalus, 421.

Vitamin A, for pigs, carotene and carotenoids as sources, 784.\*

methods of supplying, 728.\*

for poultry, review, 782.\*

formation from carotene, effect of alloxan diabetes (rat), 63.

in intestine (rat), 62, 728.\*

Vitamin A

in blood, effect of carotene supplement to pasture, 784.

effect of exercise (man), 421.

effect of menstrual cycle (woman), 420.

effect of parturition (cow), 87.\*

effect of pasture, ramie meal, and sex (chicken), 307.

effect of penicillin (man), 420.

in skin disorders (man), 196, 658, 923.

rate of absorption (rat), 781.

in butter and ghee, effect of storage, 783.

in butter and margarine, effect of storage temperature, 308.

in butterfat, 67.

in feedstuffs, stability, 532.

effect of stabilised fats, 533.

in fish liver oils, from Nile species, 785.

in fortified milk, stability, effect of processing, 785.

in ghee, stability, 533.

in groper liver oil, 49.

in herring and mackerel, Norwegian, 779.

in kidney, rate of deposition (rat), 781.

in liver, effect of methylthiourea (ram), 64.

effect of synthetic vitamin A (laying pullets), 531.

rate of deposition (rat), 781.

reserves and storage (see below under *reserves*)

in liver cells, distribution (rat), 61.

in margarine, effect of storage temperature, 309.

estimation, 729.\*

in marine crustacea, 61.

in marine invertebrates, 253.\* 728.\*

in milk (mare), 67.

effect of alfalfa, dried pelleted, 955.

effect of form of alfalfa in feeds (cow), 784.

effect of hay and silage (cow), 532.

in milk and milk products, 254.\*

in milk fat, effect of shark liver oil (bunale, cow), 67.

in shark liver oils, India, 779.

in skate, 48.

in tissues, effect of carotene, labelled, carbon-, by stomach tube (rat), 781.

in urine, excretion and solubility (man), 197.

Vitamin A intake

and incidence of blood spots in eggs (poultry), 314.\*

effect on survival of bobwhite quail, 312.

high, effect on testes (rat), 313.

Vitamin A, metabolism (rat), 253.\*

anti-oxidant studies (rat), 782.\*

effect of kidney removal (rat), 782.

in phosphorus deficiency (cattle, sheep), 784.

oxidation, 729.\*

physiology, review, 421.

placental and mammary transfer (cow), 67.

production from carotene by intestine, *in vitro*, in alloxan diabetes (rat), 63.

relation to enzymes in liver on protein-deficient diet (rat), 540.\*

Vitamin A requirement, of sheep, 996.\*

Vitamin A, reserves, of range lambs, 997.\*

relation to carotene intake in reproduction and lactation (cow), 784.\*

role in eye lesions of genetic origin (mouse), 408.

stability, in fluid and dried milk, 67.\*

in margarine, Canada, 909.

when adsorbed on solids, 60.

synthetic, effect on blood pressure (man), 421.

effect on egg production, food consumption, mortality rate and vitamin A in liver (laying pullet), 531.

- Vitamin A**  
treatment, of acne vulgaris, 923.  
of cancer (man), 924.  
of dermatosis, 197.\*  
of hyperkeratosis (calf), 532.  
of premenstrual nervous disorders (woman), 924.  
of skin disease, 421.  
of sleeplessness due to hypertension (man), 198.  
use in gynaecology, 421.  
utilisation, effect of aureomycin (rat), 64.  
effect of  $\alpha$ -tocopherol (rat), 63.  
effect of vitamin B<sub>12</sub> (rat), 63.
- Vitamin A aldehyde**, absorption by children, 197.  
metabolism, biopotency and toxicity (man, rat, chicken), 780.\*
- Vitamin A aldehyde-albumin complex**, properties (rat), 253.\*
- Vitamin A concentrate**, for cows, effect on milk and fat production, 729.\*
- Vitamin A emulsions**, effect on dark adaptation (man), 420.
- Vitamin A esterase**, distribution in liver cells (rat), 62.
- Vitamin A palmitate**, utilisation, effect of solvent (rat), 311.
- Vitamin A precursors**, isoprenoxanthins and its methyl ether, 529.
- Vitamin A**, related substance, in lard, 310.
- Vitamin B complex** (see also specific components, e.g., *Nicotinic acid*)  
effect on amino-acids absorption in old age (man), 348.  
effect on cancer with proximal neuropathy, 664.  
formation in rumen, effect of terramycin (calf), 702.  
relation to resistance to disease, 58.  
stimulation of cellulose digestion by rumen micro-organisms, 703.\*  
treatment of stammering (children), 664.  
with antibiotics, effect on growth at different levels of protein intake (pig), 793.\*
- Vitamin B complex components** (see also specific components, e.g., *Nicotinic acid*)  
antagonism to penicillin in staphylococcal infection (mouse), 76.  
beetle larvae as test organism, 543.  
deficiency, effect on biotin formation in intestine (rat), 332.  
effect on blood picture and bone marrow (rat), 74.  
signs (guinea pig), 791.  
effect in treatment with aureomycin (guinea pig), 75.  
effect of salt mixtures in purified diets (rat), 73.  
effect on inhibition of growth of bacteria by antibiotics, 75.  
effect on reproduction (pigeon), 307.  
effect on wound healing in protein deficiency (mouse), 602.  
estimation, 73.  
excretion, effect of isonicotinic acid by-drazide (man), 425.  
in blood, effect of milk replacement diet and aureomycin (calf), 78.\*  
in blood and milk of ewes and blood of lambs, effect of rutin, 77.  
in buffalo milk, effect of sunlight, 78.  
in cereals and legumes, effect of fumigation with methylbromide, 321.  
in coconut toddy, 79.  
in dried fermented whey, 898.  
in silberite, 545.  
in herring and mackerel, 779.  
in liver, effect of adrenal cortex (rat), 320.  
in maize, Guatemala, 51.
- Vitamin B complex components**  
in malted and flour, effect of enrichment and cooking, 78.  
in milk, effect of adrenocorticotrophic hormone, 728.\*  
Netherlands, 545.  
in pulps, effect on germination, 545.  
in rumen, effect of diet (cattle), 77.\*  
in single carbon unit metabolism, 74.\*  
in tissues of pigs on different protein intakes with and without aureomycin, 793.\*  
in walnuts, 546.  
intake, effect on choline oxidase in tissues (rat), 110.  
isolation, identification and functions, 997.\*  
metabolism, effect of antibiotics (rat), 76.  
requirements for growth, estimation by law of diminishing returns (animals), 544.  
requirements of chicken, 77.  
separation, 320, 791, 805.  
sparing action of antibiotics (rat), 793.\*  
synthesis by intestinal micro-organisms, effect of disease (man), 926.  
synthesis by *Lactobacillus arabinosus*, effect of vitamin K antagonists, 543.
- Vitamin B complex deficiency** (see also *Beriberi*; *Pellagra*; *Polynuria*)  
choice of diet (rat), 74.  
effect of antibiotics (rat), 76.  
effect of ascorbic acid in prevention or delay (rat), 822.\*  
effect on blood proteins in children, 200.  
Vitamin B complex derivatives, effect on growth of oral lactobacilli, 543.  
Vitamin B preparations, treatment of scours in piglets, 818.  
Vitamin B<sub>1</sub> (see also *Ocarboxylase*; *Thiaminase*)  
activation of conversion of di-methionine to guanidosuccinic acid, *in vitro*, 81.  
added to maize meal, retention in bread or muffins, effect of pit, baking utensil and type of meal, 78.  
adsorption on glassware, 322.  
alkyl disulphides, uptake by blood, *in vitro* (chicken, rabbit), 81.  
and phosphoric esters, effect on coarboxylase in blood (dog), 547.  
estimation and preparation, 794.  
separation by paper chromatography, 322.  
browning reaction with glucose, 795.  
decomposition, by *Clostridium thiaminolyticum*, 552.
- Vitamin B<sub>1</sub> deficiency** (see also *Beriberi*; *Polynuria*)  
acetic and succinic semialdehyde formation by tissues, *in vitro*, effect of vitamin B<sub>1</sub> pyrophosphate, 797.  
blood pyruvic acid, effect of glucose (man), 423.  
correlations between blood pyruvic acid, vitamin B<sub>1</sub> in tissues and weight of adrenal (rat), 550.  
development, effect of fat intake (rat), 797.  
due to *Aequisetum* poisoning, Jugoslavina (horse), 551.  
effect of cortisone on growth (rat), 323.  
effect of cytochrome  $\alpha$  and coarboxylase on histological changes (rat), 323.  
effect on conductivity and action potential of nerve (rat), 82.  
effect on methylglyoxal excretion and glyoxalase in liver (rat), 797.  
effect on myocardial metabolism (dog), 549.  
effect on nucleic acid and phospholipins in nerves (rat), 551.
- Vitamin B<sub>1</sub> deficiency**  
effect on optic nerve and retina (rat), 550.  
effect on organ weights and histology (rat), 323.  
effect on oxidation of pyruvic acid by muscle homogenates (pigeon), 797.  
effect on phosphorus compounds in liver (rat), 82.  
effect on pyruvate and  $\alpha$ -ketoglutarate metabolism (rat), 548.  
effect on reproduction (rat), 705.\*  
similarity to thrombocytophilia, 423.\*  
transamination by tissue homogenates (rat), 81.  
water metabolism, effect of posterior pituitary hormone (rat), 550.
- Vitamin B<sub>2</sub>**, deficiency, effect on casein composition (rat), 87.  
effect on pyruvic acid in blood (rat), 322.  
effect on anterior pituitary and adrenal system, 550.  
effect on ascorbic and dehydroascorbic acid in action of vitamin C-deficient guinea pigs, 822.  
effect on blood sugar curve after sugar administration by vein (man), 198.  
effect on bodyweight during refeeding after a fast (rat), 544.  
effect on carboxylate metabolism in fatigue (guinea pig), 548.  
effect on catalsase in blood, in infections (rabbit), 82.\*  
effect on growth of chickens on maize and soya bean meal ration, 971.  
effect on rumen micro-organisms, survival, *in vitro*, 83.  
effect on stomach secretion in dystrophic infants, 109.  
effect on transmethylation (man, rat), 81.  
estimation, 80, 322, 728,\* 794, 796.  
in mice, 322.  
in yeast, 553.  
excretion, effect of  $\beta$ -quinolaldehydic acid (man), 425.  
effect of pituitary removal (rat), 320.  
in patients with congestive heart failure, effect of mercurials, 199.\*  
formation, in intestine, effect of fats (rat), 546.  
in rumen, effect of ratio of hay to grain (calf), 796.  
relation to metabolism of homocysteine in Neurospora, 324.\*  
inactivating substances in fern, 798.  
in alkaline solution, oscillographic-polarographic study, 322.\*  
in blood, effect of exercise (cattle), 75.  
in blood and urine, effect of enriched rice (children), 729.\*  
in boiled rice fortified with calcium, 729.  
in cereals and pulses, 253.\*  
in fish, India, 794.  
in foods, America (U.S.), 545.  
in milk, human, 486.\*  
seasonal variation, 925.  
seasonal variation, 544.  
in milk and milk products, 254.\*  
in mung beans, distribution, effect of germination, 70, 486.\*  
in oats, effect of variety and location, 321.  
in soya beans, effect of sprouting and cooking, 548.  
in sweat of acclimatised Europeans in tropics, 673.  
in tissues, effect of neopyrithiamine (rat), 797.  
in wheat, effect of season, variety and soil, Netherlands, 798.  
effect of variety on adsorption, 996.\*  
in wheats and bulgars, Turkey, 83.

- Vitamin B<sub>1</sub>**  
 injected, effect on growth rhythm (chicken), 552.  
 intake, effect on pyruvic acid in blood (woman), 423.  
 inadequate, orally or by injection, effect of antibiotics on growth of chicken, 82.  
 interaction with vitamin B<sub>12</sub> (rat), 540.  
 metabolic function, 322.\*  
 metabolism, effect of luminal (rat), 324.  
 molecule, changes, estimation, 795.\*  
 mononitrate and hydrochloride, stability, 80.  
 new derivative with cysteine, 80.  
 phosphorylation, *in vivo* (rat), 547.  
 relation to alcoholic fermentation, 324.\*  
 requirement (man), 254.\*  
 effect of sugars (rat), 796.  
 stability in chick diets, effect of salts, 795.  
 stability in dry media, 80.  
 synthesis by pigeon, failure, 547.  
 synthesis, *in vitro*, by kidney or liver homogenates (rabbit), 546.  
 toxicity, 798.\*  
 treatment of alcoholism, effect on fatty liver (man), 199.  
 treatment of beriberi, effect of excess folic acid or nicotinic acid (pigeon), 549.  
 treatment of neuritis in lprosey (man), 199.  
 treatment of neuropathy related to shoulder girdle syndrome, 660.  
 triphosphate, in baker's yeast, 548.  
 uptake or destruction by *Staphylococcus aureus* from duodenum (man), 925.  
 utilisation and excretion (dog), 706.
- Vitamin B<sub>1</sub> analogues**, activity in pigeon test, 551.  
 effect on enzyme systems, 798.  
 effect on growth of embryo (chicken), 799.
- Vitamin B<sub>1</sub> phosphates**, metabolism in washed suspensions of kidney particles, 547.
- Vitamin B<sub>1</sub> pyrophosphate**, effect on pyruvic acid in blood (man), 924.  
 in liver cell fluid (rat), 547.
- Vitamin B<sub>1</sub> related compounds**, structure and chemical behaviour, 81.\*
- Vitamins B<sub>1</sub> and B<sub>2</sub>**, requirements of brewer's top yeast, 74.
- Vitamin B<sub>2</sub>** (see *Adenine*).
- Vitamin B<sub>2</sub> and analogues**, separation and estimation, 328.
- Vitamin B<sub>2</sub> deficiency**  
 basal metabolic rate and effects of thiouracil and thyroid removal (rat), 557.  
 blood white cell counts and thymus (rat), 802.  
 combined with vitamin E deficiency, effect on blood picture and growth (rat), 803.  
 convulsions (infant), 664.  
 effect of gonadotropin (mouse), 329.  
 oestrogenic responses to adrenaline, adrenalectomized hormone and low oxygen tension (rat), 329.  
 eosinophil count (rat), 558.  
 excretion of tryptophan metabolites in loading test (rat), 559.  
 eye lesions and xanthurenic acid and kynurenine excretion after test dose of tryptophan (rat), 328.  
 fat metabolism (rat), 803.  
 in monkeys, 802.\*  
 liver L-cysteine acid coarboxylase activity and excretion of amino-acids (rat), 329.  
 liver enzymes (mouse), 559.
- Vitamin B<sub>2</sub> deficiency**  
 metabolic disturbances, effect of adrenalectomy or of adrenal cortex extract (rat), 330.  
 nitrogen excretion (rat), 803.\*  
 produced by deoxypridoxine, effect on lymphatic leukaemia (man), 665.  
 effect on metabolism (man), 425.  
 sequence of signs (rat), 802.  
 urea formation, effect of diet (rat), 557.
- Vitamin B<sub>2</sub> deprivation**, effect on carcass composition (rat), 87.  
 effect on urea formation (rat), 88.  
 effect against histamine shock (guinea-pig, man), 665.  
 effect on blood sugar (rabbit), 557.  
 effect on cysteine-sulphuric acid metabolism, *in vitro*, and *in vivo* (rat), 558.  
 effect on infestation with *Ascaridia galli* (chicken), 807.  
 effect on inhibition of growth by linseed meal (chicken), 804.  
 effect on isonicotinic acid hydrazide (rat), 802.\*  
 effect on liver protein formation and maintenance (rat), 328.  
 effect on liver thiouase activity (rat), 88.  
 effect on mineral balance in infant on diet producing convulsions, 927.\*  
 effect on nicotinic acid and trigonellin excretion (children), 426.  
 effect on transamination in liver (rat), 87.  
 effect on xanthurenic acid excretion after tryptophan load, in pregnancy (woman), 200.  
 function, 803.\*  
 in amino-acid metabolism, 328.\*  
 in milk, human, 664.  
 in multivitamin preparations, estimation, 87.  
 in saliva (man), 666.  
 in tissues and carcass, effect of intake (rat), 329.  
 in tumour and host tissues, in cancer therapy (mouse), 330.  
 intake, high, effect on chicks given cholesterol, 88.  
 metabolic functions, review, 320.\*  
 metabolism, effect of isonicotinic acid hydrazide (man), 803.  
 in pregnancy (woman), 665.  
 relation to effect of isonicotinic acid hydrazide on micro-organisms, 559.  
 relation to xanthurenic acid, 328.\*  
 requirement, of infants, 926.\*  
 of rats, on highly processed rations, 557.  
 treatment of convulsions in infant, newborn, 665.  
 treatment of Menière's disease (man), 665.  
 treatment of paralysis due to diphtheria (guinea-pig, man), 557.  
 treatment of senile decay, 665.
- Vitamin B<sub>2</sub> antagonist**, deoxypridoxine (see *Pyridoxine, deoxy-*).
- Vitamin B<sub>2</sub> components**, estimation, 556.
- Vitamin B<sub>2</sub> group** (see *Pyridoxal*).
- Vitamin B<sub>2</sub>**  
 absorption (man), 930.\*  
 and excretion, in differential diagnosis of megaloblastic anaemias, 428.\*  
 activity, estimation, in organs and excreta (sheep), 811.  
 of calf rumen contents and faeces, for chicks and micro-organisms, 337.  
 of gut contents and faeces, 253.\*  
 of milk (cow, human), 339.  
 of plasma and whole blood of different animals, 813.\*  
 of sewage sludges, 339.  
 analgesic effect (rabbit), 566.  
 and ageing (men), 929.\*
- Vitamin B<sub>2</sub>**  
 and analogues, electrophoresis, 335.  
 and antibiotic, effect on growth, influence of protein intake (bobwhite quail), 100.  
 effect on utilisation of protein and calcium, 729.\*  
 for chicken and turkey poult, supplement in mash mixtures containing meat, 567.  
 for long periods, effect on egg production and hatchability (chicken), 472.  
 for rabbits, effect on enteritis, 456.\*  
 and aureomycin, relative effects on growth (rat), 567.  
 supplement to fattening ration for pigs, 712.  
 and blood formation, 996.\*  
 and cobalt deficiency, 996.\*  
 and choline formation (piglet), 815.\*  
 and enzyme activation, 814.\*  
 and folic acid, combined in treatment of pernicious anaemia, 927.  
 and folic acid derivatives in seaweeds, separation, 101.  
 and formylfolic acid, treatment of anaemia, megaloblastic, 427.  
 and glandular microprotein, treatment of anaemia, pernicious, 202.\*  
 and intrinsic factor, treatment of anaemia (man), 668, 669.  
 and mucin from hog stomach, treatment of anaemia, pernicious, 428.  
 and pantothenic acid, interrelation in metabolism of *Bact. coli*, 565.\*  
 and transmethylation in liver homogenates (pig), 815.\*  
 bound, in blood (man), 931.  
 cobalamin protein, preparation and properties, 564.  
 counteraction of protein catabolic effect of cortisone (rat), 815.\*  
 cyanocobalamin and related compounds, occurrence in natural products, 101.  
 deficiency, changes in co-enzyme A concentration (chicken), 814.\*  
 effect on nitrogen in blood (chicken embryo), 814.  
 in chicken embryo, 814.\*  
 in chickens, relation of other nutrients, 814.\*  
 in Mediterranean anaemia, haemolytic forms (man), 670.  
 in unsuckled baby pigs, 813.  
 relation to cobalt (sheep), 996.\*  
 deposition in hen eggs, 456.\*  
 deprivation, effect of iodinated casein, histological studies (rat), 816.  
 effect in choline deficiency, role of methionine (rat), 98.  
 effect in cobalt deficiency (lamb), 485.\*  
 812, 813.\*  
 effect of exhaustive exercise (guinea-pig), 815.  
 effect of intestinal micro-organisms, 202.  
 effect of onion anaemia (rabbit), 99.  
 effect on N<sub>2</sub>-alkylation of the pyridine ring (rat), 555.  
 effect on amino-acid metabolism (chicken), 97.  
 effect on anaemia produced by lead (man, rabbit), 99, 201, 339.  
 effect on animal protein factor deficiency (chicken), 816.  
 effect on biosynthesis of component amino-acids of glutathione (rat), 98.  
 effect on blood picture after bleeding (rabbit), 96.  
 effect on blood serum composition, 202.\*  
 effect on blood serum vitamin B<sub>12</sub> in anaemia, megaloblastic (man), 202.  
 effect on carbohydrate and lipid metabolism (man, rat), 566.

Vitamin B<sub>12</sub>

- effect on cobalt excretion (rat), 98.  
 effect on co-enzyme A in liver (chicken), 560.  
 effect on corneal incisions (rabbit), 566.\*  
 effect on development of *Nippostrongylus* in rat, 333.  
 effect on energy exchange (cattle), 336.  
 effect on growth (chickens), 339,\* 371.  
 children, Guatemala, 429.  
 effect on growth and body composition, sex difference (mouse), 100.  
 effect on growth and faecal microflora (pig), 966.  
 effect on growth and feed utilisation (pig), 100.  
 effect on growth and protein metabolism (pig, rat), 330, 567.  
 effect on growth and reproduction (mouse), 338.  
 effect on homogenistic acid excretion in alkaptonuria, 931.  
 effect on hyaluronidase spread in skin after injection (rat), 99.  
 effect on hyperthyroidism (pigeon), 568.  
 effect on liver constituents after partial liver removal (rat), 815.\*  
 effect on liver damage in allyl formate poisoning (rat), 339.  
 effect on liver enzymes (rat), 98.  
 effect on liver lesions produced by labile methyl-free diet (rat), 815.\*  
 effect on maturation of megakaryoblasts in tissue culture, 609.\*  
 effect on methyl formation from glycine, 815.\*  
 effect on methyl groups formation from serine, glycine or formate (rat), 97.  
 effect on methylation of homocysteine (turkey poult), 98.  
 effect on molybdenum toxicity to *Lactobacillus leichmannii*, 99.  
 effect on non-protein sulphhydryl compounds in liver and blood (rat), 566.  
 effect on nucleic acid formation by *Lactobacillus casei*, 819.  
 effect on nucleic acid in bone marrow in anaemia, megakaryoblastic, 667.\*  
 effect on protein breakdown caused by cortisone (rat), 815.  
 effect on protein metabolism (rat), 728.\*  
 effect on punctate basophilia of blood red cells, 428.\*  
 effect on reproduction in turkeys, 568.  
 effect on resistance of red cells to haemolysis (dog), 336.  
 effect on resistance to *Acaridia galli* (chicken), 807, 817.  
 effect on resistance to cold (rat), 567.  
 effect on riboflavin, nicotinic acid, and xanthine oxidase in liver (rat), 816.\*  
 effect on ribose formation in red cells, 816.\*  
 effect on spleen and liver histology (rat), 565.  
 effect on transmethylation from methionine to choline (baby pig), 814.  
 effect on utilisation of aroclene and vitamin A (rat), 63.  
 effect on utilisation of protein (rat), 253.\*  
 effect on vitamin B<sub>12</sub> content and hatchability of eggs, when given by mouth or injection (hen), 101.  
 effect on vitamin B<sub>12</sub> in muscle (pig), 818.  
 estimation, 95, 81, 906.\*  
 chick and microbiological assays compared, 488.\*  
 in eggs, 335.  
 in liver extracts, 335, 564.  
 microbiological, effect of ascorbic acid and trace elements, 811.  
 specificity of *Ochromonas malhamensis*, 334.  
 use of rats, 906.\*

Vitamin B<sub>12</sub>

- excretion, after test dose, effect of anti-anaemia factor, intrinsic (man), 669.  
 by kidney after intravenous injection (man), 929.\*  
 during efforts tests, 667.\*  
 in diabetic retinopathy, 429.  
 in pernicious anaemia and other medical disorders, 428.  
 in tropical sprue and liver cirrhosis, effect of folic acid (man), 430.  
 fixation in gastric juice (man), 202.  
 for children, undernourished, 253.\*  
 for livestock, review, 816.  
 for pigs, 100, 230, 457, 818.  
 mathematical analysis of effect, 458.  
 for poultry, 568.  
 formation, by spontaneous cancers, 816.\*  
 in actinomycetes and animals, 337.  
 in rumen, 906.\*  
 function, 907.\*  
 haemopoietic activity, estimation (mouse), 811.  
 in activated sewage sludge, for pigs, 569.  
 in anti-anaemia preparations, estimation, 668.  
 in blood (mammals), 569.  
 (man), 929.\*  
 effect of exercise (cattle), 75.  
 effect of intravenous injection of vitamin B<sub>12</sub> (man), 429.  
 in health and allergic dermatosis (man), 203.  
 in pernicious anaemia, 870.\*  
 in infants, newborn and premature, 928.  
 in blood and urine, after oral administration, effect of pernicious anaemia, 928.  
 in blood plasma, 667.\*  
 in calf nutrition, 813.\*  
 in clam and seaweeds, Canada, 101.  
 in drugs, 794.  
 in faeces in pernicious anaemia, 870.\*  
 in liver, effect of animal-protein factor or of terramycin with fishmeal (chicken), 238.  
 effect of thyroxine (rat), 816.  
 in maternal diet, effect on birth and weaning weights (rat), 101.  
 effect on red blood cells in offspring (rat), 565.  
 effect on vitamin B<sub>12</sub> content of milk and of livers of young (rat), 101.  
 relation to embryo mortality (chicken), 814.\*  
 in medicine, review, 428.\*  
 in muscle, effect of feeding vitamin B<sub>12</sub> and aureomycin (pig), 819.\*  
 in physiology of vertebrates, 96.\*  
 in pork, effect of aureomycin and vitamin B<sub>12</sub> supplements (pig), 818.  
 in tissues of cobalt-deficient sheep, 908.\*  
 in urine, after injection, effect of ageing (man), 203.  
 inhalation, treatment of pernicious anaemia, 928.  
 intake, effect on enzyme and co-enzyme concentration in tissues (rat), 814.\*  
 high, effect on cytochemical changes in bone marrow of subjects without pernicious anaemia, 660.  
 relation to utilisation (man), 929.\*  
 interaction with vitamin B<sub>1</sub> (rat), 549.  
 massive doses, effect on reproduction (rat), 813.\*  
 metabolism, 728.\*  
 during pregnancy and lactation (woman), 928.  
 nucleotide removal, 812.\*  
 preparations for injection, cyanocobalamin content, 95.  
 production in rumen, 906.\*

Vitamin B<sub>12</sub>

- product of hydrolysis, 565.  
 protein complex, from sow's milk and pig stomach, 813.  
 pseudo-, active component, 812.  
 in calf nutrition, 812.\*  
 pigments, characterisation, 812.\*  
 purines, 812.  
 radio-active, disappearance of radioactivity from tissues after injection (rat), 96.  
 estimation of anti-anaemia intrinsic factor, 668.  
 excretion after total gastrectomy, effect of administration of gastric juice (man), 203.  
 retention in chickens, 96.  
 uptake by liver, test of intrinsic factor activity, 931.\*  
 relation to folic acid and to pernicious anaemia, 927.  
 relation to folic acid and citrovorum factor (chickens), 339.  
 relation to materials with intrinsic factor activity and serum proteins, 931.\*  
 relation to penicillin in treatment of megaloblastic anaemia, 428.  
 relation to pteroylglutamic acid, 562.  
 requirement, effect of high fat or protein intake (chicken), 815.  
 for reproduction, strain differences (mouse), 58.  
 of calf, 100,\* 339.  
 of chickens, effect of quality of soya bean meal, 568.  
 of laying hens, effect of choline and penicillin, 817.  
 of poultry, 997.\*  
 of rat, 996.\*  
 retention by chickens, 486.\*  
 role in formation of labile methyl groups (chickens), 97.  
 role in tyrosine metabolism (guinea pig), 104.  
 snuff, treatment of anaemia, pernicious (man), 660, 669.\*  
 stability in liquid preparations with vitamin C, 812.  
 supplement, effect on weight gain (woman), 429.  
 to soft wheat protein with lysine and threonine, effect of processing (rat), 816.\*  
 synthesis, effect of aureomycin (rat), 338.  
 in gut (rat), 253.\*  
 therapeutic value of different forms, 668.\*  
 tolerance test, 929.\*  
 American and Mexican subjects, 929.  
 treatment of anaemia, hyperchromic, non-megaloblastic, 928.  
 macrocytic, in pregnancy, 667.  
 megaloblastic, 667.  
 after enterocolic anastomosis, case report, 203.  
 megalocytic, 927.  
 nutritional macrocytic, 201.  
 pernicious, by mouth, 930.  
 intravenous, 202.  
 treatment of diabetic polyneuritis, 671.  
 treatment of lymphatic children of tubercular mothers, 430.  
 treatment of glossitis and nerve lesions in anti-anaemia factor (intrinsic deficiency) (man), 670.  
 treatment of muscular dystrophy, effect on blood creatine and creatinine (children), 203.  
 treatment of painful syndromes, 670.\*  
 treatment of peripheral neuritis after stomach removal (man), 669.  
 treatment of porphyria cutanea tarda, 671.\*  
 treatment of sprue, case report, 931.  
 treatment of trigeminal neuralgia, 670.

**Vitamin B<sub>12</sub>**, utilisation, effect of intrinsic factor (rat), 813.\*  
 relation to intake (man), 929.\*  
 with aureomycin, effect on growth of children, 929.\*  
 for chickens, effect on subsequent reproductive performance, 241.  
 with folic acid, for injection, preparation of solutions, 95.  
 treatment of anaemia, pernicious (man), 687.  
 with pyloric mucosa, treatment of pernicious anaemia, 930.  
 with terramycin, for chickens, 236, 467.  
 with or without  $\alpha$ -methionine, effect on growth (chicken), 462.  
 without intrinsic factor, effect on haematological response and vitamin B<sub>12</sub> in serum and urine, 930.  
**Vitamin B<sub>12</sub>**-active substances, combination with sow's milk whey and intrinsic factor concentrates, 99.\* 337.  
**Vitamin B<sub>12</sub>** and vitamin B<sub>12b</sub>, estimation in mixtures, 335.  
**Vitamin B<sub>12</sub>** and allied substances, review, 95.\*  
**Vitamin B<sub>12</sub>**-binding capacity, of blood (mammals), 569.  
 of gastric juice, effect of pernicious anaemia, 930.  
 of protein components of pig duodenal preparations, 93.  
**Vitamin B<sub>12</sub>**, binding substances, in blood (man), 931.\*  
 in egg yolk, 813.\*  
 in pig's stomach, localisation, 813.  
 in sow's milk, 728.\*  
**Vitamin B<sub>12</sub>**, derivative, and sodium chloride toxicity for lactobacilli, 565.  
**Vitamin B<sub>12</sub>** group, chemistry, 335.\*  
**Vitamin B<sub>12</sub>**-like compounds, biosynthetic relationships, 812.\*  
**Vitamin B<sub>12</sub>**, components, identity, 95.  
**Vitamin B<sub>12</sub>**, (see *Croft's acid*)  
**Vitamin B<sub>12</sub>**, in liver, growth promoting factor for chickens, 570.  
**Vitamin B<sub>12</sub>** (see *Folic acid*; *Pteroylglutamic acid*)  
**Vitamin B<sub>12</sub>**, deficiency, in *Tenebrio molitor* larvae, 819.  
 distribution, 570.  
 metabolism, and content of muscles (several species), 558.  
 requirement of flour beetle, 569.  
**Vitamin C** (see also *Ascorbic acid*) and tyrosine metabolism (chicken), 342.\*  
 deficiency (see also *Scurvy*)  
 ascorbic and dehydroascorbic acids in organs, effect of vitamin B<sub>12</sub>, biotin or *p*-aminobenzoic acid (guinea pig), 822.  
 effect of unsaturation states, 430.\*  
 effect on development of exophthalmos after thyroid removal (guinea pig), 822.  
 gingival healing, 341.\* 821.  
 modification of organism to placental proteins, 344.\*  
 steroids excretion (guinea pig), 104.  
 deprivation, effect on adrenal cortex activity (guinea pig), 823.\*  
 discovery and chemistry, 571.\*  
 effect in treatment with aureomycin (guinea pig), 75.  
 effect on blood pressure and capillary fragility in hypertension, influence of calcium chloride (man), 204.  
 effect on excretion of phenolic acids (rat), 58.\*  
 effect on fluorine storage in skeleton (guinea pig), 834.  
 effect on immunity to disease in livestock, 482.  
 effect on iron absorption (infant), 932.

**Vitamin C**  
 effect on survival after adrenal removal (hamster), 344.\*  
 effect on thymus and preputial glands (rat), 574.  
 effect on vestibular chronaxie after exposure to air, 572.  
 effect on wound healing (guinea pig), 344.  
 estimation, in foods, effect of reductions, 571.  
 in milk, 102.\*  
 in plant tissues, 102.\*  
 excess, effect in pregnancy (guinea pig), 575.  
 excretion, after chloretone, effect of detoxicating agents and enzymic inhibitors (rat), 340.  
 fluorescence reaction, mechanism, 102.\*  
 use in paper chromatography, 102.  
 in amte kayi (Indian hog plum), 345.  
 in blackcurrant juice, 824.  
 in blood, effect on capillary permeability (guinea pig, man), 204.  
 in canned guavas, availability, 431.  
 in foods, 575.\*  
 in fruits and vegetables, differences due to variety, 672, 672.\*  
 in milk, 824.  
 (mare), 107.  
 in milk and milk products, 254.\*  
 in physiological and pathological states (man), 672.\*  
 in potatoes, effect of growth conditions, Siberia, 345.  
 in soft tissues, effect of chronic fluorosis (monkey, rat), 342.  
 in spinach and potatoes, relation to cellulose, 345.\*  
 in tubercular tissues (animals), 575.\*  
 metabolism (guinea pig), 253.\*  
 oxidation, 729.\*  
 relation to esterase activity in tissues (guinea pig), 104.  
 relation to pteroylglutamic acid in effect on thymus (chicken), 562.  
 requirements of adults (man), 671.  
 role in tyrosine metabolism (guinea pig), 104.  
 stability, in liquid preparations with cyanocobalamin, 812.  
 in vegetables, shredded and raw, 345.  
 status, effect of bracken feeding (ruminant), 106.  
 treatment of cancer (man), 924.  
 treatment of fluorosis (man), 656.  
 with vitamin K, in treatment of whooping cough (children), 674.  
**Vitamin C** preparations, activity, effect of vitamin P, 841.  
**Vitamin D**  
 absorption, effect of solvent, 782.\*  
 activity in experimental rickets, effect of penicillin (rat), 534.  
 and liver function, 69.\*  
 biochemistry and physiology, 534.\*  
 deficiency (see also *Rickets*; and for *Osteomalacia* see under *Bone disorders*)  
 effect on distribution and excretion of radio-active phosphorus (rat), 316.  
 effect of accumulation, 207.\*  
 effect on calcium retention in old age (man), 432.\*  
 effect on capillary fragility produced by maize diet or puff-adder venom (rat), 315.  
 effect on citrate in blood, bones and tissues (rat), 536.  
 effect on growth, mode of action (rat), 534.  
 effect on intestinal phytase (chicken, rat), 536.  
 effect on metabolism in Fanconi's syndrome (children), 932.  
 effect on rachitic cartilage (rat), 253.\*

**Vitamin D**  
 effect on serum calcium and phosphorus in infants, newborn, 675.  
 effect on skin respiration (rat), 316.  
 enrichment of milk, 317.  
 estimation, 786, 786.\*  
 in irradiated milk, 68.\*  
 separation from vitamin A and sterols, 786.  
 excess, clinical findings (children), 433.  
 effect (rat), 70.  
 effect on liver and kidneys (infant), 433.  
 effect on serum proteins (children), 433.  
 electro-encephalographic examination (infant), 433.  
 radiographic findings (children), 433.  
 for pigs, methods of supply, 728.\*  
 in butter, India, 538.  
 in irradiated milk, 787.\*  
 in pasture, 728.\*  
 in treatment of disease, pathological and anatomical changes, 208.\*  
 intake, interaction with phosphorus and penicillin, effect on skeleton (chicken), 786.  
 relation to incidence of rickets up to two years of age (children), 205.  
 massive doses, effect on skin changes and cramp (rat), 70.  
 pharmacology, 68.\*  
 relation to parathyroid, morphology and function (rat), 315.  
 requirement of sheep, 537.  
 role in calcium retention (rat), 69.  
 supplements, for cattle and sheep, Australia, 537.  
 for infants, effect on incidence of rickets, 674.  
 treatment of eczema (infant), 207.  
 treatment of osteomalacia in sprue (man), 207.  
**Vitamin D** antagonist, carotene in green feeds (rat), 315.  
 in dried grass and hay, 786.  
**Vitamin D**  
 effect on phosphate excretion in vitamin D-resistant rickets (man), 932.  
 effect on phosphorus metabolism (rat), 535.  
 effect on response to calcium injection, relation to age and *arous senilis* (man), 205.  
 effect on serum calcium and phosphorus (man), 875.  
 excess, effect on reproduction (guinea pig), 538.  
 treatment (mouse), 538.  
 massive doses, effect on calcium metabolism in frog and toad, 70.  
 stability, 786.  
 supplement for newborn infants, effect on incidence of rickets, 674.  
 treatment of skin and bone disorders, 207.\*  
 treatment of skin tuberculosis, 207.  
 after effects (man), 933.  
 with milk protein, prevention of hair loss caused by heparin (woman), 676.  
**Vitamins D<sub>2</sub>** and **D<sub>3</sub>**, intoxication, effect on bodyweight and calcium in kidneys (rat), 537.  
 treatment of rickets (infant), 433.  
**Vitamin D<sub>3</sub>**, dosage for infants, premature, 675.  
 old and new forms, interconversion, 534.  
 toxic effects on infants, premature, 932.\*  
**Vitamin E** (see also *Tocopherols*)  
 absorption, effect of stomach removal (man), 659.  
 activity, of malachite green 71.\*  
 of  $\alpha$ -tocopherylhydroquinone (rat), 539.

## Vitamin E

and muscular dystrophy (livestock), 319.\*  
 as anti-oxidant, *in vivo*, 317.\*  
 deficiency, and encephalomalacia in poultry, protective action of di-phenyl-*p*-phenylenediamine, 317.\*  
 combined with vitamin B<sub>6</sub> deficiency, effect on blood picture and growth (rat), 803.  
 effect of olive oil on growth (rat), 71.  
 effect of pancreas hyperglycaemic factor on liver and muscle glycogen (rabbit), 787.\*  
 effect on arginine in liver and kidneys (rat), 71.  
 effect on breeding hens and their chickens, 787.  
 effect on genital sympathetic nerves (rat), 539.  
 effect on oxidation of Krebs cycle intermediates, *in vitro*, 787.\*  
 effect on oxygen toxicity (rat), 72.\*  
 effect on rate of exchange of phosphorus compounds in muscles (rabbit), 71.  
 effect on xanthine oxidase (rabbit), 540.  
 experimental (guinea pig), 540.  
 mineral content of skeletal and heart muscle (lamb), 539.  
 muscular dystrophy, phosphorus metabolism (rat), 586.  
 muscular lesions, effect of thyroid, dried (rat), 72.  
 nitrogen metabolism of muscle, *in vitro* (hamster), 71.  
 produced by coconut meal (calf), 71.  
 effect in vitamin A deficiency (rat), 65.  
 effect on acids, ether-soluble, excretion in rats on neogenic diet, 541.  
 effect on bleeding time (rabbit), 541.  
 effect on carbohydrate metabolism (rabbit, rat), 541.  
 effect on mammary gland (guinea pig), 72.  
 effect on perosis (turkey), 789.  
 effect on resistance to infections, review, 58.  
 effect on survival after X-ray exposure (mouse), 541.  
 effect on toxicity of tri-*o*-cresylphosphate (rat), 540.  
 effect on yellow fat disease in pigs, 540.  
 estimation, in foods and feedstuffs, 317.  
 for turkeys, 317.\*  
 in human milk, 254.\*  
 in olive oil (rat), 542.  
 intake, effect on pyridine toxicity (rat), 72.  
 relation to carbohydrate and fat, effect on growth (rat), 788.  
 requirements for reproduction, strain differences (mouse), 68.  
 stimulation of mammary development, effect of *meso*-inositol (guinea pig), 319.  
 suppositories, treatment of diabetic vulvovaginitis (woman), 924.\*  
 treatment of climacteric syndrome (woman), 198.  
 treatment of collagen diseases (man), 660.  
 treatment of induration of penis (man), 924.  
 with nicotinic acid, treatment of hook disorder (turkey poultry), 80.  
 Vitamin E antagonists, *D*-croton esters, effect on reproduction (rat), 73.  
 Vitamin E preparations, absorption (woman), 422.  
 Vitamin F (see *Fatty acids, unsaturated*)  
 Vitamin H (see *Biotin*)  
 Vitamin H (see *p-Aminobenzoic acid*)

## Vitamin K

absorption from intestine, effect of bile (dog), 542.  
 and hemorrhagic condition in chickens on simplified rations, 319.\*  
 antibacterial action, mechanism, 319.  
 effect on *Haemophilus pertussis*, 543.  
 effect on resistance to infections, review, 68.  
 load test for liver function (children), 676.  
 requirements of dogs, effect of bile, 542.  
 treatment of blood prothrombin deficiency, effectiveness of preparation, 431.\*  
 treatment of leprosy, 934.  
 with vitamin C, treatment of whooping cough (children), 674.  
 Vitamin K analogues, chemical constitution and biological activity, 642.  
 Vitamin K antagonist, asymmetrical, 73.\*  
 effect on vitamin B complex components synthesis by *Lactobacillus arabinosus*, 543.  
 Vitamin K compounds, effect on respiration of *Saccharomyces cerevisiae*, 790.  
 Vitamin K derivatives, treatment of leprosy, 934.  
 Vitamin K<sub>1</sub> and Synkavit, effect on blood coagulation in liver disorders, 431.\*  
 effect on oxidative phosphorylation by liver mitochondria, *in vitro*, 542.  
 effect on prothrombin times, infant, newborn, 335.  
 in antiscorbutic treatment, 934.  
 Vitamin K<sub>2</sub>, labelled, radio-active products, excretion in urine (rat), 790.  
 Vitamin M (see *Folic acid*; *Pteroylglutamic acid*)  
 Vitamin P (see also *Rutin*)  
 effect on activity of vitamin C preparations, 341.  
 Vitamin PP, effect on serum iron before and after splenectomy (dog), 327.  
 Vitamin T, effect on growth and development of sex characters (chicken), 825.  
 effect on growth and protein utilisation (rat), 107.  
 effect on growth of infants, 677.  
 for pigs, slow-growing (runt), effect on growth, 107.  
 in paediatrics, 934.  
 Vitamin U, in cabbage juice and banana, treatment of peptic ulcer, 934.\*  
 Vomiting in pregnancy (see under *Pregnancy disorders*)  
 WALNUTS, deterioration, rancidity development, 762.\*  
 vitamin B complex components, 546.  
 War (see also *Air force*; *Army*)  
 atomic, biological and chemical, effect on food supplies, 210.\*  
 prisoners, late effects of dystrophy, 668.  
 nutrient intake and basal metabolism, 720.\*  
 Waste products  
 citrus fruit processing, composition, Spain, 52.  
 for pigs, 714.\*  
 from cod liver oil manufacture, utilisation, 253.\*  
 industrial, ammoniated, for cows, 226.\*  
 kitchen, collection, processing, costs, and use for pigs and poultry, U.K., 444.  
 for pigs, 457.\*  
 Wasting diseases, review, 417.\*  
 Water  
 absorption from small intestine, *in vitro* (rat), 881.\*  
 balance, and electrolyte balance, disturbances, 392.\*  
 control, 163.\*

## Water

body, changes in epidemic dropsy (man), 880.  
 changes in pregnancy (woman), 634.  
 chloride, bromide, sodium and sucrose spaces (man), 163.\*  
 distribution, after protein depletion (rat), 824.  
 in heavily and acromegalic subjects, 585.\*  
 effect of prolonged starvation (man), 592.  
 estimation (pig), 121.  
 extracellular and total, estimation in ruminants, 757.\*  
 in patients after operation, 681.  
 relation to body composition (man), 357.  
 consumption, effect of humidity (cow), 450.  
 diuresis, after water loading, effect of protein deficiency (mouse), 370.  
 effect of luminal (rat), 324.  
 drinking, addition of fluorine, and fluorosis, Southern Rhodesia, 486.\*  
 caries-preventing agent other than fluorine, 210.  
 fluoridation, 434.\* 678, 679.\* 936.\*  
 fluoride removal, 754.  
 fluorine content, India, 527.  
 relation to dental caries and mottled enamel incidence (man), 200.  
 relation to fluorosis (man), 209.  
 Japan, effect on teeth and physique of children, 434.  
 Kenya, 434.  
 Nigeria, 526.  
 Poland, 526.  
 relation to caries in children, 208, 434.\*  
 Sweden, 56.  
 Switzerland, effect on dental caries and general health, 208.  
 iodine content, relation to goitre incidence, Spain, 438.  
 sodium content, Canada, influence on low-sodium diets (man), 430.  
 tubes and bottles for small animals, 511.  
 well-water, high in nitrate, production of methaemoglobinemia (livestock), 988.\*  
 estimation, in biological material, 285.  
 in blood (man), 288.  
 in honey, 508.\*  
 in protein material, 285.  
 in sugared products, 34.  
 evaporation, from body surface, effect of temperature (cattle, rabbit), 758.  
 measurement (domestic animals), 758, 768.\*  
 extracellular, in dystrophy (infant), 117.  
 in pregnancy, normal and toxæmic, puerperium (woman), 163.  
 in sheep, normal or dehydrated, 163.  
 measurement (man), 36.\*  
 relation to bodyweight, surface area and lean body mass (man), 121.\*  
 fluorine content, 729.\*  
 general physiology, 624.\*  
 hard or soft, effect on milk production (cows), 227.\*  
 in bone, exchangeability (dog, man), 587.  
 in foods (see *Mixture*)  
 in tissues, effect of free choice diet after dietary restriction (rat), 835.\*  
 intake, and lactation (woman), 401.  
 by small animals, automatic recording, effect of fasting and X-ray exposure (rat), 836.\*  
 effect on calcium retention (rat), 283.  
 effect on potassium excretion, 156.\*

- Water**  
intake, high, effect on urine volume and mineral excretion (infant), 880.  
restricted, effect on digestion of alfalfa hay (cows), 219.  
effect on growth of infants in post-natal period, 182.  
effect on thirst and chloride regulation (dog), 164.\*  
intoxication, differential diagnosis of hypotonic syndromes, 881.\*  
laws in Moslem countries, 727.\*  
loss in respired air (man), 361.  
metabolic, calculation from respiratory metabolism (man), 287.
- Water metabolism** (see also *Dehydration*)  
effect of exercise in hot humid environment (man), 880.  
effect of restricted energy, protein and water intakes (man), 600.  
effect of salt loading (dog), 156.\*  
effect of smoking (man), 163.\*  
in desert birds, 164.  
in idiopathic steatorrhea, 880.  
in mitral stenosis (man), 615.  
in pregnancy (woman), 634.  
in vitamin B<sub>12</sub> deficiency, effect of posterior pituitary hormone (rat), 550.  
physiology, 881.\*  
review, 392, 615.\* 880.\*  
studies with deuterium oxide, 756.
- Water, movement across rumen epithelium** (sheep), 112.  
natural, fluorine content, U.S.S.R., 526.\*  
production of liver damage (rat), 392.  
removal of fluoride with magnesium oxide, 764.  
sodium spaces, normal and after thyroid ablation (monkey), 125.
- Weevils, rice** (*Sitophilus oryzae*), effect of diet, 902.
- Weight** (see also *Body measurements; Growth*)  
changes in adults, U.K., 1943-50, 390.  
children and adults, Formosa, 888.  
effect of smoking (man), 163.\*  
effect of vitamins D<sub>1</sub> and D<sub>2</sub> intoxication (rat), 537.  
lean, estimate (man), 758.\*  
relation to basal metabolic rate (man), 918.  
pigs, heritability, 714.  
reduction, educational methods, 653.\*  
relation to energy expenditure in stair-climbing and walking (man), 127.  
relation to energy requirements (domestic animals), 594.\*
- West Africa** (see under *Africa* and specific territories, e.g., *Nigeria*)
- West Indies** (see specific territories, e.g., *Jamaica*)
- Whale, fin, milk, composition**, 519.  
milk fat, fatty acid composition, 46.
- Whalemeat, for cattle**, 700.\*
- Whale meat, composition**, 519.  
for pigs, 965.  
nicotinic acid content, 555.
- Whale solubles, condensed, for chickens**, 235, 712, 820.  
effect on cellulose digestion by rumen micro-organisms, *in vitro*, 638.  
for pigs, 710, 712, 965.
- Wheat**  
albumin and globulin, 50.  
baking qualities and germination, effect of heat, 41.  
deleterious effect in treatment of coeliac disease, 939.  
diastase activity, 775.\*  
diets, protein value of rice supplement (rat), 603.  
effect on gastro-intestinal function in coeliac disease, 939.
- Wheat**  
lipoxidase, 50.\*  
losses by rice weevil infestation during storage, 291.  
minerals content, changes over 70 years and over one season (Broadbalk wheat experiment), 521.  
pasture, poisoning of pigs, effect on blood composition, 986.\*  
poisoning of sheep, 906.\*  
raffinose, fructosyl, 50.\*  
role in human nutrition, 914.\*  
soft, protein, effect of processing on supplementary value of vitamin B<sub>12</sub> in presence of lysine and threonine (rat), 816.\*  
storage, insect infestation, effect on weight loss and composition, 514.  
mould growth, effect on respiration, viability and composition, 785.\*  
Turkish, losses of riboflavin in making bulgur, 85.  
vitamin B<sub>1</sub> content, effect of season, variety and soil, Netherlands, 798.  
Turkey, 83.  
vitamin B<sub>1</sub> and protein content, effect of variety and rotation, 996.\*
- Wheat flour, calcium, phosphorus and iron contents, effect of extraction rate**, 773.  
enrichment, 415.\*  
proteins, biological value, effect of added amino-acids (rat), 136.
- Wheat gluten, amino-acids content and value for rats, effect of heating with or without glucose**, 135.  
influence on caecal incidence (rat), 407.
- Wheat grain, nitrogen, effect of calcium fertiliser on digestibility** (rabbit), 219.
- Wheat products, effect on fat in faeces in coeliac disease**, 213.\*
- Wheat protein** (see under *Wheat flour*)
- Wheat straw, hemicelluloses, chemical structure**, 306.\*
- Whey**  
dried, growth factor for chickens, 464.\* 974.  
ewe, composition, Poland, 518.  
fermented by yeast, nutritive value for mice, 898.  
growth factor, relation to growth factors in alfalfa and liver (chicken), 716.  
proteins, coagulation by heat, 294.  
effect of heat, 518.\*  
ferric complexes, feeding value for rats, 371.  
fractionation, 274.  
nutritive value, relation to digestibility by enzymes, *in vitro*, 848.  
removal of iron from ferric derivatives, effect on nutritive value (rat), 852.  
sows, combination with vitamin B<sub>12</sub>-like compounds, 99, 337.
- Whey solubles, condensed, for poultry**, 485.\*  
in replacement formulae for calves, 949.
- "Whitewood" (Atalaya hemiglauc), toxicity for horses**, 248.\*
- Willow, Salix sp., amino-acids in phloem sap**, 180.
- Wilson's disease, copper and amino-acid metabolism** (man), 854.
- Wine, fruit, composition, Poland**, 523.\*
- Women**  
America (U.S.), diets, 486.\*  
amino-acid requirement, 486.\*  
fat content and distribution, changes with age, 585.  
lactating (see under *Lactation*)  
mothers of premature or full-term infants, blood composition, 917.  
parturition (see *Parturition*)  
pregnant (see under *Pregnancy*)
- Women**  
young, blood picture and diet, India, 581.  
zinc metabolism, 879.
- Wood cellulose, for pigs**, 232.
- Wool** (see also under *Wool; Sheep; Lamb*)  
digestion, by insects, 180.\*  
effect of breed and environment, Canada, 229.  
fleece weights of stud rams, relation to selling price of rams, 245.  
growth, effect of nutrition and season, 454.  
lucine and iso-leucine contents, 358.  
production, lambs, effect of ked infestation, 708.  
relation to skin folds, 229.  
quality, effect of nutrition, 708.  
rabbit, growth and sulphur content, effect of horn hydrolyzate, 715.  
steely, and copper deficiency, 485.\*
- Work, capacity of young men**, 593.  
effect on blood lactic acid (deer mouse), 844.\*
- Work performance** (see *Energy output; Exercise; Physical performance*)
- Workers, industrial**  
energy output, 127.\*  
heavy, food habits, 187.  
night and day shifts, adaptation to feeding, 412.  
nutritional state and energy expenditure, relation to food intake, 907.  
pattern of factory meals, Australia, 918.
- Workers, young, nutritional state and diet** (sheep, Netherlands, 411).
- Worm(s)** (see also under specific headings)
- Worm infestation**  
control by phenothiazine-salt mixture (sheep), 482.\*  
effect of pasture management (sheep), 989.  
effect on blood composition in pregnancy (woman), 684.  
effect on digestive efficiency (sheep), 708.  
effect on growth (lamb), 988.  
effect on growth and composition of blood (lamb), 708.  
on low-plane ration (lamb), 989.  
in lambs grazing hill pasture, effect of monthly anthelmintic treatment, 724.  
persistence of effect (sheep), 989.\*  
susceptibility, effect of tryptophan intake, 990.
- Wounds, skin** (see under *Skin*)
- Wound healing**  
effect of pantothenic acid ointment, 200.  
effect of vitamin C and adrenocorticotrophic hormone (guinea pig), 344.  
in protein deficiency, effects of amino-acids and vitamin B (mouse), 602.  
utilisation of sulphur amino-acids (rat), 141.
- XANTHINE**, effect on xanthine oxidase activity of tissues (mouse), 826.\*  
Xanthine oxidase (see *Oxidase, xanthine*)  
Xanthophylls, in alfalfa, 780.  
Xanthurenic acid, diabetes, 328.\*  
excretion, after tryptophan intake, effect of pathological conditions (children), 426.  
effect of vitamin A and vitamin B<sub>12</sub> deficiencies (rat), 328.  
in pregnancy, effect of vitamin B<sub>12</sub> (woman), 200.  
in vitamin B<sub>12</sub> deficiency, effect of riboflavin (rat), 560.  
effect of fatty acids, 328.\*  
in urine in diabetes, 426.\*  
intake, relation to diabetes and glycogen content of organs (rat), 804.

**X-ray exposure**

- effect of vitamin A deficiency on survival (rat), 66.
- effect of vitamin E on survival (mouse), 541.
- effect on adrenal cholesterol, liver glycogen and water intake (rat), 836.\*
- effect on ascorbic acid in adrenal (rat), 343.
- effect on ascorbic acid in tissues (rat), 575.
- effect on ascorbic acid in tumours (mouse), 824.\*
- mortality, effect of diet (rat), 896.
- susceptibility, effect of linoleate intake (mouse), 861.

**X-ray injury, effect of citrovorum factor (rat), 563.**

**Xylans, in straws, 306.\***

**Xyloes, free, in fruits, 53.\***

- in purified rations of baby pigs, effect on growth and cataract production, 904.

in purified rations of pigs, replacement for glucose, 965.\*

**m-Xylohydroquinone, effect on reproduction (rat), 634.**

from *Pisum sativum*, effect on endometrium (woman), 890.

**YAM, oooo (see Taro)****Yeast(s) (see also specific yeasts)**

baker's, vitamin B<sub>1</sub> triphosphate formation, 548.

brewer's, enzyme for pyridoxal phosphorylation, 559.

cystine and methionine content, 303.

effect on growth and hock disorder (turkey poult), 974.

effect on myocardial and hepatic injury (mouse), 898.\*

fermentation of whey, effect on nutritive value (mouse), 898.

food, production and use, France, 415.\*

production from potato starch waste liquor, 515.

for chickens on different types of diet, 466.

growth factor in liver extract, 178.

hydrolysed, for horses, 445.

production from molasses, 282.

vitamin B<sub>1</sub> content, 553.

wood, growth factor for chickens, 463.

Yoghurt, density, estimation, 764.

Yugoslavia (see *Jugoslavia*)

**ZEIN, effect on amino-acid metabolism (rat), 853.**

**Zinc**

deficiency, metabolic defects (rat), 996.\*

estimation, in biological material, 34.\*

753.

in blood, 751.

in plants and soils, 506.

in wine ash, 506.

in eyes of mammals, 162.\*

in foods, 516.\* 767.

Peru, 44.

in liver (cattle), 588.

in oils stored in galvanised containers, 513.

in water supply, cause of constipation in cattle, 988.

intake, high, effect on liver enzymes, relation to copper (rat), 391.

metabolism, 879.\*

in young women, 879.

relation to copper and molybdenum (pig, rat), 623.

radio-active, effects when given by vein (rabbit), 391.

estimation in biological material, 508.

incorporation into eggs (poultry), 879.

relation to carbohydrate metabolism, review, 391.

# NUTRITION ABSTRACTS & REVIEWS

ISSUED UNDER THE DIRECTION OF THE COMMONWEALTH  
AGRICULTURAL BUREAUX COUNCIL, THE MEDICAL  
RESEARCH COUNCIL, AND THE REID LIBRARY

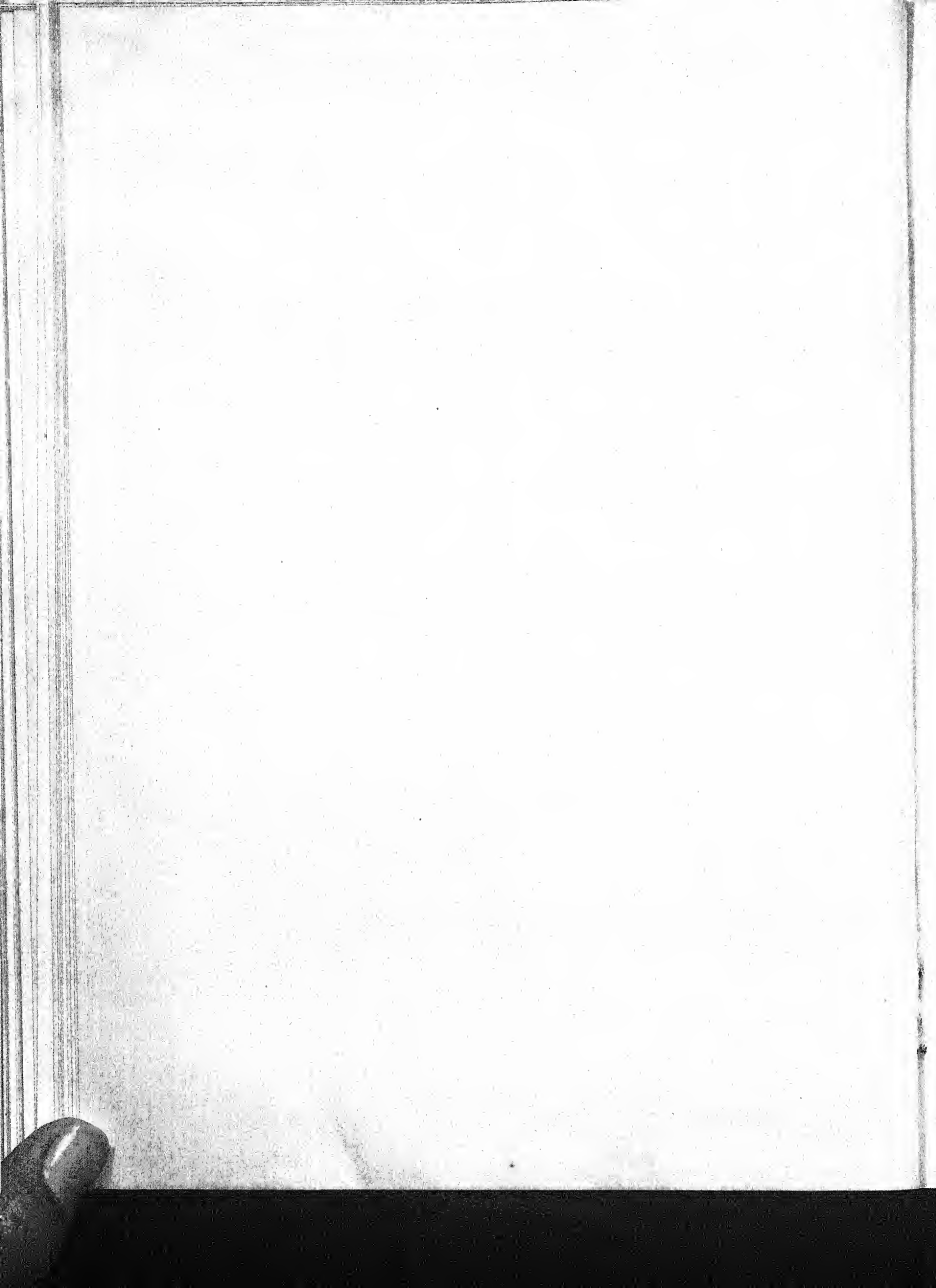

VOLUME 25  
1955

ABERDEEN:

PUBLISHED BY THE COMMONWEALTH BUREAU OF ANIMAL NUTRITION,  
ROWETT RESEARCH INSTITUTE, BUCKSBURN, ABERDEENSHIRE, SCOTLAND

---

PRINTED AT THE ABERDEEN UNIVERSITY PRESS LTD.

# NUTRITION ABSTRACTS AND REVIEWS

## COMMITTEE OF MANAGEMENT

*Chairman:* COL. E. BIRNIE REID, O.B.E., T.D., C.A.

*Representing the Commonwealth Agricultural Bureaux Council:*

MR. W. F. C. MORTON

LT.-COL. J. G. ROBERTSON

SIR HERBERT HOWARD

*Representing the Medical Research Council:*

PROFESSOR SIR RUDOLPH PETERS, M.C., M.D., F.R.S.

PROFESSOR B. S. PLATT, C.M.G., Ph.D., M.B.

HARRIETTE CHICK, D.B.E., D.Sc.

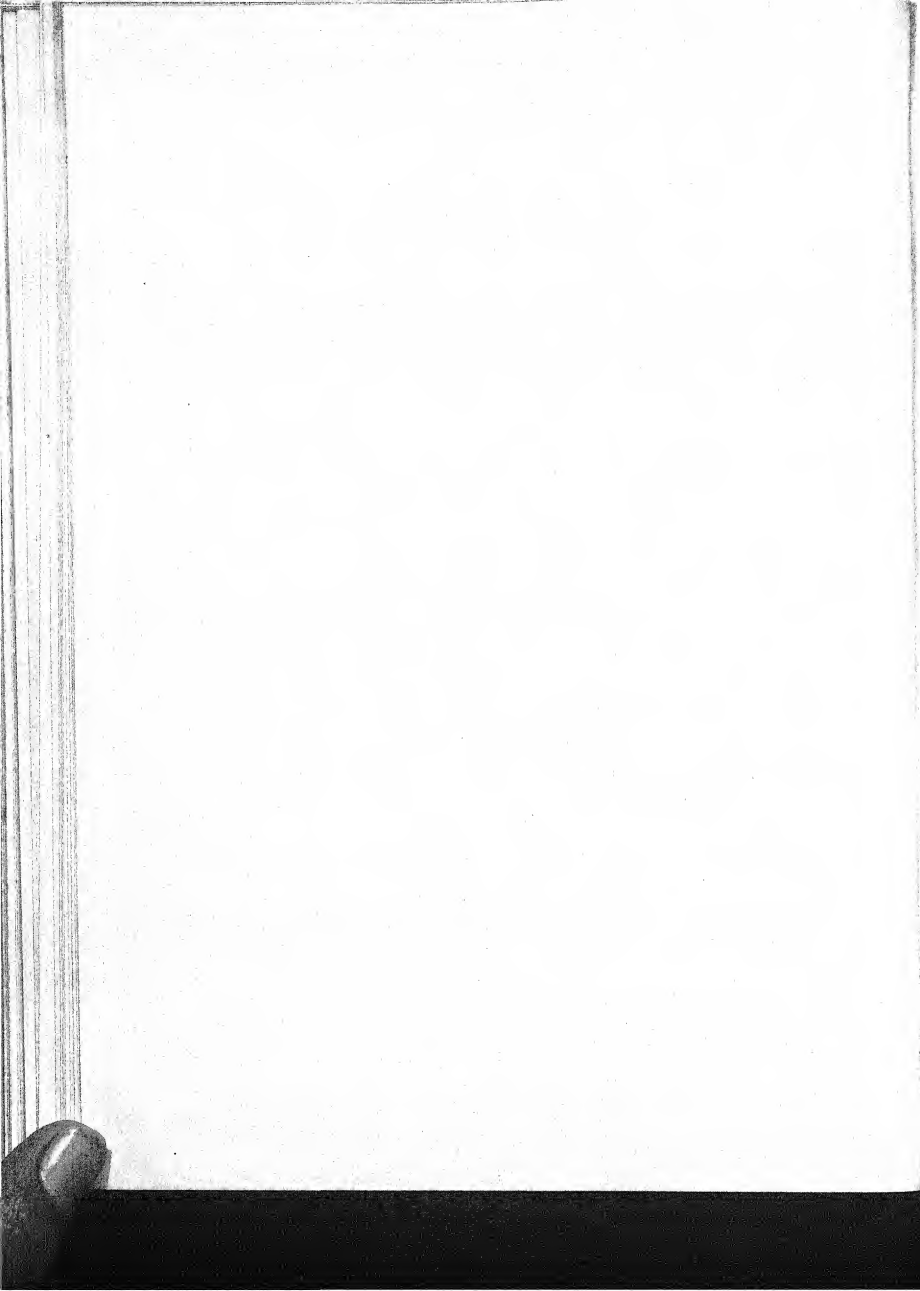

*Representing the Reid Library:*

PRINCIPAL SIR THOMAS TAYLOR, C.B.E., Q.C., M.A.,  
LL.B., D.D., LL.D.

PROFESSOR E. W. H. CRUICKSHANK, M.D., D.Sc.,  
M.R.C.P., F.R.S.E.

All communications should be addressed to the Secretary, NUTRITION ABSTRACTS AND REVIEWS, ROWETT INSTITUTE, BUCKSBURN, ABERDEENSHIRE, SCOTLAND.

The Executive Council of the Commonwealth Agricultural Bureaux is a signatory to the Fair Copying Declaration, details of which can be obtained from the Royal Society, Burlington House, London, W.1.

## CONSULTING EDITOR

LORD BOYD ORR, Newton of Stracathro, Brechin, Angus.

## EDITORS

D. P. CUTHBERTSON, Rowett Research Institute, Aberdeen (*Chairman*).

H. CHICK, Lister Institute, London.

I. LEITCH, Commonwealth Bureau of Animal Nutrition, Aberdeen.

E. M. HUME, Lister Institute, London.

S. J. COWELL, University College Hospital Medical School, London.

J. A. B. SMITH, Hannah Dairy Research Institute, Kirkhill, Ayr.

### *Secretary :*

J. S. THOMSON, Commonwealth Bureau of Animal Nutrition, Rowett  
Institute, Bucksburn, Aberdeenshire.

## OVERSEAS CORRESPONDENT

U.S.A. H. H. MITCHELL, University of Illinois.

## TABLE OF CONTENTS

	PAGE
Committee of Management . . . . .	iii
Editors . . . . .	v
Review Articles	
The Nutrition of the Horse. N. Olsson and A. Rundvere . . . . .	1
The Physiological Effects of Lactose. Dorothy L. Duncan . . . . .	309
The Physiological Basis of Obesity and Leanness. Part I. Jean Mayer . . . . .	597
The Physiological Basis of Obesity and Leanness. Part II. Jean Mayer . . . . .	871

## ABSTRACTS

	PAGES		PAGES
<b>1. TECHNIQUE</b>		<b>3. VITAMINS</b>	
Chemical		General . . . . .	64, 358, 644, 917
APPARATUS . . . . .	19, 321, 613, 885	Vitamin A . . . . .	65, 358, 645, 919
ANALYTICAL METHODS . . . . .		" D . . . . .	73, 366, 652, 926
General . . . . .	19, 321, 613, 885	" E . . . . .	77, 370, 657, 929
Carbohydrate Constituents . . . . .	20, 322, 614, 886	" K . . . . .	79, 372, 661, 933
Nitrogenous . . . . .	23, 325, 615, 887	" B Complex: General . . . . .	80, 372, 661, 934
Lipoid . . . . .	30, 329, 618, 892	" B <sub>1</sub> (Aneurin, Thiamine) . . . . .	83, 375, 663, 937
Other Organic . . . . .	33, 330, 620, 893	Riboflavin . . . . .	86, 380, 668, 940
Inorganic . . . . .	34, 331, 621, 894	Nicotinic Acid (Niacin) . . . . .	89, 381, 669, 942
Hydrogen Ion Concentration . . . . .	— — — — —	Vitamin B <sub>6</sub> (Pyridoxine, Adermin) . . . . .	92, 383, 671, 944
Enzyme Activity . . . . .	37, 333, 623, 896	Pantothenic Acid . . . . .	95, 385, 674, 947
Miscellaneous . . . . .	38, 333, 623, 896	Biotin . . . . .	96, 388, 677, 949
Microbiological . . . . .	40, 335, 624, 897	p-Aminobenzoic Acid . . . . .	97, 389, — — —
Clinical and Experimental . . . . .	40, 335, 625, 898	Folic Acid (Pteroylglutamic Acid) . . . . .	97, 390, 678, 949
Cooking, Sterilisation and Preservation of Food . . . . .	45, 339, 629, 901	Vitamin B <sub>12</sub> . . . . .	99, 392, 680, 951
Culture of Micro-Organisms for Food . . . . .	52, 346, 634, —	Other B Vitamins . . . . .	105, — — — 958
<b>2. CHEMICAL COMPOSITION OF FOODSTUFFS</b> (except Vitamins, for which see Section 3)		Vitamin C (Ascorbic Acid) . . . . .	106, 397, 687, 958
Energy Value, Proximate Principles and Inorganic Constituents		Other Vitamins . . . . .	112, 402, 692, 964

Legumes . . . . .	59, 354, 641, 913	GENERAL . . . . .	165, 448, 737, 1013
Fruits . . . . .	59, 355, 641, 913	CALCIUM AND PHOSPHORUS . . . . .	165, 448, 737, 1014
Other Types . . . . .	59, 355, 642, 913	MAGNESIUM . . . . .	167, 452, 740, 1017
Pasture, Hay and Silage . . . . .	60, 355, 642, 914	SODIUM, POTASSIUM, AND SODIUM CHLORIDE . . . . .	168, 452, 740, 1017
MISCELLANEOUS . . . . .	63, 357, 643, 916	HALOGENS . . . . .	170, 454, 743, 1019
		IRON AND COPPER . . . . .	172, 457, 746, 1021
		OTHER MINERALS . . . . .	175, 458, 748, 1022

# TABLE OF CONTENTS

vii

	PAGES
Acid Base Equilibrium . . .	176, 460, 749, 1023
Metabolism of Water . . .	176, 461, 750, 1024
Metabolism of Other Substances	176, 462, 750, 1024
Metabolism of Cells, Tissues, etc.	
GENERAL PHYSIOLOGY . . .	178, 464, 752, 1025
GROWTH AND METABOLISM OF TUMOUR CELLS . . .	183, 467, 754, 1028
Metabolism of Growth, Repro- duction and Senescence	
GROWTH . . .	185, 468, 755, 1028
REPRODUCTION AND LACTA- TION: MAMMALS . . .	189, 470, 759, 1031
REPRODUCTION: BIRDS . . .	191, 475, 762, 1034
SENESCENCE . . .	192, 477, 763, 1035

Experimental Studies of Im- munity and Micro-organisms	193, 477, 764, 1037
---	---------------------

Miscellaneous Feeding Experi- ments	197, 481, 766, 1039
--	---------------------

General Metabolism and Feed- ing Habits of Animals other than Mammals and Birds	205, 488, 771, 1043
---	---------------------

## 5. HUMAN DIET IN RELATION TO HEALTH AND DISEASE

Diet	
REQUIREMENTS . . .	207, 490, 772, 1043
FEEDING OF INFANTS AND CHILDREN . . .	207, 491, 773, 1044
DIETARY SURVEYS AND IN- DIVIDUAL STUDIES . . .	210, 494, 774, 1046
GENERAL STUDIES: DIET PLANNING: EDUCATION . . .	214, 502, 777, 1050

Food Economics and Statistics	217, 504, 779, 1053
-------------------------------	---------------------

Diet in Etiology of Disease	
METHODS OF ASSESSING STATE OF HEALTH . . .	219, 506, 780, 1054

# SUBJECT INDEX, VOLUME 25

(\*Title and reference only)

- ABORTION** (see also *Pregnancy disorders*)  
relation to consumption of pine needles (cow), 594.\*
- Absorption** (see also under specific headings, e.g., *Calcium absorption*)  
effect of adrenal removal, 967.\*  
effect of adsorbent earths, 969.\*  
effect of stomach removal (man), 116.  
of water and other substances through intestinal wall, 407.\*
- Acerola** (*Malpighia punicifolia*), composition, 691.  
vitamin C availability (man), 1071.\*
- Acetaldehyde**, metabolism, effect of protein depletion (dog, rat), 751.
- Acetate**  
conversion to cholesterol, effect of squaleme (man), 1010.  
conversion to lipid, effect of feeding and of route of administration, 1008.\*  
effect on alcohol metabolism (rat), 462.  
effect on blood sugar (rat), 731.  
incorporation into fatty acid by liver slices, effect of adrenal removal (rat), 1026.  
metabolism, in genetically obese diabetic mice, 1009.  
nutritive value for lambs, 560.\*
- Acetate, <sup>14</sup>C**, utilisation in liver necrosis (rat), 559.\*
- Acetic acid**  
estimation, in silage, 893.  
in silage, effect on milk production, 265.  
Acetic fats, nutritive value (rat), 1006.\*  
Acetoacetate, effect on ascorbic acid and carbohydrate metabolism (rabbit, rat), 398.  
effect on vitamin B<sub>1</sub> metabolism (rabbit), 378.
- Acetonamcin** (see also *Ketosis*)  
on high fat diet (dog), 206.  
treatment with ACTH preparation (cow), 296.  
treatment with propylene glycol (cow), 295.
- Acetone**, estimation in blood and urine, 33.  
**Acetone bodies** (see *Ketone bodies*)
- Acetylation**, effect of pantothenic acid deprivation (rat), 948.
- Acetylcholine**, in milk, fresh and dried, 636.
- Acid(s)**  
decalcification of enamel, 467.\*  
dicarboxylic, aliphatic, separation, 33.  
fatty (see *Fatty acids*)  
organic, estimation in urine, 33, 620.  
in apple juice, 355.  
in perry, 59.  
in rye bread, 341.  
in urine, separation, 33.\*  
in yeast, separation and identification, 330.\*  
non-volatile, estimation in biological fluids, 893.\*  
in urine, 893.\*  
separation, 33\*, 893.  
water-insoluble, estimation in butter, 618.
- Acid base equilibrium**  
effect of diet and baths (man), 749.  
effect of sodium bicarbonate, prolonged administration in stomach disorders, 460.
- Acid base equilibrium**  
effect of thermal stress (cow), 989.  
in atmospheric heat (calf, man), 1023.  
in infants, newborn, of diabetic mothers, 176.  
role of potassium (rat), 749.
- Acidosis**  
effect on carbohydrate metabolism (dog, infant), 144.  
produced by ammonium chloride, effect on fluid and electrolyte distribution (woman), 749.
- Acorn**, poisoning of sheep, 298.\*  
vitamin C content, 111.
- Aerodynia**, in infants, 232.
- Actionomyocytes**, formation of vitamin B<sub>12</sub> in intestine (duck), 952.
- Activity** (see *Energy output*; *Exercise*; *Physical activity*)
- Addison-Biermer's disease**, treatment with vitamin B<sub>12</sub>, 1067.\*
- Addison's disease**, energy exchange, 713.
- Adenosine-5'-phosphatase**, in brain, normal acid in vitamin B<sub>1</sub> deficiency (chick), 377.
- Adenosine phosphates**, metabolism, lecture report, 178.\*
- Adenosinetriphosphatase**, in kidney and liver, effect of hormones in vitamin deficiencies (rat), 935.  
in liver, effect of 4-dimethylaminoazobenzene (rat), 183.
- Adenosinetriphosphate**, effect in atherosclerosis produced by cholesterol (rabbit), 1012.\*  
effect on liver in carbon tetrachloride poisoning (rat), 178.  
effect on tributyrin-splitting lipase in experimental atherosclerosis (rabbit), 114.  
in hypothalamic control of food intake (rat), 769.  
magnesium salt, in blood after burns (dog), 689.
- Adermis** (see *Vitamin B<sub>6</sub>*)
- Adipose tissue**, lipids uptake *in vitro*, 465.
- Adolescents**  
boys, vitamin B<sub>1</sub> requirement, estimation, 1064.\*  
energy exchange, basal, measurements compared with Wetzel grid estimates, 712.  
sex difference, 712.  
seasonal variations, 712.  
growth, rural school, Spain, 186.  
mouth temperature, age and sex differences, 712.  
physiological maturity, criteria, 758.  
secondary school boys, body measurements, Stockholm 1960, 186.  
subcutaneous fat distribution, 706.
- Adrenal(s)**  
and pituitary, relation to blood pyruvate in vitamin B<sub>1</sub> deprivation (rat), 938.  
ascorbic acid, and cholesterol, effect of alcohol (guinea pig, rat), 399.  
effect of malaria parasite (chicken), 110.\*  
effect of alcohol intoxication (guinea pig), 691.  
effect of cold (rat), 400.
- Adrenal(s)**, ascorbic acid  
effect of environmental temperature, 690.\*  
effect of oestrogens (hypophysectomized rat), 400.  
effect of pituitary extracts (rat), 961.  
effect of pituitary removal (rat), 690.  
effect of pituitary removal and injection of glutathione (rat), 109.  
effect of salicylic acid after pituitary gland removal (rat), 961.\*  
cholesterol, effect of operations (rat), 690.  
effect of pantothenate and aureomycin (rat), 948.  
corticosteroids, in scurvy, experimental (guinea pig), 399.  
effect of biotin deprivation (rat), 388.  
effect of scurvy on enzyme system (guinea pig), 960.  
effect of vitamin B<sub>1</sub> deficiency (rat), 92.  
electrocardiogram, effect of vitamin B complex deficiency (rat), 661.  
function, effect of ascorbic acid deficiency (guinea pig, man), 399.\*  
effect of pantothenic acid deficiency (rat), 674.  
glycogenogenesis, effect of pantothenic acid deprivation (rat), 675.  
in stress produced by cold, effect of vitamin C (mouse), 951.  
glycogen concentration, effect of fasting (guinea pig, rat), 981.  
histology in hypertension, effect of salt intake (man, rat), 170.\*  
in offspring, effect of thyroid status of mother (rat), 154.  
insufficiency (see also *Addison's disease*)  
phosphorus metabolism, effect of cold (rat), 981.  
role of pituitary and thyroid, 981.\*  
regenerating, cholesterol and ascorbic acid content, 110.\*  
role in pregnancy toxemia (woman), 136.  
steroids, role in protein formation, 132.\*  
weight, and cholesterol content, after pituitary removal or exposure to cold, effect of ascorbic acid (rat), 961.  
effect of pituitary removal (rat), 664.  
effect of salt intake (rat), 454.  
zona glomerulosa, in hypertension, effect of salt restriction (man, rat), 709.
- Adrenal cortex**  
and vitamin C, 528.\*  
ascorbic acid and ketosteroids, histochemical behaviour after body irradiation (rabbit), 690.  
effect in fat deficiency (rat), 132.\*  
effect on metabolism during starvation (rat), 132.  
extract, effect on resistance to under-nutrition (rat), 981.  
function, effect of pantothenic acid deprivation (rat), 675.  
hormones, cortisone, action counteracted by vitamin B<sub>12</sub> (rat), 956.\*  
and pantothenic acid deficiency, effect on liver glycogen (rat), 675.  
antagonism to growth hormone, 132.\*  
antagonism to thyroid (rat), 984.

- Adrenal cortex hormones, effect on ascorbic and dehydroascorbic acid metabolism (guinea pig), 528.  
effect on blood pressure, high, experimental (rat), 400.  
effect on connective tissue response to crude testicular extract (rat), 722.  
effect on course of protein depletion (rat), 136.  
effect on glucose absorption (adrenalectomized and normal rats), 967.\*  
effect on growth and phosphorus uptake by tissues (rat), 393.  
effect on nitrogen excretion, role of potassium (rat), 722.  
effect on nitrogen metabolism after injury (rat), 722.  
effect on protein depletion after adrenal removal (rat), 432.  
effect on tissue metabolism and heart muscle, 962.\*  
effect on vitamin A storage in liver and on conversion of carotene to vitamin A (rat), 921.  
effect on weight of corpus (rat), 85.  
for undernourished children, 210.  
influence of cholesterol on effect (rabbit), 447.  
treatment of sarcoidosis, 516.  
deoxycorticosterone, anti-thyroid activity (rat), 962.  
effect on blood pressure, influence of sodium and potassium intakes (rat), 133.  
deoxycorticosterone acetate and ascorbic acid, after removal of adrenals, effect on sensitivity to insulin (rat), 962.  
effect on ascorbic acid metabolism (man), 1071.  
effect on blood lipids (rabbit), 162.  
effect on carbohydrate metabolism in riboflavin deprivation (rat), 88.  
effect on glycogenogenesis in pantothenic acid deficiency (rat), 675.  
effect on water excretion in pyridoxin or pantothenic acid deficiency (rat), 96.  
relation to survival on exposure to cold (mouse), 109.\*  
treatment of nephrosis, effect on electrolyte metabolism, 1082.\*  
role in diabetic retinopathy, 525.\*  
role in reproduction, 980.\*  
secretion, effect of dist., 96.\*
- Adrenal removal and vitamin B<sub>1</sub> deprivation, effect on vitamin B<sub>1</sub> content of tissues and pyruvic acid in blood (rat), 664.  
body composition, effect of method of giving food (rat), 1040.  
effect of ascorbic acid with adrenocorticotrophic hormone on weight of glands (rat), 400.  
effect of cortisone on glucose absorption (rat), 967.\*  
effect of deoxycorticosterone or riboflavin on induced anoxia (rat), 88.  
effect of pantothenic acid (rat), 96.  
effect of pantothenic acid on liver glycogen (rat), 675.  
effect of protein intake and cortisone on survival (rat), 432.  
effect on absorption, 967.\*  
effect on blood pressure, high, experimental (rat), 400.  
in potassium deficiency (rat), 454.  
effect on electrolytes in tissues (rat), 979.  
effect on excretion of tryptophan metabolites (rat), 671.  
effect on formation of fatty acid from acetate by liver slices (rat), 1026.  
effect on insulin sensitivity (rat), 88.
- Adrenal removal effect on organ weights and influence of protein in diet, 981.\*  
effect on resistance to growth hormone in pantothenic acid deficiency (rat), 876.  
effect on water and salt metabolism (man), 98.\*  
fat formation in liver slices, effect of growth hormone (fat), 1027.  
treatment with ascorbic acid and cortex hormone, effect on sensitivity to insulin (rat), 962.
- Adrenaline effect on amino-acids in blood (rat), 136.  
effect on carbohydrate metabolism in brain disorders, 991.\*  
effect on carbohydrate metabolism in riboflavin deficiency (dog), 941.\*  
effect on weight of organs, influence of vitamin B<sub>1</sub> (rat), 85.  
Adrenoblast, effect on bones and endocrine glands in vitamin D poisoning (rat), 556.
- Africa (see also specific territories, e.g., Nigeria)

 foods, composition, 352.  
 food plants, 502.  
 mineral waters, dietetic effects, 217.\*  
 workers, indigenous, feeding and common diseases, 500.

## Animals (see also Livestock and specific animals, e.g., Pigs)

- laboratory (see also specific animals, e.g., Rats)  
 nitrogen requirements, evaluation, chemical and biological, 1142.\*  
 Animal-protein factor (see *Protein, animal, factor*)  
*Annons squamosa*, L. (sweetop), riboflavin and vitamin B<sub>12</sub> content, 911.  
 Anostrum, in helifers, relation to nutrition, 1099.  
 Anorexia, idiopathic, review, 232.  
*Anorexia nervosa*, causes, 1080.  
 prognosis, 540.  
 Anoxia, effect on adrenal, 674.  
 Antacids, treatment of peptic ulcer, 893.  
 Antagglutinin, sperm, from prostate, alcohol extract, relation to vitamin B<sub>12</sub>, 370.  
 Anthranilic acid, effect on acetone body production (rat), 95.  
 Antibiotics (see also specific antibiotics, e.g., Aureomycin; Penicillin; Terramycin)

## Antibiotics

- and arsenic acid, differential response after feeding in same house for 4 years (chicken), 1122.  
 and calcium metabolism (poultry), 452.\*  
 and dietary protein level, effect on growth of pigs, 595.\*  
 and feeding disorders, effect of vitamin A (guinea-pig), 643.  
 and intestinal flora, review, 1037.\*  
 and nutrition, 544.\*  
 and selection of stock for breeding, 815.  
 and skimmed milk for fattening pigs, 838.  
 and vitamins, 64.\*  
 and vitamin B<sub>12</sub> supplements, for chickens, effect on subsequent egg hatchability, 1124.  
 vitamin K content, 934.  
 combined with methylthiouracil, effect on growth and efficiency of chickens, 848.  
 effect in vitamin B<sub>12</sub> and folic acid deficiency (rat), 685.  
 effect of changing on growth and faecal flora (chicken), 578.\*  
 effect on blood formation, review, 679.  
 effect on calcium and protein utilisation, 1142.\*  
 effect on conversion of carotene to vitamin A (chicken), 923.  
 effect on deaminating properties of intestinal flora *in vitro* (pig), 765.  
 effect on emetine toxicity (rat), 104.  
 effect on fat absorption (rat), 1004.  
 effect on growth (lamb), 560.  
 (man), 1052.  
 effect on growth and antibody formation in pantothenic acid deficiency (rat), 676.  
 effect on growth and feed efficiency (pig), 567.  
 effect on growth and formation of vitamin B<sub>12</sub> and folic acid by *Bacterium coli*, 394.  
 effect on growth and health of calves, 595.\*  
 effect on growth in deficiency of pantothenic acid or vitamin B<sub>1</sub> (rat), 682.  
 effect on growth of chickens in old and new houses, 283.  
 effect on growth of pigs on rations of different protein content, 595.\*  
 effect on growth of pigs receiving alfalfa meal, 1108.  
 effect on growth of subnormal pigs, 273, 595.\*  
 effect on intestinal micro-organisms (chicken), 197.  
 effect on iron absorption (rabbit), 173, 746.\*  
 effect on longevity (rat), 436.  
 effect on metabolism of nitrogen (rat), 148.  
 effect on metabolism of vitamin B complex components, 662.  
 effect on nitrogen utilisation by chickens, 1121.  
 effect on older calves, 595.\*  
 effect on organisms used for microbiological assays, 478.  
 effect on rumen digestion and synthesis, 1142.\*  
 effect on rumen micro-organisms *in vitro*, 765.  
 effect on rumen micro-organisms and digestibility of feeds (beef steer), 813.  
 effect on small intestine (chicken), 768.  
 effect on sugar absorption (rat), 427.  
 effect on synthesis of vitamin B<sub>12</sub> (chicken), 395.  
 effect on thyroid (chicken, rat), 135, 420.  
 effect on vitamin requirements of pigs, 595.\*

## Antibiotics

- effect on vitamin B complex excretion (man), 793.  
 effect on weight gain and protein utilisation (rat), 485.  
 effect on weight of boys, 757.\*  
 for beef cattle, in winter rations, America (U.S.), 550.  
 for calves, 1142.\*  
 effect on growth and health, 595.\*  
 effect on performance, 548.\*  
 for calves and lambs, effect of implants on growth, 832.  
 for cats, effect on growth and feed utilisation, 571.  
 for chickens, 282.  
 effect on response of response in an old environment, 848.  
 effect of age, breed and sex, 577.  
 growth response in relation to coliform bacteria, 578.\*  
 in old and new quarters, effect of protein content of mash, 593.\*  
 for lambs, 561.\*  
 effect on growth and carcass composition, 662.  
 for laying and breeding hens, 579.  
 for laying hens, effect of high levels, 580.\*  
 effect on egg hatchability and growth of chicks, 103.  
 for livestock, 544.\*  
 review, 82.\*  
 for pheasants, 856.  
 for pigs, 272, 273, 568, 1142.\*  
 baby, 562\*, 839.  
 effect on feed utilisation and weight gain, 390.  
 effect on intestinal micro-organisms, 481.  
 during fattening, 567.  
 effect of continuous or intermittent feeding on growth and carcass characteristics, 838.  
 effect on nature of the protein on response, 1107.  
 effect on growth and efficiency with different levels of protein, 837.\*  
 effect on nutritive value of pork for rats, 1039.  
 effect on visceral weights, 1108.  
 given fodder beet, 307.\*  
 growth stimulation prevented by stilboestrol, 839.  
 on bulky diet of separated milk, 308.\*  
 on ration containing cane molasses, 568.\*  
 relation between growth effect and inhibition of microbial deaminases, 760.  
 for poultry, 283.\*  
 factors affecting value for breeders, 580.\*  
 for rabbits, 845.  
 for ruminants, bacteriological and growth studies, 544.\*  
 for turkeys, effect on reproduction and on growth of poults, 579.  
 for turkey poults, effect on requirement for supplementary biotin and pantothenic acid, 82.  
 function in animal nutrition, 813.\*  
 growth-promoting effect, and possible mode of action, 813.\*  
 implants, effect on baby pigs, 594.\*  
 in creep feed of suckling pigs, 838.  
 in nutritional macrocyclic anaemia and the excretion of vitamin B<sub>12</sub>, 307.\*  
 in poultry nutrition, review, 849.\*  
 response, effect of protein in ration (chicken), 593.\*  
 suppression of output of toxic substances in intestine (rat), 1042.  
 with animal or vegetable protein, effect on reproductive performance (pig), 566.

effect on adrenal weight and cholesterol content after pituitary removal or exposure to cold (rat), 961.  
effect on anaphylactic shock (guinea-pig), 917.  
effect on antidiuretic produced by drugs after burns (dog), 689.  
effect on blood and gums (children), 798.  
effect on blood pressure, high, experimental (rat), 400.  
effect on excretion of folic acid and citrovorum factor (man), 1066.  
effect on gastric secretion in normal and prescurvitic guinea-pigs, 962.  
effect on healing of corneal lesions (guinea-pig), 962.  
effect on insulin-glucose tolerance and lactate-pyruvate acid ratio in obesity (man), 242.\*  
effect on mucoids and bacteria in body secretions *in vitro* (man), 689.  
effect on nucleic acids in tumour tissue (rat), 960.  
effect on oedema produced by egg white (rat), 962.  
effect on pantothentic acid in pregnancy (rat), 386.  
effect on small intestine *in vitro* (rabbit), 963.  
effect on steroid excretion (rat), 110.  
effect on tissue metabolism and heart muscle, 962.\*  
enrichment of sweetened condensed milk, effect on keeping quality, 111.  
estimation 107, 397, 688, 958, 959.  
in biological material, 687.  
in tissues, 107.  
excretion, effect of anterior pituitary hormones (rabbit), 110.  
effect of cold (rat), 400.  
in adrenal cortex, histochemical behaviour after body irradiation (rabbit), 690.  
in adrenals, after pituitary gland removal, effect of succinic acid (rat), 961.\*  
effect of alcohol (guinea-pig, rat), 691, 961.\*  
effect of cold (rat), 400.  
effect of environmental temperature, 690.\*  
effect of malarin parasites (chicken), 110.\*  
effect of oestrogens (hypophysectomised rat), 400.  
effect of pituitary extracts (rat), 961.  
regulating, 110.\*  
in adrenals and liver, effect of alcohol intoxication (guinea-pig), 901.  
in blackcurrants, 111.  
in blood, factory workers, Yugoslavia, 526.  
in haemorrhagic disease, 527.  
in blood and aqueous humour, effect of water intake (rabbit), 399.  
in brewer's, frozen and stored, 112.  
in cabbage, effect of blanching, canning and storing, 692.  
in citrus juice, effect of refrigeration, 112.  
in fruits and potatoes, 107.  
in lemon juice, effect of flash pasteurisation, 692.  
in milk, dried, effect of season, 691.  
in pituitary, effect of cold (rat), 400.  
in potatoes, different varieties, and effect of storage, 692.  
dried in infrared light, 688.  
in spleen, effect of pteroylglutamic acid analogues (chicken), 108.  
in tomatoes, effect of fertilisers, 401.  
effect of sunlight, 401.
- Ascorbic acid  
in tomato juice, canned, 691.  
in vegetables, in tundra, 401.  
intake, relation to blood serum level, in elderly persons, 1071.  
relation to protein intake in production of scurvy (guinea-pig), 959.  
massive doses, effects of prolonged administration (guinea-pig), 963.\*  
metabolic interrelationships with vitamin B<sub>12</sub> and folic acid, 678.  
metabolism, effect of acetoacetate and p-hydroxybutyrate (rabbit, rat), 398.  
effect of adrenal cortex hormones (man), 1071.  
effect of 4-amino-pteroylglutamic acid (guinea-pig, rat), 398.  
effect of dehydroascorbic acid (guinea-pig, man), 528.  
effect of operations (rat), 690.  
effect of previous intake and distribution of test dose (man), 797.  
effect of X-ray exposure (rat), 960.  
in women, effect of intake on level in blood and urine, 797.  
oxidation, inhibition by vitamin B<sub>12</sub>, role of vitamin B<sub>12</sub>-copper complex, 376.  
relation to p-aminosalicylic acid, 242.\*  
relation to liver glycogen deposition and corticosteroids in scurvy (guinea-pig), 109.\*  
relation to survival on exposure to cold (mouse), 109.\*  
requirement, of *Lactobacillus bifidus* for growth *in vitro*, 402.  
of man, effect of steatorrhoea, 528.  
treatment of hepatitis (man), 242.  
treatment of nutritional anaemia in children, 240.  
treatment of onychia, case report, 1056.  
treatment of polyomyelitis, 242.  
with drugs, treatment of influenza and colds (industrial workers), 241.  
with heparin, treatment of diseases, 1072.  
Ascorbic acid, D-arabo-, synthesis, 397.\*  
L-Ascorbic acid  
compound with protein in plant material, 398.\*  
formation (rat), 108.  
oxidation, effect of vitamin B<sub>12</sub>, 688.  
L-Ascorbic-1-<sup>14</sup>C acid, metabolism (man), 1071.\*  
Ascorbic acid, dehydro-  
effect on carbohydrate metabolism (rat), 688.  
estimation, 397\*, 958.  
in blood, in infectious diseases (man), 1071.  
metabolism (guinea-pig, man), 528.  
Ascorbic acid, gluco-,  
effect on nucleic acid in tumour tissue (rat), 960.  
toxicity, effect of dried alfalfa (mouse), 399.  
Ascorbigen, derivatives, 107.  
in vegetables, 107.\*  
properties, 107.  
L-Ascorbigen, reduction by erythrocytes, 398.\*  
Ash (see *Minerals*)  
bone (see *Bone ash*)  
Asia, south and east, nutrition, discussion, 509.  
Asparagine, metabolism, in embryo and placenta (rabbit, rat), 181.  
Aspartic acid, estimation, 891.  
metabolism, effect of vitamin B<sub>12</sub> deficiency (rat), 94.  
relation to lysine, in *Streptococcus faecalis*, 478.\*  
*Asphodelus microcarpus* Viv, composition and possible use to animals, 256.
- Astatine, effect on thyroid (monkey, rat), 457.  
Astaxanthin, from hepatopneumosis, prawn, biological activity, 66.  
in krill, 355.  
Astaxanthin esters, effect on xerophthalmia and growth (rat), 646.  
*Astragalus serotinus* (timber milk vetch), poisoning of livestock, 1141.\*  
A.T. 10 (see *Dihydrothachypterol*)  
Atherosclerosis (see also *Arteriosclerosis*)  
and diet, 1081\*, 1141.\*  
and lipoproteins, review, 1081.\*  
blood composition (man), 1036.  
blood lipids after high fat meal (man), 160.  
blood lipids and fat tolerances (man), 437.  
blood lipoproteins (man), 703, 900.  
blood serum proteins and lipoproteins (man), 703.  
composition of blood vessels (man), 708.  
coronary, pathology, and blood lipoproteins, 160.\*  
diabetic, plasma lipids, 128.\*  
effect of lipotropic substances on serum lipid partition (man), 160.  
etiology, role of factors other than fat, 1141.\*  
etiology and pathogenesis, review, 160.\*  
experimental, early arterial changes (rabbit), 735.  
effect of adenosine triphosphate (rabbit), 1012.\*  
on tributyltin-splitting lipase (rabbit), 114.  
effect of alloxan diabetes treated with insulin (rabbit), 446.  
effect of fat-free diet (chicken), 1012.\*  
effect of heparin (rabbit), 402.  
effect of inositol phosphatide (rabbit), 161.  
effect of restricted feed intake (rabbit), 446.  
effect of squalene (rabbit), 161.  
effect of vegetable oils (rabbit), 161.  
inhibitory mechanisms (chicken), 162.  
produced by diet (rabbit), 1012.  
effect of protein intake during underfeeding (rabbit), 736.  
produced by sterols (rabbit), 444.  
protein formation from amino-acids (rabbit), 149.  
protein : lipid relations (dog), 704.  
regression, severity of lesions and cholesterol content of aorta (rabbit), 1012.  
relation to hypertension, experimental (rat), 735.  
time of development (rabbit), 161.  
in ground squirrels, 447.  
lecture report, 160.\*  
lipoproteins and coronary heart disease, review, 160.\*  
myocardial infarction, treatment with lipotropic preparation (man), 1005.  
prevention and treatment, 540.\*  
relation to blood cholesterol level (man), 443.  
relation to deranged cholesterol metabolism, review, 1012.\*  
relation to hyperchylomicronaemia and hypercholesterolaemia, 1005.\*  
relation to lecithin formation from ethanolamine (chicken, guinea-pig, rat), 446.  
serum lipoproteins (man), 123.  
stability (man), 124.  
treatment with vitamin D and lipotropic factors (man), 368.  
Aureomycin (see also *Aureofin*)  
and protein intake, effect on vitamin B complex components in pig tissues, 594.\*  
distribution in body after oral or intravenous administration (calf), 549.\*  
effect on body composition (rat), 979.

## Aureomyein

- effect on calcium and phosphorus requirements (chicken), 282.  
 effect on calves deprived of colostrum, 816.  
 effect on carotene and vitamin A metabolism (rat), 923.\*  
 effect on cholesterol content of adrenals (rat), 948.  
 effect on digestibility of low-quality roughage (sheep), 514.\*  
 effect on efficiency of broiler production in presence of chronic respiratory disease, 849.  
 effect on egg production, 285.  
 effect on growth and reproduction in pigs, 1108.  
 effect on growth and rumen micro-organisms (calf), 259.  
 effect on growth of children, 240.\*  
 effect on metamorphosis (frog), 103.  
 effect on nitrogen metabolism (infant), 240.  
 effect on nitrogen retention (pig), 569.\*  
 effect on nutrient digestibility (bullock), 548.\*  
 effect on performance of calves, 595.\*  
 effect on protein requirement and carcass quality (pig), 594.\*  
 effect on reproduction and lactation (cow), 594.\*  
 effect on resistance to Newcastle disease (poultry), 598.\*  
 effect on sows during reproduction and lactation, 594.\*  
 effect on tooth development (hamster), 1042.  
 effect on treatment of beriberi with vitamin B<sub>1</sub> (pigeon), 866.  
 effect on utilisation of alfalfa (pig), 569.\*  
 effect on vitamin A utilisation (rat), 923.\*  
 effect on vitamin B<sub>1</sub> and nicotinic acid in rascals (pig), 664.  
 effect on vitamin B complex components in tissues (pig), 594.\*  
 estimation in feedstuffs, 897.  
 for calves, 817.  
 crystalline or crude, 269.  
 effect of method of administration, 548.\*  
 effect on establishment of rumen micro-organisms, 195.  
 effect on growth and digestibility of ration, 1090.  
 for chickens, effect on basal metabolic rate, 985.  
 effect on subsequent reproductive performance, 580.\*  
 for children, effect on red cells and haemoglobin, 1070.  
 for cows, effect on milk production and composition, 103.  
 effect on milk properties, 629.  
 for foals, 547.  
 for pigs, at different protein intake levels, effect on composition of hams, 273.  
 effect of reducing the amount or discontinuation, 594.\*  
 in pyridoxine deficiency (rat), 946.\*  
 influence on liver damage produced by cholesterol (rabbit), 736.  
 relation to dietary protein (rat), 485.  
 supplement to milk replacement diet, effect on vitamin B complex components in blood (calf), 375.  
 toxicity for guinea-pigs, 1041.  
 with vitamin B<sub>1</sub> supplements to gelatine, effects on nitrogen retention from low-nitrogen diet (infant), 526.

## Australia

- agricultural output requirements for future population growth, 867.  
 agricultural programme, 287.\*  
 beef cattle, feeding standards, 260.

## Austria

- beef cattle, supplementary feeding during drought, 261.  
 beef production in New South Wales, scope for improvement, 288.  
 cattle, growth, British breeds and Brahman crosses, 260.  
 copper and cobalt deficiencies in livestock, 1129.  
 cows, feeding for milk production, 262.  
 fat lamb production, Queensland, 833.  
 flour enrichment, recommendations, 503.  
 fluorosis in sheep, control by management, 297.  
 man, requirements, recommended allowances, 490, 1044.  
 meat consumption, relation to income, 505.  
 osteomalacia in livestock, 294.\*  
 pasture, composition and yield, effect of sulphur, 356.  
 sown, weight increases of sheep and lambs, 833.  
 trace element deficiencies, 60.  
 pig carcasses appraisal, observations on Hammond system, 569.  
 poisoning of livestock by ironwood, 687.\*  
 sheep, feeding during drought, 268, 593.\*  
 fluorosis, 865.  
 soils, fluorine, copper and phosphorus status, 593.\*  
 Austria, infants, goitre, endemic, incidence, 593.\*  
 milk, human, bulk, 339.  
 Avitaminosis (see *Vitamin deficiencies*)  
 Avocado, composition, 692.  
 Azo compounds, production of tumours (see under *Cancer and Tumours*)

## Bacillus

- Bacillus aneurinolyticus* (Kimura and Aoyama), thiaminase, 940.  
*Bacitracin*, effect on growth of newborn pigs, 569.\*  
*Bacteroides* acids, 346.  
 flavour, oily or fishy, evaluation, 39.  
 Bacteria (see also *Micro-organisms* and specific bacteria, e.g., *Lactobacillus casei*).  
 growth, effect of hydrazides, role of pyridoxine, 946.\*  
 hemocellulose, in rumen, 1141.\*  
 in body secretions, effect of ascorbic acid *in vitro* (man), 689.  
 lactic acid (see *Lactic acid bacteria*)  
 propionic acid, production of vitamin B<sub>12</sub>, 952.  
 rumen (see *Rumen micro-organisms*)  
*Bacterium coli*  
 biotin formation, 389.  
 growth and formation of vitamin B<sub>12</sub> and folic acid, effect of antibiotics, 394.  
 nutritive value for chickens and rats, 483.  
 production of chicken growth factor, 276.\*  
 supplement for chickens, 282.

## Bajra (see Millet, pearl)

- Baking, effect on stability of vitamin A in enriched bread, 1142.\*  
*Balanites phylicia* (see *White*)  
*Balanites aegyptiaca*, Del. (Egyptian balsam) seed, amino-acids, 913.  
 Ballast, effect of early feeding on development of digestive tract (pig), 562.  
 Balsam, Egyptian (*Balanites aegyptiaca*, Del.), seed, amino-acids, 913.  
 Bantu (see under *Africa*)  
 Barbados, family budgets, 1050.  
 Barley, digestibility, effect of degree of milling (pig), 1112.\*  
 for chickens, 577.\*  
 flour, protein, precipitation, 889.\*  
 hay, amino-acids, losses, laboratory studies, 905.

## Barley

- meal, for making alfalfa silage, 906.  
 silage, added chemicals, 344.  
 Basal metabolism (see *Energy exchange, basal*)  
 Base, total, estimation, in blood, urine and tissue ash, 34.  
 Beans (see *Phaseolus acutifolius*), protein, nutritive value for rats, 796.  
 basal metabolism (*Phaseolus vulgaris*), composition and effect of cooking, 91.  
 carb (see *Carab bean*)  
 composition, Angola, 352.  
 cull, for fattening lambs, 1142.\*  
 Lima, composition, effect of maturity and of bleaching and freezing, 641.  
 locust (see *Carab bean*)  
 soya (see *Soya bean*)

## Beef

- amino-acids and nitrogen distribution, effects of ageing and cooking, 47.  
 collagen and elastin contents, effect of age and grade of animal, 350.  
 composition and energy value, review, 56.  
 consumption, in United States, relation to quantity of poultry, 288.  
 cooking, effect of temperature and method on losses, palatability and nutritive value (rat), 630.  
 effect on collagen, fat and nitrogen content, palatability and tenderness, 908.  
 drying, effect of pre-cooking, 47.  
 histological and histochemical study, 330.  
 production, 822.\*  
 and quality from various grasses and clovers, effect of fertilisers, 594.\*  
 Australian, 288.  
 from pasture, 1094.  
 from various grasses and clovers, effect of fertilisers, 594.\*  
 in tropical and sub-tropical Africa, prospects, 288.  
 on low-quality roughage, 505.\*  
 South Africa, possibilities for expansion, 583.\*  
 protein, nutritive value, effect of drying and defatting solvents (rat), 766.  
 quality, effect of castration and diet, lipo-stilboestrol, biochemical study, 637.  
 effect of plane of nutrition, 548.\*  
 Beef fat, effect on carcass of fattening cattle, 551.\*  
 for pigs, 274, 594.\*  
 Beef tallow, for fattening lambs, 1142.\*  
 source of energy for poultry, 574.\*  
 Beer, proteins, peptides and amino-acids, 357.\*  
 use in sodium restricted diets, 533, 892.\*  
 Bees, effect of vitamins in pollen on development and longevity, 645.  
 pollen in diet of worker larvae, 771.  
 Beet (see also *Sugar beet*)  
 fodder, excess consumption and production of hypocalcaemia, 290.  
 for pigs, 841.  
 with or without antibiotics, 307.\*  
 poisoning of cows, 298.  
 pulp, dried, for cows, effect on calcium and phosphorus metabolism, 823.  
 for pigs, 1111.\*

## Beet leaves

- and tops, silage, composition, oxalate content, 59.\*  
 Beet pulp, molassed, digestibility (sheep), 1084.  
 Beet tops, oxalic acid content, effect of fertilisers, 353.  
 Beetle, flour, *Gnathocerus cornutus*, carbohydrate and protein content, 200.  
 Japanese, *Popillia japonica*, larva, composition, effect of starvation, 490.\*

- Belgian Congo  
children, blood proteins, effect of milk supplements, 509.  
kvashniorko, diet treatment, 512.  
goitre, endemic (man), 536.  
sterility, in women, relation to incidence of goitre, 536.  
Bent leg, sheep disorder in New Zealand, 862.  
Bentonite, production of vitamin A deficiency in chickens, 363.\*  
Benzene hexachloride, effect on poultry meat and egg quality, 578.  
Benzimidazole, treatment of cancer (man), 183.  
Benzoic acid, *o*-hydroxy- (see *Salicylic acid*)  
origin in body (rat), 725.  
Beriberi (see also *Polymyositis*; *Vitamin B complex deficiency*; *Vitamin B<sub>1</sub> deficiency*)  
and heart disorders, in alcoholism, treatment with vitamin B<sub>1</sub>, case report, 518.  
effect of vitamin B<sub>1</sub> monophosphate (pigeon), 937.  
effect of vitamin B<sub>12</sub> (pigeon), 376.  
Japan, navy, 518.  
Beriberi, heart, electrocardiographic changes (man), 518.  
(pigeon), 376.  
Beryllium, in tissues (man), 130.  
Betaine, and choline formation (rat), 955.\*  
as precursor of choline and methionine in vitamin B<sub>12</sub> deficiency (chicken), 102.  
utilization, requirement of folic acid (chicken), 950.  
Betaine hydrochloride, effect on cholesterol in blood (rat), 446.  
effect on fatty liver produced by cholesterol (rat), 446.  
Bile  
composition (calf), 704.  
deprivation, effect on growth (puppy), 661.\*  
iron output, 1021.\*  
riboflavin content, effect of free and phosphorylated riboflavin (dog), 669.  
Biochanin A, oestrogenic activity, 330.  
Biochemistry, annual review, 305.\*  
Bioflavonoids, biological importance, 1072.  
Biological reactions, energetics and kinetics (book), 1137.  
Biotin  
bound, in oxaloacetic carboxylase, 677.  
soluble, enzymic degradation, 388.  
Biotin deficiency  
effect of biotin sulphoxides (rat), 97.  
effect on enzyme content of *Lactobacillus arabinosus*, 389.  
in rats fed on egg albumin, 997.  
in *Stachyromyces cerevisiae*, effect of amino-acids on growth, 677.  
production in *Neurospora* cultures, 389.  
relation to potassium in muscle (rat), 388.  
Biotin, deprivation, effect on endocrine glands (rat), 388.  
effect on development of *Plasmodium berghei* infection in starved rats, 193.  
effect on metabolism of  $\beta$ -methyl-C<sub>8</sub> fatty acids by liver mitochondria (rat), 949.  
effect on nucleic acid synthesis by micro-organisms, 677.  
effect on utilisation of tryptophan by *Neurospora crassa*, 389.  
formation by *Bacterium coli*, 389.  
relation to amylose, 113.  
supplement for turkey poult, effect of antibiotics, 82.  
treatment of scorbuto dermatitis in infants, 234.  
Biotin  
treatment of skin disorders (infants), 521.  
Biotin sulphone, effect on growth of *Lactobacillus arabinosus*, 677.  
Biotin sulphoxides, optical isomers, biological effects (bacteria, rat), 97.  
Biotin  $\beta$ -sulphoxide, production from pimelic acid, isolation and identification, 96.  
Biotinidase, separation from esterases, 388.  
Birds, physiology (book), 304.  
skin flakes, non-protein nitrogen, 978.  
Birthweight (see *Weight, birth*)  
Biscuits, analysis, 59.\*  
Bisphenol derivatives, anti-oxidant effect for canolene, 650.  
Bitch, effect of mineral mixture on lactation and on growth of young, 844.  
Bitot's spots, in malnourished patients, 785.  
Blackcurrant, ascorbic acid content, Tasmania, 111.  
Blanching (see also *Canning, etc.*)  
cabbage, effect on vitamin C, 692.  
Bleeding (see *Haemorrhage*)  
Blindness (see under *Eye disorders*)  
night (see *Dark adaptation*)  
Bloat, in cattle, 584.\* 585.\*  
on red clover, 1127.  
relation to grazing behaviour, 584.  
U.K., 584.\*  
production by vacuolar fluid extracted from red clover, 861.  
relation to consistency of rumen contents (sheep), 118.  
treatment with antifoaming agents (goats), 390.\*  
Blood (see also *Hemoglobin*; *Anaemia*; for constituents such as Blood calcium, see *Calcium in blood*)  
alkali reserve (see under *Acid base equilibrium*)  
arterial, oxygen saturation, estimation and values (man), 41.  
catalase (see under *Catalase*)  
cell count, error, 335.\*  
cholinesterase (see under *Cholinesterase*)  
circulation, changes in pregnancy (woman), 470.  
disorders, vascular disease with diabetes, treatment by high fat diet (man), 802.  
effect of vitamin deficiency, 1058.\*  
in cold acclimatisation (man), 142.  
Blood coagulation (see also *Blood prothrombin*)  
changes in newborn infants, 972.  
disorders, control with vitamin K (chicken), 933.  
effect of fat meal (man), 728.  
effect of organic compounds (rabbit), 79.  
effect of vitamin E (infant, man, woman), 230, 617.  
haemorrhage syndrome (poultry), 934.\*  
in tuberculosis, pulmonary, effect of vitamin E, 1063.  
mechanism, review, 934.\*  
Blood composition  
arterio-venous differences (man), 122.  
effect of albumin to casein ratio in diet (infant), 993.\*  
effect of change in diet (calf), 817.  
effect of gastric secretion when injected (man), 538.  
effect of glucagon (man), 426.  
effect of thirst and fasting (cattle), 125.  
effect of vitamin A depletion (calf), 71.  
effect of vitamin B<sub>2</sub> (rat), 672.  
in calving cows with and without milk fever, 127.  
in children, effect of nutritional state, 1047.  
Philippines, effect of school lunches, 209.  
Blood composition  
in dogs, 971.\*  
in inhabitants of Jamaica, 970.  
in men with meatless diets, 210.  
in mussels, freshwater and marine, 489.  
in old age (man), 1036.  
effect of dietary habits, 595.\*  
in tuniutes, cyclostomes and bony fish, 148.  
seasonal variation (sheep), 409.\*  
Blood disorders (see also *Anaemia*)  
haemorrhagic diathesis, treatment with vitamin K, 1073.  
hypoproteinaemia, 798.\*  
iron absorption and utilisation (man), 173.  
pancytopenia, relation to megalocytic anaemia, 796.  
*polycythaemia vera*, iron metabolism (man), 747.\*  
Blood, enzymes, proteolytic, in pernicious anaemia, 1069.  
Factors V and VII, in infants, newborn, 798.  
Blood fat (see also *Blood lipids*)  
after cream meal, effect of glucose and gelatine (dog), 698.  
fatty acids, esterified, estimation, 619.  
in arteriosclerosis (man), 974.\*  
relation to free fatty acids (rat), 731.  
Blood fibrin, nutritive value for rats, methods of estimation compared, 996.  
Blood formation  
and ageing, 477.\*  
and protein metabolism, review, 995.\*  
disorders, treatment, effect of essential nutrients, 806.\*  
effects of antibiotics and antineoplastic, review, 679.  
role of trace elements, review, 737.

in haemolymph (insect), 331.\*  
in marine organisms and sea water, 894.\*  
in saliva, 621.  
in urine, 894.
- in blood, effect of manganese supplement (calf), 1090.  
effect of parathyroid, role of kidney (dog), 133.  
effect of starvation (chicken), 452.\*  
effect of synthetic oestrogens (chicken), 712.  
effect of vitamin D poisoning (infant), 1062.  
high, in infants, treatment with low-calcium diet, 250.  
in treatment of peptic ulcer, case report, 1077.  
syndrome (infant), 229.  
treatment (infant, man), 809.  
in haemorrhagic disease, 527.  
in migraine, 1082.  
low, due to excess consumption of fodder beet (cow), 290.  
effect of Promeca food mixture (livestock), 294.  
of buffaloes and cattle, Egypt, 413.  
state (large domestic animals), 705.\*  
urine and milk, effect of parturition (buffalo, cow), 976.  
in body fluids, in tetany, clinical significance, 1062.
- Calcium  
in bone, effect of sodium depletion and acidosis (rat), 168.  
lability *in vitro*, 1016.  
in cerebrospinal fluid (man), 977.  
in crops and pasture, effect of lime or magnesium limestone, 514.  
in foods, plant, Egypt, 351.  
in leafy Indian vegetables, availability for rats, 167.  
in milk, effect of condensation, pasteurisation or sterilisation, 903.  
in saliva, in caries-active and caries-resistant subjects, 977.  
infusion, effect on phosphate excretion (man), 448.
- Calcium intake  
chickens on free choice diet, 573.\*  
children, America (U.S.), 494.  
effect on calcium and phosphorus metabolism (rat), 449.  
effect on growth, 165.\*  
effect on phosphorus and molybdenum metabolism (rat), 739.  
ow, relation to rickets production, review, 1059.\*  
restriction, effect on teeth calcification (suckling rat), 451.\*
- Calcium, ionised, estimation in milk, 621, 903.  
in milk, cause of Utrecht abnormality, 349.  
metabolic effects when given by vein (man), 105.
- Calcium metabolism  
and antibiotics (poultry), 452.\*  
during lactation, effect of lactose (rat), 131.  
effect of age (cattle), 166.  
effect of dihydrocholesterol, 928.\*  
effect of immunoblation (children), 738.  
effect of vitamin D in massive doses (rat), 655.  
in Bantu, South Africa, 1141.\*  
in bone disorders produced by polished rice or rye diets (rat), 740.  
in bone healing (rat), 1016.\*  
in cows on rations containing dried beet pulp, 822.  
in young cattle, 822.  
interstitial, in bones and teeth (rat), 1015.  
on poor Indian diet with coconut oil or groundnut oil (rat), 740.
- Calcium, placental transfer (pig), 449.  
production of goitre (rat), 451.  
radio-active, metabolism in moribund boy with gargoylism, 1014.\*  
uptake by bones and teeth after administration of different salts (rat), 1015.  
requirement of chickens, effect of aureomycin, 282.  
requirement of cows, 556.  
requirement of Japanese during growth, 1142.\*  
requirement of man, 1044.\*  
and vitamin D, 1060.\*  
retention, boys and girls, 1142.\*  
effect of carbohydrates (rat), 426.  
effect of galactose isomers (rat), 145.  
effect of phytin (mouse), 450.  
elderly women, 448.  
effect of sex hormones, 448.  
from gypsum and pyrite (rat), 449.  
pigs after loading test, 918.  
sources in developing chicken embryo, 763.  
uptake, effect of complexing agents (chicken), 740.\*
- Calcium utilisation  
and intestinal excretion (man), 738.  
by cattle, effect of source, 543.\*  
by poultry, isotope study, 595.\*  
effect of oxalic acid, influence of sugar, 1142.\*

## Calcium utilisation

effect of phytate (children), 738.  
effect of vitamin B<sub>12</sub> and antibiotics, 1142.\*

from different sources (woman), 1014.  
relation to energy intake (rat), 739.  
relative to strontium, in foetal and growing rats, 1015, 1016.\*

## Calcium and phosphorus absorption and excretion in intestine (pig), 739.

deposition in egg shells (hen), 192.  
effect of dietary level in removing lead from blood and bones (rat), 655.  
form in bone, 448.

in blood, at parturition (cow), 705.  
effect of nicotinic acid, injected (rabbit), 669.  
effect of vitamin D, 653.  
human, effect on calcification of rachitic rat cartilage *in vitro*, 787.  
of newborn infants, 176.

in body, effect of phosphorus in soil, 739.\*

in bone, turnover *in vivo* (pullet), 167.  
in deflorinated natural phosphate, retention (pig), 166.  
intake, relation to citrate excretion and vitamin D intake (rat), 75.

## Calcium and phosphorus metabolism disturbances, 1014.\*

effect of iodinated casein (cattle), 166.  
effect of parathyroid, role of kidney (rat), 710.

effect of sulphathiazide (laying hen), 470.  
effect of vitamin D (rat), 653.

in bone grafts, effect of age of host (rat), 450.

in children with rickets given massive doses of vitamin D, 786.  
in laying hens, 1035.

in old age, effect of stilboestrol (man), 102.

in osteopetrosis (child), 165.\*  
in parathyroid insufficiency (man), 737.

Calcium and phosphorus, radio-active, fate of massive doses (laying hen), 166.

Calcium and phosphorus ratio, effect on congenital malformations (rat), 380.

Calcium and phosphorus, turnover in laying hens, 452.

Calcium and phosphorus uptake, by bone after intravenous injection (rat), 450.

by bone *in vivo* and *in vitro* (dog), 466.

Calcium and phosphorus, utilisation, effect of carotene and vitamin A, 923.\*  
from yoghurt and milk (rat), 1014.  
in older men, 738.

Calcium carbonate, production of anaemia and fat (mouse), 167.\*

Calcium pantothenate, estimation, 372.  
intake, during pregnancy, effect on pantothenic acid in tissues of young (rat), 385.

Calcium, urinary, and kidney, prevention with hyaluronidase (sheep), 1128.  
in milk, formation, 224.

*Calliphora erythrocephala*, blowfly, larvae, amino-acid requirements, 208.\*

*Calluna vulgaris* (see *Heather*)

Calorie requirement (see *Energy requirement*)

Calorie value (see *Energy value*)

Calves (see also *Cattle*, *Cows*)

caloric balance, effect of hot environment, 1023.

aureomycin distribution in body after oral or intravenous administration, 549.\*

beef, feeding, effect of implants of antibiotics on growth under range conditions, 832.

## Calves

beef, feeding, protein and pasture at various levels, effect on performance and parasite burden, 588.\*  
winter rations, America (U.S.), 550.  
bile, composition, 708.

blood, effect of manganese supplements, 1099.

blood lipids, daily variation, effect of diet, 437.

blood phosphatases, 909.

body conformation, relation to carcass quality, 821.

body temperature, effect of environmental temperature and humidity, 715.

buffalo, suckling, dressing percentage, 1094.

carcass quality, relation to body conformation, 821.

coat colour, effect of exposure to artificial light, 552.

digestibility of pasture, 811.

disorders, diarrhoea, effect of type and amount of dietary lipids and proteins, 548.\*

hyperkeratosis, caused by bread-crumbs containing chlorinated naphthalenes, 866.

magnesium deficiency, origin of tetany, 294.\*

rickets, detection, 366.

scouring, effect of time a calfhouse has been occupied, 816.

effect of dietary pyrimidine ribose nucleic acid, 595.\*

fattening, 821.

cowpox as source of protein, 261.

Calves feeding

alfalfa and prairie hays, from birth or from 8 weeks, in winter or summer, 1091.

antibiotics, effect on performance, 548.\*  
aureomycin, crystalline or crude, 259.

effect of method of administration, 548.\*

with different hay to grain ratios, effect on growth and rumen bacteria, 259.

bucket and nipple, 258.\*

changes, effect on growth, feed consumption and blood composition, 817.

cod liver oil, 1111.

colostrum, nutritive value, 816.

disodium phosphate, 1090.

dried rumen contents in milk replacements, 816.

effect of dry starters, rumen inoculation, antibiotics and level of milk feeding, 1142.\*

effect of withholding colostrum, 816.

grass silage, 548.\*

hay, alfalfa or prairie, from birth or from 8 weeks, in winter or summer, 1091.

of good and poor quality, 818.

manganese, effect on calcium, phosphorus and magnesium in blood, 1090.

milk, limited amounts, 594.\*

817, 1093.

milk replacements, with dried rumen contents, 548.\*

with or without aureomycin, effect on vitamin B complex components in blood, 375.

pasture, effect of type of pasture and age of calf on internal parasites, 866.

pyrimidine ribose nucleic acid and precursors, 595.\*

Rumex (product from dried rumen contents), 547.

series, lespedeza hay and alfalfa hay plus galactamin, palatability and digestibility, 1091.

silage juice, 1092.

## Calves feeding

soya bean oil meal, trichloroethylene-extracted, toxicity, 1134.

surfactants and antibiotics, 1090.

Calves, grazing behaviour, 308.\*

growth, and digestibility of ration, effect of aureomycin, 1090.

and feed consumption, effect of changes in diet, 817.

and health, effect of antibiotics, 595.\*

and incidence of diarrhoea, effect of type and amount of dietary lipids and protein, 548.\*

effect of aureomycin, 817.

effect of iodinated casein, 817.

effect of manganese with or without calcium and phosphorus, 1090.

effect of orotic acid and methionine supplement, 1090.

effect of season of birth, birthweight, sex and diet, 548.\*

effect of surface-active agents, 260.

effect of unidentified growth factor and tetracycline, 548.\*

haemoglobin levels, effect of age, breed, sex and iron supplements, 120.

heat tolerance, breed differences, 988.

Holstein Friesian, gestation duration and birthweight, both sexes, 258.

iron and copper metabolism, 158.\*

carbohydrate metabolism, 1017.

nicotinic acid deficiency, acute, 381.\*

older, effect of antibiotics, 595.\*

performance, effect of aureomycin, 595.\*

rearing, artificially on pasture, 1091.

U.S.S.R., 258, 816.

Romagnola, cost of production, 583.

rumen (see under *Rumen*)

South Devon x Dexter crosses, birth-weight, maternal effect, 547.

stomach compartments, post-partum development, 597.\*

teophorol deficiency, experimental, 77.

vitamin A absorption, effect of method of administration, 364.

vitamin A depletion, effect on blood constituents and heart rate, 71.

vitamin B<sub>12</sub> deficiency, effect on metabolism and blood picture, 1017.

"vry", in California herds, study, 585.\*

Calving season, effect on milk production, 555.

Cannell, body temperature, 989.\*

dehydration and dehydration, 1024.\*

milk, products, 55.

yield and composition, 55.

Caneiros, Frejich, fish hydrolysate as human food, 1061.

Canada

butterfat, teophorol content, 932.

carries incidence, 531.\*

diet study, 212.

food production and population growth, 857.

grasses and legumes, mineral and protein content, 60.

haemoglobin levels, age and sex variations (man), 410.

poultry industry, 860.\*

sheep disorders, 862.\*

workers, industrial, diet study, 212.

Cancer (see also *Tumours*)

amino-acids in urine (man), 754.

nausea, formation of vitamin B<sub>12</sub> in tissue (mouse), 952.

incidence, effect of changes in commercial diet (mouse), 467.

phosphorus in blood (man), 413.

## Cancer

- plasma mucoproteins (man), 1028.  
production by degradation products of cholesterol, 1028.\*  
production by foreign substances in food, legal control of additions, 801.\*  
stomach, and pernicious anaemia, 237.\*  
etiology, 222.  
(thyroid, in America (U.S.) (man), 982.  
treatment with antineoplastics (man), 183.  
treatment with contact radiation, effect of flavonoid intake (rat), 402.  
Cancer-producing substances, 2-acetylaminofluorene, effect of choline deficiency on incidence of tumours (rat), 184.  
azo dyes, effect on vitamin A in liver (rat), 649.  
3,4-benzopyrene, relation to unsaturated fatty acids (rat), 184.  
4-dimethylaminoazobenzene, effect on adenosinetriphosphatase in liver (rat), 183.  
effect on size of organs (rat), 941.  
mechanism of action, 183.\*  
3-methyl-4-dimethylaminobenzol, effect on vitamin content of liver (rat), 65.  
superheated fats, review, 184.\*  
Cane (*Arundinaria* sp.) range, host rate of stocking with cattle, America (U.S.), 820.  
Caulis (*Chenopodium quilioides*) seeds, composition and nutritive value, 914.  
Canned foods (see *Food*, canned and under specific kinds, e.g., *Meat*).  
Cannibalism, in poultry, effect of vitamin D, 919.  
in rats, effect on eye signs of vitamin A deficiency, 360.  
Canning, cabbage, effect on vitamin C, 602.  
fruit, loss of vitamin C, 692.  
Cape Verde Islands, diet study, 498.  
Capillary fragility, in eye disorders, effect of treatment with rutin (man), 1072.  
Capillary resistance, effect of starvation and refeeding (dog, rat), 400.  
effect of ten carotenoids (mouse), 112.  
Carbohydrate(s) (see also *Sugars* and specific kinds, e.g., *Glucose*)  
absorption, in infants, with digestive tract disorders, 802.  
acid formation in mouth, 406.\*  
bran and oat, digestibility (poultry), 543.\*  
breakdown, in mouth, 405.\*  
chemistry, advances, 868.\*  
review, 143.\*  
chromatography, review, 614.\*  
complex, in cereals, digestibility (poultry), 1084.  
effect of level on digestibility of roughage (cow), 543.  
effect on activity of rumen micro-organisms *in vitro*, 80.  
effect on utilisation of calcium (rat), 426.  
estimation, 21.\*  
in body fluids, 20.  
in cereals, 614.  
in plant extracts, 21.\*  
for pigs, 270.  
formation from fat given by vein (dog), 421.  
heat treatment, inactivation of lysine, 46.  
in bone, separation, 880.  
in connective tissue (cattle), 415.  
in honey, 916.  
in milk, 348.  
human, 53.  
in seaweed, utilisation by rumen micro-organisms *in vitro*, 196.

## Carbohydrate(s)

- in thyroglobulin and lens capsule (cattle), 980.  
in wheat gum and wheat starch, 353.  
intake, and incidence of caries, bibliographic survey, 790.\*  
effect on caries incidence (man), 799.  
effect on growth, nitrogen retention and electrolyte balance (infant, premature), 143.  
high, effect on fat formation in tissues (rat), 1007.\*  
effect on glycogen formation in tissues (rat), 994.\*  
effect on ketogenesis (rat), 1008.  
in diabetes, in children, effect of increasing with control by insulin, 246.  
restricted, effect on lactobacilli in saliva, 790.  
metabolism (see also *Blood sugar*; *Glucose*; *Glycogen*)  
activation by compound of vitamin B<sub>3</sub> and manganese, 1066.  
aerobis, in infants, newborn, 716.\*  
and creatine (guinea pig, rat), 727.  
and inorganic phosphorus in blood, review, 425.\*  
and mode of action of vitamin D (rat), 594.\*  
and vitamin E, 658.\*  
disorders, detection, 886.\*  
disturbance resulting in heart failure (pig), 864.  
effect of acetacetate and  $\beta$ -hydroxybutyrate (rabbit, rat), 308.  
effect of alkalosis, experimental (man), 460.  
effect of dehydroascorbic acid (rat), 688.  
effect of ethionine (rat), 428.  
effect of fasting and ketosis (cow), 426.\*  
effect of glucagon (man), 426.  
effect of high-fat diet (hamster, rat), 718.  
effect of nicotinic acid (rabbit), 943.  
effect of vitamin B<sub>3</sub> deprivation (rat), 384, 945.  
effect of vitamin E (rabbit, rat), 930.  
effect of xanthurenic acid, 671.  
in acidosis (dog, infant), 144.  
in brain disorders (man), 717.  
effect of adrenaline, 991.\*  
in Cushing's syndrome (man), 464.  
in diabetes, effect of exercise (man), 144.  
in diaphragm, effect of vitamin E (rat), 78.  
*in vitro*, relation to body size (rat), 179.\*  
in growth and pregnancy (different species), 990.\*  
in heart muscle (pigeon), 464.\*  
in lens *in vitro*, effect of inhibitors, 464.  
in liver slices, effect of fructose in diet (rat), 145.  
effect of insulin administration, 1025.\*  
in pregnancy (rabbit), 472.\*  
in riboflavin deficiency, effect of adrenaline (dog), 941.\*  
in riboflavin deprivation, effect of adrenal cortex hormones (rat), 83.  
sheep, 1141.\*  
in surgical patients, 995.  
in tissues, *in vitro*, effect of ketone bodies (rat), 180.  
relation to mode of action of vitamin D (rat), 594.\*  
review, 143.\*  
oxidation, in diabetes (man), 717.\*  
phosphoric esters, separation, 21.\*

## Carbohydrate(s)

- ratio to fat in diet, effect on ketone excretion in normal and diabetic subjects, 992.  
role in production of caries (rat), 204.  
separation, 21.\*  
soluble, in cocoa beans, 357.  
source, effect on absorption of carbohydrate and protein (rat), 427.  
Carbon, radio-active, turnover in tissues (mouse), 145.  
Carbon tetrachloride, poisoning, effect on nucleotides in liver (rat), 955.  
Carbonates, in bone, chemistry, 708.  
teeth and fluoride, 417.\*  
Carboxylic, oxalacetic, biotin content, 677.  
Carboxylation, in liver *in vivo* (chicken), 180.  
Carboxylic cycle, in mammary gland in vitro (cow), 464.  
Carcase, estimation (see under the specific animal, e.g., *Pig*)  
*Carachius melanopterus* (shark), fatty acids, 351, 639.  
Carcinogen (see under *Cancer*)  
Carcinoma (see *Cancer*)  
Cardiovascular disease, congenital, production by pteroyldiamine acid deficiency during gestation (rat), 590.  
production by vitamin D, effect of choline (rat), 368.  
Caries, dental (see under *Teeth*)  
Carnitine (see *Vitamin D*)  
DL-Carnitine, in nutrition of *Tribolium castaneum*, 693.  
Carnivores, protein quality for maintenance and production, 813.  
Carob beans, for poultry, 576.\*  
residues, use in animal feeding, 257.  
(*Ceratanis silvius*, L.) seed, germ and residue, composition and digestibility, 812.  
Carotene (see also *Carotenoids*; *Vitamin A*)  
and carotenoids, in seaweeds, 368.  
and vitamin A, availability to deficient rats, 1142.\*  
anti-oxidants, hydroquinone derivatives, 361.  
conversion to vitamin A, demonstration by fluorescent microscopy, 922.\*  
effect of antibiotics, anti-oxidant and fat (chicken), 923.  
effect of cortisone, 921.  
effect of tocopherol (rat), 922.  
deficiency, effect on subsequent life pattern (rat), 595.\*  
effect on utilisation of calcium and phosphorus, 923.\*  
estimation, 66.  
effect of anti-oxidant, 66.  
in alfalfa meal, anti-oxidant effect on oils with or without quinoline derivatives, 651.  
dried, effect of fats and oils, 651.  
in blood, effect of soya beans in ration (calf), 364.  
effect of vegetables in diet (man), 226.\*  
in old age (man), 1059.  
in rheumatic fever (children), 225.  
relation to thyroid function (man), 1059.  
in blood and liver, effects of carotene injection (calf, sheep), 70.  
in blood plasma and colostrum, effect of progesterone (cattle), 363.\*  
in faeces, effect of phosphorus intake (rat), 923.\*  
in fodder plants, effect of fertilisers, 353.  
in forage, dehydrated and stored, stability after removal from storage, 933.

## Carotene

- in hay or sugar beet top silage, utilisation by dairy cows, 924.
- in milk, effect of different methods of alfalfa harvesting, 50.
- in sweet potatoes, utilisation (man), 513.
- in tomato, distribution, 652.
- injected by vein, effect on carotene and vitamin A in blood and liver (calf, sheep), 70.
- intake, effect on vitamin A in blood and liver and on spinal fluid pressure (calf), 71, 364.
- high, effect on utilisation of protein intake, low (man), 1060.
- metabolism, effect of antibiotics and vitamin B<sub>12</sub> (rat), 923.\*
- effect of hypothyroidism (dog), 922.
- in young cattle, 822.
- requirement for reproduction (ewe), 70.
- requirement of laying hens, 69.
- retention by pigs after loading test, 918.
- stability, in grass, dried, and in feeding-stuffs for chickens, 651.
- fresh and dried, 925.\*
- in mixed feeds, effect of animal fat and anti-oxidants, 925.
- utilisation, by pre-adolescent girls, 784.
- effect of ileum removal (sheep), 923.\*
- effect of non-fat milk (rat), 924.
- effect of reduction of thyroid function (rat), 392.
- with or without  $\alpha$ -tocopherol, effect on egg production and hatchability and composition of yolk (hen), 70.
- $\beta$ -Carotene, conversion to vitamin A *in vitro*, mechanism, 359.\*
- effect of irradiation by sunlight, 920.
- in liver (man), 225.
- $\beta$ -Carotene, <sup>14</sup>C, biosynthesis and use in metabolism experiments, 359.\*
- Carotenoids (see also Carotene)
- formation in *Neurospora crassa*, 67.
- in blood, normal and in disease (man), 514.
- in eggs of sea urchin, 366.\*
- in liver (man), 225.
- in milk, relation to surface area of milk fat globule, 72.
- in *Shepherdia canadensis*, 366.
- in yeasts, aspergillus, 67.\*
- demonstration, 67.\*
- pathology, chemical, 68.\*
- polyoxygen, in orange juice, 67.
- utilisation (chicken, rabbit), 923.
- as provitamin A (man), 785.\*
- Carp, digestive enzymes, activity *in vitro*, 205.
- Carrot(s), dried, browning reaction, 631.
- Cartilage, calcification, electron microscope study (rat), 740.
- in vitro*, in serum, human, normal or pathological (rheumatic rat), 787.
- oxaloxylase and pyruvic acid contents, relation to rate of growth (rabbit), 938.
- effect of vitamin C on sulphate utilisation for formation of chondroitin sulphate (guinea-pig), 109.
- opiphease, anaerobic glycolysis and pyruvic oxidation, *in vitro*, effect of vitamin D deficiency (rat), 75.
- metaphase, effect of age on oxaloxylase activity, 665.
- rachitic, action of vitamin D, 307.\*
- Carvacrol, antivitamin B<sub>12</sub> action (rat), 660.
- Cascien
- differences in capacity to produce liver necrosis in rats on low-protein diet, 202.
- effect on nutritive value of butterfat as supplement to poor rice diet (rat), 767.
- estimation, 326.
- fractions, separation and estimation, 24.

## Cascien

- free from animal protein factor, orotic acid content, 105.
- hydrolysate (see under Protein hydrolysis)
- in milk (mouse), 636.
- inactivation of lysine by heating with glucose, 46.
- iodinated (see under Iodinated protein)
- nitrogen (see Nitrogen, cascin)
- oxidised, effect on tryptophan metabolism (rat), 1002.
- purified, for nutrition experiments, 44.
- synthesis, role of glutamine (goat), 153.
- Cassava flour, composition, Angola, 352.
- enrichment, 779.\*
- Cassava roots, toxicity, 532.
- Castration, age, effect on growth and carcass quality (cattle), 551.
- effect on endocrine glands, bodyweight, metabolism and dental caries (rat), 487.\*
- effect on growth and carcass quality (bull), 820.
- hormonal, economics in rearing of cockerels, 850.
- Cat, amino-acids, free, in tissues and fluids, 707.
- disorders, steatitis, treatment with vitamin E, 77.
- yellow fat, after diet based on fish, 202.
- feeding, antibiotics, effect on growth and feed utilisation, 571.
- caused, sterilised foods, 1113.
- Catalase, in blood, effect of vitamin C (man), 240.
- in liver, effect of folic acid deficiency (rat), 390.
- Cataract (see under Eye disorders)
- Catechins, effect on capillary resistance (mouse), 112.
- tea, vitamin C activity, 693.
- Catfish (*Schilbe niloticus*) tadpole, effect of vitamin B<sub>12</sub> depletion, 378.
- Cathespin, in placenta (woman), 404.
- in stomach, 114.\*
- in stomach and duodenum (man), 114.
- Cation exchange, humic acid salts, treatment of increased stomach acidity, 247.\*
- Cattle (see also Buffaloes; Calves; Cows; Heifers; Livestock; Ruminants)
- adaptation to heat, index, 422.\*
- Cattle, beef
- adaptation to hot climate, breeds compared, 828.
- breeding, selection for heat tolerance, 988.
- suitable breeds, Rhodesia, 818.
- costs, U.K., 287.
- digestibility of nutrients, effect of surfactants and aureomycin, 548.\*
- disorders, shipping fever (*haemorrhagic septicaemia*), antibiotics in winter ration, America (U.S.), 550.
- tetany due to magnesium deficiency, 863.
- economic traits, effect of sex, season of birth and age of dam, 1094.\*
- effect of castration or diethylstilboestrol on growth and quality of meat, biochemical study, 637.
- effect of high temperatures, 988.
- evaluation for selection, relationship between production, efficiency and visual appraisal, 1092.
- fats, acid, ammoniated citrus pulp, 551.\*
- development of protein and fat, 549.\*
- effect of urea and stilboestrol, 552.\*
- high-protein maize, 551.\*
- in winter, grass silage and hay compared, 307.\*
- linseed oil meal as supplement, 594.\*
- maize silage versus grass silage, 594.\*

## Cattle, beef

- fattening, Napier grass silage with supplements, 550.
- relation of level of protein, molasses and quality of hay, 551.\*
- silage, 827.
- tied or in loose box, 307.\*
- Cattle, beef, feeding
- ammoniated molasses, 550.\*
- antibiotics, effect on digestibility of feeds, and on rumen bacteria, 813.
- in winter rations, America (U.S.), 550.
- beef fat, effect on carcass, 551.\*
- cane mango, America (U.S.), 820.
- chicory and potato slop silage, 821.
- Cockle Park trials 1953-54, 820.
- comparison of different grains and roughages, America (U.S.), 550.
- diethylstilboestrol, possible functions, 552.\*
- effect of quality of winter hay on weight gains, 820.
- for show purposes, 261.
- hay to grain ratio for bulls, 594.\*
- Hereford and Brahman  $\times$  Hereford compared, 821.
- individual or group, 552.\*
- linseed oil meal, 594.\*
- maize silage or grass silage, 594.\*
- maximum amount of hay and minimum amount of grain, 1142.\*
- pre- and post-slaughter evaluation, relationships, 822.
- rations high in sodium chloride, 1103.
- recommended nutrient allowances, 1092.
- return per acre from maize and grass, 811.
- salt and cottonseed mixture, 820.
- soya bean meal and urea, with or without minerals, 1093.
- standards, Australia, 260.
- stilboestrol, effect on carcass composition, 551.\*
- sunflower seed meal, 594.\*
- supplements on winter pasture, digestibility, grazing behaviour and performance, 549.\*
- urea, with or without minerals, as part of protein supplement, 1093.
- winter pasture, 550.
- winter rations, America (U.S.), 550.
- Cattle, beef, growth
- and carcass quality, effect of age at castration, 551.
- and efficiency, effect of different methods of cooling in hot climates, 1094.
- factors affecting, 1092.
- and feeding, Holstein, 550.\*
- at high environmental temperature, effect of cold water, spraying and shade, 540.
- effect of diethylstilboestrol, 552.\*
- effect of feeding early and late cut hay, 261.
- effect of hormones by mouth, 1093.
- effect of stilboestrol, 822.
- effect of testosterone, 551.
- effect of trace elements, 396.
- relation to crude protein consumption, 545.\*
- Cattle, beef, Italy, rate of gain and efficiency, Chiama-Perugia breed, 1094.
- nitrogen utilisation from protein or urea, effect of different sugars in ration, 253.
- organ weights, relation to lean body mass and empty bodyweight, 45.
- pasture intake and digestibility, effect of maize or molasses supplement, 290.
- performance testing, effect of birth-weight, gain during suckling period and weight at start of test, 551.
- phosphorus utilisation from different sources, 548.\*

## Cattle

beef, relation between bodyweight, daily gain and feed efficiency, 549.\*  
roughages for winter feeding and maintenance, 549.\*  
selection for weight gains, factors affecting, 1092.  
study of "wry" calves, America (U.S.), 585.\*  
supplements during drought, Australia, 261.  
wintering on pasture and supplements, 260.  
blood, inorganic phosphorus, Egypt, 976.  
blood picture, effect of age, 409.\*  
relation to heat tolerance, 971.  
red plasma, proteins, 125.  
blood serum, composition, 413.\*  
proteins, 411, 704.  
body and skin temperatures and pulse and respiration rates at normal environmental temperature, 142.  
body composition and carcass changes, 548.\*  
body composition and carcass studies at different nutritional levels, 1142.\*  
Cattle, breeding  
effect of feeding young dehydrated grass, 557.  
effect of mineral additions to diet on sperm quality, 267.  
effect of plane of nutrition on oestrous cycle and conception rate (heifer), 557.  
effect of vitamin A on semen production by bulls, 71.  
growth and carcass quality, effect of castration (bull), 820.  
hay to grain ratio in ration, 594.\*  
phosphatases in genital tract of zebu bull, 405.\*  
progeny testing, Denmark, 830.  
Danish bulls in Sweden, 558.  
semen plasma composition, 414.  
sexual functions in relation to heredity and feeding intensity, 267.  
value of artificial insemination, 830.  
value of elephant, para, pangola and guinea grasses, 557.\*  
Cattle, calcium in blood, Egypt, 413.  
calcium metabolism, changes with age, 166.  
calcium utilisation from various sources, 548.\*  
cobalt content of liver, 131.  
copper deficiency, Lolland, 862.  
copper metabolism, 175.  
critical temperature, 988.\*  
digestibility of ration, effect of ratio of maize to alfalfa, 1085.  
Cattle disorders  
blindness, relation to vitamin A deficiency, 647.  
bloat, 534.\*  
in feed lot, 585.\*  
on red clover, 1127.  
production by vacuolar fluid from red clover, 861.  
U.K., 534.\*  
bracken poisoning, blood counts and treatment with nicotinamide or vitamin K, 866.  
effect of vitamin B, 280.  
field cases in U.K., 587.  
cobalt polycythaemia, 586.\*  
digestive disturbances from sugar beet residues, 1128.  
emaciation syndrome, Malaya, 861.  
flourosis, classification for interpretation, 586.  
due to rock phosphate, 861.  
measures to prevent, 1133.  
hyperkeratosis (X-disease), caused by broadleaves containing chlorinated naphthalene, 866.

## Cattle disorders

hyperkeratosis on ration containing chlorinated naphthalene, 585.\*  
relation to vitamin A metabolism, 647.  
infertility in Jamaica, 584.  
ketosis, treatment with dextrose or vitamin B<sub>12</sub> and cobalt, 587.  
low blood magnesium, 295.\* 586.\*  
mineral deficiencies, 824.\*  
molybdenum poisoning, control by copper treatment, 1134.  
pasture diarrhoea, Netherlands, treatment, 1127.  
phosphorus deficiency, France, 294.  
rumenitis, relation to rate of change to fattening ration and ratio of hay to concentrates, 289.  
sterility, effect of environment, 860.  
"tall fescue lameness", pharmacological study with fescue extract (rat, cat), 298.  
telangiectasis, incidence and causation, 1128.  
uric poisoning, due to badly mixed feeds, 860.  
Cattle, Egypt, disease and mortality, 290.  
longevity, 557.\*  
faecal output, chromic oxide for estimation, 901.  
fattening, effect of diethylstilboestrol, 261.  
on permanent grass and leys, 1094.\*  
poultry litter as source of nitrogen, 549.\*  
Cattle feeding  
Africa, tropical, 829.\*  
alkali-treated straw, India, 817.  
ammoniated citrus pulp, 594.\*  
and fattening, oestrogen implants, residues in fat, liver and muscle, 34.  
animal fat, 1093.  
fluorine, effect on fluorine in bones, 548.\*  
fresh daily range or free range, 594.\*  
home-grown fodder, 266.  
individual and group, effect on growth, 261.  
iodinated casein, effect on calcium and phosphorus metabolism, 166.  
lupins, 828.\*  
maize cobs as sole roughage, 551.\*  
mineral supplements, 264, 824.  
pasture, consumption, measurement, 44.  
significance of sulphur, 1095.  
silage, East Africa, 308.\*  
steroids, 552.\*  
sugar beet residues, digestive disturbances, 1128.  
Cattle, grazing habits under natural conditions, 267.\*  
growth, adequacy of pastures as sole source of nutrients, 819.  
British breeds and Brahman crosses in Australia, 260.  
effect of copper, 548.\*  
relation to palatability of pasture, 821.  
growth and fattening, rapid, effect on lactation, 553.\*  
growth and production, effect of growth and thyrotropic hormones, 308.\*  
hair, mineral composition, 417.\*  
Hereford, inbred and outbred, reproduction and growth, 558.\*  
Höhenvieh, breeding 1945-54, 829.  
housing, loose and conventional, appraisal, 1093.\*  
inbred and outbred, growth, feed utilisation, reproduction and grade, America (U.S.), 558.\*  
liver biopsy technique, 628.  
mask for collection of expired gases, 337.  
mechanism of rumination, 117.  
metabolism, effect of wind, 423.\*  
mineral and trace elements metabolism, 822.  
mineral metabolism and metabolism of proximate constituents, 822.

## Cattle

mineral requirements, 594.\*  
nitrogen metabolism, effect of cerolose, 426.\*  
percentage of bone in carcass, estimation, 128.\*  
Cattle poisoning  
by fluorine, effect of aluminium sulphate, 865.  
by molybdenum in Sweden, 298.  
by plants not regarded as poisonous, 587.  
Cattle raising in Columbia, Caribbean coastal area, 552.  
Cattle, regurgitation, acceleration, tube, 43.\*  
respiration and heart rate, effect of environmental heat and humidity, 988.  
rumen (see under Rumen)  
rumination, physiology and biochemistry, review, 407.\*  
temperature, pulse and respiration, adaptation to environmental variables, 423.\*  
U.K., winter grazing, 822.\*  
water consumption when grazing, Uganda, 308\*, 1097.  
weight, relation to body measurements, 1089.  
sources of error in measuring, 552.  
yearling, fattening on pasture, 261.  
zebu, blood picture, 409.\*  
inorganic phosphorus and calcium in blood serum, 308.\*  
zinc metabolism, 459.  
Cells (s) (see also Tissues)  
fluid exchange, relation to energy exchange, 1025.\*  
growth, effect of co-enzyme A derivatives (chicken embryo), 948.  
mitotic activity, in regenerating liver, relation to lipid metabolism (rat), 181.  
vitamin A metabolism, 307.\*  
Cell nuclei, enzyme systems, hydrogen transfer, 689.  
Cell solids, as reference standard for basal metabolic rate, 594.\*  
Cell wall, polysaccharides, composition, 324, 887.\*  
Cellulose (see also Fibre; Roughage)  
digestion, by rumen micro-organisms, beneficial substances, 165.  
effect of carbohydrates and sulphur in vitro, 80.  
effect of fatty acids, 480.\*  
effect of protein hydrolysis preparations, 480.\*  
effect of stilboestrol, oestrone or cholesterol (sheep), 407.  
effect of cultured cellulose-splitting bacteria (horse), 698.  
effect of extract of rumen contents in vitro, 460.  
effect of fat (sheep), 480.  
hydrolysis by rumen micro-organisms in vitro, 195.  
in forages, 61.  
in hay, 22.  
nature of laxative effect (man), 116.  
Centaurus stollis (see Star thistle, yellow)  
Central nervous system (see under Nervous system)  
Cephalin (see Phospholipins)  
Ceratina siliqua, L. (see Carob bean)  
Cereal(s) (see also under specific cereals, e.g., Maize)  
and cereal products, exports, FAO report, 306.\*  
comparative monetary values in live-stock feeding, 545.  
carbohydrate complex, digestibility (poultry), 1084.

Cereal(s)  
damaged by frost, feeding value for livestock, 814, 842.  
effect of level of feeding on egg yield and economics of feeding, 853.  
effect of molybdenum deficiency, 58.  
enrichment, survey of possibilities, Latin America, 1052.  
for cows, effect of limited or liberal amounts with adequate roughage, 555.\*  
for laying hens, effect of kind on feed efficiency, egg quality and shell thickness, 853.  
groats, estimation of degree of extraction and acidity, 39.  
mouldy, effect on pigs, 594.\*  
potassium content, relation to energy value and nitrogen content, 912.  
processed, for feeding of children, 631.  
production of toxins in rumen (cattle, sheep), 298.  
tropical, amino-acids, 59.  
Cereal by-products (see under specific products, e.g., *bran*)  
Cerebrospinal fluid, amino-acids, free, in multiple sclerosis (man), 977.  
calcium and magnesium (man), 977.  
cholinesterase, 405.\*  
pressure, effect of ceretone or vitamin A (calf), 71.  
effect of vitamin A deficiency (chicken), 647.  
sugar and ascorbic acid contents, in neurological disorders (man), 528.  
purity, estimation, 615.  
Cereulose, effect on nitrogen metabolism (cattle), 426.\*  
Cerium, phosphatase effect, 115.\*  
Cetyl alcohol, conversion to palmitic acid in intestinal mucosa (rat), 405\*, 1012.  
Ceylon  
children, growth, effect of cereal and legume diet, 1046.  
diet study with clinical observations, prison population, 1058.  
goitre (man), 1078.\*  
vegetables, amino-acids, 58.  
Cheese  
amino-acids, 46, 910.  
free, 55, 349.  
Cheddar, flavour substance, 909.\*  
cystine content, 46.  
Damietta, composition, 910.\*  
effect of cocoa pods given to sheep, 833.  
ewe's milk, Israel, 218.  
fatty acids, 346.  
nicotinamide content, 971.  
phosphorus to nitrogen ratio during ripening, 349.  
sour milk, nicotinic acid content during ripening, 91.  
ripening, 623.  
H<sub>2</sub>S-sulphur content, 46.  
threonine content, 634.  
Cheese making, effect of aureomycin given to cow, 629.  
effect of penicillin in milk, 348.  
*Chenopodium glandulosum* (cañihuan) seeds, composition and nutritive value, 914.  
*Chenopodium quinoa* (quinoa) seeds, composition and nutritive value, 914.  
use in Indian diets, Peru, 1050.  
Cherry, West Indian, composition, 691, 963.  
Chestnut, water (*Trapa bispinosa*), nutritive value (rat), 199.  
Chicken(s) (see also *Poultry*; *Chicken meat*; *Poultry meat*)  
amino-acid requirement, 278.  
amino-acid utilisation, review, 434.\*  
arginine requirement, 573.\*  
basal metabolic rate, effect of aureomycin, 985.

Chicken(s)  
body fat, relation to dietary fat, 730.  
bodyweight, at nine weeks, variation, sources and magnitude, 572.\*  
sampling, 901.  
bone growth and ossification, breed differences, 470.\*  
broilers, feeding, amino-acid supplements, 573.\*  
yield of meat of different breeds, 853.  
calcium and phosphorus requirements, effect of aureomycin, 282.  
calcium and phosphorus turnover in tissues during laying, 452.  
carcase composition, effect of plane of nutrition, 573.  
depleted, production by feeding maternal diets deficient in unidentified growth factors, 575.\*  
disorders, encephalomalacia, effect of diphenyl - p - phenylenediamine, 931.  
effect of oil in different species of fish, 585.\*  
effect of tocopherols, 371.\*  
feather picking and cannibalism, effect of vitamin D, 919.  
*Salmonella gallinarum* infection, effect of vitamins on resistance, 918.  
vitamin B<sub>1</sub> deficiency, heart abnormalities, 85.  
electrocardiogram, effect of vitamin E and B complex deficiencies, 64.  
embryo (see *Embryo, chicken*)  
feed conversion, effect of fats and fatty acids, 574.\*  
efficiency of different breeds, relation to growth rate, 279.  
Chicken(s) feeding  
alfalfa meal, 576\*, 1120.  
alfalfa protein concentrate, effect of addition of cholesterol, 280.  
animal fat, 573\*, 1118.  
antibiotics, effect of sex, breed and age, 577.  
antibiotics and arsenic acid, differential response after feeding in same house  
arsenic acid, 849.  
aureomycin, effect on subsequent reproductive performance, 580.\*  
barley, 577.\*  
bentonite, production of vitamin A deficiency, 363.\*  
bonomel of different fat contents, 1119.  
choline, reduction of growth depression caused by ethionine, 1116.  
citrul molasses distiller's dried solubles, 576.\*  
cod liver meal, 280.  
complete and incomplete rations, effect on subsequent performance, 284.  
cottonseed meal, 576\*, 579.\*  
cottonseed meal prepared by different methods, 281.  
cowpea meal, 1121.  
cystine, increase of growth depression caused by ethionine, 1116.  
distiller's yeast, 576.  
distiller's and brewer's yeast, 285.  
dried whey, unidentified growth factor 575.  
with addition of barley meal, 850.  
duckweed, fresh or dried, 366.  
ethionine, toxicity, and effect on depression of growth caused by excess methionine, 1116.  
fat, 574.\*  
effect on storage quality, 574.\*  
in finishing ration, 574.\*  
of different melting points, 574.\*  
of different origin, 574.\*  
fish solubles, 575.\*  
full or restricted diet, 572.\*

Chicken(s) feeding  
high and low efficiency rations, effect on subsequent laying performance, 578.\*  
high energy ration, effect of fibrous bulk on utilisation, 576.\*  
Korean *lespedeza* seed, 851.  
leaf protein, 1141.\*  
maize and soyabean diet, effect of vitamin B<sub>12</sub> and choline, 395.  
effect of vitamin B<sub>12</sub>, methionine or procaine penicillin, 957.  
maize in starter and growing rations, 577.  
manganese-deficient diets, 586.\*  
methionine, excess, depression of growth rate, effect of ethionine, 1116.  
Napier grass meal, 281.  
natural feedstuffs, folic acid deficiency, 97.  
oileak meals, 280.  
optimum level of crude fibre, 1115.  
pelleted feed or mash, effect on growth and efficiency, 1123.  
poppy seed meal, 280.  
protein, animal and vegetable, 1116.  
biological value at different ages, 847.  
vegetable, with methylthiourea, 1116.  
purified complete ration containing gelatine, effect of substituting arginine and glycine, 1117.  
rapeseed meal, 576, 851.  
ratio of protein to carbohydrate during first week, 573.  
rations high in fishmeal, effect of methionine supplement, 1117.  
relation between protein and energy levels, 1116.\*  
sardine meal, 545.  
semi-synthetic diets, need for supplementary tryptophan, 846.  
soya bean oil meal insufficiently heated, effect of addition of methionine, 848.  
sulphur, effect on depression of growth rate caused by ethionine, 1116.  
tallow, 847.  
tapioca meal, 850.  
vegetable rations, retention of vitamin B<sub>12</sub>, 102.\*  
velvet bean meal, unsuitability for replacing wheat bran, 1121.  
vitamin mixtures, effect of storage, 925.  
vitamin B<sub>12</sub> and antibiotic supplement, effect on subsequent egg hatchability, 1124.  
vitamin B<sub>12</sub> and terramycin, with different levels of animal protein, 102.  
vitamin B<sub>12</sub> content of foods and vitamin concentrates, 99.  
vitamin B<sub>12</sub>, effect on depression of growth rate caused by ethionine, 1116.  
Chicken(s), folic acid deficiency, nitrogen metabolism, 390.\*  
nucleic acid as growth factor, 390.\*  
germ-free, vitamin interrelationships, 370.\*  
glycine toxicity, 1118.\*  
Chicken(s) growth  
and external measurements, effect of plane of nutrition, 573.  
and faecal flora, effect of change in antibiotic feed, 578.\*  
and feed efficiency, effect of glycine, 1118.  
effect of insoluble grit, 574.\*  
and mortality, effect of permanent or renewed deep litter, 852.  
disappearance of response to antibiotics in an old environment, 848.  
effect of abnormal ration with or without supplement of vitamin B<sub>12</sub>, 103.  
effect of alfalfa meal, 280.  
effect of antibiotics, 577.  
and *Bacterium coli* supplement, 282.

Chicken(s) growth  
 effect of arginine, glycine, methionine and vitamin B<sub>12</sub>, 305.\*  
 effect of arsenic acid, 283.\*; 1122.  
 in ration containing flusinal, 577.  
 effect of arsenic or selenium compounds with or without vitamin B<sub>12</sub>, 102.  
 effect of Aurofine and methylthiourea, 848.  
 effect of cane molasses, 1121.  
 effect of cooked fish offal with antibiotics, 575.\*  
 effect of 2,3-diphenyl indole, 578.\*  
 effect of factor in poultry litter, 852.  
 effect of feeding free gossypol, 1120.  
 effect of flusinal on response to penicillin, 282.  
 effect of folic acid and fat intakes, 950.  
 effect of gossypol, 576.\*  
 effect of herring meal and dehydrated green feed, 574.  
 effect of lactose, 573.\*  
 effect of live yeast, 307.\*  
 effect of penicillin, 848.  
 influence of buttermilk powder in ration, 593.\*  
 effect of quaternary ammonium derivatives, 1122.  
 effect of saponins in alfalfa and soya beans, 284.\*  
 effect of simplified breeding ration for hens, 936.  
 effect of thiothiuron, 1109.  
 effect of tyrosine with or without vitamin C, 109.  
 effect of weight at birth on weight at 6 weeks, 1115.  
 egg production and fattening, relation to indigestible organic matter of ration, 255.  
 feed consumption and carcass quality, effect of rearing houses separately or together, 572.\*  
 in old and new houses, effect of antibiotics and other substances, 283.  
 male and female, mechanism of difference, 572.\*  
 negative effect of terramycin and vitamin B<sub>12</sub> supplement, 281.  
 on purified rations containing sucrose or dextrin, effect of protein level, 573.  
 production and feed utilisation, physiology, 1142.\*  
 relation to feed conversion efficiency, 279.  
 response to antibiotics, relation of coliform bacteria, 578.\*  
 serine and glycine interrelationships, 1002.\*  
 slow or rapid, effect on feed efficiency, dry matter excretion and oxygen consumption, 572.\*  
 unsuitability of chick weight to egg weight ratio as indicator, 1115.\*  
 Chicken(s), growth factor(s)  
 in herring meal and soya beans, 575.\*  
 in unsaturated fats, 279.  
 production by *Bacterium coli*, 575.\*  
 unidentified, 575.\*  
 Chicken(s), heat regulation, development, 424.\*  
 immature, manganese in blood and tissues, effect of estradiol, 1022.  
 intestine, effect of antibiotics, 768.  
 iodine requirement, 574.\*  
 isoleucine requirement, 846.  
 manganese deficiency, effect on anatomy of tibia, 586.\*  
 methionine requirement, 573.\*  
 nicotinic acid and tryptophan requirements, 382.\*  
 nicotinic acid requirement, 944.  
 nitrogen retention, effect of vitamin B<sub>12</sub> deficiency, 307.\*  
 nitrogen utilisation, effect of antibiotics, 1121.

Chicken(s)  
 nutrition, experiments, statistical methods, 338.\*  
 nutrition and disease prevention, role of floor litter management, 572.\*  
 pantothenic acid deficiency or squalene injection, effect on response to gonadotropin, 96.\*  
 phosphorus requirements, 574.\*  
 review, 574.\*  
 phosphorus utilisation from different phosphate supplements, 574.\*  
 protein and calcium intake on free-choice diet, 573.\*  
 protein requirement, New Hampshire, 573.\*  
 rearing on deep litter, effects, 867.  
 rearing on different fed mixtures, 283.  
 relation of nicotinic acid to tryptophan, 382.\*  
 resistance to fatigue, effect of diet and hormones, 716.  
 response to antibiotics in old and new quarters, effect of protein content of mash, 593.\*  
 salt requirement, 852.  
 table, cost of production, 860.  
 vitamin A storage in liver, effect of diet supplements, 363.\*  
 vitamin D and B<sub>12</sub> intakes, relation, 101.  
 vitamin E deficiency, effect on electrocardiogram, 371.\*  
 vitamin E requirement, 931.  
 water consumption, effect of source of protein, 1116.  
 Chicken meat, broilers, yield from different breeds, 853.  
 carcasses, dressing and evisceration losses, 904.  
 cooking losses and yields of edible meat, 904.\*  
 Chichey, and potato slop silage for fattening cattle, 821.  
 for pigs, 566.

production of atherosclerosis, effect of restricted food intake (rabbit), 446.  
production of foam cells and distribution of acid mucopolysaccharide (rabbit), 708.  
role in arterial lesions (dog, man), 443.  
sulphonate acid derivative, antirachitic activity, 74.  
transport, relation to chylomicrons in lymph and blood (rat), 444.  
Cholesterol derivatives, effect on cockroach, 489.  
Cholesterol esters, absorption (rat), 968.  
separation, 33.  
Cholesterol precursors, role of  $\beta$ ,  $\beta$ -dimethyl acrylic acid, 1027.  
Choline, and its esters, effect on stomach motility in sheep, 699.  
biosynthesis, effect of vitamin B<sub>12</sub>, 955.\*  
Choline deficiency (rabbit), 403.  
effect on arteries (rat), 162.  
effect on heart (rat), 159.  
effect on liver (mouse), 732.  
effect on mice, 403.  
effect on tumour production by 2-acetylaminofluorene (rat), 184.  
effect, recent advances (rat), 1024.\*  
kidney lesions in young rats, effect of diet of mother, 1024.  
progressive muscular dystrophy (rabbit), 403.  
Choline, effect on cardiovascular disorders produced by massive doses of vitamin D (rat), 368.  
effect on cholesterol in blood (rat), 446.  
effect on depression of growth rate caused by thiamine (chicken), 1116.  
effect on fat absorption and lymph (rat), 1004.  
effect on fatty liver produced by cholesterol (rat), 446.  
effect on fatty liver production (rat), 954.  
effect on liver enzymes and fat (rat), 732.  
effect on liver fat deposition in alcohol poisoning (rat), 1010.

## Choline

- effect on palmitate metabolism of tissue homogenates (rat), 1027.  
effect on toxicity of free fatty acids and cholesterol (rat), 464.  
effect on trigonellin excretion in liver injury (rat), 931.  
estimation, 322.  
for chickens, effect on growth and survival on diets of maize and soybean beans, 395.  
formation, effect of betaine and vitamin B<sub>12</sub> (rat), 955.\*  
effect of vitamin B<sub>12</sub> (baby pig), 684.  
in egg and embryo (chicken), 192.  
in mother's diet, effect on liver fat in young rats, 1009.  
in nutrition of laying hens, 957.  
lipotropic effect (rat), 159.  
methyl group, uptake from methanol, effect of vitamin B<sub>12</sub> (rat), 954.  
oxidation by liver *in vitro*, effect of age (rat), 405.  
requirement, effect of alcohol (rat), 750.  
review, 1024.\*  
role in animal protein factor deficiency (rat), 686.  
utilisation, requirement of folic acid (chicken), 950.  
Choline precursors, in vitamin B<sub>12</sub> deficiency, monomethylaminoethanol and betaine (chicken), 102.  
Cholinesterase -  
estimation, 623.\*  
in blood, effect of vitamin B<sub>12</sub> on activity, 789.  
relation to apnoea caused by succinylcholine (man), 114.  
in cerebrospinal fluid, 405.\*  
in liver, effect of feeding and fasting, 695.\*  
pseudo-, in blood, effect of neogenic diet (rat), 114.  
Chondroitin sulphate, formation and utilisation, effect of vitamin A (rat), 68.  
effect of vitamin D (rat), 75.  
formation by cartilage, effect of vitamin C (guinea pig), 109.  
role in bone calcification, 466.  
Chromatography  
automatic conductivity bridge, 321.  
column, filter paper, 321.  
glass-fibre paper impregnated with silicic acid, 321.  
paper, 19\*, 20\*, 321, 613, 614\*, 886.  
continuous scanning device, 19.\*  
evaporator, 613.  
in food chemistry, 322, 327.  
paper and paper electrophoresis (book), 867.  
principles, 19.\*  
principles and applications (book), 304.  
silicic acid column, preparation, 19.\*  
Chromic oxide, concentration in faeces, relation to time and frequency of administration (cow), 557.\*  
estimation in faeces, 621.  
estimation of faecal output of cattle, 901.  
Chromium, estimation in biological media, 804.\*  
in liver, in health and disease (man), 130.  
Chromogen method of estimating digestibility, critical examination, 308.\*  
Chronaxie  
vestibular, effect of arsenite (pigeon), 82.  
effect of vitamin B complex and vitamin B<sub>12</sub> deficiencies (pigeon), 666.  
Chhana (milk curd), 339.\*  
Chlamydomonas, and cholesterolaemia, relation to atherosclerosis, 1005.\*  
and fatty acid absorption, 116.  
in lymph and blood, role in cholesterol transport (rat), 444.  
Chymotrypsin, estimation, 896.  
Cirrhosis, liver (see under *Liver disorders*).

Citellus spp. (see *Ground squirrel*)

- Citrate, effect on calcium absorption (infant), 448.\*  
excretion in urine, effect of vitamin D (rat), 75.  
incorporation in calcification *in vitro*, 133.\*  
treatment of rickets, effect on calcification *in vitro* (rat), 1016.  
Citric acid, effect of prolonged intake (rat), 460.  
estimation, 33, 892.  
in blood, effect of sugars (man), 146.  
of newborn infants, 979.  
in milk, effect of stage of lactation, 54.  
metabolism, effect of vitamin D (rat), 654.  
Citrin (see *Vitamin P*)  
Citrovorum factor (see *Leuconostoc citrovorum* factor)  
Citrulline, conversion to orotic acid *in vitro*, 105.  
estimation, 328.\*  
Citrus, fruit(s) (see *Lemon*; *Orange*)  
Citrus juices (see also specific juices, e.g., *Orange juice*)  
refrigeration, effect on ascorbic acid content, 112.  
Citrus meal, for pigs, 594.\*  
Citrus molasses dried distiller's solubles, for chickens, 576.\*  
Citrus pulp, ammoniated, for fattening cattle, 551\*, 594.\*  
Climate (see also *Arctic*; *Cold*; *Environment*; *Heat*; *Sunlight*; *Temperature*; *Tropics*)  
heat tolerance of cows, effect of radiation and temperature, 959.  
hot, effect of cooling by different methods on growth and efficiency of beef cattle, 1094.  
effect on cattle, beef and dairy, breeds compared, 838.  
pasture crops suitable for irrigated desert, 328.  
protein requirement of hens for egg production, 1123.  
hot or cold, response and acclimation of hens, 990.  
importance of humidity when considering environmental temperature, use of psychrometric chart, 629.  
relation to body size, America (U.S.), males, 1030.  
seasonal changes, effect on milk yield (cow), 1008.  
Clitoria ternatea, seed oils, composition, 60.  
Clover  
carbohydrates, studies, 323.  
composition and yield, effect of sulphur, phosphorus and molybdenum, 916.  
fluorine content, effect of atmospheric fluorine, 61.  
ludino (*Trifolium repens*) pasture, with cocksfoot, for cows, different methods of grazing, and comparison with Poa pasture, 1099.  
peeling, 905.  
protein, amino acids, 62.  
red, as hay or silage, for cows, 265.  
biochanin A and genistein, 62.  
bloat-promoting fraction in vacuolar fluid, 861.  
oestrogens, New Zealand, 643.  
subterranean, biochanin A and genistein, 62.  
(*Trifolium subterraneum*, L.), composition, effect of maturity, 356.  
genistein content, 330.  
oestrogens, New Zealand, 643.  
sweet, silage, effect on blood prothrombin time (cow), 861.  
white, for pigs, baby, possible cause of paresis, 866.

- Clover  
white, non-protein nitrogen, fractionation, 328.
- Clover-hay silage, 632.
- Clover hay, amino-acids, losses, laboratory studies, 905.
- Clover silage, effect of wilting and added molasses or molasses, 906.
- Codfish, vitamin A in organs, 650.
- Codolamin (see *Vitamin B<sub>12</sub>*).
- Cobalt, antithyroid effect (man), 1078.
- Cobalt, availability from cobaltic oxide (lamb), 175.
- Cobalt deficiency  
field observations, U.K. (lamb), 203.
- in cattle in Germany, 203.
- in lambs, 863.
- treatment with vitamin B<sub>12</sub> by mouth, 957.
- in livestock, New Zealand, 586.\*
- Western Australia, 1129.
- in ruminants, relation to vitamin B<sub>12</sub>, 1141.\*
- Cobalt, effect on blood and plasma volume (rabbit), 132.
- effect on growth, feed utilisation and faecal bacterial counts (baby pig), 396.
- effect on haematocrit, bodyweight and metabolism (rat), 1022.\*
- effect on resistance to parasitic infestation (lamb), 290.
- effect on vitamin B<sub>12</sub> activity of rumen contents (sheep), 485.
- estimation in biological materials, 622.
- for livestock, requirement and function, 1142.\*
- in hay, U.S.S.R., 350.
- in liver (cattle), 131, 417.
- in health and disease (man), 130.
- in milk, man, 350.
- in nutrition of sheep, 1141.\*
- in oats, U.S.S.R., 350.
- in soils and plants, U.S.S.R., 639.
- in tissues (man), 130.
- radio-active, <sup>58</sup>Co-labelled vitamin B<sub>12</sub>, 101.
- retention in radio-active form by vitamin B<sub>12</sub> after irradiation, 683.
- role in blood formation, review, 737.
- treatment of anaemia (livestock), 863.
- in children, 1079.
- treatment of ketosis (cattle), 957.
- Cobalt and copper, in livestock nutrition (book), 592.
- Cobalt and vitamin B<sub>12</sub>, effect on vitamin B<sub>12</sub> content of milk (woman), 1070.
- Cobalt compound with ribonucleic acid, vitamin B<sub>12</sub> activity, 683, 691.
- Cobalt polycythaemia, in cattle, 586.\*
- Cobalt therapy compared with vitamin B<sub>12</sub> therapy in cobalt deficient lambs, New Zealand, 308.\*
- Coccarboxylase (see also *Vitamin B<sub>1</sub>*)  
activity of vitamin B<sub>1</sub> phosphoric esters, 377.
- effect on cataract produced by galactose (rat), 660.
- effect on creatine excretion in diabetes (man), 436.
- effect on excretion of steroids (man), 519.
- estimation, 603.
- excretion in urine when given subcutaneously (rat), 462.
- formation by thiamine phosphorylase, effect of vitamin B<sub>1</sub> analogues, *in vitro*, 85.
- in blood, effect of indolylacetic acid, in normal and diabetic rats, 665.
- relation to vitamin B<sub>1</sub> deficiency (man), 232.
- in blood and cartilage, effect of age (rabbit), 665.
- in cartilage, relation to rate of growth (rabbit), 938.
- Coccarboxylase  
in metabolism of alcohol (dog), 378.
- in tissues, normal and in heart disease (man), 518.
- reactivation of inactivated pyruvic dehydrogenase, 378.
- treatment of ketosis in children, 789.
- Coccidiosis, causal, severity, effect of type of ration (chicken), 593.\*
- in rabbits, rations for prevention, 1115.
- Cock(s) (see under *Poultry breeding*)
- Cockfoot (see *Orchard grass*)
- Coclea, effect on stomach emptying and secretion (man), 966.
- Cocoa beans, carbohydrates, soluble, 367.
- Cocoa pods, for livestock, 545.
- for sheep, effect on milk yields and cheesemaking, Italy, 833.
- Cocoa shell digestibility (wethor) and effect on milk production (cow), 1098.
- Cocunut, nutritional value, bibliography, 502.\*
- Cocunut oil, fatty acids and glycerides, 913.
- hydrogenated, effect on fatty acid deficiency (rat), 730.
- Cocunut water, use for intravenous therapy, 1075.
- Cockroach (*Blattella germanica*), effect of cholesterol analogues, 489.
- Cod, salt, dissociation, 340.\*
- Vitamin A in organs, 650.
- Cod fluid, nucleic acid content, 911.\*
- Codling mummie,  $\beta$ -alanine and methylhistidine, liberation by amonifines, 911.\*
- amino-acids, free, 340.\*
- taurine content, effect of storage, 638.
- Cod liver meal, for chickens, 280.
- Cod liver oil  
for pigs and calves, 1111.
- supplement to different quality hays for dairy cattle, 820.
- vitamin A, estimation, 919.
- Codlase desiccation (see also *Stearochoen*) and fat absorption, 308.\*
- cause, 1077.\*
- effect of gliadin, 802.
- in children, relative importance of wheat gluten in diet, 1077.
- natural recovery, 1077.
- treatment, case history, 804.\*
- with buckwheat bread, 341.
- with diet, 1077.\*
- with gluten-free diet, 247\*, 804.
- Co-enzyme A (see also *Pantothenic acid*) and growth (rat), 948.\*
- derivatives, effect on growth of cells (chicken embryo), 948.
- effect on liver necrosis (rat), 949.\*
- effect on phospholipin formation by liver slices (rat), 182.
- in liver, effect of pantothenic acid and methionine (rat), 949.\*
- role in fat oxidation, review, 436.\*
- role in fatty acid synthesis, in cell-free system, 1026.
- Coffee, estimation of added chicory, 897.
- Coffee hulls, composition and digestibility (sheep), 1086.
- Cold (see also *Arctic*)  
acclimatisation, effect of ascorbic acid (man), 241.
- effect of vitamin supplements to Army diets, America (U.S.), 216.
- effect on circulatory response and energy exchange (man), 142.
- effect on heat production (rat), 423.
- effect on oxygen consumption by tissues *in vitro* (rat), 179.
- effect on ascorbic acid in adrenals, pituitary and urine (rat), 400.
- effect on fat fatty liver, 1010.\*
- Cold  
effect on fatty liver produced by cholesterol, 1010.\*
- effect on food and energy intake with diets of different fat content (rat), 140.
- effect on heat production and surface temperature (man), 987.
- effect on respiratory quotient, influence of diet (rat), 140.
- effect on subsequent oxygen consumption and cyclophosphase activity of tissues *in vitro* (rat), 178.
- effect on sulphhydryl compounds in tissues (rat), 727.
- energy requirement of soldiers during exposure, 495.
- phosphorus metabolism of adrenal, role of pituitary and thyroid, 981.\*
- resistance, metabolic relation of ascorbic acid, glutathione and adrenocortical hormone (mouse), 109.\*
- swimming performance in cold water, effect of fat intake (mouse, rat), 440.

- Colitis, ulcerative (see under *Digestive tract disorders*)
- Collagen  
body, effect of protein-free diet (mouse), 908.\*
- estimation in meat, 26.\*
- formation, effect of vitamin A deficiency (rat), 390.
- in beef, effect of cooking, 903.
- in beef and veal, effect of age and grade of animal, 350.
- in fennel during growth (rat), 708.
- in liver, relation to bodyweight (rat), 416.
- in thyroid, effect of thiouracil (rat), 135.
- labelled with tritium, turnover (rat), 148.
- Colloids, in biological fluids, separation, 322.
- Colombia, Caribbean coastal area, cattle raising, 552.
- Colon (see *Intestine, large*)
- Colostrum: all entries refer to cow's colostrum unless otherwise stated
- carotene and vitamin A, effect of progestogens, 353.\*
- deprivation, effect of aureomycin, 816.
- effect of withholding from calves, 816.
- ewe, composition, Israel, 55.
- human, vitamin B<sub>12</sub> content, 795.
- importance in nutrition, review, 253.\*
- ketoisoleucosine content, 475.
- nutritive value for calves, 816.
- rat, physical and chemical properties, 637.
- sow, composition, 636.
- vitamin A content, 926.
- Concentrates, for cows, economics, 1098.
- Conception rate, effect of plane of nutrition (heifer), 557.
- Connective tissue, carbohydrates (cattle), 415.
- Constipation (see under *Digestive tract disorders*)
- Constitution, relation to diet and management (animals), 252.
- Convulsions, production in young by pyridoxine deficiency in maternal diet (rat), 944.\*
- Cooking  
beans, black, effect on nicotinic acid, 91.

## Cooking

- beef, effect of temperature and method on losses, palatability and nutritive value (rat), 630.  
 effect on amino-acid and nitrogen distribution, 47.  
 effect on collagen, fat and nitrogen content, palatability and tenderness, 903.  
 chicken parts, losses, 904.  
 effect on stability of vitamin A, 594.\*  
 foods, weight changes, 339.  
 parboiled rice, loss of nutrients, 594.\*  
 vasaquiti, enriched, effect on vitamin A content, 650.  
 vegetables in bulk, effect on vitamin retention and palatability, 358.  
 Copper, binding to serum protein, isotopic studies, 1022.\*  
 Copper deficiency.  
 in cattle in Holland, 862, 1127.  
 in livestock in Western Australia, 1129.  
 in pigs, production of anaemia, 293.  
 in sheep, 60.  
 relation to molybdenum, 1141.\*  
 lesions in wool (sheep), 1141.\*  
 role of molybdenum and sulphate intakes (sheep), 748.  
 Copper, effect on growth of cattle, 548.\*  
 effect on growth retardation by molybdenum (rat), 175.  
 Copper estimation.  
 in biological fluids, 622.  
 in blood serum, 35.  
 in body fluids, 895.  
 in brain, 36.\*  
 in milk and milk products, 621\*, 894.  
 in oils and fats, 35.  
 in plants, 331.  
 in tissues and biological fluids, 622.  
 Copper, fluorine and phosphorus in soil, Australia, 593.\*  
 in blood (infant), 976.  
 effect of molybdenum and sulphate (sheep), 488.  
 relation to serum protein fractions (man, rat), 174.  
 in enamel of teeth (man), 980.  
 in liver (cattle), 417, 417.\*  
 in health and disease (man), 130.  
 in soils, Australia, 593.\*  
 in tissues (man), 416.  
 interrelation with molybdenum and phosphorus (rat, rabbit), 594.\*  
 metabolism (calf), 458.\*  
 effect of manganous (rat), 174.  
 in cattle, 175.  
 in hepatointestinal degeneration (man), 458\*, 748.  
 in surgical patients, 747.\*  
 poisoning of sheep from spray residues, 296.  
 role in blood formation, review, 737.  
 storage, effect of other minerals (sheep), 175.  
 supplement, for fattening pigs, 1107.  
 treatment of molybdenum poisoning (cattle), 1134.  
 survey of pastures from main soil types, New Zealand, 308.\*  
 treatment of anaemia (man), 537.  
 Copper and cobalt, in livestock nutrition (book), 592.  
 Copper, molybdenum and phosphorus, interrelation (rabbit, rat), 594.\*  
 Copper complexes, in pasture, 60.  
 Copper salts in pig feeding, 307.\*  
 Cobalsterol, irradiated, antirachitic activity (chicken, rat), 926.  
 Corn, American (see *Maize*)  
 Cornus (see under *Rye*)  
 Corticosteroids, in animals, effect of surgery (guinea-pig), 309.  
 Cortisone (see under *Adrenal cortex hormone(s)*)

- Cottonseed, for buffaloes, effect on milk fat composition, 54.  
 gossypol content, effect of processing, 632.  
 India, 642.  
 nitrogen, soluble, content, effect of processing, 632.  
 Cottonseed and products, chemistry and chemical technology (book), 868.  
 Cottonseed cake, prepared in Tanganyika, composition and nutritive value, 1086.  
 Cottonseed flakes, gossypol content, reduction, 905.  
 Cottonseed flour, composition, 482.  
 supplement to poor vegetarian diets, nutritive value for rats, 482.  
 Cottonseed hulls, digestibility, effect of addition of alfalfa ash (lamb), 544.  
 utilisation by sheep, effect of alfalfa ash and its constituents, 500.\*  
 Cottonseed meal, deficiencies in (chicken), 576.\*  
 detoxification, 343.  
 effect on body fat composition (rat), 441.  
 effect on growth and egg hatchability (turkey), 1119.  
 for chickens, 281, 579.\*  
 for laying hens, migration of ovalbumin from white to yolk during storage, 578.  
 production of gossypol-cephalin compound in eggs, 579.\*  
 for pigs, supplements, 594.\*  
 for poultry, 576.\*  
 gossypol content, effect of storage, 631.  
 low-gossypol, for pigs, supplements, 594.\*  
 nutritive value, methods of assay, 44.  
 processing, effect on chemical and physical properties, 343.  
 protein quality, assessment (chicken, rat), 628.  
 solvent extracted, effect of autocatalysis with salt, for cattle, beef, 820.  
 Cottonseed oil, gossypol content, India, 642.  
 heat treated, toxicity, effect of fresh oil (rat), 1007.  
 heated and autoxidised, nutritional effects (rat), 1006.\*  
 processing, effect on chemical and physical properties, 343.  
 Cottonseed products, gossypol, discoloration of egg yolk, 1125.  
 Cottonseed protein, amino-acid content, 59.  
 Cow(s) (see also *Cattle*; *Heifers*)  
 adaptation to hot climate, breeds compared, 828.  
 aluminium in tissues, 131.  
 appetite and feed capacity, suggested measure of milk production, 553.  
 beef, feeding, thyroprotein, effect on performance, 548.\*  
 blood and milk, penicillin content after injections, 348.\*  
 blood cholesterol and fatty acids, effect of diet, 975.  
 blood composition, at calving and in milk fever, 127.  
 blood, phosphatases, 909.  
 bodyweight and milk production, effect of withdrawal of thyroid-active supplement, 474.  
 breeding, efficiency, relation to milk production, 558.\*  
 selection for improvement of fat production, use of index based also on records of close relations, 262.  
 Brown Swiss in Brazil, reproduction and growth rate, 557.  
 calcium and phosphorus in blood, urine and milk, effect of parturition, 976.

## Cow(s)

- calcium and phosphorus metabolism on rations containing dried beet pulp, 823.  
 calcium and phosphorus requirements, 556.  
 calcium, magnesium and phosphorus in blood, at parturition, 705.  
 copper in liver, 417.\*  
 Cow(s), disorders  
 abortion, relation to consumption of pine needles, 594.\*  
 acetonaemia, treatment with propylene glycol, 295.  
 bloest, relation to grazing behaviour, 584.  
 deficiency diseases, effect on composition of milk, 585.  
 grass tetany, effect of administration of magnesium oxide, 1131.  
 hypothyroidism, possible relation to reproductive disorders, 294.  
 ketosis, carbohydrate metabolism, 426.\*  
 "denote test", 864.  
 effect of sodium acetate, 295.  
 relation to nutrition, 1130.\*  
 low blood calcium, due to excess consumption of fodder beet, 290.  
 low blood magnesium, 295.  
 low blood magnesium and ketosis, 168.\*  
 milk fever, blood composition, 127.  
 diagnosis and treatment, 1132.  
 effect of vitamin D, 650.  
 prevention, 865.\*  
 relation to absorption of acetylcholine from milk, 804.  
 treatment, and study of prolonged recumbency, 1131.  
 reproductive failure, causes and prevention, 1142.\*  
 sterility, effect of trace element supplement, 1129.  
 Cows, Egyptian, milk yield, effect of age, dry period and month of calving, 829.  
 fat metabolism, 1008.  
 importance of fatty acids, 823.  
 fattening at end of productive life, 821.  
 Cow(s), feeding: entries, unless otherwise stated, refer to effect on milk yield and/or milk fat content  
 alfalfa hay, effect of different methods of harvesting, 50.  
 aureomycin, effect on milk properties, 629.  
 cocksfoot, ladino clover pasture, different grazing methods, and comparison with *Poa* pasture, 1099.  
 cocoa shell, 1098.  
 concentrates, economics, 1098.  
 effect of diet low in hay and high in protein on fat content of milk, 263.  
 effect of grinding of hay on fat content of milk, 263.  
 effect of level of fat in ration on milk yield, 824.  
 effect of type of starch in concentrates on milk and buttermilk production, 825.  
 effect of undernutrition on yield and composition of milk, 553.  
 fluorine, effect on teeth, health and milk production, 296, 297.  
 for milk production in Australia, 262.  
 grainless maize silage with corn and cob meal, 827.  
 grass, relation of intensity of feeding to profit margin on milk production, 286.  
 spring and autumn, comparative value, 826.  
 grass silage as sole feed, 555.\*  
 hay at different levels, effect on body weight and milk production, 554.  
 hay crop silage or silage and hay, 555.\*  
 hay in roughage combination, 594.\*

## Cow(s) feeding:

- hay of different qualities and cod liver oil, 826.  
 high and low protein rations, effect on nitrogenous constituents of milk, 824.  
 iodinated protein, effect on yield and composition of milk, 264.  
 lima bean silage, 827.  
 limited or liberal grain with adequate roughage, 555.\*  
 maize ear and grainless maize silage for milk production, 826.  
 maize silage, 265.  
 as source of unidentified factor(s) in grain, 826.  
 molasses and urea, 1142.\*  
 Nigeria, 635.  
 pasture, effect of break feeding on milk production, 1098.  
 cocksfoot and latino clover, different grazing methods compared, and comparison with Poa pasture, 1099.  
 effect on lifetime performance, New Zealand, 308.\*  
 spring, 915.  
 pearl millet pasture, 555.  
 potassium iodide or seaweed, effect on iodine content of milk, 1096.  
 principles, 1095.\*  
 protein in excess, effect on milk yield and fat content, 824.  
 ration high in crude fibre, effect on milk production, 825.  
 ration low in hay and high in concentrates, effect on fat content of milk, 554.  
 raw or steamed potatoes, effect on milk yield and fat content, 828.  
 red clover as hay or silage, 265.  
 restricted, 635.  
 roughage, importance and requirements, India, 1097.\*  
 satisfaction of appetite, 262\*, 554.\*  
 seaweed meal, 554.  
 silage, 827.  
 effect of butyric and acetic acids, 265.  
 effect on vitamin A in milk, 364, 827.  
 self-feeding, 1098.  
 sodium acetate, effect on milk and fat yield and on blood sugar and ketones, 1096.  
 sugar beet, 266.  
 sugar pulp, 555.  
 thyroprotein, effect on milk yield and efficiency of production, 264.  
 urea and sodium sulphate, 264.  
 urea as protein extender, 1097.  
 wheat bran, whole and solvent-extracted compared, 826.  
 "flying herds" in Germany, supply of feed, 556.  
 gestation length, relation to performance, 557.\*  
 grazing behaviour, effect of quality of pasture, 266.  
 growth and body measurements, Jersey and Sindhi x Jersey compared, 821.  
 heat regulation, role of water, 142.  
 heat tolerance, effect of radiation and temperature, 969.  
 in open and closed stalls, climatological data and milk yield, 828.  
 Indian and European crosses, milk yield, repeatability and heritability, 553.\*  
 Jersey, performance in Egypt, 556.  
 lactation (see also *Milk production*) disorders, 1130.  
 liveweight, association with changes in rumen fill, 553.\*  
 mammary tissue, phosphatases, 909.  
 milk production and yield (see *Milk production*)  
 molybdenum in liver, 417.\*

## Cows

- poisoning by fodder beet, 298.  
 rumen (see under *Rumen*)  
 satiety at pasture and in stall, 1097.  
 trace elements in liver, 417.  
 udder capacity, effect of stage of lactation, 762.  
 udder variations in monozygotic twins, 474.  
 value of monozygotic twins for comparative experiments, 818.  
 Zebu, grazing habits, 829.  
 Cowpeas(s), for fattening calves, 261.  
 Cowpea meal, for chickens, 1121.  
 Craniotomies, in infants, non-rachitic, 1060.  
 Cream, heated, keeping quality, 899.\*  
 Creatine  
 conversion to creatinine, 436.\*  
 estimation in urine, 30, 30.\*  
 excretion, in diabetes, effect of coarboxylase (man), 436.  
 in muscular dystrophy (man), 727.  
 in nervous system disorders, 436.\*  
 in nutritional muscular dystrophy (rat), 658.  
 formation, effect of folic acid and vitamin B<sub>12</sub> (mouse), 678.  
 in tissues, relation to carbohydrate metabolism (guinea pig, rat), 727.  
 Creatinine  
 clearance, in kangaroo rat, 154.  
 endogenous, clearance (man), 436.\*  
 excretion in urine of premature infants, 998.  
 estimation, in blood and urine, 328.  
 in urine, 30.  
 excretion, in muscular dystrophy (man), 768.  
 in nutritional muscular dystrophy (rat), 658.  
 formation from creatine, 436.\*  
 in blood, in old age (man), 1036.  
 Creeping indigo (see *Indigofera endecaphylla*)  
 Cresol isomers, with or without  $\alpha$ -tocopherol, effect on pregnancy (rat), 371.  
 o-Cresol succinate, production of muscular dystrophy (rat), 371.  
 Crisco, fatty acids, 346.  
*Crocodilus niloticus* and *C. porosus* (see *Crocodile*)  
*Crocodilus niloticus* and *C. porosus*, fat composition, 57.  
 India, *Anolis gangeticus*, body fat composition, 638.  
 Crops, calcium and magnesium contents, effect of lime or magnesium limestone, 914.  
 cultivation, hydroponic, in India, 1127.  
 Crustacea, vitamin A, distribution, 920.\*  
 Cuba, foods, vegetable, composition tables, 911.  
*Cucurbita pepo*, L. (see *Pumpkin*)  
 Curd(s), effect on vitamin B<sub>12</sub> excretion (rat), 379.  
 vegetable-milk, in diet of children, India, 463.  
 vitamin A content from fortified milk, 72.  
 Cuttle fish oil, toxicity (rat), 1043.  
 Gynocobalamine (see *Vitamin B<sub>12</sub>*)  
 Cyclophosphase, in tissues, effect of cold and altitude (rat), 178.  
 Cystosomes, blood composition, 488.  
 Cysteine, estimation, 29.  
 in blood, 617.  
 in health and disease, 1002.\*  
 injected, protective effect against X-ray exposure (mouse), 153.\*  
 protection against irradiation, 1002.\*  
 L-Cysteine, effect on conversion of folic acid to citrovorum factor (rat), 678.  
 Cysteine, pantothenyl-, effect on growth (chicken, rat), 387.

Cysteine sulphinic acid, decarboxylation by homogentates, effect of pyridoxal phosphate, 346.

Cysteylacetic acid, effect on bacterial infections (mouse), 198.

## Cystine

- effect on depression of growth rate caused by ethionine (chicken), 1116.  
 effect on fatty acid metabolism in liver preparations, 931.\*  
 effect on liver cholesterol (rat), 433.  
 estimation, 40, 328.  
 in cheese, 46.  
 in foods, stabilisation during hydrolysis, 1002.\*  
 in health and disease, 1002.\*  
 in wool, relation to quality, 417.  
 L-Cystine, effect on fatty liver produced by diet (rat), 102.  
 Cystinosis, review, 151.\*  
 Cystinuria, amino-acid excretion, 150.\*  
 amino-acid metabolism (man), 434.  
 lysine and arginine excretion (man), 724.  
 Cytochrome c, adsorption on resin, 888.  
 and phosphorylated fractions, 965.\*  
 in liver, effect of fasting (rabbit), 965.  
 Czechoslovakia, diet planning for hospitals and public kitchens, 801.  
 food enrichment, possibilities, review, 216.  
 nutritional state, vitamin tests, 789.

*Dactylis glomerata* (see *Orchard grass*)

Dalit (see *Curd*)

Dalcin, oestrogenic activity, 330.

Dairy industry, Jamaica, growth, 850.\*

Dairy products (see *Milk*; *Milk products*;

and specific products, e.g., *Butter*)

Dark adaptation, and vitamin A status (man), 1059.

Darkness, effect on egg production, 284.

Dates, unidentified amino-acid, excretion (man), 151.

Deamination, effect on intestinal flora *in vitro*, relation to growth effect of antibiotics (pig), 766.

Decarboxylase, in liver, effect of vitamin B<sub>12</sub> (small mammals), 673.

in muscle in vitamin B<sub>12</sub> deficiency (pig), 694.

Deer, roving in U.S.S.R., 277, 1113.

red, vitamin requirements, bark of trees as sources, 645.

spotted, pasturing in U.S.S.R., 1114.

Deficiency diseases (see also *Malnutrition*;

*Nutritional state*; *Vitamins*; and specific deficiency diseases, e.g., *Scurvy*)

effect on composition of milk (cow), 585.

in children, production of fatty liver, 520.

in New Guinea, Dutch (man), 784.

psychological aspects, 224.\*

Dehydration (see also *Water metabolism*)

effect on sodium and potassium in red cells, 970.\*

in canals, and rehydration, 1024.\*

in infants, treatment with glucose and serum, 144.

of foods (see *Drying*; and under specific foods, e.g., *Egg*)

review, 176.\*

Dehydroascorbic acid (see *Ascorbic acid*, *Dehydro-*)

7-Dehydrocholesterol (see *Vitamin D<sub>2</sub>*, *precursors*)

Dehydrogenases, in liver homogentates, effect of dehydroascorbic acid on activity (rat), 688.

pyruvic, inactivated, reactivation by coarboxylase, 378.

aneuric, in cartilage (rabbit), 665.

"Denno test", for diagnosis of ketosis, 804.

## Denmark

- agriculture (books), 1130.  
 butter, properties, 637.\*  
 pig production, costs, 859.  
 progeny testing of bulls, 830.  
 State recognised breeding centres, pig experiments, 1112.\*  
 Dental caries (see under *Teeth*)  
 Deoxyvorticosterone (see under *Adrenal cortex hormone*)  
 Deoxypyridoxine (see *Pyridoxine, deoxy-*)  
 Deoxyribonucleic acid (see under *Nucleic acid*)  
 Dermatitis (see under *Skin disorders*)  
 Desodling, electrolytic, apparatus, 19.  
 Dextran, effect on tissue permeability, influence of rutin, 402.  
 Dextran-iron complex, treatment of anaemia, 537.  
 Dextrin, effect on toxicity of mineral oil (mouse), 730.  
 Dextrin, effect on chickens, effect of protein level on growth, 573.  
 Dextrose (see *Glucose*)  
 Diabetes (see also *Insulin*)  
 and pregnancy, 247.\*  
 blood lipids (man), 705.  
 high, review, 437.\*  
 carbohydrate metabolism, effect of alkalosis (man), 400.  
 effect of exercise (man), 144.  
 carbohydrate oxidation (man), 717.\*  
 enteral, effect of partial starvation (rat), 719.  
 control, effect on incidence of vascular disorders, 1076.  
 creatine excretion, effect of coarboxylase (man), 436.  
 effect of glucose on serum phosphorus and potassium (man), 425.  
 effect of vitamin B<sub>12</sub> on sugar and sulphhydryl in blood, 1068.  
 effect of vitamin C on blood composition (man), 241.  
 effect of vitamin E, 231.  
 effect on utilisation of glucose and fructose by liver slices (rat), 179.  
 experimental, alloxan, effect of oestradiol (rat), 138.  
 effect of tocinophol (rabbit), 231.  
 effect of tyrosine on food selection (rat), 1040.  
 effect of vitamin E on blood sugar and glycogen in tissues (rabbit, rat), 920.  
 effect on dietary selection of proteins and minerals (rat), 1040.  
 effect on fructose utilisation (rat), 993.  
 effect on metabolism of tryptophan and nicotinic acid (rat), 942.\*  
 glucose-1-phosphate metabolism (rat), 428.  
 riboflavin excretion (rat), 668.  
 sorbitol and fructose metabolism (rat), 719.  
 in children, evaluation of diets in homes and in a summer camp, 534.  
 fructose metabolism, 992.  
 peculiarities, 1070.\*  
 tolerance tests with various sugars, 1075.  
 treatment, 246.  
 with free diet, 1075.\*  
 with fructose, 246.  
 with insulin-zinc suspensions, 534.\*  
 in infants, treatment, 1075.\*  
 in mother, and acid base equilibrium of newborn infant, 176.  
 clinical study of infants at birth, 247.\*  
 in Norway, 1078.  
 in old age, serum lipoprotein patterns, 103.\*  
 incidence, relation to blood sugar, high (man), 424.

## Diabetes

- inositol excretion (rat), 177.  
 insulin-resistant, fructose metabolism, 144.\*  
 ketone bodies excretion, effect of carbohydrates to fat ratio in diet, 992.  
 ketosis, amino-acids in blood, 594.\*  
 labile, treatment, 1076.\*  
 management, overtreatment with insulin, 1076.\*  
 mortality rate, Europe, 246.\*  
 neuropathy, control by diet, 239.  
 pancreatic, history of discovery, 247.\*  
 phosphate esters in blood (man), 412.\*  
 plasma lipids, 126.\*  
 polyneuritis, treatment with vitamin B<sub>12</sub>, 239.  
 production by growth hormone, sensitisation (dog), 711.  
 production by xanthurenic acid (rat), 945.  
 pyruvic and  $\alpha$ -ketoglutaric acids in blood (man), 717.  
 retinitis, vitamin B<sub>12</sub> metabolism, 240.  
 retinopathy, role of adrenal cortex and vitamin B<sub>12</sub>, 525.\*  
 treatment with  $\alpha$ -tocopherol, 518.  
 vitamin B<sub>12</sub> in blood, 525.  
 sugar in blood, effect of vitamin E, 231.  
 symptoms, production by xanthurenic acid (rat), 94.\*  
 treatment, 534.\*  
 by free diet, 247.\*  
 by regulated or free diet, 247.\*  
 in children, 802.\*  
 with delayed-action insulin, 802.  
 with indolylacetic acid, effect on coarboxylase in blood, 665.  
 with insulin zinc suspensions, 247.\*  
 with lente insulin, 247.\*  
 with low-fat diet and insulin, 802.  
 with pentoses, 246.  
 with arteriosclerosis or kidney damage, blood serum lipoproteins (man), 123.  
 with vascular disease, treatment with diet rich in vegetable fat, 802.  
 with or without retinopathy, effect on sulphonamide acetylating capacity, 1065.  
 xanthurenic acid in urine (man), 1065.  
 Dialysis, biological fluids, apparatus, 855.  
 Diaphragm, carbohydrate metabolism, effect of vitamin E (rat), 78.  
 slices, respiration rate, effect of vitamin A deficiency (rat), 647.  
 variations in respiration and glycogen content (rat), 179.  
 Diarrhoea (see under *Digestive tract disorders*)  
 Dicalcium phosphate, for calves, 1090.  
 Dicoumarol (see also under *Blood pro-thrombin*)  
 effect of vitamin K<sub>1</sub> as antidote, 529.  
 in sweet clover silage, 861.  
 therapy, control by estimation of prothrombin activity, 530.\*  
 Diet (see also *Food ; School meals*)  
 and disease (see *Diet treatment and under the specific disease, e.g., Diabetes*)  
 and growth (see under *Growth*)  
 and health, Netherlands, lecture, 1047.  
 and immunity (see under *Immunity ; Infection*)  
 and lactation, women, Mozambique, 510.  
 and longevity, review, 1035.\*  
 and reproduction (see under *Reproduction*)  
 bland, basic foods and meal pattern, 215.  
 costs (see under *Food costs*)  
 deficient (see *Malnutrition ; Underfeeding ; and under the specific item deficient, e.g., Vitamin C*)  
 effect of quantity and quality on malaria (rat), 307.\*

## Diet

- effect on blood cholesterol (man), 975.  
 effect on blood composition in the aged, 595.\*  
 effect on lethal dose of X-ray irradiation (rat), 1041.\*  
 effect on ninhydrin-reacting constituents of urine (man), 999.\*  
 evaluation systems, 502.\*  
 habits, effect on incidence of goitre and tuberculosis, India, 307.\*  
 hospital, potassium and sodium content, Philippines, 347.  
 imbalance, effect on cholesterol and lipid phosphorus in blood (rat), 976.\*  
 in pregnancy (see under *Pregnancy*)  
 Indian, effect on intestinal flora and vitamin B<sub>12</sub> production (rat), 664.  
 poor rice, nutritive value of amaranth and acorn as supplements (rat), 766.  
 nutritive value of butterfat and casein supplements (rat), 767.  
 reasons for variations in experimental results (rat), 482.  
 with coconut oil or groundnut oil, effect on calcium balance (rat), 740.  
 poor vegetarian, improvement by Mysore flour, 494.  
 value of Torula yeast supplement (rat), 197.  
 liquid, for administration by stomach tube (dog, man), 626.  
 mixed protein, metabolism of protein by adults, India, 307.\*  
 Netherlands, history, 496.  
 optimum level of fat (rat), 307.\*  
 production of heart failure (mouse), 1041.\*  
 protein, and utilisation of riboflavin, 307.\*  
 Puerto Rico, basic pattern, 502.\*  
 restricted, see *Food intake, restricted ; and under specific diseases*  
 rice, effect on iodine uptake by thyroid (man), 982.  
 vegetarian, and malnutrition, 782.\*  
 effects (man), 216.\*  
 Diet planning, Czechoslovakia, 801.  
 in pregnancy (woman), 802.  
 Diet selection (see *Food preferences ; Food selection*)  
 Diet studies  
 Alaska, American soldiers and Eskimos, 495.  
 America (U.S.), children, 774, 776.  
 farm families, 212.  
 industrial workers, effect of education, age, income or ethnic group on nutritional status, 1049.  
 elderly, 776.  
 obese children, 221.

delusion of parasitosis, 233.\*  
diabetes, free diet, 247.\*  
low-fat diet and insulin, 802.  
regulated or free diet, 247.\*  
with vascular disease, by diet rich in vegetable fat, 802.  
digestive tract disorders, 1076.\*  
"dumping syndrome" after gastrectomy, 802, 1078.  
dyspepsia (infant), 1076.  
dystrophy in infants, 532.\*  
gout (man), 1081.  
low-purine diet, 251.  
heart disorders, 1082.\*  
hepatitis, infectious, 250.\*  
viral, deposition of fat in liver (man), 732.  
hypertension, effect of light diet, 808.\*  
rice diet, effect of supplements, 808.  
hypoglycaemia, spontaneous, 252.  
kidney disorders, 1082.  
kwashiorkor, Belgian Congo, 512.  
lupus vulgaris, 788.  
mental retardation in children, 539.  
nephritis, acute, in children, 807.  
nephrosis, 807.  
lipoid, in children, 1082.\*  
neuropathy, diabetic, 239.  
obesity, 250, 251, 251\*, 540.  
effect of carbohydrate- or fat-rich diets, 1080.  
group method of weight reduction, 251.  
low-energy intake, 210.  
oedema, children, Africa, 251.\*  
phenylketonuria, in children, with low phenylalanine intake, 1082.  
poliomyelitis, 251.  
pregnancy disorders, 214.  
reducing regimens, 251.\*  
sodium-low intake, planning of meals, 802.\*

## Diet treatment

- sodium-low intake, use of beer, 533.  
sodium restriction, sodium, potassium and chloride content of 200 mg. sodium diet, 623.  
sprue, gluten-free diet, 535, 804.  
wheat-free diet, 247.  
surgical patients, after gastrectomy, 534.  
tuberculosis, review, 541.\*  
ulcer, peptic, 1077.  
by intragastric milk feeding, 803.  
undernutrition and anaemia in children, 219.  
weight loss following subtotal gastrectomy, 248.  
Diothylstilboestrol, estimation, 34.  
Diffusion, micro-, apparatus, 19.  
Digestibility, effect of ratio of maize to alfalfa (bull), 1085.  
estimation, chromogen method, critical examination, 308.\*  
effect of method of estimating lignin (cow), 542.  
factors to be considered (poultry), 543.\*  
feedingstuffs (see under specific feeding-stuffs)  
herbage, effect of intake level (sheep), 1084.  
Digestibility trials, indicators (dog, livestock), 44\*, 337, 337\*, 628.  
technique (livestock), 627.\*  
with pigs, effect of liveweight and crude fibre in ration, 1084.  
Digestion  
after stomach removal (man), 116.  
effect of age (dog), 337.  
fish and meat dishes (man), 115.  
in domestic animals, physiology (book), 304.\*  
rate of passage of food (silver fish), 906.  
rule of coprophagy (rabbit), 966.  
Digestive tract (see also specific organs, e.g., *Stomach*)  
development, effect of early feeding of ballast (pig), 562.  
Digestive tract disorders (see also *Celiac disease*; *Sprue*; *Steatorrhea*; *Ulcer*)  
absorption of vitamins, 782.\*  
absorption upset, and liver disorders (man), 535.  
allergy in infants, 532.\*  
cancer (see under *Cancer*)  
colitis, ulcerative, effect on iron metabolism (child), 804.  
constipation, in old age, incidence, America (U.S.), 535.\*  
diarrhoea, during tube feeding (man), 552.  
dyspepsia, in infants, treatment, 1076.  
effect on absorption of fat and carbohydrate (infant), 802.  
enlargement in vitamin B<sub>1</sub> deficiency (man), 232.  
fat absorption disorders, 699.\*  
fat dyspepsia, treatment with vitamin B<sub>12</sub> (infant), 1076.  
gastro-enteritis, effect on potassium metabolism (infant), 1076.  
in children, treatment, 1076.  
mineral metabolism, 737.\*  
small intestine, massive resection, cause report, 803.  
treatment, 1076.\*  
uroepithelium excretion (man), 404.  
Digestive tract, epithelium, effect of vitamin A deficiency (rat), 921.  
micro-organisms, formation of toxic amines, effect of chlortetracycline (rat), 1042.  
role in origin of faecal fat (man, rat), 1004.  
starch breakdown (hen), 481.\*

## Digestive tract

- mucosa, pyloric, dried, with vitamin B<sub>12</sub>, oral treatment of pernicious anaemia, 525.  
oesophagus, contraction, effect of vitamin deficiencies, 917.\*  
rectum, effect of vitamin D on calcium absorption (man), 220.  
secretions, pylorus and duodenum, intrinsic factor activity (pig), 237.  
surgical treatment, effect on function of small intestine, discussion, 1078.  
thiaminase activity, distribution (man), 940.  
transit time of hay (cow), 534.  
transit time of meal, effect of crude fibre content (pig), 701.  
water in digesta, relation to body water (laboratory animals), 415.  
Diglycerides, in intestine, during fat digestion, 699.\*  
Dihydroxyheptylamine, toxicity for poultry, 886.

composition, adult and embryo sharks, 1043.  
deposition, effect of amino-acids in diet (rat), 433.  
effect of protein, threonine and glycine intake (rat), 159.  
in patients after hepatitis, 732.  
in starvation and oxygen lack (mouse), 1009.  
during pregnancy, effect of plane of nutrition (sheep), 190.  
effect of amino-acids (rat), 152.  
effect of protein (rat), 158.

- Fat, liver**  
in very young rats, effect of mother's diet, 1009.
- Fat metabolism** (see also *Obesity*)  
and physiology in animals, 1142.\*  
effect of stomach removal (dog), 997.  
in cattle, 822.  
in dairy cows, 1008.  
in mammary gland (cow), 181.  
in obesity (mouse, rat), 1008.  
in pantothenic acid deficiency, effect of thyroid (rat), 948.\*  
in phyllosodium, effect of vitamin B<sub>6</sub>, 791.  
problems of ageing, 477.\*
- Fat, milk** (see *Milk, fat content*; *Milk fat*; *Butterfat*)  
natural, fatty acids with odd number of carbon atoms, 351.  
of different melting points, in ration of chickens, 574.\*  
of different origin, nutritive value for chickens, 574.\*  
oxidation, in presence of haematin compounds, effect of tocopherol, 77.  
role of co-enzyme A, review, 436.\*  
production, selection for improvement, use of index based also on records of close relations (cow), 202.  
quality, in edible fish, India, 307.\*  
ratio to carbohydrate in diet, effect on ketone excretion in normal and diabetic subjects, 992.  
requirement, of baby pigs, 562.\*  
review, 347.\*  
rheology, review, 347.\*  
role in absorption of cholesterol (rat), 908.  
role in diet, review, 728.\*  
secretion rate (cow), 825.  
source in diet, effect on growth (rat), 729.  
stability, evaluation, review, 334.  
sterols and unsaponifiable matter, 346.  
subcutaneous, in children in first year, relation to bodyweight, 506.  
relation to skin temperature (man), 142.  
superheated, in cancer production, review, 184.\*  
supplement for chickens and turkeys, 847.  
supplement to poultry fattening ration, 574.\*  
synthesis by *Rhodotorula gracilis*, effect of pH, temperature and composition of medium, 52.  
synthetic triglyceride, utilisation (rat), 1006.  
tolerance, in infants, premature, 1044.  
tolerance tests, in obesity and atherosclerosis (man), 437.  
unsaturated, growth-stimulating factor for chickens, 279.  
in blood (man), 974.\*  
intake high, effect on maintenance of *Mycobacterium leprae* (hamster, rat), 932.\*  
unsaturated, estimation, 892.\*  
vegetable, detection, 329.  
nutritive value for rats, compared with butter, 439.  
yeast, rate of formation, 346.\*  
yellow, in cats on a diet based on fish, 202.
- Fat emulsion**  
effect on utilisation of injected amino acids (rat), 433.  
fever response when given by vein (rabbit), 157.  
for intravenous injection, clinical findings, 1075.  
for parenteral feeding, effect on nitrogen and potassium balance (man), 437.  
suitability of crude and refined vegetable oils (man), 626.
- Fat emulsion**  
given by vein, effects on body temperature (man), 801.\*  
histochemical study (cat, mouse, rabbit), 157.  
injected, disappearance from blood (dog, man), 155.  
Fat peroxide, estimation, 320.  
Fats and oils, vegetable (book), 365.  
Fatigue, and low basal metabolic rate, 139.\*  
effect on optimum energy output (man), 139.
- Fatty acids**  
absorption, and chylomicrons, 116.  
from rumen (sheep), 182.  
branched-chain, conversion to cholesterol (rat), 735.  
C<sub>12</sub> saturated, in butterfat, 637.  
in butterfat, 349.  
deficiency, effect of hydrogenated coconut oil (rat), 730.  
effect on cholesterol distribution in blood and liver (rat), 442.  
effect on skin permeability, 441.\*  
in guinea pigs, 442.  
effect on alkaline phosphatase in intestinal mucosa (rat), 695.  
effect on cellulase digestion by rumen micro-organisms, 480.\*  
esterified, in blood, effect of insulin, 137.  
estimation, 329.\*  
in faeces, 32.  
in oils and fats, 329.\*  
formation, from acetate (rat), 442.  
in cell-free system from mammary gland (rat), 1026.  
in liver slices, effect of adrenal removal (rat), 1026.  
from octanoate in liver slices (rat), 182.  
in cell-free system, dependence on co-enzyme A, 1026.  
in mammary gland homogenates, 465.\*  
free, in blood, effect of heparin or fat meal (rat), 731.  
with cholesterol, toxicity, effect of choline (rat), 464.  
from rumen fluid, as growth factors for *Bacteroides succinogenes*, 764.  
hydroxy, in nutrition of *Lactobacillus casei*, 764.\*  
importance for dairy cows, 823.  
in bacon, cheese, frankfurters, ham, luncheon meat, margarine and baker's shortening, 346.  
in blood, stored in spleen or peripheral (dog), 127.  
in chicken rations, effect on feed conversion, 574.\*  
in chimpanzee fat, 638.  
in coconut oil, 913.

Fluid(s), parental administration, modification, 1075.\*

Fluorene-9-<sup>14</sup>C, 2-acetylaminio-, metabolism, effect of riboflavin deficiency (rat), 88

Fluoride(s)

- absorption *in vivo*, 408.\*
- administration during pregnancy, effect on teeth and jaws of newborn (mouse), 745.
- detection, 895.
- distribution in enamel (man), 417.\*
- effect of topical application on caries (child, man), 244, 531\*, 800.
- effect on blood vascular system, 455.\*
- effect on caries incidence when injected before tooth eruption (rat), 172.
- effect on iodine metabolism by thyroid (rat), 455.\*
- effect on iodine uptake by thyroid (man), 1019.
- effect on teeth when applied locally (man), 454.\*
- estimation, 331.\*
- excretion in urine, after drinking fluoridated water, 455.\*
- in iodised salt, control of endemic goitre and caries, 531.
- in teeth, India (man), 980.\*
- poisoning, experimental, blood picture (rabbit), 1020.
- sodium, for preserving butter, 331.
- sodium or tin, effect on caries incidence (rat), 745.
- toxic effect (rat), 388.

Fluorine

- and dental caries, possible goitrogenic effect, 531.
- availability, in food, milk and water (rat), 743.
- balance studies (infant, woman), 170.
- control of dental caries, provision of adequate intake, 1074.
- corper and phosphorus in soil, Australia, 503.\*
- effect on blood circulation (dog), 748.
- effect on bone composition (rat), 171.
- effect on bone growth (rat), 171.
- effect on bone metabolism (rat), 171.
- effect on calcium deposition (rat), 448.\*
- and growth of teeth (pig), 171.
- effect on caries after salivary gland removal (rat), 204.
- effect on caries incidence on purified diet (rat), 203.
- effect on dairy heifers, 557.\*
- effect on teeth and bones of sheep, 297.
- effect on teeth and health of cows, 206.
- effect on teeth, health and milk production of cows, 297.
- estimation, 36.
- in butter, 331.
- in phosphates, 331.
- in plants, 622.
- in vegetation, 36.
- in waters and soil extracts, 36.
- fertiliser, effect on value of crops in preventing caries (rat), 743.
- in house, effect of feeding fluorine (cattle, sheep), 548.\*
- in clover and ryegrass, effect of atmospheric fluorine, 61.
- in drinking water, control of dental caries, 800.
- in children, America (U.S.), 531.\*
- effect on caries and mottling, 244.
- effect on teeth, classification of mottling, 531.
- excessive, pathogenic effects, 532.
- Italy, 800.
- relation to mottled enamel in children, 531.
- removal (livestock), 905.
- Viet-Nam, 63.
- in soils, Australia, 503.\*

Fluorine

- in tissues, effect of fluoridation of water, 531.\*
- in total ash concentration (rat), 708.\*
- in water supply, effect on caries incidence (rat), 745.
- intake, low, effect on rats, 1020.
- metabolism (rat), 455.\*
- poisoning, associated with industry, 497.\*
- heart changes (rabbit), 745.
- (rat), 745.
- in cattle, effect of aluminium sulphate, 865.
- radio-active, distribution when given by mouth or by vein (rat), 744.
- retention in skeleton, effect of intake (rat), 744.
- storage in body, effect of inorganic salts (rat), 744.
- storage in embryo (rat), 455.\*
- uptake by organic and inorganic part of skeleton and teeth *in vitro*, 1020.

Fluoroscetate, toxicity for sheep, 1141.\*

Fluorosis

- chronic, in cattle, due to rock phosphate or industrial contamination, 581.
- dental, Japan, children, 801.
- effect of fluoride in drinking water, U.S.S.R., 245.
- effect on bone, Japan (man), 245.
- similarity to lathyrism (rat), 1020.\*
- heart muscle changes (man), 512.
- in cattle, classification for interpretation, 586.
- measures to prevent, 1133.
- in sheep, 297.
- Australia, control by management, 297, 1133.
- prevention, transmission from ewe to lamb, Australia, 865.
- skeletal, in man, Persian Gulf area, 512.

Fly, house (*Musca vicina*), lipid metabolism during development, 489.

*Pseudoscorpion affinis*, nutrition, 490.\*

Foals, growth, effect of aureomycin, 547.

Fodder (see also under *Feedingstuffs*;

- Forages*; and specific fodders, e.g., *Alfalfa*)
- analysis, 324, 887.\*
- biological analyses, 594.\*
- coarse, treatment with acid and/or yeast, 51.
- conservation (book), 868.
- digestibility, effect of intake level (sheep), 1084.
- drying, losses, 38.
- germinated, for livestock, 257.
- green, conservation, review, 344.\*
- for pigs, 1112.\*
- homegrown, improvement, 814.
- production, costs and returns in milk requirements, Germany, West Zone, 581.
- Fodder beet (see *Beet, fodder*)
- Fodder plants, carotene content, effect of fertilisers, 353.
- Fodder shrubs and trees, 60.
- Fodder trees (see under *Trees*)

Foetus (see also *Embryo*)

- abnormalities, hydrocephalus, and vitamin A metabolism of dam (rabbit), 359.
- blood haemoglobin (man), 410.\*
- and red cells (man), 970.
- blood and fluids, inositol (laboratory animals, man), 471.
- blood serum proteins (man), 702.
- bone composition in skull (man), 131.
- estimated basal energy exchange (man), 128.
- fluids, composition (buffalo), 1032.
- iron uptake after injection into mother (rat), 1033.

Foetus

- malformations produced by high vitamin A intake (rat), 69.
- spinal column, ossification (man), 1028.
- teeth and jaws, effect of fluorides given to mother (mouse), 745.
- transfer of iron from maternal circulation (rat), 473.

Folic acid (see *Folic acid*)

Folic acid (see also *Pteroylglutamic acid*)

- and analogues, review, 95.\*
- and fat intake, effect on growth (chicken), 950.
- and growth hormone, effect on weight of organs (hypophysectomised rat), 956.
- and vitamin B<sub>12</sub>, treatment of pernicious anaemia, 792.
- availability from cereals and pulses, 307.\*
- conversion to citrovorum factor, by chick liver powder, 940.\*
- unidentified factors in chicken liver homogenates, 391.

Folic acid deficiency

- effect of deoxythionucleic acid components (rat), 950.
- effect on biosynthesis of glycine and serine (rat), 950.\*
- effect on choline metabolism of bone marrow *in vitro* (chicken), 97.
- effect on nitrogen metabolism (chicken), 390.\*
- formic acid production and oxidation (rat), 390.
- in dog, 390.
- in natural feedingstuffs (chicken), 97.
- nucleic acid as growth factor (chicken), 390.\*
- produced by aminopterin, effect on embryo (rat), 950.\*

Folic acid, deprivation, effect of antibiotics (rat), 955.

Folic acid, production, anemia, effect of vitamin B<sub>12</sub> and intrinsic factor (rat), 678.

- effect on antibody production and phagocytosis (rat), 955.
- effect on blood picture before or after X-ray exposure (guinea pig), 956.
- effect on bone-marrow aplasia induced by aminopterin, 98.
- effect on citrovorum factor excretion (rat), 678.
- effect on conversion of glycine to uric acid, normal and in gout, 1083.
- effect on creatine formation (mouse), 678
- effect on lipids of heart fibroblasts *in vitro* (chicken), 955.
- effect on metabolism of nucleic acid by micro-organisms, 394.
- effect on metamorphosis (frog), 103.
- effect on nucleic acids in bone marrow of patients with megaloblastic anemia, 235.
- estimation, 97, 396.
- excretion, normal and in patients, 234.
- formation by *Bacterium coli*, effect of antibiotics, 394.
- formylation, 97.\*
- in blood, normal and in megaloblastic anemia (man), 522.
- in eggs, effect of vitamin B<sub>12</sub> administration (hen), 684.
- in human nutrition, 235.\*
- metabolic interrelationships with vitamin B<sub>12</sub> and ascorbic acid, 678.
- metabolism (man), 1066.
- requirement for utilisation of choline, betaine and methylamino-ethanol (chicken), 950.
- requirement of chicken, effect of antibiotics, 197.
- requirement of poultry, 1142.\*

Gestation, duration, relation to birth-weight, Holstein-Friesians, 258.  
relation to milk yield (cow), 557.\*  
effect of pteroylglutamic acid deficiency (rat), 390.  
effect of vitamin C (guinea pig), 691.  
panthothenic acid requirement (rat), 95.  
vitamin A, maternal stores, effect on vitamin A in blood and liver (calf), 363.  
Ghee, storage, effect of feed on vitamin A (buffalo, cow), 650.  
vitamin A content, from fortified milk, 72.  
heat stability, 365.  
Gingivitis (see under *Mouth conditions*)  
Gizzard, digestion, energy expenditure (poultry), 255.  
Glands, endocrine (see *Endocrine glands and specific glands, e.g., Thyroid*)  
Gladiolus, and coeliac disease, 803.  
Glabrous (see under *Blood plasma*)  
Glabrous, in flour, wheat, and protein quality, 58.  
Glucagon, metabolic effects (man), 426.  
Glucosamine, in blood, clinical importance (man), 126.  
Glucose (see also *Carbohydrates*; *Sugars*)  
absorption, effect of cortisone (adrenalectomized and normal rats), 967.\*  
effect of diet and starvation (rat), 407.  
effect of oxygen supply, 967.\*  
adsorption on anion exchange resin, 614.\*  
and electrolytes, parenteral administration, 1074.  
and heat, effect on digestibility of peptides *in vitro*, 723.  
blood (see *Blood sugar*)  
effect on alcohol metabolism (man), 462.  
effect on blood phosphorus and potassium, in diabetes (man), 127, 425.  
Glucose  
effect on carries incidence w solution (rat), 770.  
effect on nitrogen retention by vein (man), 425.  
estimation, 21, 323, 886.  
in biological material, 615.  
given by vein, effect on blood sugar (rabbit), 144.  
industrial, analysis, 887.\*  
intake, effect on growth (rat), 992.\*  
isotonic and hypertonic infusions, effect in pre-eclampsia (woman), 760.  
metabolic pathways in liver, 179.  
metabolism (man), 717.  
by diaphragm *in vitro* (rat), 752.  
by mammary gland (rat), 404.\*  
effect of maleic acid (rat), 515.  
in hypothermia (dog, man), 144.  
in psychoses (man), 425.  
in red blood cells, role of diphosphoglyceric acid, 752.\*  
precursor of milk constituents (cow), 1033.  
radio-active, metabolism (rat), 991.  
tolerance (see *Blood sugar, tolerance*)  
transfer across placenta (guinea pig), 190.  
treatment of ketosis in cattle, 957.  
D-Glucose, feeding to baby pigs, 271.  
separation from invert sugar or sucrose, 21.\*  
Glucose-1-phosphate, metabolism, normal and in alloxan diabetes (rat), 428.  
β-Glucosidase, from rumen liquor, 405.\*  
Glucuronic acid, metabolism (different mammals), 177.  
in pregnancy and puerperium (woman), 471.  
D-Glucuronic acid, β-nicotinoyl-, isolation from urine (rat), 943.\*  
Glucuronidase, from rumen micro-organisms, 696.  
Glutamic acid  
absorption (man), 151.  
estimation in protein hydrolysates, 891.  
in blood (man), 464.\*  
in brain disorders (child), 126.  
metabolism, effect of vitamin B<sub>2</sub> deficiency (rat), 94.  
treatment of mental deficiency in children, 809.  
Glutaminase, in kidney, effect of vitamin B<sub>2</sub> deficiency (rat), 672.  
Glutamine, in blood, in brain disorders (child), 126.  
in casein formation (goat), 153.  
metabolism, in embryo and placenta (rabbit, rat), 181.  
phenylacetyl-, in urine (man), 153.\*  
Glutathione  
effect on ascorbic acid in adrenal after pituitary removal (rat), 109.  
effect on tissue metabolism, 962.\*  
estimation in blood, muscle and liver, 890.  
in blood, effect of methionine, methionine analogue and vitamin B<sub>12</sub> (chicken), 395.\*  
effect of xanthuronic acid (rat), 945.  
in blood and liver, effect of diet (mouse), 1002.  
in tissues, effect of vitamin B<sub>12</sub> (mouse, rat), 954.  
reduced, in blood, relation to blood sugar (rat), 428.  
relation to survival on exposure to cold (mouse), 109.\*  
Gluten, diet free from, treatment of coeliac disease, 247.\*  
Glycerides (see also *Fats*)  
estimation in blood, 329.  
in coconut oil, 913.  
in palm kernel oil, 913.

Glycerides  
mono-, estimation, 329.\*  
mono- and tri-, acetylated, digestion (rat), 968.\*

Glycerol, estimation, 329.\*  
treatment of ketosis (ruminant), 295.

Glycerophosphoryl esters, in tissues (several species), 708.

Glycine  
conversion to uric acid, normal and in gout, effect of folio acid and vitamin E, 1063.  
effect on fat deposition in liver (rat), 159.  
effect on growth (chicken), 395.\*  
effect on growth and feed conversion (chicken), 1118.  
estimation, 29.  
formation, normal and in folio acid deficiency (rat), 950.\*  
incorporation into tumour protein (rat), 1098.  
interconversion with serine, effect of pteroylglutamic acid and derivatives, 331.  
metabolism, effect of vitamin B<sub>6</sub> deficiency (rat), 94.  
effect of vitamin B<sub>12</sub> deficiency (pig), 955.  
review, 725.\*  
precursor of choline, effect of vitamin B<sub>12</sub> (baby pig), 684.  
radio-active, incorporation in protein, effect of vitamin E deficiency (rabbit), 930.\*  
relation to serine, in growth of chickens, 1002.\*  
toxicity for chickens, 1118.\*

Glycine and arginine, substitution for gelatine in purified ration, effect on growth (chicken), 1117.

Glycocholl (see *Glycine*)

Glycogen (see also *Carbohydrate metabolism*)  
adrenal, effect of fasting (guinea pig, rat), 981.  
bone, distribution (goat), 416.  
breakdown, anaerobic, by epiphyseal cartilage *in vitro*, effect of vitamin D deficiency (rat), 75.  
diaphragm, distribution (rat), 179.  
formation, from non-carbohydrate precursors, 146.\*  
in tissues, effect of water and high carbohydrate diet (rat), 994.\*  
heart, liver and muscle, effect of pantothenic acid (rat), 386.  
heart muscle, effect of vitamin E deficiency (rabbit), 660.

Glycogen, liver  
effect of cortisone and pantothenic acid deficiency after adrenalectomy (rat), 675.  
effect of hypoglycin A (rat), 428.  
effect of pantothenic acid deficiency (rat), 674.  
estimation, 21.  
heart muscle and skeletal muscle, effect of xanthurenic acid (rat), 94.\*  
in scurvy, effect of fructose, glucose or alanine (guinea pig), 959.

Glycogen, metabolism *in vitro*, effect of vitamin E deficiency (rabbit), 930.\*  
muscle, free and fixed (rat), 707.\*  
tissue, effect of vitamin E (rat), 929.  
normal and in experimental diabetes (rat), 929.

Glycolic acid, for masking alfalfa silage, 906.

Glycoproteins, in blood (man), 412.\*  
in scurvy (guinea pig), 108.

*Gnathocerus cornutus* (see *Beetle, flour*)

Goa, diet study with clinical observations, 501.  
woman, pregnant, anaemia, incidence, 522.

Goat(s)  
basal metabolic rate, and milk and fat yield, effect of thyroxine-free fraction of iodinated casein, 571.  
blood volume, estimation, 336.\*  
electrolyte and water metabolism, 741.  
measurements, 277.\*  
mountain (*Oreamnos americanus*), energy exchange, 423.  
reproduction, ovulation induced by gonadotropic substances, 761.  
Somaliland, liveweight, slaughter weight and weight of body parts, 571.\*  
sterility, Germany, 584.

Goat milk, composition, Egypt, 636.  
enzymes, 350.\*  
protein, vitamin C and lactose content, effect of feeding with *Helichrysium italicum*, 111.

Goat's rue (see *Galega officinalis*)

Goitre (see under *Thyroid disorders*)

Gorilla gorilla, vitamin requirement, 644.

Goslings, intolerance to excess protein, 694.\*  
protein requirement, 573.\*

Gossypol, availability of different forms to poultry, 1125.\*  
effect on growth of chickens, 576.\*  
estimation, 624.  
in cottonseed meal, 897.  
for laying hens, production of pigment in egg yolk, 350.  
free, effect on growth of chickens, 1120.  
estimation in mixed feeds, 39.\*  
in ration of laying hens, effect on egg production, 281.  
in cottonseed, effect of processing, 632.  
in cottonseed and cottonseed oil, India, 642.  
in cottonseed flakes, reduction, 905.  
in cottonseed meals and mixed rations, effect of storage, 631.  
in cottonseed products, discoloration of egg yolk, 1125.

Gossypol-cephalin compound in eggs of hens fed on cottonseed meal, 570.\*

Gout (see also *Arthritis*)  
conversion of uric acid to allantoin (man), 727.\*  
effect of folio acid and vitamin E on production of uric acid from glycine, 1063.  
non-tophaceous, effect on uric acid formation from nucleic acid purines, 154.  
treatment with diet (man), 1081.  
treatment with folio acid (case report), 791.  
treatment with low purine diet, 251.

Grains (see *Cereals*)

Grass(es) (see also *Fodder*; *Forage*; *Pasture*; and specific grasses, e.g., *Sudan grass*)  
carbohydrates, studies, 323.  
composition, effect of maturity, 916.\*  
composition and yield, effect of fermentation, 642.  
dehydrated, effect on reproductive efficiency of bulls, 567.  
digestibility and feeding value, review, 355.  
dried, digestibility and feeding value, review, 355.  
quality, effect of drying temperature, 632.  
for cows, effect on milk composition, 53.  
fresh and dried, carotene stability, 925.\*  
hay, nutritive value, effect of time of cutting, 256.  
meadow, sulphur, total, protein and sulphate, 896.  
mineral and protein content, Canada, 60.  
non-protein nitrogen, fractionation, 328.

Grass(es)  
orchard (*Dactylis glomerata*), pasture, with ladino clover, for cows, different methods of grazing and comparison with Poa pasture, 1099.  
pelleting, 905.

Poa, pasture with white clover, for dairy cattle, compared with orchard and ladino clover pasture under different grazing methods, 1099.

production, costs, 583.  
protein, amino-acids, 62.  
Puerto Rico, carrying capacities, 253.  
relation of intensity of feeding to profit margin on milk production (cow), 286.  
shikimic acid, 643.  
spring (see *Silage, grass*)  
sludge and autumn, comparative feeding value for cows, 826.  
timothy, effect of molybdenum deficiency, 58.

Grass juice concentrate, source of unidentified growth factors for pigs, 1106.

Grass (Napier) meal, for chickens, 281.

Grass tetany, in cows, effect of administration of magnesium oxide, 1131.

Grassland, 289.\*  
and grain crops, yield, estimation by eye, 338.\*  
improvement, necessary for dairying, America (U.S.), 814.  
utilisation, assessment and recording, 1088.

Graves' disease (see *Goitre, exophthalmic*, under *Thyroid disorders*)

Grazing (see also under *Pasture*)  
cane range, best rate of stocking, America (U.S.) (cattle), 820.

Grazing habits, beef cattle on winter pasture with supplements, 549.\*  
cattle under natural conditions, 207.\*  
pigs, 276.\*  
recording, automatic, 1141.\*  
Zebu cattle, 829.

Great Britain (see *United Kingdom*)

Grit, insoluble, effect on growth and feed efficiency (chicken), 674.\*

Groats (see under *Cereals*)

Groundnut (see also *Peanut butter*)  
composition, Angola, 352.  
fatty acids, 340.  
proteins, review, 59.\*

Groundnut flour, composition and nutritive value, effect of storage, 905.

Ground squirrel (*Citellus columbianus*), blood lipids and atherosclerosis, 447. (*Citellus tridecemlineatus*), body fat composition, 440.

Growth (see also *Growth factors*)  
analysis from metabolic studies, 1031.  
bone (see *Bone growth*)  
calcium requirement of Japanese, 1142.\*  
carbohydrate metabolism, 990.\*  
effect of antibiotics, (man), 1052.  
effect of coenzyme A (rat), 948.\*  
effect of  $\beta$ -phenylserine diastereoisomers (rat), 1002.\*  
effect of protein level and infant formula preparations (rat), 905.\*  
effect of vitamin B<sub>6</sub> (rat), 672.  
effect of vitamin B<sub>12</sub> (mouse, rat), 954.  
effect on nutritional processes (man), 185.\*  
factor analysis, 629.  
hormone, pituitary (see under *Pituitary anterior*)  
mathematical formula (different species), 127.  
skeleton (see *Skeleton, growth*)  
statistical treatment of data, 757.  
study in tagged animals (shrimp), 206.  
teeth (see *Teeth, development*)  
udder (see *Udder development*)

- Growth of calves (see *Calves, feeding*;  
*Calves, growth*; *Heifers, feeding*;  
*Heifers, growth*)
- Growth of cattle (see *Calves*; *Cattle, beef, feeding*; *Cattle, feeding*; *Heifers, feeding*; *Heifers, growth*)
- Growth of chickens (see *Chickens, feeding*; *Chickens, growth*)
- Growth of children (see also *Body measurements*; *Height*; *Weight*)  
at different ages on high energy intake, 809.  
changes in body shape, 1029.  
effect of vitamin B<sub>12</sub>, 230.  
in first five years, 1029.\*  
new method of graphic representation, 186.  
Northern Ireland, 1030.  
Growth of ducks (see *Ducks, growth*)
- Growth of heifers (see under *Heifers*)
- Growth of infants (see under *Infants, growth and feeding*)
- Growth of micro-organisms (see under *Bacteria*; *Micro-organisms*; and specific micro-organisms, e.g., *Lactobacillus arabinosus*)
- Growth of pigs (see under *Pigs*)

- Haematast, effect of cobalt (rat), 1022.\*
- Haemochromatosis, iron metabolism (man), 173.
- Haemoglobin (see also *Anaemia*)  
age and sex variations, Canada (man), 410.  
amino-acid composition of different forms (man), 471.  
carboxy-, foetal and adult, amino-acid composition (man), 971.  
effect of age, sex and egg laying (poultry), 120.  
effect of manganese (lamb), 410.\*  
effect of molybdenum (rat), 459.  
effect of selenium (rat), 743.  
effect of sex and castration (rat), 410.  
effect of tropical climate (man), 410.  
estimation, 40, 41, 625, 625.\*  
foetal and adult forms, amino-acid composition (man), 410.  
formation, utilisation of methionine, 1001.\*  
in adults, effect of iron intake, 119.  
in calves, 120.  
in foetus (man), 970.  
in foetus and newborn infant, 410.\*  
in Indian students, 702.  
in monkeys, effect of scurvy, 959.  
in normal and scorbutic guinea pigs, 398.  
in pregnancy, significance of estimations (woman), 759.  
levels in first year of life, African infants, 119.  
on Himalayan expeditions (man), 410.\*  
oxy-, estimation, 40.  
response to cold environment (dog), 423.  
sources, from related compounds, 888.  
standard value, Haldane, 40.  
type E, in child, 119.  
type G, in West African man, 119.
- Haemorrhage, dicoumarol-induced, treatment with vitamin K<sub>1</sub> emulsion, 529.
- Haemorrhagic conditions, relation to ascorbic acid, calcium, fibrinogen and prothrombin in blood, 527.
- Haemosiderosis, production in experimental anaemia after administration of iron (rat), 1021.
- Hair  
cystine and methionine content, normal and in kwashiorkor (child), 132.  
mineral composition (cattle), 417.\*  
non-keratins (man), 978.  
pigments, effect of malnutrition, 223.\*
- Ham, composition, effect of auromycin at different levels of protein intake by pig, 273.  
fatty acids, 346.  
measurements, relation to carcass quality, 843.  
quality, evaluation, appraisal of methods, 843.
- Hamster, body fat composition, effect of environmental temperature, 440.
- Hatchability (see under *Egg*)
- Hay  
alfalfa and seeds compared, 820.  
alfalfa, barley and clover, amino-acids, losses, laboratory studies, 905.  
alfalfa, for calves, comparison with prairie hay, 1091.  
for cows, effect of different methods of harvesting, 256.  
for fattening lambs, compared with silage, 1103.  
sulphur, total, protein and sulphate, 890.  
cellulose and hemicellulose, 22.
- Hay  
cobalt content, U.S.S.R., composition and feeding value, 916.  
composition and gross digestibility, 61.\*  
different qualities, and cod liver oil for dairy cattle, 820.  
digestibility and feeding value, review, 355.  
early and late cut, effect on growth of beef cattle, 261.  
effect of quality of winter ration on weight gains of beef cattle, 820.  
for cattle, compared with grass silage for winter fattening, 307.\*  
for cows, effect of amount on fat content of milk, 554.  
effect of level on bodyweight and milk production, 554.  
effect on carotene and vitamin A in milk, 924.  
for fattening cattle, effect of quality, 551.\*  
for pigs, 566, 841.  
good or poor quality, for dairy calves, 818.  
hay silage or maize silage for pregnant cows, 823.  
lespedeza and alfalfa plus gullatannin, palatability and digestibility (dairy calf), 1091.  
nutritive value, effect of curing method, 1142.\*  
ration low in, effect on milk fat content (cows), 249.  
relation between gross digestible energy and composition (sheep), 810.  
sun-cured and barn-cured, nutritive value, 258.
- Hay and silage, composition and feeding value compared, 50.
- Heart, amino acid metabolism *in vitro* (rat), 463.  
changes in fluorine poisoning (rabbit, rat), 745.  
changes in potassium deficiency (man), 743.  
changes in undernutrition, 594.\*
- Heart disorders  
angina pectoris, treatment with soya lecithin preparation, 809.  
atherosclerosis and coronary artery disease, relation to blood cholesterol level (man), 443.  
congestive failure, chloride metabolism (man), 249.  
role of potassium depletion (man), 170.  
treatment, 541.  
coronary, lipoproteins and atherosclerosis, review, 160.\*  
decompensation, low blood sodium (man), 533.  
experimental necrotising endocarditis, mucopolysaccharide deposits (dog), 162.  
failure, due to disturbances of carbohydrate and mineral metabolism (pig), 864.  
induced by diet, 1041.\*  
pyruvic acid in blood, effect of vitamin B<sub>12</sub>, 1064.\*  
muscle changes, effect of fluorosis (man), 512.  
production by vitamin E and vitamin K deficiencies (mouse), 660.  
treatment with diet, 1082.\*  
vitamin B<sub>12</sub> and coarboxylase in tissues (man), 518.  
with malnutrition, treatment with restricted diet, 1082.\*
- Heart, effect of choline deficiency, influence of diet (rat), 159.  
effect of sodium nicotinate *in vitro* (toad), 670.

## Heart

- effect of  $\alpha$ -tocopherol *in vitro* (dog, rabbit), 660.  
 effect of vitamin deficiency, 1058.\*  
 electrocardiogram, changes in beriberi (man), 518.  
 in vitamin B<sub>1</sub> deficiency (chicken), 85.  
 in vitamin E and B complex deficiencies (chicken), 64, 371.\*  
 normal and in beriberi (pigeon), 376.  
 endocardium, mucopolysaccharide deposits (dog), 162.  
 fructose metabolism (man), 752.\*  
 muscle (see under *Muscle*)  
 rate, effect of vitamin A depletion (calf), 71.  
 rate and output, changes in pregnancy (woman), 470.  
**Heat** (see also under *Temperature*; *Tropics*; *Climate*; etc.)  
 acclimatisation of hens, effect on egg composition, 475.  
 acclimatisation of miners, 422.  
 effect on nitrogen excretion (chicken), 433.  
**Heat, in animals** (see *Oestrus*)  
 regulation (see under *Energy exchange*)  
 tolerance (see under *Energy exchange*)  
**Heathor**, nutritive value, effect of burning (sheep), 544.  
**Heifers**  
 disorders, anoestrus, relation to nutrition, 1099.  
 effect of feeding fluorine and defluorinated phosphato, 567.\*  
 fattening, development of fat and protein, 549.\*  
**Heifers, feeding**  
 different protein supplements for wintering, 819.  
 molasses, 548.\*  
 silage treated with sodium bisulphite, 819.  
**Heifers, growth and production, effect of pre-calving treatment with L-thyroxine**, 308.\*  
 effect of thyroxine, identical twins, 1095.  
 growth and sexual development, effect of plane of nutrition, 548.\*  
 older, effect of antibiotics, 595.\*  
 weight gain, relation to digestibility of dry matter, 812.  
**Height** (see also *Body measurements*; *Growth*)  
 children, São Tomé Island, 469.  
*Helichrysum italicum*, for goats, effect on protein, vitamin C and lactose in milk, 111.  
*Helminthos chelidotea* (L.) Gaertn., composition and digestibility, 811.  
**Hemeralopia** (see *Dark adaptation*)  
*Hemicellulose*, hay, 22.  
 orchard grass (*Dactylis glomerata*), separation and analysis, 61.  
**Hens** (see *Chickens*; *Poultry*)  
 Heparin, effect on fatty liver production by diet (rat), 733.  
 effect on free fatty acids in blood (rat), 731.  
**Hepatic**, composition and feeding value, 254.  
**Hepatitis** (see under *Liver disorders*)  
 Hepatolenticular degeneration, copper metabolism (man), 458.\*  
 n-Heptadecanoic acid, isolation from hydrogenated mutton fat, 57.  
**Herbage** (see *Fodder*; *Forage*; *Grasses*; *Pasture*)  
 Herb tea(s), Switzerland, 357.\*  
 Herbivora, nutritional requirements, 1142.\*  
 protein quality for maintenance and production, 813.  
**Herring** (see also under *Fish*)  
 lightly salted, keeping quality, 48.\*

## Herring

- majors, storage, 340.  
 preserved, with salt and vinegar, 631.\*  
 Herring meal, composition and vitamin A content, effect of drying, 631.  
 for chickens, 574.  
 growth factor for chickens, 575.\*  
 preserved with nitrite, effect on growth of rats, 198.  
 "whole", and ordinary, protein and riboflavin contents, 639.  
 Herring oil, for laying hens, 855.  
 Herring solubles, growth factor for chickens, 575.\*  
 Herperidin (see *Vitamin P*)  
 Hexachloronaphthalene, production of liver damage, effect of protein intake (rat), 723.  
 Hexokinase, in intestinal mucosa and brain (sheep), 1141.\*  
 in tissues, effect of scurvy (guinea pig), 959.  
 Hexosamine, in femur during growth (rat), 708.  
**Hibernation**, effect on blood lipids (ground squirrel), 447.  
 in mammals, review, 990.\*  
 physiological changes during waking, 143.\*  
 relation to depot fat composition (hamster), 440.  
 Hippuric acid, forerunners in body (rat), 725.  
**Histidine**  
 deficiency, effects (rat), 435.  
 metabolism in pregnancy (woman), 471.  
 methyl-, liberation from codling muscle by anserinase, 911.\*  
 requirement of baby pigs, 1106.  
 requirement of rat, 151.  
**Hogs** (see *Pigs*)  
 Holland (see *Netherlands*)  
 Holocellulose, in faeces, 324.\*  
 Homocysteine, as precursor of choline and methionine in vitamin B<sub>12</sub> deficiency (chicken), 102.  
 in nutrition of laying hens, 957.  
 protection against chloroform poisoning in protein depletion (dog), 726.  
 Homocysteine, S-allyl, and related substances, effect on growth of rats, 751.  
 Honey, carbohydrates, 916.  
 for infants, 492.  
 heatior, chemical and physical properties, 63.  
 sucrose and water contents, Poland, 643.\*  
 sugars, 63.  
 Houcysuckle, composition and digestibility (bull), 255.  
 Honolulu, vegetables, consumption, 506.  
**Hormone(s)** (see also *Endocrine glands*; and under specific glands, e.g., *Pituitary*)  
 adrenal and thyroid, in riboflavin and vitamin B<sub>1</sub> deficiency, effect on adenosinetriphosphatase in liver and kidney (rat), 935.  
 adrenocorticotrophic (see under *Pituitary anterior*)  
 and fertility (farm animals), 981.\*  
 (man), 980.\*  
 and metabolism, 418.\*  
 and vitamins, advances in research (beef cattle), 869.\*  
 effect of injection on number of lambs born, 594.\*  
 effect on amino-acids in blood (rat), 136.  
 effect on iron accumulation in liver (rat), 747.  
 effect on protozoa, 645.  
 effect on resistance to fatigue (chicken), 716.

## Hormone(s)

- in mammary growth and function, 981.\*  
 in poultry feeding, 283.\*  
 relation to utilisation of nutrients in blood formation, review, 709.\*  
 secretion, effect of amino-acids (man, rat), 983.  
**Hormones, sex**  
 androgens, for fattening lambs, 560.\*  
 effect on calcium and nitrogen retention in elderly women, 448.\*  
 effect on carcass quality (pig), 568.\*  
 effect on fattening lambs, 560.\*  
 effect on performance, carcass quality and sex organs of lambs and ewes, 560.\*  
 for fattening cattle, 552.\*  
 effect on growth, 1093.  
 induction of lactation, effect on yield (cow), 474.  
 induction of ovulation (goat), 761.  
 response, effect of pantheonic acid deficiency or injection of squalene (chicken), 96.\*  
**Hormones, sex, oestrogens**  
 effect on ascorbic acid in adrenals (hypophysectomised rat), 490.  
 effect on bone formation in vitamin D deficiency (chicken), 565.  
 effect on carcass composition (hullock), 551.\*  
 effect on cellulose digestion by rumen micro-organisms, 407.  
 effect on egg production, fertility and hatchability, 660.  
 effect on fattening cattle, 261.  
 effect on fattening lambs, 560.\* 832.\*  
 effect on fattening of sheep and mutton quality, 1103.  
 effect on growth and carcass composition (pig), 1109.  
 effect on growth and carcass quality (lamb), 268.  
 effect on growth of beef cattle, 552\*, 822.  
 effect on iodine uptake by thyroid (rat), 136.  
 effect on manganese in blood and tissues of immature pullets, 1022.  
 effect on nitrogen, calcium, phosphorus and potassium balance in old age (man), 192.  
 effect on poultry, 850.\*  
 effect on protein and lipid metabolism of uterus (mouse), 753.  
 effect on quality of beef, and growth of bulls, 837.  
 effect on water intake in male mice, 711.  
 effects, influence of protein intake (rat), 723.  
 estimation in foods, 620.  
 for bulllocks, residues in fat, liver and muscle, 34.  
 for lambs, residues in fat, liver and muscle, 34.  
 for poultry (cockerel), residues in fat, skin, liver and muscle, 34.  
 in clover, red and subterranean, 62.  
 in pasture and pasture plants, New Zealand, 643, 915.  
 in treated lamb tissues, 268, 594.\*  
 increased growth rate by implantation (sheep), 832.  
 induction of lactation (goat), 1034.\*  
 (sheep), 762.  
 metabolism by rumen micro-organisms, 450.\*  
 possible functions (beef cattle), 552.\*  
 synthetic, 330.  
 effect on blood calcium (chicken), 712.  
 toxic effects (pig), 839.  
 treatment of diabetes (rat), 138.  
 with vitamin A, effect on vaginal epithelium, 648.

- Hormones, sex, oestrone and progesterone, effect on progency in protein deficiency (rat), 472.
- Hormones, sex, progesterone effect on carotene and vitamin A in blood and oviductum (cattle), 363.\* maintenance of pregnancy, in absence of dietary protein (rat), 1033. in vitamin A deficiency (rabbit), 363.\*
- Hormones, sex, testosterone effect on course of protein depletion (rat), 130. effect on inhibition of enzyme systems by deoxypyridoxine, 673. effect on nitrogen retention after kidney removal (rat), 432. effect on nitrogen retention in malnutrition after injury (man), 147. effect on protein breakdown in starvation (dog), 147. effect on thyroid after thymus removal (guinea pig), 137. for beef cattle, effect on growth and feed efficiency, 551. influence on effect of thyroid on ewes (rat), 1042.
- Hormones, steroid, effect on water and mineral metabolism, 132.\* thyrotropic (see under Pituitary, anterior)
- Horse(s) (see also *Paals; Mares*) blood picture, effect of work, 409. blood serum proteins, 704. blood sugar, 718. blood volume and plasma volume, 121. cellulose digestion, effect of cultured cellulose-splitting bacteria, 698. disorders, anaemia, treatment with vitamin B<sub>12</sub>, 101. colic, relation to diet, review, 802. encephalomalacia, from ingestion of yellow star thistle, 280. feeding, potatoes, 258. U.S.S.R., 815. vitamins, 019.\* nutrition (Review article), 1. pasturing in north U.S.S.R., 1089.\* work, capacity of different strains, 1089. effect on pulse, respiration and blood picture, 987.
- Hospital diets, amino-acid and protein content, 246. and meals, potassium and sodium content, Philippines, 347. effect on carotene and vitamin A in blood, 226.\* England, in eighteenth century, 801. scales, 1051.\*
- Housing, in Singapore, effect on health of infants, 210.
- Humidity (see also under *Heat; Climate*) importance, 629.
- Hungary, industrial workers, in hot environment, requirement of salt, 772.
- Hyaluronidase, prevention of urinary and kidney calculi (sheep), 1128.
- Hydraxide, effect on xanthuronic acid excretion (dog), 945.\*
- Hydrocephalus, produced in offspring by maternal vitamin A deficiency (rabbit), 687, 350.
- Hydrogen ion concentration effect on action of light on riboflavin solutions, 87. estimation in blood, apparatus, 885. in silage, 50. of stool and skin, effect of feeding (infant), 1054. recording apparatus, 613.
- Hydroquinone derivatives, as anti-oxidants for carotene and vitamin A, 301.
- Hydroxocobalamin, estimation, 393.
- 3-Hydroxyanthranilic acid, conversion to nicotinic acid *in vitro*, 383. enzymic conversion to quinaldine, 382. enzyme conversion to quinaldine *in vitro*, 382.
- $\beta$ -Hydroxybutyrate, effect on ascorbic acid and carbohydrate metabolism (rabbit, rat), 398. effect on vitamin B<sub>1</sub> metabolism (rabbit), 378.
- Hydroxydimethylbenzene acetates, effect on placenta development (rat), 371.
- p-Hydroxyphenylacetic acid, excretion in steatorrhea (man), 528.
- Hydroxyproline, in bone, distribution (rat), 416.\*
- index of connective tissue in muscle, 26.\*
- Hypokeratosis (see *Calves, disorders*)
- Hypertension (see *Blood pressure, high*)
- Hypoglycaemia (see *Blood sugar, low*)
- Hypoglycin A, effect on liver glycogen (rat), 428.
- Hypopharynx (see *Pituitary removed*)
- Hypophysis (see *Pituitary*)

tocopherol in blood, relation to haemolysis by hydrogen peroxide *in vitro*, 230.  
treatment with vitamin D<sub>2</sub>, effect on blood alkaline phosphatase, 227.  
triplets and quadruplets, survey, Finland, 498.  
water and electrolyte metabolism, in hot environment, effect of diet, 740.  
weight increase, relation to milk fat output of mother, 191.
- Infant foods, analysis, 334.  
Infection (see also *Immunity*)  
dehydroascorbic acid in blood (man), 1071.  
respiratory, acute, treatment with citrus flavonoids, 799.  
Influenza, treatment with ascorbic acid and drugs (industrial workers), 241.  
Infrared rays, effect on mortality in young pigs, 295.
- Injury  
burns, methionine metabolism (man), 726.\*  
effect on blood sugar and insulin tolerance (man), 991.  
nitrogen metabolism, effect of cortisone (rat), 722.
- Inositol  
antiscorbutic action (guinea pig), 963.  
effect on atherosclerosis produced by cholesterol (chicken), 162.  
effect on blood picture (man), 120.  
effect on cholesterol in blood (rat), 446.  
effect on fatty liver produced by cholesterol (rat), 446.  
effect on phosphorus metabolism (rat), 177.  
enzymic role in  $\alpha$ -amylase activity, 307.\*  
estimation, 322.  
in phosphatides, 887.  
excretion, in diabetes (rat), 177.  
formation (chicken embryo, rat), 719.  
in blood and foetal fluids (man, laboratory animals), 471.  
relation to amylase, 113.  
*Meso*-inositol, effect on composition of liver in deficiency of lipotropic substances (rat), 694.  
Inositol phosphatide, effect on experimental atherosclerosis (rabbit), 161.  
Insects (see also specific insects, e.g., *Moths*; *Tribolium*)  
Jassidine, feeding habits and digestion, 490.\*
- Insulin (see also *Diabetes*)  
action, problems, 1076.\*  
delayed action, treatment of diabetes, 802.  
effect on fatty acids and amino-acids in blood, 137.  
effect on gastric secretion (man), 696.  
effect on inhibition of atherosclerosis by atherosclerotic (rabbit), 446.  
effect on nitrogen retention after pituitary removal (rat), 148.\*
- Insulin  
effect on vitamin B<sub>12</sub> requirement of rat, 956.\*  
lente, in treatment of diabetes, 247.\*  
sensitivity, effect of adrenal removal and treatment with ascorbic acid and adrenal cortex hormone (rat), 962.  
effect of riboflavin deficiency (rat), 88.  
effect of vitamin C (rat), 109.  
with vitamin B complex, treatment of mental disorders, 790.  
Insulin and zinc, preparations, use, 247.\*  
suspensions, therapeutic value, 534.\*  
Intestine (see also *Digestive tract*)  
appendix, effect of roughage (rabbit), 722.  
digestion, cannula and trocar (pig), 337.  
gases, composition (sheep), 118.  
ileum removal, effect on carotene utilisation (sheep), 923.\*  
Intestine, micro-organisms  
cellulose-splitting, effect on cellulose digestion when given by mouth (horse), 698.  
deaminating properties *in vitro* (pig), 765.  
effect of antibiotics (chicken), 197.  
(pig), 481.  
review, 1037.\*  
effect of penicillin (pig), 196.  
effect of typical Indian diets (rat), 664.  
effect of vitamin B<sub>12</sub>, cobalt and antibiotics (pig), 396.  
effect on iron absorption, 1021.\*  
effect on nutrition, review, 764.\*  
effect on vitamin B<sub>12</sub> absorption by patients with pernicious anaemia, 794.  
role in iron absorption (rabbit), 173.  
Intestine motility, energy expenditure (poultry), 235.  
*in vivo*, technique for study (rabbit), 628.  
Intestine, mucosa, cholesterol and 7-dehydrocholesterol (guinea pig), 408.\*  
conversion of cetyl alcohol to palmitic acid (rat), 465.\*  
histochemical study during fat absorption (rat), 117.  
parasites (see under specific parasites, e.g., *Tapeworm*)  
sodium chloride absorption (dog), 117.  
sugar absorption *in vitro* (hamster), 1025.\*  
transport of water and other substances through wall, 407.\*
- Intestine, small  
absorption of amino-acid stereoisomers *in vitro* (man), 406.  
active transfer of amino-acids *in vitro* (hamster), 698.  
alkaline phosphatase, in disorders (infant), 696.  
buffering capacity of contents (dog), 116.  
disorders, production by surgical treatment of digestive tract, discussion, 1078.  
duodenum, role in gastric secretion (dog), 966.  
secretion, breakdown of different starches *in vitro* (man), 403.  
effect of antibiotics (chicken), 768.  
effect of lactose (rat), 994.\*  
effect of removing distal or proximal half (dog), 698.  
isolated loop, effect of ascorbic acid (rabbit), 963.  
motility *in vitro*, effect of selenium (rabbit), 754.  
resection, effect of pregnancy on digestive tract function (woman), 1078.  
secretions, amino-acids content (man), 966.  
Thirty loop, absorption of protein hydrolysate (man), 967.\*
- Intestine, small, ulcers (see under *Intestine*, estimation, 21.  
Invert sugar, effect on nitrogen retention when given by vein (man), 425.  
estimation, 614.  
in maple syrup, 887.  
feeding to baby pigs, 271.  
Iodide, effect on cholesterol in blood (rat), 102.  
estimation in iodised salt, 895.  
inorganic, metabolism in thyroid slices, 183.\*  
radio-active, secretion in milk after single dose (cow), 456.  
Iodinated protein(s) (see also *Thyroprotein*)  
casein, effect on absorption of vitamin B<sub>12</sub> (chicken), 104.  
effect on fertility (poultry), 594.\*  
effect on growth of calves, 817.  
effect on nitrogen and mineral metabolism (pig), 1132.  
effect on phosphate fractions of liver (rat), 104.  
effect on resistance to fatigue (chicken), 716.  
effect on yield and composition of milk, 264.  
for heifers, effect on calcium and phosphorus metabolism, 166.  
for laying hens, 855.  
for pheasants, 856.  
prevention of muscle degeneration in pigs, 291, 1132.  
thyroxine content, 133.  
thyroxine-free fraction, effect on basal metabolic rate and milk and fat yield (goat), 571.  
thyroid extracts, for hens, effect on egg production and vitamin A content of egg, 69.  
thyroxine content, 330.\*
- Iodine  
availability from insoluble compounds (rat), 172.  
compounds in blood, in health and thyroid disorders (man), 973.  
in thyroid, normal and in goitre (man), 978.  
separation, 620.  
effect on pancreas (rat), 456.  
effect on thyroid, relation to thiocyanate (rat), 419.  
estimation, in salad and spinach treated with iodine, 641.  
in salt, 622.  
in waters, 895.  
fertiliser, effect on value of crops in preventing goitre (rat), 743.  
in blood, butanol-extractable (man), 412.\*  
in goitre (man), 249.  
in iodised salt, stability, 345.  
in milk, goitrous and non-goitrous regions, Netherlands, 348.  
in plants, effect of treatment with inorganic, estimation in blood, 331.  
inorganic and organic, in thyroid, estimation and values for normal subjects and patients with exophthalmic goitre, 899.  
metabolism, and thyroid hormones, review, 133.\*  
dynamic (man), 455.  
quantitative aspects (man), 455.  
role of salivary glands (rat), 456.  
protein-bound, estimation, 895.\*  
in blood, 332.  
in blood, in old age, effect of thyrotropic hormone, 135.\*  
of normal children, 899.  
relation to basal metabolism, normal and in thyroid disorders (man), 421\*, 713.\*

**Iodine, protein-bound**  
in blood, relation to growth rate and body measurements (pig), 835.  
in tissues (man), 130.  
radio-active, estimation in blood, 332.  
protein-bound and butanol-insoluble, in blood, effect of iodide intake (dog, man, rabbit, rat), 412.  
radio-active, accumulation by foetal thyroid (man), 981.  
and astatine, effect on thyroid (monkey, rat), 427.  
estimation in urine, 635.  
in estimation of thyroxine output (man), 418.  
in milk, effect of iodide or iodocasein (goat, rabbit), 702.  
requirement of chickens, 574\*, 847.  
requirement of man, 1044.\*  
retention by pigs after loading test, 918.  
uptake by thyroid, changes during oestrous cycle (rat), 136.  
effect of fluoride (man), 1019.  
effect of rice diet (man), 982.  
in infants, newborn, 455.  
utilisation and evolution of thyroid function, review, 981.\*

**Iodised salt, with fluoride.** control of endemic goitre and caries, 531.  
**Iodo-casein** (see under *Iodinated proteins*)

## Lactation

- milk ejection, effect of oxytocin (woman), 138.  
 effect of relaxin (sheep), 474.  
 reflex, emotional inhibition, 191.\*  
 performance, effect of diet (rat), 762.  
 relation of pituitary, posterior, 983.\*  
 relation to milk fat content (woman), 191.  
 relation to thyroid (sheep), 419.\*  
 stage, effect on citric acid content of milk (cow), 54.  
 effect on milk fat, Reichert, Polenske and iodine values (buffalo, cow), 54.  
 effect on sugar phosphates in milk (woman), 347.\*  
 suckling behaviour (pig), 1104.  
 vitamin A intake by cow, effect on vitamin A in blood and liver of calf, 303.  
**Lactic acid**  
 bactericidal effect on milk mixtures for infants, 208.\*  
 estimation, 35.  
 in blood, muscle and liver, 863.  
 in silage, 893.  
 for baking rye bread, 49.\*  
 in cheese, 871.  
 production by rumen micro-organisms (cattle), 765.  
**Lactic acid bacteria**, from rumen of young calves, 184.  
**Lactobacilli**  
 counts, in mouth, relation to phosphatase in saliva (man), 115.\*  
 in saliva, effect of carbohydrate restriction (man), 799.  
 in untreated caries, effect of fluoridation of water, 531.\*  
 formation of acid from sugars *in vitro*, relation to caries production, 1073.  
 from abomasum of calves and kids, 764.  
 from stomach, carbohydrate metabolism (child), 194.  
 growth, effect of D-amino-acids, 193.\*  
 growth factors, 478.\*  
 in mouth, relation to caries (hamster), 487.\*  
**Lactobacillus acid**, and related compounds, effect on micro-organisms, 338.  
**Lactobacillus arabinosus**, enzyme activity, normal and in biotin deficiency, 389.  
 growth, effect of biotin sulphone, 877.  
**Lactobacillus bifidus**, growth substance in milk, gymnamine acid, 634.  
 mutant, growth factor in human milk, 478.  
 panethine, synthetic, as growth factor, 947.  
 synthetic medium for culture, 402.  
**Lactobacillus vulgaricus** factor (see *Pantethine*)  
**Lactobacillus casei**, extracts, conversion of pteroylglutamic acid to citrovorum factor, 940.\*  
 fatty acid nutrition, 764.\*  
 new phosphorylated, ninhydrin-positive protein component, 1038.  
**Lactobacillus fermenti**, growth, effect of calcium, 1038.\*  
**Lactobacillus leichmannii**, growth, in synthetic media, effect of amino-acids, 880.  
 symbiosis with *Leuconostoc citrovorum*, 100.  
 $\beta$ -Lactoglobulin, from pasteurised or spray-dried milk, amino-acids, 909.  
 separation from human milk whey, 326.\*  
**Lactose**  
 commercial production and uses, advances, review, 939.\*  
 effect on calcium metabolism during lactation (rat), 191.  
 effect on growth (chicken), 573.\*  
 effect on small intestine (rat), 984.\*

## Lactose

- physiological effects (Review article), 309.  
 radio-active, metabolism (rat), 991.  
**Laevulose** (see *Fructose*)  
**Lamb(s)** (see also *Sheep*)  
 birthweight and body measurements, effect of season of lambing, Egypt, 561.  
 carcass, residual oestrogen, 594.\*  
 Chin, growth, 559.  
 digestibility of cottonseed hulls, effect of adding alfalfa ash, 544.  
**Lambs, disorders**  
 cobalt deficiency, 863.  
 effect of vitamin B<sub>12</sub> by mouth, 957.  
 vitamin B<sub>12</sub> and cobalt therapy compared, New Zealand, 308.\*  
 goiters, in newborn from ewes grazing kale, 864.  
 hypoglycaemia, caused by starvation, 864.  
 parasitic infestation, effect of cobalt, calcium and phosphorus on resistance, 299.  
 "stiff lamb disease", New Zealand, 290.  
 twin lamb disease, 291.\*  
 worm infestation, protective effect of minerals, 588.\*  
**Lamb(s)**, effect of antibiotic implants on growth under range conditions, 832.  
 fat, from pasture, 1094.  
 production, from Leine sheep, with reference to milk production and feed utilisation, 833.  
 in Wales, 269.  
 rate of Stocking, New Zealand, 308.\*  
 fattening, beef tallow in ration, 1142.\*  
 cut beans, 1142.\*  
 effect of androgens, 560.\*  
 effect of oestrogens, 832.  
 effect of sex hormones, 560.\*  
 effect of steroids, 560.\*  
 on different basal diets, 1102.  
 protein supplements, comparison, 1142.\*  
**Lambs, feeding**  
 alfalfa as hay and silage, and maize silage, comparison, 1103.  
 arsenic compounds, 267.  
 aureomycin with different roughage to concentrate ratios, 1102.  
 diethylstilboestrol, 560.\*  
 effect of supplements of aureomycin and/or Vitamin B complex on growth and carcass composition, 862.  
 maize or barley with alfalfa, 268.  
 methionine, urea and soya bean meal supplements, 831.  
 non-protein nitrogen compounds, 560.\*  
 effect on blood ammonia and urea, 831.  
 pelleted or meal rations, 831.  
 pelleted rations with antibiotics, 561.\*  
 ration high in fibre in early life, effect on subsequent performance, 1101.  
 safflower meal, 1103.  
 silage, maize, compared with alfalfa hay and silage, 1103.  
 urea supplement to maize silage, 832.  
**Lambs, feed utilisation**, effect of pelleting rations, 560.\*  
**Lambs, growth**  
 and carcass quality, effect of oestrogens, 268.  
 and worm burden, effect of early weaning, 831.  
 effect of antibiotics, 560.  
 effect of drought and season of birth, 1101.  
 effect of heredity and environment at different ages, 1101.

## Lambs, growth

- effect of number of daily feeds and number per group, 268.  
 effect of worm infestation, 1135.  
 relation to milk production by ewe, 830.  
**Lambs, mortality**, birthweight of stillborn and those dying within 28 days, 1128.  
 Egypt, 291.\*  
 number born, effect of hormones, 594.\*  
 nutritive value of acetate, propionate and lactate, 560.\*  
 oestrogen-treated, residue in fat, liver and muscle, 34.  
 performance, carcass quality and reproductive organs, effect of sex hormones, 560.\*  
 prematurely weaned, rearing, 558.  
 production, effect of feeding supplements to ewe during pregnancy, 1102.  
 protein requirements, 1102, 1142.\*  
 wintered on hill or on lowland, relative performance, 560.  
 wintering, effect on subsequent growth and fertility, 831.  
 worm-free, production on pasture, 588, 1141.\*  
**Lamb (meat)** (see *Mutton*)  
**Laminarin**, utilisation by rumen micro-organisms *in vitro*, 196.  
**Lanthanum**, phosphatase effect, 115.\*  
**Lard**  
 as source of vitamin A for rats, 72.  
 for suckling pigs, 594.\*  
 heated and autoxidised, nutritional effects (rat), 1006.\*  
 "Lard factor", identification as vitamin A, 359.  
**Lathyrism**, 245.\*  
 effect on bones, similarity to fluorosis (rat), 1020.\*  
**Lathyrus odoratus** (see *Pea, sweet*)  
**Lead**  
 estimation, in blood, 332.\*  
 in cocoons, 332.\*  
 in foods, 36, 895.\*  
 in milk and milk products, 621.\*  
 in foods, Ministry of Food recommendations, 52.\*  
 in soil, plants and animals, 907.\*  
 in tissues (man), 416.  
 poisoning, effect of level of calcium, phosphorus and vitamin D in diet on removal of lead from blood and bones (rat), 655.  
 experimental, effect of  $\alpha$ -tocopherol (rabbit), 78, 831.  
**Leaf protein** (see *Protein, leaf*)  
**Lebanon**, wheat and parboiled wheat, composition and nutritive value (rat), 340.  
**Lebistes reticulatus** (see under *Guppy*)  
**Lecithin** (see also *Phospholipins*)  
 formation from ethanolamine by liver slices (chicken, guinea-pig, rat), 466.  
**Leg weakness**, in turkeys, ducks and geese, 586.\*  
**Legumes** (see also specific legumes, e.g., *Peas*)  
 India, sugars, effect of storage, 343.  
 mineral and protein content, Canada, 60.  
 potassium content, relation to energy value and nitrogen content, 912.  
 pulses, alleged toxicity, India, 307.\*  
 amino-acids, India, 307.\*  
 Indian, nutritive value for rats, effect of antoalving, 483.  
 protein, nutritive value for rats, effect of germination, 431.  
 tropical, amino-acids, 59.  
 composition, 354.  
**Legume-grass silage**, fatty acids, polyunsaturated, 357.\*  
**Lemming** (*Dicrostonyx groenlandicus*), heat regulation, effect of exercise, 990.

- Lemnaceae* (see under *Duckweed*)
- Lemon juice, flash pasteurisation, effect on ascorbic acid, 692.
- Lens, eye (see under *Eye*)
- Leprosy, effect of diet on maintenance of *Mycobacterium leprae* (hamster, rat), 932.\*
- mouse, treatment with nicotinamide and pyrazinamide, 944.
- Lespedeza* seed, for chickens, 851.
- Lespedeza sericea* (*L. cuneata*), palatability and digestibility (dairy calf), 1001.
- Lettuce meal, dehydrated, pigmentation of broilers, 853.\*
- Leucaemia**
- action of aminopterin, effect of citrovorum factor (mouse), 679.
- acute infantile, treatment with aminopterin and hormones, 234.
- cells, resistance to folic acid antagonists (mouse), 98.
- effect of diet (mouse), 755.\*
- experimental, effect of D-glucoseascorbic acid (mouse), 110.
- treatment with aminopterin (mouse), 98.
- treatment with folic acid antagonists, effect on liver (child), 791.
- vitamin B<sub>12</sub> in blood (man), 238, 239, 523.
- Leucaena glauca* (see *Kunt halei*)
- Leucine, effect on growth, relation to isoleucine (rat), 151.
- incorporation into protein by liver homogenates, effect of phosphate energy donors, 180.
- requirement of pig, baby, 151.
- isoLeucine, requirement of chickens, 846.
- requirement of laying hens, 579.\*
- Leucocytes (see *Blood*, *White cells*)
- Leucosotoc citrovorum*, symbiosis with *Lactobacillus leichmannii*, 100.
- Leucosotoc citrovorum* factor, and factors of the folic acid group, 390.\*
- 2:4-diaminopteridines as antagonists, 98.
- effect on bone marrow aplasia induced by aminopterin, 98.
- excretion, effect of folic acid (rat), 678.
- in liver disease (man), 235.
- formation by *Streptococcus faecalis*, 391.
- formation from folic acid by chicken liver homogenates, 391.
- in eggs, effect of vitamin B<sub>12</sub> administration (hen), 654.
- in human nutrition, 235.\*
- influence on action of aminopterin on leucaemia (mouse), 679.
- interrelation with folic acid and vitamin B<sub>12</sub> in anaemia, 594.\*
- metabolism (man), 1006.
- precursors, relation to folic acid, 679.
- production by liver homogenates *in vitro*, 949.\*
- production from folic acid by chick liver powder, 949.\*
- production from pteroylglutamic acid by *Lactobacillus casei* extracts, 949.\*
- treatment of megaloblastic anaemia, 791.
- vitamin B<sub>12</sub> and folic acid, interrelations in anaemia, 594.\*
- Leucovorin, in nutritional macrocytic anaemia, 307.\*
- review, 949.\*
- role in megaloblastic anaemia, 1006.
- Lichen(s), for ruminants and pigs, 546.
- Lichenin, in oats, mucopolysaccharides, 840.\*
- Light** (see also *Sunlight*)
- artificial, effect on egg production, 580.
- effect on oestrous cycle, relation to oostrene (rat), 189.
- effect on riboflavin solutions, 87.
- infrared (see *Infrared light*)
- Light**
- intensity, in cages, effect on egg production, 581.
- ultraviolet (see *Ultraviolet light*)
- Lignin, estimation, 23.
- metho. kernels, effect on lignin-ratio technique for digestibility estimation, 542.
- Linoleic acid, absorption (rat), 699.
- estimation, 32.
- in milk, 32.
- in diet, variations, effect on growth and health (guinea pig), 1006.\*
- in maize kernels, and oil content, 354.
- metabolism, in normal and fat-deficient rats, 441.
- protection against X-rays (rat), 1007.
- radio-active, synthesis by *Trichosporon pullulans*, 441.
- Linolenic acid, estimation in milk, 32.
- protection against X-rays (rat), 1007.
- Linseed cake, prepared in Tanganyika, composition and nutritive value, 1086.
- Linseed meal, cause of congenital goitre in sheep, 864.
- protective effect against selenium poisoning (rat), 1023.
- Linseed oil meal, for fattening cattle, 594.\*
- Lipase**
- estimation, 333.
- in pancreatic juice (dog), 38.\*
- in milk, 695.
- effect of stage of milking, 908.
- in pancreas, effect of protein and carbohydrate intake (rat), 155.
- in plasma, in malnutrition (man), 307.\*
- review, 114.\*
- tributyrin-splitting, in blood and tissues, effect of cholesterol and adenosine triphosphate (rabbit), 114.
- Lipids** (see also *Fats*; *Oils*; *Cholesterol*; *Phospholipids*)
- biochemical problems, 154.\*
- biochemistry, digestion, absorption, transport and storage (book), 1138.
- blood, see *Blood Lipids*; *Blood fat*
- detection, 329.\*
- estimation in brain tissue, 31.
- formation, in liver, effect of cholesterol, 1012.\*
- in bile (calf), 706.
- in flour, effect of improvers and of storage, 48.
- in haddock, 57.
- in heart fibroblasts, effect of vitamin B<sub>12</sub> *in vitro* (chicken), 955.
- in mammary gland, histochemistry (dog, guinea pig, rabbit), 1034.
- in rumen micro-organisms (sheep), 1038.
- in testes of vertebrate species, 761.
- in tissue, effect of surface-active agent (cockle), 979.
- relation to sex and bodyweight (rat), 129.
- in vegetables, frozen, effect of storage, 542.
- intermediary metabolism, 143.\*
- liver (see also *Fat, liver*)
- effect of fat deficiency (rat), 1010.\*
- effect of pantothenic acid (rat), 386.
- fatty acids (rat), 979.\*
- in health and liver disorders (man), 974.
- liver and muscle, changes during growth (rabbit), 139.
- metabolically inert, in tissues (rat), 148.
- metabolism, in housefly, 489.
- in liver, regenerating (rat), 181.
- isotopes as indicators, 30.
- milk (see *Milk fat*)
- of biological significance, chemistry (book), 868.
- palmitate incorporation in tissue slices or homogenates, 181.
- Lipids**
- type and amount in ration, effect on growth and incidence of diarrhoea in calves, 548.\*
- uptake by adipose tissue *in vitro*, 465.
- Lipid-<sup>14</sup>C, measurement in liver, 30.
- Lipins (see *Lipids*)
- Lipogenesis, 154.\*
- effect of calcium carbonate (mouse), 167.\*
- Lipoic acid, effect on growth (chicken, rat), 1024.
- α-Lipoic acid, effect on alcohol intake (rat), 177.
- Lipoperoxides, estimation, 892.
- Lipoproteins, and atherosclerosis, review, 1081.\*
- in blood (see under *Blood*)
- Lipotropic substances (see also specific substances, e.g., *Choline*)
- choline, methionine and derivatives compared (rat), 159.
- deficiency, effect of meso-inositol on composition of liver (rat), 694.
- effect on blood cholesterol and chylomicron count (man), 1005.
- effect on experimental nerve disorders, 931.
- effect on serum lipid partition in atherosclerosis (man), 160.
- effect on sulphhydryl groups in liver (rat), 159.
- protein (rat), 721.
- protein and methionine, effectiveness in relation to food intake, 1010.\*
- Litter, autoclaved, unidentified factor for chickens, 575.\*
- deep, effect in chicken rearing, 867.
- management, role in nutrition and disease prevention (chicken), 572.\*
- poultry, as nitrogen source for fattening cattle and pregnant ewes, 549.\*
- growth factor for chickens, 852.
- Liver**: the entries are divided into two groups:
- those relating to the liver as an organ;
  - those relating to liver as a food, or to liver preparations as therapeutic agent or source of vitamins.
- For constituents such as Liver iron, see *Iron in liver*
- amino-acids, effect of fasting (rat), 1000.
- antimycin titre, effect of diet (mouse), 114.\*
- ascorbic acid, effect of alcohol intoxication (guinea pig), 691.
- biopsy technique (cattle), 628.
- Vim-Silverman needle, improved, 336.\*
- carboxylation *in vivo* (chicken), 180.
- cells, chemical architecture, 130.\*
- protein metabolism (rat), 1025.
- cell fractions, incorporation of amino-acids into albumin (rat), 464.
- changes produced by diet (rat), 439.
- cholesterol content (see under *Cholesterol*)
- cholesterol formation, relation to diet producing gallstones (hamster), 465.
- cholineserine distribution, effect of feeding and fasting, 695.\*
- collagen, relation to bodyweight (rat), 416.
- composition, changes during growth (rabbit), 139.
- effect of nicotinamide (rat), 670.
- in deficiency of lipotropic substances, effect of meso-inositol, 694.
- cytoplasm protein, separation (rat), 326.\*
- dipeptidases and nucleic acids, effect of carbon tetrachloride (rat), 1025.
- Liver disorders**
- blood and liver lipids (man), 974.

## Liver disorders

blood serum proteins and lipoproteins (man), 703.  
 blood vitamin A and carotenoid contents (man), 514.  
 cancer, in tropics, 511.  
 cirrhosis, etiology (man), 1058.\*  
 and necrosis, etiology (rat), 220.  
 ascitic fluid and plasma protein exchange (mouse), 123.\*  
 blood serum proteins (man), 888.  
 blood sugar and sulphhydryl content, 1068.  
 effect on alcohol consumption (rat), 402.  
 in alcoholism, association with anaemia, 1080.  
 in repatriates from Indonesia, 808.  
 produced by carbon tetrachloride, effect of adenosine triphosphate (rat), 178.  
 production by ethionine (rat), 1002.\*  
 relation of lesions to functional tissue unit, 158.  
 role of nutritional factors, 307.\*  
 treatment by diet, 808.\*  
 treatment of ascites with ion exchange resin (man), 741.  
 vitamin B<sub>12</sub> in blood (man), 523.  
 citrovorum factor excretion (man), 235.  
 damage, amino-acid metabolism (man), 999.  
 in protein malnutrition, 420.\*  
 produced by alcohol, role of choline (rat), 759.  
 produced by carbon tetrachloride, enzymes in blood and liver (mouse), 695.\*  
 produced by cholesterol, influence of aureomycin (rabbit), 736.  
 produced by hexachlorophthalene, effect of protein intake (rat), 723.  
 produced by malnutrition, 437.\*  
 toxic, role of sulphur-containing amino-acids, 307.\*  
 degeneration, produced by, diet (rat), 1009.\*  
 effect of choline in animal protein factor deficiency (rat), 686.  
 effect of vitamins K and K<sub>1</sub> on blood prothrombin (man), 799.\*  
 experimental, produced by diet, and serum proteins, 704.\*  
 fatty liver, effect of choline, methionine and vitamin B<sub>12</sub> (rat), 954.  
 effect of cold, 1010.\*  
 effect of vitamin B<sub>12</sub> deprivation on development, 605.\*  
 in children, produced by deficiency disease, 620.  
 produced by alcohol, effect of vitamin B<sub>12</sub> and choline (rat), 1010.  
 produced by beef fat or lard (rat), 1009.  
 produced by cholesterol, chemical composition (rat), 445.  
 content of cholesteryl esters and effect of choline (rat), 153.  
 effect of betaine, choline, vitamin B<sub>12</sub> or inositol (rat), 440.  
 effect of cold, 1010.\*  
 study of cell fractions (rat), 153.  
 produced by diet, effect of amino-acids (rat), 725.  
 effect of cold environment (rat), 732.  
 effect of heparin (rat), 733.  
 effect of vitamin B<sub>12</sub> and L-cystine (rat), 102.  
 genetic differences (mouse), 733.  
 produced by ligation of pancreatic duct, effect of vitamin B<sub>12</sub> (rat), 684.  
 produced by low protein intake (rat), 721.  
 produced by plant protein diets (rat), 733.

## Liver disorders

fatty liver, produced by threonine or choline deficiency (rat), 435.  
 treatment with high-fat diet, 808.\*  
 fibrosis, in children, Indonesia, 782.  
 produced by folic acid antagonists in treatment of leukaemia (child), 791.  
 hepatitis, acute, in guinea-pigs, 202.  
 nitrogen balance, 147.\*  
 after protein deprivation, effect on plasma volume and proteins (rat), 411.  
 and cirrhosis, treatment with liver hydrolysate, 250.  
 infectious, treatment with diet, 250.\*  
 serum iron, daily variations (man), 705.  
 treatment with ascorbic acid (man), 242.  
 urine output (man, rat), 420.  
 viral, treatment with vitamin B<sub>12</sub> and folic acid, 796.  
 hepatocellular degeneration, copper metabolism (man), 748.  
 hepatoma, effect on vitamin B<sub>12</sub> pyrophosphate in cell fractions (mouse), 639.  
 histological changes in Jamaican children, 220.  
 in digestive tract disorders (man), 535.  
 in emaciation syndrome in cattle, Malaya, 861.  
 in tropical nutritional diseases, 220.\*  
 methionine metabolism (man), 726.\*  
 necrosis, effect of co-enzyme A (rat), 949.\*  
 effect of tocopherol on oxygen consumption *in vitro*, 931.\*  
 effect on amino-acid metabolism (rat), 931.\*  
 experimental, effect of age of weaning (rat), 202.  
 effect of diet and environment (rat), 202.\*  
 produced by diet (rat), 450.  
 relation to cholinesterase in blood (rat), 114.  
 produced by dried skimmed milk (rat), 767.  
 utilisation of <sup>14</sup>C-acetate (rat) 659.\*  
 nutritional causes, 220.\*  
 produced by carbon tetrachloride, effect on excretion of nicotinic acid and quinolinic acid and methyl-nicotinamide, 90.  
 relation to nutritional conditions, 782.\*  
 relation to nutritional disturbances (man), 782.\*  
 treatment, dietetic aspects, 250.\*  
 with vitamin B<sub>12</sub> and methionine, effect on trigonellin excretion (man), 233.  
 tumours (see *Tumours*)  
 veno-occlusive disease, in children, Jamaica, 782.  
 Liver, distribution of copper (cattle), 175.  
 effect of diets rich in vegetable protein (dog), 430.  
 effect of protein depletion (rat), 307.\*  
 enzymes, relation to fat deposition (rat), 732.  
 xanthine or D-amino-acid oxidase, effect of riboflavin intake (rat), 87.  
 fat (see *Fat, liver*; *Lipids, liver*)  
 fatty acids (see under *Fatty acids*)  
 formation of choline *in vivo*, effect of vitamin B<sub>12</sub> (baby pig), 684.  
 Liver function  
 and serum protein in infants, 1072.\*  
 in anaemia, nutritional (man), 538.\*  
 test, amino-acids in blood, effect of vitamin B<sub>12</sub>, 1069.  
 effect of riboflavin deficiency (man), 238.

Liver, glycogen (see *Glycogen, liver*)

histology, effect of vitamin B<sub>12</sub> deficiency (chicken embryo), 954.\*  
 in choline deficiency (mouse), 732.  
 Liver homogenates  
 ascorbic acid catabolism (guinea-pig, rat), 689.  
 cholesterol formation from branched chain fatty acids, 735.  
 dehydrogenase activity, effect of dehydroascorbic acid (rat), 688.  
 folic acid conversion to citrovorum factor (rat), 678.  
 formation of folic acid, 949.\*  
 lousine incorporation into protein, effect of phosphate energy donors, 180.  
 metabolism, effect of energy-liberating system, 1025.  
 effect of steroids (rat), 180.  
 nicotinamide formation from ammonium nicotinate, effect of vitamin B<sub>1</sub> deficiency (piglet), 930.  
 nicotinic acid formation from tryptophan, 90.  
 oxygen consumption, effect of nicotinamide (rat), 382.  
 effect of pantothenic acid and thryoxine (piglet), 380.  
 relation of cholesterol to  $\beta$ ,  $\beta$ -linoleic acrylic acid, 1027.  
 respiration, endogenous, effect of nicotinamide, 943.  
 transmethylation, effect of vitamin B<sub>12</sub>, 684.  
 unidentified factors for conversion of folic acid to citrovorum factor (chicken), 391.  
 vitamin A esterase, effect of vitamin A depletion (rat), 361.  
 vitamin B<sub>12</sub> content (man), 796.  
 Liver, influence of protein and energy intake, 201.\*  
 lecithin (see under *Lecithin*)  
 lipids (see *Lipids, liver*; *Fat, liver*)  
 metabolism, effect of protein deficiency (rat), 721.  
 nucleoproteins, effect of vitamin B<sub>12</sub> deficiency (rat), 955.  
 nucleotide content, effect of nicotinic acid and tryptophan (chicken), 942.  
 pathways of glucose metabolism, 179.  
 phosphatase (see under *Phosphatase*)  
 phosphate fractions, effect of vitamin B<sub>12</sub> with or without iodinated casein (rat), 104.  
 phosphorus compounds, in fat deficiency (rat), 421.  
 phosphorus distribution, in phosphoric esters and phosphatides, effect of diet (rat), 733.  
 phosphorus, inorganic and lipid (rat), 1017.  
 protein (see *Protein, liver*)  
 removal, partial, effect of riboflavin or vitamin B<sub>12</sub> deficiency before or after operation (rat), 393.  
 effect on trigonellin excretion, 381.  
 reticulo-endothelial cells, uptake of cholesterol, endogenous or dietary (rat), 1010.  
 role in cholesterol metabolism (rat), 1011.  
 Liver slices  
 carbohydrate metabolism after insulin administration, 1025.\*  
 conversion of citrulline to orotic acid, 105.  
 diphenylpyridine nucleotides, 753.  
 fat formation, effect of growth hormone (rat), 1027.  
 fatty acid formation from acetate, effect of adrenal removal (rat), 1026.  
 from normal and diabetic rats, utilisation of glucose and fructose, 179.

- Liver slices  
glycolysis, anaerobic, effect of ergosterol and ergocalciferol (rat), 927.  
ketogenesis, effect of previous diet (rat), 1006.  
lecithin formation from othanolamine (chicken, guinea pig, rat), 466.  
methionine incorporation into protein, effect of diet and starvation (rat), 754.  
nicotinic acid synthesis (rat), 90.  
octanoate metabolism (rat), 182.  
propionate metabolism (rat), 1027.  
respiration, effect of tocoopherol in necrosis, 931.\*  
transmethylation, formation of creatine, role of folie acid and vitamin B<sub>12</sub>, 678.  
urea formation, effect of vitamin B<sub>2</sub> deprivation or deoxypyridoxine (rat), 94.  
Liver, smallest functional unit, 158.  
tissue, fractionation under pressure, vitamin B<sub>12</sub> distribution (calf), 952.  
transaminase activity, effect of vitamin B<sub>2</sub> (rat), 672.  
uptake of radio-active vitamin B<sub>12</sub>, test for absorption and intrinsic factor activity (man), 236.  
Liver vitamins (see under *Vitamins* and specific vitamins, e.g., *Riboflavin*; *Vitamin B<sub>12</sub>*)  
Liver and yeast extract, for pigs, 839.  
Liver, dried, effect on alcohol intake (rat), 177.  
Liver extract  
and nicotinic acid, effect on sulphur conjugation (rabbit), 943.  
growth factors for rats and yeasts, 106.  
insoluble, effect on resistance to X-ray exposure (rat), 686.  
tonic effects (man), 240.  
treatment of anaemia, megaloblastic, in pregnancy, 522.  
vitamin B<sub>12</sub> availability for *Bact. coli* mutant, 100.  
protection by iron against heat destruction, 951.  
Liver oils, fish (see under specific fish liver oils, e.g., *Cod liver oil*)  
Liver preparation, proteolysed, vitamin and amino-acid content, 936.  
Liver, refrigeration and cooking, effect on vitamin B content, 936.  
Livestock (see also *Animals* and specific animals, e.g., *Cattle*)  
and by-products, in commerce, 289.\*  
as source of food for man, role of nutrition, 292.  
breeding, selection for, effect of antibiotics, 815.  
cobalt requirement and function, 1142.\*  
digestion, physiology (book), 304.\*  
Livestock disorders  
abortion, caused by poor quality fishmeal (guinea pig, rat), 830.  
anaemia, treatment with cobalt, 963.  
caused by sugar beet pulp, 1128.\*  
copper and cobalt deficiencies, in Western Australia, 1129.  
due to deficiency or excess of trace elements, 544.  
nutritional disturbances, Germany, effect of supplement, 1130.\*  
osteomalacia in N. Australia, 294.\*

Protein(s)  
in diet, Near East, nutritive value for rats, 766.  
in dried grass, dried lucerne and concentrates, relative costs, 583.\*  
in fennugreek (*Trigonella foenum-graecum*, L.), seed, amino-acid composition, 913.  
in fish muscle, electrophoresis, 910.  
in flour, relation to viscosity of suspensions, 912.\*  
in *Galega officinalis*, L., seed and thallus, amino-acid composition, 913.  
in grasses, amino-acids, 62.  
and legumes, Canada, 60.  
in groundnut, review, 59.\*  
in herring meal, "whole" and ordinary, 639.  
in infant foods, digestibility *in vitro*, 697.  
in maize silage, effect of fertilisers, 63.  
in milk, human, 594.\*  
in nutrition, review, 146.\*  
in peas, effect of variety, 641.  
in pulses, nutritive value for rats, effect of germination, 431.  
in rice, nutritive value, improvement by addition of meat and fish protein (rat), 1040.\*  
in safflower seed cake, nutritive value for rats, 198.  
in soya seed, composition, effect of variety and season, 354.  
in sunflower seed, separation, 889.  
in tissues, amino-acid composition (dog, man, pig, rabbit, rat), 126.  
hydrolysis, 889.  
in urine, electrophoresis, 326.\*  
role of dietary protein (rat), 996.\*  
in wheat, in plots and rows, 912.  
in whey,  $\alpha$ -lactalbumin and  $\beta$ -lactoglobulin, preparation from ferritin, 26.\*  
studies, 909.  
incorporation of formate and glycine, effect of vitamin B deficiency (rabbit), 930.\*

Protein intake  
and source, relation to effect of aureomycin on growth (rat), 485.  
by chickens on free choice diet, 573.\*  
by children from nursery school lunches, effect of second helpings, 775.  
effect on atherosclerosis production on restricted diet (rabbit), 739.  
effect on blood plasma protein turnover (rat), 147.  
effect on blood pressure after kidney removal (rat), 149.  
effect on fat excretion (dog, rat), 155.  
effect on growth and reproduction (rat), 994.\*  
effect on hexachloronaphthalene toxicity (rat), 723.  
effect on kidney function (man), 429.  
effect on liver, 201.\*  
effect on liver cholesterol (rat), 433.  
effect on pantothenic acid and liver glycogen after adrenalectomy (rat), 675.  
effect on physical and neuro-psychological development (child), 774.  
effect on survival after adrenal removal (rat), 432.  
effect on tumours, experimental (rat), 755.  
effect on wound healing (rat), 998.  
high, in old age (man), 533.\*  
intolerance of goslings, 594.\*  
influence on effects of stilboestrol (rat), 723.  
lipotropic effect (rat), 721.  
low, effect of carotene on utilisation (man), 1060.

Protein intake, low  
effect of nicotinamide, with or without non-protein nitrogen, on growth (rat), 90.  
effect on xanthine oxidase in liver (rat), 965.\*  
produced by chlorine-low diet, 802.  
toxicity of sulphonamides (rat), 90.  
treatment of acute nephritis in children, 807.  
without energy restriction, treatment of obesity, 549.  
relation to liver damage, 429.\*

Protein(s), iodinated (see *Iodinated proteins*)  
leaf, biological value, 1141.\*  
concentrate, for poultry, 573.\*  
extract, assay, 1141.\*  
for pigs, 1141.\*  
extraction, 1141.\*  
for chickens, 1141.\*  
phosphatase, separation, 333.\*  
level in rations of fattening cattle, 551.\*  
lipid- (see *Lipoproteins*)  
lipotropic effect (rat), 158.  
liver cytoplasm, separation (rat), 326.\*

Protein metabolism (see also *Nitrogen metabolism*)  
(book), 302.  
and blood formation, review, 995.\*  
and potassium content of cells (animal and plant), 912.  
and vitamin B<sub>12</sub> (child), 594.\*  
and wool growth (sheep), 1141.\*  
effect of growth hormone preparations, 138.\*  
effect of stomach removal (dog), 997.  
endogenous, relation to protein intake, 719.  
exchange between tumour and host (rat), 467.  
in adults on mixed diet, India, 307.\*  
in cattle, 822.  
in kidney (rabbit), 753.  
in nephrotic syndrome (man), 430.  
in pregnancy (rat), 472.  
in structural elements of liver cell cytoplasm (rat), 1025.  
in surgical patients, 905.\*  
maternal and foetal (dog), 1032.  
problems of ageing, 477.\*  
relation of vitamin B<sub>12</sub> and riboflavin, 92.\*  
relation to ascorbic acid intake in production of scurvy (guineapig), 959.  
review, 502.\*

Protein(s), microbial in rumen, amino-acid content, 1141.\*

Protein(s), milk  
alcohol-soluble (mouse), 55.  
formation (goat), 474.  
human, Nigeria, 53.\*  
methine and tryptophan contents (cow, ewe), 638.

Proteins, nucleo- (see *Nucleoproteins*)  
nutritive values compared using *Tetrahymena* sp., 40\*, 478.  
evaluation of nitrogen balance and carcass analysis methods (rat), 996.  
for rats, effect of energy intake, 997.  
parenteral administration, effect on blood picture (mouse), 432.  
peptide formation and nutritive value, review, 146.\*  
phospho- (see *Phosphoproteins*)  
quality, effect on formation of vitamin B<sub>12</sub> in intestine (rat), 669.  
for maintenance and production in herbivores and carnivores, 813.  
in edible fish, India, 307.\*  
methods of assay, 44.

Protein requirements  
effect of age (rat), 432.\*  
effect of aureomycin (pig), 594.\*

Protein requirements  
of chickens, New Hampshire, 573.\*  
of fattening lambs, 1102.  
of goslings, 573.\*  
of pigs, 271, 563.\*  
baby, 562.\*  
effect of antibiotics, 595.\*  
effect of arsenic acid, 1109.  
in sub-tropics, 563.\*  
on lupine pasture, 563.\*  
studied by growth and self selection, 1105.

of poultry, 1116\*, 1142.\*  
of pregnant ewes, 560.\*  
of pregnant women, 1032.  
of turkey poult, 278.

Protein, selection in alloxan diabetes (rat), 1040.  
separation, 20\*, 24\*, 28, 888, 889, 889.\*  
source, and congenital malformations (rat), 380.  
effect on growth of rats deprived of vitamin B, 374.  
specific dynamic action, in summer and winter, 140.\*  
mechanism (man), 985.  
supplements, for children, effect on red cells and haemoglobin, 1070.  
for egg production, evaluation, 578.\*  
for fattening lambs, 1142.\*  
for pigs, 1142.\*  
animal, plant or mixed, Fiji, 1105.  
test meal, effect on blood amino nitrogen (child), 995.  
*Torula utilis*, threonine content, 634.  
type and amount in ration, effect on growth and incidence of diarrhoea in calves, 548.\*  
utilisation, by pigs, at different intake levels, 837.  
effect of antibiotics (rat), 485.  
effect of carotene intake, high (man), 1041.  
effect of fibre (rat), 996.\*  
effect of vitamin B<sub>12</sub> and antibiotics, 1142.\*  
vegetable, effect on lactation (rat), 101.  
in production of fatty liver (rat), 733.  
meals, effect on liver (dog), 430.  
nutritive value of mixtures (rat), 431.  
production of fatty liver, effect of amino-acids (rat), 725.

Protein, animal, factor  
deficiency, effect of choline (rat), 686.  
deprivation, and production of tumours (rat), 688.  
effect on growth of pigs, 1107.  
requirement for reproduction (rat), 958.

Protein hydrolysate(s) (see also *Protein hydrolysis*)  
absorption from intestine, Thiry loop (man), 967.\*  
barley, amino-acids, effect of storage, 624.  
casein, amino-acids, 624.  
tryptophan-free, preparation for production of nicotinic acid deficiency, 112.\*  
casein and fibroin, tryptophan conservation, 630.  
casein and pepsin, amino-acids and peptides containing phosphorus, 349.\*  
in treatment of anaemia, 1070.  
injected, utilisation, effect of fat emulsions (rat), 433.  
utilisation, effect of vitamin B<sub>12</sub> (man), 1069.  
when given by vein, effect of sugars, 720.

Protein hydrolysis, effect of sulphurous acid, 327.

Protein-vitamin paste, from green plants, for livestock, 1087.

- Proteinases (see *Proteases*)  
 Prothrombin, blood (see *Blood prothrombin*)  
 Protozoa, biochemistry and physiology (book), 1139.\*  
 effect of vitamins and hormones, 645.  
 intestine, review, 1037.\*  
 rumen (see under *Rumen*)  
 Provitamin A (see also *Carotene*; *Carotenoids*)  
 utilisation of carotenoids as (man), 785.\*  
 Provitamin D (see *Vitamin D precursors*)  
 Pseudocholesterase (see *Cholinesterase, pseudo*)  
 Psoriasis (see under *Skin disorders*)  
 Psychometric chart, for appreciation of climatic conditions, use, 629.  
 Pteridine, growth-promoting activity, 951.\*  
 2:4-diamino, as folic acid antagonists, 98.  
*Pteris aquilina* (see *Bracken*)  
 Pteric acid, derivatives, formation by *Streptococcus faecalis*, 950.\*  
 Pteroylglutamic acid(s) (see also *Folic acid*)  
 conversion to citrovorum factor by *Lactobacillus casei* extracts, 949.\*  
 deficiency, effect on ascorbic acid in spleen (chicken), 108.  
 maternal, effect on urinary system of embryos (rat), 678.  
 production of congenital cardiovascular disease during gestation (rat), 390.  
 metabolism, relation of nicotinamide metabolism (rat), 679.  
 Pteroylglutamic acid, amino-, production of folic acid deficiency, effect on embryo (rat), 950.\*  
 Pteroylglutamic acid, 4-amino-, effect on biosynthesis and metabolism of ascorbic acid (guinea pig, rat), 398.  
 effect on intestinal mucosa (rat), 99.  
 production of aplasia of bone marrow, effect of folic or folic acid, 98.  
 treatment of cancer (man), 183.  
 treatment of leukaemia (mouse), 98.  
 acute, infantile, 234.  
 Pteroylglutamic acid analogues, effect on ascorbic acid in spleen (chicken), 108.  
 Pteroylglutamic acid and derivatives, effect on interconversion of serine and glycine, 391.  
 Pteroylglutamic acid and homologues, 4-amino derivatives, effect on rats, 98.  
 Pteroylglutamic acid antagonists, effect of ascorbate from *Streptomyces griseus* broth (rat), 950.  
 Pteroylglutamic acid derivatives, formation by *Streptococcus faecalis*, 950.\*  
 Puberty, onset in boys of upper income group, U.K., 186.  
 Puerperium, anaemia, megaloblastic, treatment, 1066.  
 xanthurenic acid and kynurenine derivatives in urine after tryptophan (woman), 234.  
 Puerto Rico  
 diet, basic pattern, 502.\*  
 grasses, carrying capacities, 253.  
 mortality in pigs, pre-weaning, 843.  
 poultry meat production, cost, 860.  
 Pullets (see under *Poultry*)  
 Pulses (see *Legumes*)  
 Purna, fat, fatty acid composition, 638.  
 Pumpkins, for livestock, 256.  
 Puppies, growth, effect of bile deprivation, 661.\*  
 Purine(s)  
 formation, role of folic acid derivatives, 391.\*  
 intake, low, treatment of gout, 251.  
 Purine(s), nucleic acid, conversion to uric acid, in normal and gouty men, 154.  
 Purpura, thrombocytopenic (anymal), blood picture, effect of ascorbic acid and vitamin K, 1056.  
 diagnosis, differential, 1056.  
 vitamin C deficiency, 242.\*  
 Pyralgia, in adults, Sudan, 498.  
 Pyramin, estimation, 376.  
 Pyrazinamide, treatment of murine leprosy, 944.\*  
 Pyridine, 3-acetyl-, nicotinic acid and antinicotinic acid activities (dog), 942.  
 N<sup>1</sup>-methylated derivatives, excretion in urine in liver disease (man), 233.  
 Pyridine nucleotide(s) (see *Nucleotides, pyridine*)  
 Pyridoxal, estimation, 944.\*  
 inhibition of toxic effects of a substituted pyrimidine (mouse), 92.  
 phosphate (see also *Codcarboxylase*)  
 antagonism of toxopyrimidine phosphate, 385.  
 dephosphorylation, histochemical, 373.\*  
 effect on decarboxylation of cysteine sulphinate acid by homogenates, 946.  
 Pyridoxal enzymes, catalysis of amino-acid metabolism, 92.  
 Pyridoxine (see *Vitamin B<sub>6</sub>*)  
 deoxy-, effect on antibody production (rat), 673.  
 effect on urea formation in liver slices (rat), 94.  
 inhibition of enzyme systems, effect of testosterone, 673.  
 Pyrimidine(s)  
 derivative, toxic effects, inhibition by vitamin B<sub>6</sub> group, 92.  
 diamino-, substituted, clinical effects (man), 521.  
 2,4-diamino-, effect on folic acid metabolism and blood picture (dog, mouse, rat), 392.  
 Pyrimidine ribose nucleic acid and precursors, effect on calves, 595.\*  
 Pyriethamine, effect on cocarboxylase in blood and liver in vitamin B<sub>1</sub> deficiency (mouse), 667.  
 toxicity, effect of vitamin B<sub>12</sub> (monkey), 594.  
 triphospho-, effect on pyruvic acid dehydrogenase, 86.  
 neo-Pyriethamine, in vitamin B<sub>1</sub> deficiency, effect on sciatic nerve (rat), 938.  
 Pyroracemic acid, in teeth, healthy and carious (man), 132.  
 Pyruvate, effect on alcohol metabolism (rat), 462.  
 in blood (sheep), 1141.\*  
 effect of glucose (rabbit, sheep), 993.  
 oxidation, by epiphyseal cartilage *in vitro*, effect of vitamin D deficiency (rat), 75.  
 Pyruvic acid  
 as precursor of ascorbic acid in biosynthesis, 307.\*  
 decarboxylation, effect of thiamine pyrophosphate, 377.  
 effect on alcohol metabolism (sheep), 177.  
 in blood, effect of diet (rat), 733.  
 effect of pituitary gland removal and vitamin B<sub>1</sub> deprivation (rat), 664.  
 in diabetes (man), 717.  
 in heart failure, effect of vitamin B<sub>1</sub>, 1064.\*  
 in vitamin B<sub>1</sub> deprivation, relation of adrenal and pituitary glands (rat), 938.  
 in blood and tissues, separation, 620.\*  
 in blood and urine, effect of vitamin B<sub>1</sub> in normal subjects and patients with psoriasis, 231.  
 in cartilage, relation to rate of growth (rabbit), 938.  
 Pyruvic acid  
 in tissues, effect of oryzatoxin (pigeon), 373.  
 metabolism, in obesity, 717.  
 Pyruvic acid dehydrogenase, inhibition, 86.  
 QUAIL, bobwhite, vitamin B<sub>12</sub> requirement, 952.  
 egg production, effect of continuous light, 867.\*  
 Quercetin, metabolism (rabbit), 964.\*  
 Quinoa (quinoa) (see *Chenopodium quinoa*)  
 Quinoline derivatives, anti-oxidants for carotene, 651.  
 Quinolinic acid, conversion to nicotinic acid *in vitro*, 383.  
 RABBIT(s)  
 blood cholesterol, high, produced by diet, cause, 735.  
 blood serum proteins, 704.  
 choline deficiency, 463.  
 coprophagy, 966.  
 effect on sulphur uptake from sulphate, 175.  
 disorders, nutritional muscular dystrophy, 291.  
 energy metabolism, effect of fibre, 542.  
 Rabbit(s), feeding  
 anti-coccidiosis rations, 1115.  
 effect of antibiotics, 845.  
 requirements and feed utilisation, 845.  
 silkworm chrysalids, effect on fertility and growth of young, 1115.  
 U.S.S.R., 845.  
 Rabbit(s), heat regulation, effect of exercise, 990.  
 nutrient requirements, 1114.  
 sulphur metabolism, comparison with rats, 1023.\*  
 Ragwort, poisoning of cattle, liver biopsy, 209.\*  
 Ramie (*Boehmeria nivea*), composition, 916.  
 Range, for sheep in winter, America (U.S.), 1094.  
 Rape (*Brassica napus*), composition and yield, effects of phosphorus and sulphur, 354.  
 Rape cake meal, for pigs, 307.\*  
 Rapeseed meal, for chickens and poult, 876, 881.  
 goitrogenic effect (pig), 585.  
 Rapeseed oil, for geese, effect on quality of body fat, 855.  
 Rape silage, 632.  
 Rationing (see *Food rationing*)  
 Rat(s)  
 behaviour, effect of fasting, 770.  
 in protein deficiency, 721.\*  
 blood serum proteins, 412.\*  
 body water, total, in adults and weanlings, 707.  
 caries development, genetical differences, 457.\*  
 colostrum and milk, physical and chemical properties, 637.  
 conditioned reflexes and food selection, 768.\*  
 domesticated and wild, energy exchange, response to cold, 715.  
 effect of chronic vitamin B<sub>1</sub> deficiency, 383.  
 energy exchange, total, 987.  
 fate of successive parts of meal in stomach, 116.\*  
 fatty acid requirements for pregnancy and lactation, 439.  
 feeding behaviour, effect of size of group, 199.  
 food selection, during growth, pregnancy and lactation, 768.

## Rat(s)

- food selection, effect of exercise, 484.  
glucose assimilation, relation of blood sugar curve to dose injected, 718.  
growth, effect of exercise and X-ray exposure, 202.\*  
effect of glucose intake, 992.\*  
food utilisation and thyroid activity, effect of handling, 199.  
haemoglobin, reproduction and lactation, effect of methylchondium, 459.  
on human diets, 493.  
rapid, effect on lactation, 553.\*  
reproduction and lactation, effect of antibiotics, 1041.  
skeletal, relation to bodyweight, 759.  
growth and metabolism, effect of cobalt, 1029.\*  
growth and protein utilisation, effect of antibiotics, 485.  
growth and reproduction, effect of early malnutrition, 1031.  
effect of two stock diets, 484.  
growth capacity, after under feeding or chronic poisoning, 200.  
growth experiments, role of palatability of diet, 484.\*  
health, reproduction and longevity, effect of milk diets, 1039.  
infant, behaviour of milk in stomach, 118.\*  
kangaroo, *Dipodomys merriami*, creatinine and mannitol excretion, 154.  
lactation performance, effect of diet, 762.  
phenylalanine and tyrosine requirements, 1002.  
protein requirements, effect of age, 432.\*  
selection of purified foods in growth, pregnancy and lactation, 199.\*  
sulphur metabolism, comparison with rabbits, 1023.\*  
vitamin D balance, 367.\*  
wood (*Neotoma mexicana*), laboratory maintenance, 485.  
Redox dyes, vitamin E activity, 77.\*  
Reductase, DPNH-menadione, in *Streptococcus faecalis*, flavin requirement, 78.\*  
Refrigeration  
broccoli, effect on ascorbic acid, 112.  
citrus juice, effect on ascorbic acid, 112.  
fish, technique, 631.  
freeze-drying (see *Drying, freeze*)  
meat, effect on nutritive value and flavour, review, 903.\*  
Renal function (see *Kidney function*)  
Reproduction (see also *Fertility; Sterility; Pregnancy; Gestation; Lactation*)  
artificial insemination, value, in improvement of dairy cattle, 830.  
blood flow through intervillous space and placenta (woman), 189.  
carotene requirement (ewe), 70.  
cattle, inbred and outbred, America (U.S.), 553.\*  
congenital malformations (see *Malformations, congenital*)  
disorders, failure, causes and prevention (cow), 1142.\*  
possible relation to hypothyroidism (cow), 294.  
effect of animal or vegetable protein with antibiotics (pig), 566.  
effect of antibiotics (turkey), 579.  
effect of arsenic compound in diet (hen), 580.\*  
effect of aureomycin (cow), 594.\*  
in growth ration (hen), 580.\*  
effect of chlorophyll derivative (rat), 480.  
effect of choline deficiency (mouse), 463.  
effect of fat intake (bitch), 156.  
effect of forage juice factor (hen), 579.\*  
effect of full and limited feeding sequences (pig), 1110.

## Reproduction

- effect of gonistein in subterranean clover (sheep), 330.  
effect of gonistein (mouse), 473\*, 1033.  
effect of maize oil or butterfat with sulphahalalane (rat), 1006.\*  
effect of methylchondium (rat), 459.  
effect of nutrition on incidence of disorders (woman), 1049.  
effect of pantothenic acid (cow), 387.\*  
effect of protein-free amino-acid diets (rat), 958.  
effect of protein level and infant formula preparations (rat), 995.\*  
effect of selenium (rat), 761.  
effect of soya bean hay (rabbit), 584.  
effect of sun-cured alfalfa, 569.\*  
effect of thymol, carvacrol and guaiacol (rat), 660.  
effect of vitamin deficiency on offspring (sheep), 373.  
effect of vitamin B<sub>12</sub> intake (rat), 667.  
effect of vitamin B<sub>12</sub> (mouse), 954.  
effect of vitamin E (turkey), 932.  
effect of young dehydrated grass (bull), 557.  
effect on amino-acids in urine (woman), 150.  
in sheep, losses, U.K., 1104.  
ovulation induced by gonadotropic substances (goat), 761.  
parity, effect on infant mortality, 781.\*  
performance, relation to 24-week body measurements (poultry), 580.\*  
relation of pituitary, posterior, 983.\*  
riboflavin requirement (poultry), 381.\*  
role of adrenal cortex, 980.\*  
trends in risks (woman), 1055.\*  
Reproductive organs, effect of sex hormone implants (ewe, lamb), 560.\*  
Requirements (see also under specific nutrients, e.g., *Amino-acids; Antimicrobials, e.g., Sheep; and states, e.g., Reproduction*)  
energy, for maintenance (hon), 1123.  
nutritional, estimation, fallacies in experimentation, 772.  
of dogs, 276.  
of man, fallacy in analysis, 207.  
for amino-acid, 207.  
for riboflavin and vitamin B<sub>12</sub>, 307.\*  
recommended allowances, 1043, 1044.\*  
Australia, 490, 1044.  
soldiers in cold climate, 495.  
of pigs, 270.  
of poultry, 278.  
of rabbits, 845, 1114.  
of surgical patients, 772.\*  
fluid and electrolytes, 533.\*  
of woman during pregnancy, 214, 502, 1044.  
Research, results, application (book), 589.  
Resins, cation exchange, effect on sodium and potassium in intestine, 741.\*  
in small and large intestines (rat), 454.  
therapy, in children, production of tetany, 224.  
treatment of congestive heart failure, 541.  
treatment of nephrosis, effect on electrolyte metabolism, 1082.\*  
treatment of oedema or hypertension, 252.  
ion exchange, analysis, 19.\*  
removal of sodium in intestine (man), 741.  
sulphonic, effect on growth and mineral metabolism (rat), 165.  
Resistance to disease (see *Immunity; Infection*)  
Respiration experiments, apparatus (cattle), 337.  
Respiration, tissue (see *Tissue respiration*)  
Respiratory metabolism (see under *Energy exchange*)

## Reticulo-endothelial system, role in cholesterol metabolism (rat), 444.

- role in iron transport (man), 457.  
Retina (see under *Eye*)  
Retinoids, physiological action, 68.  
Réunion, infants, growth and nutritional disorders, 1057.  
Rheumatic diseases, glucosamine in blood (man), 126.  
Rheumatism (see also *Arthritis*)  
vitamin A in liver, 225.  
Rheumatoid arthritis (see *Arthritis, rheumatoid*)  
Rhodospira  
browns species, composition and palatability (livestock), 335.  
cattle fattening on Napier grass silage with supplements, 550.  
Southern, cattle, beef, breeding, suitable breeds, 818.  
incidence of endemic goitre, 594.\*  
kushniorki, 594.\*  
Rhodospira, in eye, measurement *in vivo* (man), 513.  
*Rhodotulula gracilis*, fat synthesis, effect of pH, temperature, and composition of medium, 52.  
Riboflavin  
absorption and excretion (rat), 380.  
and light-activated reactions, catalysis, 87.  
and phosphoric esters, chromatography and electrophoresis, 608.\*  
availability in live and non-viable yeast (man), 519.  
compound with protein, 380.  
Riboflavin deficiency  
and black down colour in embryo (chicken), 381.\*  
and congenital malformations (rat), 380.  
and thyroid and adrenal hormones, effect on adenosinephosphatase in liver and kidney (rat), 935.  
effect of adrenalin on carbohydrate metabolism (dog), 941.\*  
effect on 2-acetylaminofluorene-9-<sup>14</sup>C metabolism (rat), 88.  
effect on insulin sensitivity (rat), 88.  
effect on liver before and after partial hepatectomy (rat), 393.  
effect on nicotinic acid and tryptophan requirements (man, rat), 233.  
in children, production of fatty liver, 520.  
in Shiba-Gatichaki disease, 1065.  
Riboflavin, deprivation, effect on carbohydrate metabolism (rat), 88.  
derivatives, biochemical effects, 1142.\*  
effect on acetylation of sulphonamides, 917.  
estimation, 661, 668.  
excretion, effect of environmental temperature (dog), 668.  
in urine, normal and in disease (man), 520.  
normal and in diuresis and experimental diabetes (rat), 608.\*  
formation, by *Ashbya goswami*, incorporation of labelled <sup>14</sup>C compounds, 87, 380.  
by *Brennolactium ashbyi*, 86.  
in aortic tissue (man), 1065.  
in bile, effect of free and phosphorylated riboflavin (dog), 669.  
in blood, effect of thallium poisoning (rabbit), 941.  
in cereals and pulses, purebred strains, 307.\*  
in egg, relation to hen's diet, 82.  
in foods, 688.  
in herring meal, "whole" and ordinary, 639.  
in liver, frozen and cooked, 936.  
in rumen contents (calf), 936.

- Riboflavin**  
in rumen juice, effect of aureomycin (calf), 259.  
in skin, decomposition by light, inhibition by hydroxypteridine derivative (frog), 87.  
in wheat and parboiled wheat, Lebanon, 340.
- Riboflavin intake**  
effect on tissue enzymes and coenzymes containing riboflavin (rat), 87.  
high, effect on enlargement of organs produced by dimethylaminobenzene (rat), 941.
- Riboflavin, production from citrus molasses**, 86.  
relation to protein metabolism, 92.\*  
requirement (man), 307.\*  
of pigs, 941.  
of poultry for reproduction, 381.\*  
review, 668.\*  
separation by ion-exchange resins, 940.  
separation from flavin mononucleotide and flavin-adenine dinucleotide, technique, 380.\*  
solutions, effect of hydrogen ion concentration and of light, 87.  
supplement to diet low in animal protein, 307.\*  
synthesised in intestine, utilisation by poultry, 374.\*  
synthetic, effect on egg hatchability, 936.  
utilisation, effect of dietary protein, 307.\*
- Riboflavin, iso-, treatment of cancer (man)**, 183.
- Riboflavin phosphate, dephosphorylation, histochemical, 373.\***  
excretion in urine when given subcutaneously (rat), 462.  
separation from riboflavin and flavin-adenine dinucleotide, technique, 380.\*
- Riboflavin-5'-phosphate, biological activity**, 940.
- Riboflavin, phosphoric esters, and catalase**, 941.\*  
and phosphorylated fractions, 941.\*
- Riboflavin antagonist, effect on leucocytes of normal and Shay myeloid chloroleukaemic rats**, 869.\*
- Ribonucleic acid (see Nucleic acids)**
- Ribose, in urine, in muscle disorders (man)**, 426.
- Rice**  
and rice diets, FAO nutritional study, 306.  
and rice products, vitamin B<sub>1</sub>, estimation, 594.\*  
calcium and phosphorus absorption from, 1142.\*  
"calcaured", composition and nutritive value, 905.  
composition, and palatability, effect of storage, 342.  
varietal differences, effect on nutritive value of poor Indian diet (rat), 482.  
cultivation, in conjunction with fish culture, 860.\*  
FAO Commodity report No. 5, 593.\*  
industry, economic aspects, FAO meeting report, 693.  
milling, tests, 640.  
oryzatoxin, effect on pyruvic acid content of tissues (pigeon), 378.  
palatability test, British Guiana, 217.  
parboiled, loss of nutrients during washing and cooking, 594.\*  
storage, 342.  
polished, production of rickets-like condition in skeleton, calcium turnover (rat), 740.  
production, conditions, FAO survey, 593.
- Rice**  
proteins, biological value, effect of amino-acids and vitamin B<sub>12</sub> (rat), 958.\*  
nutritive value, improvement by addition of meat and fish protein (rat), 1040.\*  
raw and parboiled, amino-acids, 341.  
sugars, effect of parboiling and of storage, 640.  
substitutes, 217.\*  
trade, international, measures for stabilisation, FAO study, 1140.\*  
undermilled, storage, 342.  
vitamin B<sub>1</sub> content, effect of milling, 640.
- Rice bran (see Bran, rice)**
- Rice diet, treatment of degenerative disease**, 802.\*
- Rice germ, composition, and nutritive value for rats**, 483.
- Rice straw, alkali-treated for cattle, India**, 817.
- Rickets (see also Vitamin D deficiency)**  
amino-acids in blood (man), 527.  
amino-acids in urine, 787\*, 1061.\*  
and scurvy, comparative study (book), 591.  
antirachitic potency of irradiated milk (rat), 76.  
congenital, 514.  
effect of citrate on bone calcification *in vitro* (rat), 1016.  
effect of thyroxine (rat), 76.  
factor in green feed (vitamin A) producing in sheep, 308.\*  
healing, effect of whooping cough, 786.  
in Buntui, South Africa, 1141.\*  
in calves, detection by X-ray of ulnar epiphyseal cartilage, 366.  
in children, amino-acid excretion, 228.  
refractory to vitamin D, metabolic studies during treatment with massive doses, 786.  
in infants, effect of illness on development, 515.  
X-ray photographs, 515.  
in rats, effect on uptake of phosphorus by skeleton, 367.  
incidence, Sweden, 1090.\*  
prevention by fortification of milk, 515.  
prevention by irradiated milk (rat), 369.  
produced by diet after thyroparathyroidectomy (rat), 466.  
production, effect of calcium intake, low, review, 1059.\*  
prophylaxis, 1060.\*  
effect on eruption of teeth and closure of fontanelle (child), 227.  
renal, bone changes resistant to calcium and Vitamin D, 228.  
effect on blood magnesium, 787.  
terminology, 228.  
resistant to vitamin D, excretion of amino-acids, effect of methionine (child), 1061.  
metabolism studies, 1061.\*  
phosphate metabolism (child), 228, 1061.\*  
primary, effect of massive doses of vitamin D (child), 228.  
review of problem, 785.\*  
uptake of radio-active phosphate by bones (rat), 653.  
vitamin D, mode of action on rachitic cartilage, 307.\*  
with or without spasmophilia, blood alkaline phosphatase (infant), 227.  
rickets-preventing substance, obtained from cholesterol, 74, 367.  
Robaden, treatment of gastric ulcer, 534.  
Rodents, feed preferences, 571.  
Roe, salmon (see under Salmon)
- Roughage (see also Cellulose; Fibre)**  
digestibility, effect of level of carbohydrate feeding (cow), 543.  
effect of different amounts on digestibility of ration (sheep), 1083.  
effect on appendix (rabbit), 722.  
for dairy cows and buffaloes, importance and requirements, India, 1097.\*  
for winter feeding and maintenance (beef cattle), 543.\*  
low quality, digestibility, effect of aureomycin (sheep), 544.\*  
for beef production, 595.\*
- Rumen, biochemistry and microbiology**, 969.\*
- Rumen contents**  
antibiotic effect of extract, 480.  
consistency, relation to blood and to flowering stage of alfalfa (sheep), 115.  
dried, in milk replacements for calves, 543\*, 816.  
riboflavin and vitamin B<sub>1</sub> content (calf), 936.  
vitamin B<sub>12</sub>, effect of cobalt (sheep), 685.
- Rumen, detachment from peritoneum (cow)**, 42.
- Rumen development, effect of feeding and management practices**, 1142.
- Rumen, digestion, and synthesis, effect of antibiotics**, 1142.\*  
buffering systems (sheep), 969.  
disorders, rumenitis, relation to rate of change to fattening ration and ratio of hay to concentrates (cattle), 289.

propionic acid metabolism (sheep), 182.\*  
transfer of chloride ions, 183.\*
- Rumen, fatty acids, volatile (sheep)**, 118.  
fermentation of pentoses, 969.\*  
fermentation products, absorption, study by portal blood analysis, 969.\*  
fill, association with liveweight (cow), 553.\*  
fistula, plug (sheep), 43.  
gases, composition (sheep), 118.  
 $\beta$ -glucosidase, 405.\*  
hydrogen ion concentration, effect of A.I.V. alfalfa silage (sheep), 697.
- Rumen inoculation, for calves**, 1142.\*  
substitutes, 238.  
studies with cattle and sheep, 548.\*
- Rumen, juices, effective buoyancy, effect of type of feed (cow)**, 969.
- Rumen, micro-organisms**  
ammonia production from feedingstuffs, 479.\*  
anaerobic Gram-negative, isolation (calf, sheep), 479.  
*Bacteroides succinogenes*, fatty acids as growth factors, 764.  
cellulose digestion, effect of fatty acids, 480.\*  
effect of protein hydrolysate preparations, 480.\*  
effect of stilbestrol, oestrone or cholesterol, 407.  
*in vitro*, 195.  
cellulose and protein digestion, effect of fat (sheep), 480.  
cellulose-fermenting rods, 479.  
*Corynebacterium* utilising lactate, 1038.  
diethylstilbestrol metabolism, 480.\*  
digestion of alfalfa hay *in vitro*, 195.  
effect of antibiotics (beef steers), 813.  
*in vitro*, 765.  
effect of aureomycin (calf), 195.  
and different hay to grain ratios (calf), 259.  
effect of carbon substances *in vitro*, 480.\*  
enzymes, glucuronidase decomposing, 333.

## Rumen, micro-organisms

- function and importance in nutrition, review, 1038.\*  
 glucuronidase, 496.  
 growth factors, 480.\*  
 lactobacilli from young calves, 194.  
 lipid composition (sheep), 1038.  
 penicillin as growth factor, 947.  
 production of lactic acid and iodine-staining polysaccharide, 765.  
 proteolytic bacteria (sheep), 1038.  
 release of ammonia from different feeds, 765.  
 requirements for cellulose digestion, 195.  
 streptococci in calves, 764.  
 urea and protein meals as sources of nitrogen, 479.  
 utilisation of nitrogen compounds, 196.  
 utilisation of seaweed carbohydrates *in vitro*, 196.  
 vitamin B complex components formation, cellulose digestion, urea utilisation *in vitro*, 80.  
 Rumen motility, effect of choline and its esters (sheep), 499.  
 effect of mineral ions (sheep), 969.\*  
 effect of rumination, sleep and injected fatty acids (sheep), 407.  
 Rumen, nitrogen digestion between protozoa and bacteria, 1141.\*  
 nitrogen metabolism, 969.\*  
 protozoa, effect of diet, 499.  
 synthesis of vitamin  $H_2$  (cow), 885.  
 temperature, effect of diet (sheep), 118.  
 effect of feeding and fasting (cow), 118.  
 vitamin formation, effect of diet (sheep), 374.  
 Rumex (product from dried rumen contents), for calves, 647.  
 Ruminants  
 abnormal lactobacilli in milk-fed calves and kids, 764.  
 continuous stomach secretion, 697.  
 digestibility of feedstuffs, estimation by indirect methods, 1142.\*  
 digestion of protein and nitrogenous compounds, 813.\*  
 disorders, bloat, treatment with anti-foaming agents, 290.\*  
 ketosis, causes and prevention, 1142.\*  
 treatment with glycerol and propylene glycol, 295.  
 Manchester wasting disease, 296.\*  
 rumenitis, relation to change in diet (cattle), 289.  
 eructation, 117.  
 feeding, antibiotics, bacteriological and growth studies, 544.\*  
 helioma, 546.  
 nitrogen compounds, evaluation, microbiological, 196.  
 intake of dry matter, effect of percentage dry matter in ration, 256.  
 nitrogen content of digesta, changes from rumen to duodenum, 697.  
 stomach, physiology and pharmacodynamics, review, 407.\*  
 toxic substances in rumen, 298.  
 vitamin A formation in intestine, 662.\*  
 Rumination, mechanism (cattle), 117.  
 physiology and biochemistry, review, 407.\*  
 processes, 1141.\*  
 Russia (see *Union of Socialist Soviet Republics*)  
 Rutabaga (see *Sweede turnips*)  
 Rutin  
 effect on action of dextran on tissue permeability, 402.  
 effect on ascorbic content of blood after administration of radio-active ascorbic (rabbit), 693.  
 effect on blood pressure (dog), 402.  
 effect on healing of experimental corneal ulcers (rabbit), 692.

## Rutin

- effect on injury by cold (rat), 964.\*  
 metabolism (rabbit), 964.\*  
 protection against anaphylactic shock (rabbit), 964.  
 treatment of eye disorders, effect on capillary fragility (man), 1072.  
 Rye, as sole diet, production of osteoporosis, calcium turnover (rat), 740.  
 green, digestibility (sheep), 1085.  
 winter, nutritive value as fodder, 257.  
 Rye bread, acids, organic, 341.  
 acidity, effect of temperature of dough fermentation, 341.  
 Rye flour, proteins, precipitation, 889.\*  
 "vitahau" milled, acidity, 48.\*  
 whole, digestibility, effect of degree of disintegration and type of milling (rat), 48.  
 proteins, nutritive value for rats, 482.  
 Rye gliadin, amino-acids, N-terminal, 353.  
 Ryegrass, fluorine content, effect of atmospheric fluorine, 61.  
 perennial (*Lolium perenne*), isolation of p-mannitol, 329.  
 polysaccharides, cell-wall, effect of ensiling, 50.  
 wilted, amino-acids, 62.  
*Saccharomyces cerevisiae*, composition, 642.  
 unsaturated fatty acid requirement, 194.\*  
 Safflower, for game birds, 60.\*  
 meal, for fattening lambs, 1103.  
 seed oats, nutritive value for rats, 198.  
 seed oil, digestibility (rat), 767.  
 Salicylic acid, effect on ascorbic acid in adrenals after removal of pituitary gland (rat), 961.\*  
 Saliva  
 amino-acids, free (man), 977.\*  
 calcium, phosphorus and magnesium content, in caries-active and caries-resistant subjects, 977.  
 electrolytes (man), 977.\*  
 enzymes, distribution and origin (man), 87.\*  
 lactobacillus counts, effect of carbohydrate restriction, 799.  
 relation to caries before and after fluoridation of drinking water, 1074.  
 parotid, composition (man), 128.\*  
 phosphatase, relation to calculus and lactobacillus counts (man), 115.\*  
 sodium and potassium content (child, man), 128, 977.\*  
 tryptophan content, relation to caries incidence (man), 243.  
 Salivary gland, parotid, secretion, effect on caries incidence (rat), 204.\*  
 removal, effects (rat), 487.\*  
 role in iodine metabolism (rat), 456.  
 Salivation, reflexes, effect of diet and insulin, 405.\*  
 Salmon, roe, amino-acid content, 205.  
 sockeye (*Oncorhynchus nerka*) offal oil, fatty acid composition, 351.  
 Salt (see also *Sodium chloride*)  
 and water metabolism, review, 165.\*  
 depletion, effects (man), 533.  
 in treatment of disease, review, 533.\*  
 estimation, in bread, 34.  
 in protein-containing foods, 332.  
 Salt intake  
 effect on adrenal in hypertension (man, rat), 709.  
 effect on adrenal weight (rat), 454.  
 effect on work performance in hot and humid environment (man), 741.\*  
 excessive, effect on blood pressure, plasma volume and bodyweight (man), 221.

## Salt intake

- Japanese, 1142.\*  
 low, in high blood pressure, effect on adrenal histology (man, rat), 170.\*  
 relation to peripheral circulation and incidence of disease, 221.  
 Salt, ingestion, technique, 345.  
 iodised (see *iodised salt*)  
 metabolism, effect of starvation (sheep), 741.  
 poisoning of pigs, 586.  
 removal from biological fluids, 613.  
 requirement of poultry, 574.  
 Sals, ingestion (see *Minerals*)  
 Samoa (see *Ghee*)  
 Samoa, diet study, 213.  
 Sanguinarine (see *Argemone oil*)  
 Saponins, in alfalfa and soya beans, effect on growth (chicken), 284.  
 Saproel, for pigs, 843.  
 Sarcoidosis, calcium metabolism, effect of cortisone and vitamin D (man), 516.  
 Sarcoma (see *Tumour*)  
 Sardine meal, nutritive value (chicken, pig, rat), 545.  
 Satiety, in cows at pasture and in stall, 1097.  
 Sausages, dry, processing, use of micro-organisms, 630.  
 Sawfish (*Pristis cuspidatus*) liver oil, fatty acids, 351.  
 Sealding, vegetables (see *Blanching*)  
*Schilbeoides mollis* (see *Flatfish*)  
 School meals  
 America (U.S.), new type menus, 215.  
 effect of intake of protein and minerals, effect of second helpings, 775.  
 Sclerosis, multiple (see under *Nervous system, central, disorders*)  
*Scorpiurus mureticus* L., var. *subvelatus*, composition and digestibility, 811.  
 Seury (see also *Vitamin C deficiency*)  
 24.  
 America (U.S.), 1819-1820, 797.  
 amino-acids, excretion (chick), 787.  
 in blood (man), 527.  
 in urine, 787.\*  
 as skeletal disease (book), 591.  
 blood glycoproteins (guinea-pig), 108.  
 blood picture (guinea-pig), 398.  
 cartilage metabolism (guinea-pig), 109.  
 effect on acetylation of p-aminobenzoic acid and cholesterol in organs (guinea-pig), 110.  
 effect on corticosteroids in adrenals (guinea-pig), 399, 961.\*  
 effect on enzymes in adrenals (guinea-pig), 960.  
 effect on excretion of corticosteroids and 17-ketosteroids (guinea-pig), 961.  
 effect on hexamine content of tissues (guinea-pig), 959.  
 effect on incorporation of sulphate in blood platelets and wounds (guinea-pig), 960.\*  
 effect on magnesium content of teeth and bone (guinea-pig), 108.  
 effect on sulphate and phosphorus uptake by tissues (guinea-pig), 459.  
 glycogen deposition in liver, corticosteroids and ascorbic acid relationship (guinea-pig), 109.\*  
 effect of fructose, glucose or alanine (guinea-pig), 959.  
 histochemical changes, 108.\*  
 in children, India, 797.  
 in infants, 525, 526.  
 eye disorders, 240.\*  
 in negro adults, South Africa, 526.  
 in old age, new report, 526.  
 incidence, U.K., 797.  
 relation of protein intake to ascorbic acid intake in production (guinea-pig), 959.

- on ration containing chlorinated naphthalene (cattle), 585.\*
- role of vitamin A (farm animals), 647.
- keratoma, cause, treatment (man), 513.\*
- keratosis pilaris, review, 614.\*
- lipus vulgaris*, treatment, 788.
- parakeratosis, role of zinc deficiency (pig), 1130.
- phrynodermia, effect of vitamin B<sub>6</sub> on fat metabolism, 701.
- pigmentation lack in African children, 511.
- psoriasis, effect on vitamin B<sub>12</sub> and pyruvic acid excretion, 231.
- treatment with vitamin A palmitate, 514.
- treatment with vitamin B<sub>6</sub> and manganese, 1065.
- treatment by diet modifying acid base equilibrium (man), 749.
- treatment with vitamins, 541.\*
- treatment with vitamin A, 785.\*
- Skin, follicle development, relation to growth (sheep), 1031.\*
- haemorrhages, produced by negative pressure, diagnostic value, 527.
- lipid metabolism *in vitro* (man), 1026.
- melanin formation, review, 467.\*
- permeability, in fatty acid deficiency, 441.\*
- pigmentation, effect on vitamin deficiency disease (farm animals), 65.
- riboflavin, decomposition by light, inhibition by hydroxypteridine derivative (frog), 87.
- water loss by diffusion (man), 750.\*
- xanthine oxidase, changes with age (rat), 965.
- Skin flakes, non-keratins (bird and mammal), 978.
- Skinfold measurements, effect of obesity (man), 1054.
- Skinfold thickness, measurement, caliper, 43.\*
- Snaks, *Bothrops jararaca*, blood, flavo-proteins, 942.
- Snaw, instead of water, effect on egg production of pullets, 1125.

## Sodium

balance with potassium in blood red cells, 467.\*  
 body, in acromegaly, 137.\*  
 total exchangeable (dog, man), 452.  
 deficiency, in cattle, Netherlands, 1127  
 estimation, 321.\*  
 in biological material, 623.  
 in blood, 896.  
 in blood (rat), 331.  
 in blood and glomerular fluid, 896.\*  
 in blood serum, 35\*, 30\*, 322.  
 in blood serum and organs, 36.\*  
 in bone, 621, 623.  
 in foodstuffs, India, 307.\*  
 in tissue, 34.  
 in urine, 37.  
 separation from potassium in blood, 43.  
 exchange on cation exchange resins in small and large intestines (rat), 454.  
 exchangeable, body, measurement, 43.  
 effect of restricted sodium intake in hypertension (man), 541.  
 estimation (man), 44, 623.  
 excretion, in urine, during treatment of high blood pressure with glucose, 252.  
 relation to blood pressure (man), 1018.  
 in blood, effect of potassium chloride (dog), 1018.  
 low, in cardiac deceleration (man), 533.  
 relation to oedema, 1018.  
 in blood plasma and red cells, relation to age and blood pressure (rabbit), 976.\*  
 in bone, effect of sodium depletion (rat), 168.  
 in foods, 808.\*  
 in intestine, effect of cation exchange resin, 741.\*  
 in red cells, during dehydration, 976.\*  
 in saliva (child), 977.\*  
 (man), 977.\*  
 variations (man), 128.  
 in tissues, abnormalities, pathogenesis and treatment, review, 1013.\*  
 incorporation into bones and teeth (rat), 742.  
 intake, influence on production of high blood pressure by deoxycorticosterone (rat), 133.  
 low, and electrolytes in contents of terminal ileum (dog), 700.  
 planning of meals, 802.\*  
 use of beer in diet, 802.\*  
 restricted, bases of use of diets, 533.\*  
 in hypertension, effect on total exchangeable sodium and potassium (man), 541.  
 electrolyte loss from skin, 1018.\*  
 in treatment of disease, 807.  
 in treatment of essential hypertension, 808.  
 in treatment of nephrosis, 807.  
 sodium, potassium and chloride content of 200 mg. sodium diet, 623.  
 standard diet, 808.\*  
 use of beer in diet, 533.  
 localisation in blood (rat), 1018.  
 metabolism (man), 108, 741.\*  
 in young catfish, 522.  
 radio-active, absorption in tropical sprue and idiopathic steatorrhoea, 408.\*  
 removal by ion exchange resin (man), 741.  
 retention, by kidney, test, 44.\*  
 in shock or stress, treatment (man), 246.  
 test load, effect of sodium restriction (man), 169.  
 total exchangeable, distribution in adults (man), 453.

Sodium acetate, effect on milk and fat yield and on blood sugar and ketones (cow), 1096.  
 Sodium bentonite, adsorption of vitamin A, 363.  
 effect on vitamin A in liver (rat), 362.  
 Sodium bicarbonate, estimation in self-raising flour, 894.  
 prolonged administration, effects in stomach disorders (man), 460.  
 Sodium bisulphite, treatment of silage, 632, 819.  
 Sodium chloride (see also *Salt*)  
 absorption (dog), 117.  
 effect on energy exchange, in normal subjects and those with Addison's disease, 713.  
 for turkey poult, effect on growth and moisture content of carcass, 284.  
 in tomato juice, canned, 691.  
 metabolism, effect of adrenal removal (man), 681.\*  
 production of oedema in potassium-depleted subject, 1018.  
 production of polyarthritis nodosa in rats with high blood pressure, 454.  
 rations high in, effect on sheep and beef cattle, 1103.  
 requirement of industrial workers in hot environment, Hungary, 772.  
 role in production of goitre by diet low in iodine (mouse), 983.  
 taste threshold (normal and hypertensive rats), 1019.\*  
 Sodium ethyl oxalacetate, treatment of hypoglycaemia and ketonuria, 586.\*  
 Sodium fluoride, effect on kidney function (dog), 746.\*  
 Sodium nicotinate, effect on heart *in vitro* (toad), 670.  
 Sodium salicylate, effect on vitamin B<sub>1</sub> excretion (man), 232.  
 Sodium stela, infusion, effect on water and electrolytes in organs, 741.\*  
 Soils, analysis, spectrographic, 885.\*  
 conservation, 858.  
 trace elements, U.S., 915.  
 Solids-not-fat, milk (see under *Milk*)  
 Somaliland, British, animal industry, 583.  
 animal husbandry and diseases, 570.  
 French, anaemia, deficiency, in pregnancy (woman), 233.  
 Italian, goats, liveweight, slaughter weight and weight of body parts, 571.\*  
 Somatotropin (see *Pituitary, anterior, growth hormone*)  
 Sorbitol, effect on ketosis (rat), 904.  
 metabolism, in alloxan diabetes (rat), 719.  
 Sorghum (see also *Millet*)  
 Sorghum flour, and middlings, composition, Nigeria, 342.  
 in composite vermifoli, as replacement for rice for children, 493.  
 Sorghum grain, for laying hens, 503.\*  
 milling, 342.  
 South Africa  
 agricultural foundations of nutrition, 218, 505, 789, 1053.  
 atherosclerosis, relation to blood cholesterol level (man), 443.  
 Bantu, bone composition and histopathology, 416.  
 calcium metabolism, 1141.\*  
 iron metabolism, 1141.\*  
 beef production, possibilities for expansion, 583.  
 blindness and malnutrition in Cape Province, 511.  
 children, health, 508.  
 nursery-school, growth, effect of income and race, 185.

## South Africa

Food balance sheet, 1053.  
 infants, Bantu, effect on weight of interval after birth to first feed, 491.  
 food preparations used by urban Bantu mothers, 773.  
 nutritional studies, 1141.\*  
 malnutrition and psychosis (woman), 224.  
 milk, human, Bantu and European, methionine content, 907.  
 nutrition, Bantu, 347.  
 pilchard, oil, fatty acids, 31.  
 scurvy, in negro adults, 526.  
 seaweeds, composition, seasonal variations, 914.  
 South America (see *America, South, and specific countries, e.g., Argentina*)  
 Southern Rhodesia  
 goitre, endemic, 594.\*  
 kwashiorkor, 594.\*  
 tempe (fermented soya bean) production, 594.\*  
 Sows (see also *Pigs*)  
 bred once only and then fattened, effect on meat and fat production, 843.  
 colostrum, composition, 636.  
 milk, composition, 636.  
 pregnant, effect of vitamin B<sub>12</sub>, 594.\*  
 feeding, alfalfa, 594.\*  
 reproduction, effect of pantothenic acid, 387.\*  
 reproduction and lactation, effect of aureomycin, 594.\*  
 Soya bean  
 composition, effect of variety and season, 354.  
 effect on carotene and vitamin A in blood (calf), 364.  
 protein, composition, effect of variety and season, 354.  
 raw, inhibitory compounds for bacteria, 1038.\*  
 substitute for milk in infant feeding, 774.  
 Soya bean cake, nutritive value for pigs and rats, effect of heat treatment, 198.  
 Soya bean flour, effect on nutritive value of wheat flour diets for rats, 482.  
 Soya bean hay, effect on reproduction (rabbit), 684.  
 Soya bean meal, effect on body fat composition (rat), 441.  
 for chickens, effects of insufficient heat treatment overcome by addition of methionine, 848.  
 quality, evaluation, 334.  
 raw, effect on indican excretion (rat), 1024.\*  
 release of ammonia by rumen micro-organisms, 765.  
 supplement for fattening lambs, compared with urea, 531.  
 trichloroacetic acid-extracted, production of haemorrhage, 1134.\*  
 toxicity for calves, 1134.  
 with urea, for fattening bullocks, 1093.  
 for pregnant ewes, 1100.  
 Soya bean oil, tocopherol, loss after aeration in glass or iron tubes, 933.  
 Soya bean paste (miso), enriched, stability of vitamin A, 1142.\*  
 Soya bean sterols (see under *Sterols*)  
 Spain  
 feedstuffs, composition, 634.  
 growth of adolescents in rural school, 186.  
 growth of schoolboys, 186.  
 index numbers in agriculture, 860.\*  
 pig rearing, 835, A, 1142.\*  
 wine consumption, methods of increasing, 217.\*  
 Specific dynamic action (see under *Energy exchange*)

- Spelt (cereal), composition and nutritive value for livestock, 814.
- Sperm, quality, effect of mineral additions to ration (bull), 267.
- Spinal cord (see *Nervous system, central*)
- Spleen  
ascorbic acid content, effect of pteroyl-glutamic acid and derivatives (chicken), 108.
- Effect of vitamin A deficiency (rat), 68.
- Sprue  
blood sugar tolerance, effect of carbohydrate intake (man), 143.
- experiences with Schilling test using vitamin B<sub>12</sub> labelled with <sup>54</sup>Co, 795.\*
- treatment with gluten-free diet, 535, 804.
- treatment with wheat-free diet, 247.
- tropical, sodium absorption, 408.
- Squalene, effect on atherosclerosis produced by cholesterol (rabbit), 161.
- effect on incorporation of acetate into cholesterol (man), 1010.
- injection, effect on response to gonadotropin (chicken), 90.\*
- requirement for lactation (rat), 1034.
- Stachys annua* (see *Nettle*)
- Star thistle, yellow, cause of encephalomalacia in horses, 280.
- Starch  
breakdown, by digestive tract micro-organisms (hen), 481.\*
- cereals and potato, breakdown by duodenal enzymes *in vitro* (man), 408.
- estimation in apples, 323.\*
- in potatoes, effect of storage temperature, 640.
- relation to texture, 913.\*
- in ration of cows, effect of type on milk and butterfat production, 825.
- maize, wheat, potato and sweet potato, nutritive value (poultry), 198.
- potato (see *Potato starch*)
- wheat (see *Wheat starch*)
- Starch value, basis, critical remarks, 1083.\*
- Starvation (see also *Fasting; Under-feeding*)  
and refeeding, effects (rat), 484.
- differentiation from hypopituitary cachexia (man), 137.
- during growth, effect on organ weights and water content (rat), 120.
- effect on capillary resistance and eosinophil count (dog, rat), 409.
- effect on cholesterol in blood, influence of refeeding (man), 975.\*
- effect on lymphoid tissue and alkali reserve (rat), 201.
- effect on water and salt metabolism (sheep), 741.
- effect on work performance (man), 985.\*
- fat deposition in liver (mouse), 1009.
- metabolism, effect of adrenal cortex (rat), 132.
- protein breakdown, effect of hormones (dog), 147.
- Statistical methods, agriculture, collection of data, FAO manual, 869.
- calculation of egg weight, 629.
- factor analysis of growth, 629.
- for dietary surveys, 210.\*
- in chick nutrition experiments, 338.\*
- in nutrition studies, 338\*, 901.\*
- prophylactic and therapeutic trials, sequential tests, 338.
- Stearic acid, and its glycerol esters, digestibility by rats, 158.
- 2:2-dimethyl-, absorption and metabolism (rat), 441.
- Stomatitis, in cats, treatment with vitamin B, 77.
- Steatorrhea  
and Milkman-Looser syndrome, treatment, 635.
- ascorbic and hydroxyphenylic acids, excretion, 528.
- association with digestive tract and liver disorders, 535.
- fat excretion, total, 625.
- idiopathic, sodium absorption, 408.
- Steers (see *Cattle, beef*)
- Sterility (see also *Fertility; Reproduction*)  
in cows, effect of trace element supplement, 1120.
- treatment of genital infections with vitamin A, 361.
- in goats, Germany, 584.
- in man, effect of vitamins A and E, 229.
- in rats, effect of cereal in diet, 932.
- in women, relation to incidence of goitre, 536.
- non-specific, in cattle, effect of environment, 800.
- Steroids, adrenal, effect of ascorbic acid and oxygen *in vitro*, 398.
- role in protein formation, 132.\*
- adrenal cortex, excretion, normal and in scurvy (guinea pig), 901.
- metabolism in scurvy, 901.\*
- effect on metabolism of liver homogenates (rat), 180.
- excretion, effect of ascorbic acid (rat), 110.
- effect of injected vitamin B<sub>12</sub>, 240.
- for fattening cattle, 552.\*
- for fattening lambs, 560.\*
- keto, in adrenal cortex, histochemical behaviour after body irradiation (rabbit), 690.
- 17-keto-, excretion, effect of X-ray exposure (man), 233.
- in fluorosis (man), 245.
- in scurvy (guinea pig), 901.
- relation to potassium absorption and excretion (man), 1018.\*
- 17-keto- and cortico-, excretion after carboxylase (man), 519.
- separation, 34.\*
- Sterols (see also specific sterols, e.g., *Cholesterol*)  
and sterol esters, effect on cholesterol in blood and liver (chicken), 445.
- in fats and oils, 346.
- metabolism (rabbit), 444.
- in pernicious anaemia (man), 734.
- plant, effect on cholesterol metabolism, 1012.\*
- separation, 34.\*
- soya bean, effect on cholesterol absorption (rat), 700.
- effect on cholesterol deposition in liver (rat), 445.
- effect on cholesterol metabolism (rat), 445.
- esterification *in vitro*, and effect on blood cholesterol (rabbit, rat), 163.
- Sterol,  $\beta$ -sito-, effect on blood cholesterol (man), 163.
- Stiff lamb disease, in New Zealand, 290.
- relation to feeding and management, 1143.\*
- Stigmastanol, treatment of muscular disorders, 1062.
- Stilboestrol, toxic effects (pig), 839.
- Stomach (see also *Digestive tract*)  
acid formation and control, review, 407.\*
- acidity (see also *Stomach acidity*)  
increased, treatment, 247.\*
- measurement without use of stomach acid, 635.\*
- cancer (see under *Cancer*)  
compartments, in calves, post-partum development, 595.\*
- contents, amino-acids during fasting and protein digestion (dog, man), 696.
- Stomach  
digestion of milk (infant rat), 116.\*
- disorders, achlorhydria, absorption of vitamin B<sub>12</sub> (man), 237.
- dyspepsia, produced by vitamin A deficiency, treatment (cell), 640.
- gastritis (hock), 1139.
- pyloric stenosis, effect of sodium bicarbonate, prolonged administration (man), 460.
- distribution of successive parts of meal (rat), 116.\*
- emptying, and secretion, effect of cocoa (man), 966.
- effect of volume of meal (man), 696.
- measurement and normal values (man), 42.\*
- relation to albumin in blood (rat), 116.\*
- function, effect of alcohol (man), 1053.\*
- histology in pernicious anaemia, 237.
- hydrogen ion concentration during digestion (man), 115.
- motility and secretion, effect of tea (man), 116.
- mucin, estimation, review, 42.
- intusussusception, in study of anaemia, 237.
- driven and vitamin B<sub>12</sub>, treatment of pernicious anaemia, 793.
- extract, vitamin B<sub>12</sub> binding substance (pig), 553.
- removal, alimentary collapse produced by endogenous causes, 248.
- diets after operation, 534, 802.
- effect on blood picture (man), 803.
- effect on digestion (man), 116.
- effect on digestion and absorption (dog), 406.
- effect on enzymes in duodenal secretion and faeces, 904.\*
- effect on excretion of vitamin B<sub>12</sub> (man), 523.
- effect on fat absorption and iron metabolism (man), 968.
- effect on protein and fat assimilation (dog), 407.
- effect on radio-activity excretion after administration of labelled vitamin B<sub>12</sub> (man), 236.
- effect on vitamin A absorption (man), 226.
- effect on vitamin B<sub>12</sub> absorption (man), 237, 524.
- jejunal segment as replacement (man), 248.
- partial, dietary regimen, 534.
- effect on bodyweight (man), 248.
- total, production of vitamin B<sub>12</sub> deficiency, 1067.\*
- total or partial, clinical and metabolic study (man), 248.
- treatment of dumping syndrome (man), 1078.
- treatment of loss of weight (man), 248.
- ruminant, physiology and pharmacokinetics, review, 407.
- secretion (see also *Stomach acidity*)  
amino-acids content (man), 966.
- basal (dog), 696.
- continuous (goat, sheep), 697.
- effect of ascorbic acid, normal and prescurvilline guinea pigs, 902.
- effect of insulin (man), 696.
- effect of sucrose in patients with peptic ulcers, 406.
- protein digestion, in duodenal ulcer (man), 696.
- role of duodenin (dog), 966.
- substance affecting blood composition (man), 538.
- vitamin B<sub>12</sub>-binding capacity, 237.
- silver-staining cells, in pernicious anaemia (man), 709.
- tumour (see under *Tumours*)  
ulcer (see under *Ulcer*)

## Storage

- acorns, effect on vitamin C, 111.  
 alfalfa, N, N'-diphenylhexamethylene-  
 diamine as anti-oxidant for carotene, 365.  
 cabbage, canned, effect on ascorbic acid, 692.  
 cold (see Refrigeration)  
 cottonseed meals and mixed rations, effect on gossypol content, 631.  
 eggs from hens fed on cottonseed meal, migration of ovalbumin from white to yolk, 573.  
 feedstuffs, dehydrated, stability of carotene and vitamin E, after removal from storage, 933.  
 flour, effect on lipids, 48.  
 ghee, effect of feed on vitamin A, 650.  
 groundnut flour, tapioca flour and mixtures, 905.  
 legumes, Indian, effect on sugars, 343.  
 matjesherring, 340.  
 potatoes, effect of temperature on sugars and starches, 640.  
 effect on vitamin C, 692.  
 poultry meat, effect of fat in ration, 574.\*  
 rice, effect on sugars, 640.  
 husked, undermilled and milled, effect on composition and palatability, 342.  
 parboiled, 342.  
 undermilled, 342.  
 vegetables, frozen, effect on lipids, 342.  
 vitamin mixtures for chickens, 925.  
 Straw (see also under specific type, e.g., oat straw)  
 alkali-treated, for cattle, 817.  
 feeding value, improvement, 815.\*  
 Strawberry nurse, keeping quality, effect of adding sugar or ascorbic acid, 49.\*  
*Streptococcus faecalis*, aspartic acid and lysine metabolism, 478.\*  
 effect of methionine stereoisomers and derivatives, 194.  
 flavin requirement for DPNH-reductase, 79.\*  
 formation of D-methionine from L-methionine, 194.  
 formation of pterioic and pterylglutamic acid derivatives, 950.\*  
 resistant to naphthopterin, growth, 950.\*  
 synthesis of serine and citrovorum factor, 391.  
*Streptomyces griseus*, broth, antagonist to toxicity of aminopterin (rat), 950.  
 Streptomycin, effect on blood sugar (rabbit), 427.\*  
 effect on growth, reproduction and lactation (rat), 1041.  
 Streptomycin mycelium, for growing pigs, 839.  
 Stress, and production of nasal excretion, effect of flavonoids (rat), 373.  
 effect on sodium metabolism, measurement and treatment, 240.  
 produced by cold, adrenal function, effect of vitamin C (mouse), 961.  
 surgical, effect on bodyweight (man), 1056.  
 Strontium, estimation, 321.\*  
 utilisation, relative to calcium, in foetal and growing rats, 1015, 1015.\*  
*Struthio camelus* (see Ostrich)  
 Succinate, and isosuccinate, formation from propionate in liver slices (rat), 1027.  
 estimation in tissue homogenates, 330.\*  
 metabolism by tissues *in vitro*, 1027.  
 Succulents for ewes during pregnancy, 1101.  
 Suckling (see under Lactation)  
 Sucrose (see also under Sugar)  
 conversion to fat by mice, 634.  
 effect on stomach secretion in patients with peptic ulcers, 406.

## Sucrose

- effect on teeth (hamster), 429.\*  
 estimation, 21.  
 in milk, condensed sweetened, 323.  
 fate of carbon in body (mouse), 145.  
 feeding to baby pigs, 271.  
 in honey, Poland, 645.\*  
 in ration of chickens, effect of protein level on growth, 573.  
 Sudan, diet study, 498.  
 Sudan grass, fodder crop in U.S.S.R., 1088.  
 Sudan hay, for sheep during drought, 593.\*  
 Sugar(s) (see also Carbohydrates and specific sugars, e.g., Glucose)  
 absorption, by intestine *in vitro* (hamster), 1025.\*  
 effect of antibiotics (rat), 427.  
 amino- (see Amino-sugars)  
 blood (see Blood sugar)  
 effect on alcohol metabolism (man, sheep), 177.  
 effect on alkaline phosphatase in intestine (rat), 405.  
 effect on blood amino-acids (man), 993.  
 effect on caries incidence, after salivary gland removal (hamster), 487.\*  
 effect on citric acid in blood (man), 146.  
 effect on growth and urinary excretion of amino-acids (rat), 992.  
 effect on influence of oxalic acid on calcium utilisation, 1142.\*  
 effect on utilisation of protein hydrolysates given by vein, 720.  
 estimation, 21, 322, 322\*, 594\*, 886.  
 in honey, 31.\*  
 formation of acid by lactobacilli *in vitro*, in relation to caries production, 1073.  
 hexose, estimation, 20.  
 metabolism, 719.\*  
 in honey, 63.  
 in legumes, India, effect of storage, 343.  
 in maple sap and syrup, 642.  
 in milk, canal, 55.  
 in potatoes, effect of storage temperature, 640.  
 in effect of parboiling and of storage, 640.  
 in tea, 357.\*  
 in wheat flour, separation and identification, 354.  
 invert (see Invert sugar)  
 reducing, effect of anion exchange resins, 614.  
 estimation, 614, 886, 886.\*  
 relation to bone calcification (rat), 991.  
 reversion, chemistry, 886.  
 separation, 21, 28, 322.  
 tolerance (see Blood sugar, tolerance)  
 transfer across placenta (monkey), 761.\*  
 utilisation by liver slices, effect of diabetes (rat), 179.  
 Sugar beet, for cows, 266.  
 Sugar beet pulp, causation of disorders in livestock, 1128.\*  
 preservation, 632.\*  
 Sugar beet pulp silage, for fattening sheep, 833.  
 Sugar beet residues, production of digestive disturbances in cattle, 1128.  
 Sugar beet tops, ensiled, for cows, effect on carotene and vitamin A in milk, 924.  
 Sugar cane, juice and leaves, amino-acids, 914.  
 Sugar-phosphate(s), in milk, effect of stage of lactation (woman), 347.\*  
 Sugar pulp, for cows, 555.  
 Sulphadiazine, activity against *Plasmodium gallinaceum*, effect of folio acid analogues, 90.\*  
 Sulphaguanidine, effect on vitamin B<sub>1</sub> excretion (rat), 379.  
 production of fatal syndrome in rats, 686.

- Sulphanilamide, effect on calcium and phosphorus metabolism (laying hen), 476.  
 Sulphasauvicide, effect on ascorbic acid in tissues (guinea pig, rat), 398.  
 lipotropic effect (rat), 165.  
 Sulphate(s) (see also under Sulphur)  
 effect on copper metabolism (sheep), 175.  
 labelled, uptake by bones, effect of vitamin D (rat), 654.  
 metabolism, embryo chicken, effect of excess vitamin A on ectoderm *in vitro*, 69.  
 radio-active, in measurement of extracellular water (man), 750.\*  
 incorporation in wounds and platelets, normal and in scurvy (guinea pig), 960.\*  
 relation to molybdenum in effect on blood copper and on wool (sheep), 458.  
 role in copper deficiency (sheep), 748.  
 sulphur uptake (sheep), 459.\*  
 uptake by tissues, normal and in scurvy (guinea pig), 459.  
 Sulphomamide(s), acetylation, effect of vitamins B and C, 917.  
 normal and in diabetic patients, with or without retinopathy, 1065.  
 insoluble, toxicity with low-protein diets (rat), 90.  
 metabolism, effect of B group vitamins and vitamin C (guinea pig), 917.  
 Sulphur  
 compounds, in blood, 617.  
 effect on activity of rumen micro-organisms *in vitro*, 80.  
 effect on depression of growth rate caused by ethionine (chicken), 1116.  
 effect on pasture composition and yield, Australia, 356.  
 effect on rape (*Brassica napus*) composition and yield, 354.  
 in cheese, during ripening, 48.  
 in diet, effect on elasticity of wool (sheep), 269.  
 in tissues, effect of injected methionine (rat), 361.  
 inorganic, incorporation into milk protein by mammary gland *in vitro* (cow), 180.  
 incorporation into taurine and other substances (chicken embryo), 748, 749.  
 intake, relation to blood sulphate (sheep), 459.  
 metabolism after wounding (rat), 726.  
 effect of liver extracts and nicotinic acid (rabbit), 943.  
 in rats and rabbits, comparison, 1023.\*  
 in young cattle, 822.  
 requirement of ewes, 269.  
 retention by pigs on diet of barley, 563.  
 significance for cattle, 1095.  
 total, protein and sulphate, estimation in lucerne hay, meadow grass and sunflowers, 896.  
 transfer in different organs, effect of vitamin B<sub>12</sub> deficiency (rat), 84.  
 uptake by bone *in vivo* and *in vitro* (dog), 466.  
 uptake from sulphate, effect of copro-phyll (rabbit), 175.  
 Sulphydryl, in blood, normal and in diabetes and liver cirrhosis (man), 1068.  
 non-protein, in tissues, effect of sulphur amino acids intake (mouse), 1001.\*  
 Sulphydryl compounds, non-protein, in tissues, effect of methionine deficiency, cold and restraint (rat), 727.

- Sulphydryl groups, estimation, 24.  
in proteins, 26.  
in wool, 417.  
in liver, effect of lipotropic substances (rat), 159.  
Sunfish, banded (*Emmencanthus obesus*), effect of vitamin B<sub>1</sub> depletion, 378.  
Sunflowers, sulphur, total, protein and sulphate, 896.  
Sunflower cake meal, for laying hens, 307.\*  
Sunflower heads, composition and nutritive value (sheep), 1086.  
Sunflower seed meal, for fattening cattle, 594.\*  
for fattening pigs, 594.\*  
for poultry, 594.\*  
Sunflower seed proteins, separation, 889.  
Sunlight, effect on ascorbic acid in tomatoes, 401.  
effect on  $\beta$ -carotene solution, 920.  
Suprarenal (see *Adrenal*)  
Surface-active agents, and antibiotics, for dairy calves, 1090.  
effect in man, 197.  
effect on egg production, 855.  
effect on growth (calf), 260.  
effect on growth and carcass quality (pig), 849.  
effect on growth of chickens in old and new houses, 283.  
effect on nutrient digestibility (bullock), 548.\*  
effect on tissue lipids (cockerel), 979.  
for baby pigs, 539.  
Surgical patients (see also *Operations*)  
amino-acids excretion, 150.  
copper, iron and zinc metabolism, 747.\*  
energy requirements, 772.\*  
nitrogen, carbohydrate, electrolyte and water balance, 995.  
nitrogen metabolism, 995.  
nutrition, discussion and review, 532, 1075.\*  
parenteral feeding, 801.  
protein metabolism, 995.\*  
requirements for fluid and electrolytes, 593.\*  
stress, effect on bodyweight (man), 1056.  
treatment with proteins and amino-acids, 1075.\*  
vitamin B<sub>1</sub> deficiency, case reports, 789.  
Surveys, social, technique, FAO report, 1140.  
Sweat, amino-acid losses, in heavy work (man), 708.  
composition and production, response to heat or exercise, effect of low blood sugar (man), 141.  
production, in hot environment, effect of water intake (man), 176.\*  
mechanism (buffalo), 715.\*  
Swede turnips, vitamin C content, America (U.S.), 401.  
Sweden  
agricultural exports, 1127.\*  
agriculture, development, 287.  
boys, secondary school, measurements, 1950, 198.  
caries incidence, effect of carbohydrate intake (man), 799.  
children, growth, 1030.\*  
molybdenum poisoning in cattle, 298.  
pig recording 1953-55, 270.  
pregnancy testing of Danish bulls, 558.  
rickets, incidence, 1060.\*  
Sweet potatoes (see *Potatoes, sweet*)  
Sweetpot (*Annona squamosa*, L.), riboflavin and vitamin B<sub>1</sub> content, 911.  
Swill (see *Waste products*)  
Switzerland  
children, height and weight, 757.\*  
goitre, congenital, pathology, 805.  
malignant, incidence, effect of iodine prophylaxis for endemic goitre, 535.  
Synkayvite (vitamin K), effect on blood loss during adenotonsillectomy, 799.\*  
Syphilis, effect of vitamin B<sub>1</sub> on serum flocculation tests, 789.  
TADPOLE (see under *Frog*)  
Takanuzuke (pickles), fortification with calcium and B vitamins, 1142.\*  
Tallow, beef (see *Beef tallow*)  
supplement to rations of chickens and poult, 847.  
Tanganyika, diet study, children, 777.  
diet study with clinical observations, children, 1058.  
mothers and newborn infants, haemoglobin levels, 119.  
overstocking, schemes to solve, 815.  
Tannin, effect on palatability and digestibility of hay (dairy calf), 1091.  
grape, vitamin P activity, 693.  
Tapeworm infestation, anaemia, pernicious, treatment, effect on blood prothrombin, 238.  
Tapioca (see also *Cassava*)  
Tapioca flour, composition and nutritive value, effect of storage, 905.  
Tapioca meal, for chickens, 850.  
Taurine, formation from sulphate sulphur (chicken embryo), 748, 749.  
in animal organs, 1001.\*  
in codling (*Gadus callarias*) muscle, effect of storage, 638.  
in tissues, origin (rat), 946.  
metabolism (rat), 1001.  
Taurocholate, metabolism (rat), 1001.  
Tea, effect on stomach motility and secretion (man), 116.  
herb, Switzerland, 357.\*  
source of vitamin P, 112.  
sugars, 357.\*  
theanine, 357.\*  
theogallin, 357.\*  
Tea leaves, as grown, minerals, Nyasaland, 60.\*  
Tea soils, minerals, Nyasaland, 60.\*  
Tears, composition (man), 128.\*  
Teeth  
acid and alkaline phosphatases, during development, 405.\*  
ash content, in sweet pea poisoning (rat), 768.  
calcification, effect of calcium intake, restricted (cuckling rat), 451.\*  
calcium metabolism, interstitial (rat), 1015.  
carbonate, infrared study, 417.\*  
Teeth, caries  
and tryptophan content of saliva (man), 243.  
associated micro-organisms, amino-acid requirements, 193.  
Canada, 531.\*  
Chile, treatment by fluoridation of water, 800.  
control, 1074.\*  
control by fluorine, provision of adequate intake (man), 1074.  
control by fluorine in drinking water (man), 800.  
distribution in children, 530.  
effect of ammonium fluosilicate (rat), 171.  
effect of carbohydrate, bibliography, survey, 799.\*  
effect of carbohydrate intake (man), 799.  
effect of castration and salivary gland removal (rat), 487.\*  
effect of diet and mastication, 243, 530.\*  
effect of fluoride, topical, 244, 531.\*  
effect of fluorine in drinking water, U.K., 244.  
effect of hygiene and diet, in *vitro* study, 243.  
Teeth, caries  
effect of inorganic salts (rat), 448.\*  
effect of milk products, 487.\*  
effect of thyroid (rat), 204.\*  
effect of salivary gland removal and fluorine (rat), 204.  
effect of sugar supplements (child), 1073.  
effect of urea with copper chlorophyllin (hamster), 487.\*  
effect of vitamin B<sub>1</sub> (child), 232.  
evaluation (man), 48.  
experimental production (rat), 203.  
genetical differences (rat), 487.\*  
human type produced in rats on dried skimmed milk diet, 770.  
in children, America (U.S.), 243, 244, 531.\*  
control by fluorine in drinking water, America (U.S.), 531.\*  
in rats, 487.\*  
in susceptible and resistant rats, in absence of parotid secretion, 204.\*  
incidence, after salivary gland removal, effect of sugars (hamster), 487.\*  
Argentina, relation to intake of protective foods, 244.  
effect of aluminium (rat), 458.  
effect of crops fertilised with fluorine (rat), 749.  
effect of diet (cotton rat), 204.  
effect of different fluorides and pH (rat), 745.  
effect of fluoride injections before tooth eruption (rat), 172.  
effect of fluorine in drinking water (rat), 745.  
effect of inert substances in diet (rat), 488.  
effect of minerals and fluorine (rat), 203.  
effect of thyroid and testosterone (rat), 1042.  
effect of topical application of sucrose and acids (hamster), 487.\*  
local effect of sugar solutions (rat), 770.  
low, despite high-carbohydrate diets (hamster), 770.  
Norway, relation to sugar consumption, 830.  
relation to thyroid (rat), 711.  
Israel, 531.\*  
literature survey, 1073.\*  
on diets containing skimmed milk and whey powders (rat), 1042.  
production, relative rates of acid formation from carbohydrates *in vitro*, 1073.  
relation to lactobacillus counts before and after fluoridation of drinking water, 1074.  
relation to mouth lactobacilli (hamster), 487.\*  
resistance, and composition of saliva (man), 977.  
role of carbohydrate (rat), 204.  
susceptibility, 1073.\*  
relation to lactobacilli in mouth (child), 104.  
untreated, lactobacillus counts, effect of fluoridation of water, 531.\*  
use of fluoridised salt, 531.  
Teeth, composition (hamster), 131.\*  
depigmentation and low iron content, effect of deficiencies of vitamins A and E (rat), 920.  
developed, and skeletal age, Japan (child), 469.  
effect of aureomycin (hamster), 1042.  
disorders (see *Teeth, caries* and for periodontal disease, under *Mouth conditions*)  
effect of feeding fluorine (sheep), 297.

- Teeth**  
effect of fluoride applied locally (man), 454.  
effect of fluorine on growth and calcium deposition (pig), 171.  
effect of sucrose (hamster), 429.\*  
enamel, amino-acids (man), 417.\*  
copper content (man), 986.  
decalcification by different acids, 467.\*  
detection of demineralised areas in sections (man), 626.\*  
fluoride distribution (man), 417.\*  
mottling, relation to fluorine content of drinking water (man), 531.  
opacity, in children, incidences, America (U.S.), 800.  
phosphorus exchange, effect of chewing, 452.\*  
enamel and dentine, spectrochemistry (hamster), 418.\*  
eruption, effect of prophylactic measures against rickets (child), 227.  
fluoride content, India (man), 980.\*  
foetal development, effect of fluorides given to mother (mouse), 745.  
magnesium content, effect of scurvy (guinea-pig), 108.  
morphology, relation to nutrition, 487.\*  
mottled, classification, 531.  
organic and inorganic parts, uptake of fluorine *in vitro*, 1020.  
phosphatase, alkaline, 905.\*  
phosphorus turnover, during recovery from phosphorus deficiency (rat), 1016.  
protection against vitamin E deficiency, failure of methylene blue, 657.\*  
pyroracemic acid content (man), 132.  
sodium metabolism (rat), 742.  
uptake of calcium from different salts (rat), 1015.  
uptake of radio-active elements (monkey), 1013.  
**Telangiectasis**, in cattle, incidence and causation, 1128.  
**Tempe** (fermented soya bean) production in Southern Rhodesia, 594.\*  
**Temperature**, body (see under *Energy exchange*)  
**Temperature**, environmental (see also *Cold; Heat; Climate; Tropics; etc.*)  
and humidity, effect on body temperature (calf), 715.  
effect on food consumption, normal and after thyroxine (rat), 710.\*  
effect on riboflavin excretion (dog), 668.  
high, effect on growth of bullocks, 549.  
effect on metabolism (man), 141.  
low, effect of rutin on injury (rat), 964.\*  
**Tenebrio molitor** (see *Mealworm*)  
**Teosinte** grain, protein, nutritive value, 997.\*  
**Terramycin**  
and Vitamin B<sub>12</sub>, for chickens, negative effect on growth, 281.  
with different levels of animal protein, 102.  
as supplement to vitamin B complex in rations for pigs, 375.  
effect on growth and organ weights (rat), 768.  
effect on growth, reproduction and lactation (rat), 1041.  
with unidentified growth factor, for calves, 548.\*  
**Testes** (see under *Sex organs*)  
**Testosterone** (see under *Hormones*, *sex*)  
**Tetany**, in beef calves due to magnesium deficiency, 863.  
in cattle and sheep, 586.\*  
in children, produced during treatment with cation exchange resin, 224.  
in ewes as result of magnesium deficiency, 1132.  
**Tetany**, produced by potassium depletion (man), 169.  
**Tetraerythrin**, effect on growth and feed efficiency (pig), 567.  
**Tetrahymena pyriformis** W, for evaluation of protein quality, 478.  
**Thallium** poisoning, effect on blood riboflavin (rabbit), 941.  
**Thiamine**, in tea, 357.\*  
**Thiosulfate**, in tea, 357.\*  
**Thiaminase**  
inactivation, 668.\*  
from *Bacillus aneurinolyticus*, 940.  
in digestive tract, distribution (man), 940.  
in fish, 667.  
in *Venerupis decussata*, effect of pH, 668.  
in White Sea fauna, 877.  
**Thiamine** (see *Vitamin B<sub>1</sub>*)  
**Thiamine**, all-, homologues, synthesis, 937, 937.\*  
occurrence in plants, chemical synthesis and effect on organism (man, pigeon, rabbit, rat), 83.  
vitamin B<sub>1</sub> activity (man, rat), 376.  
**Thiamine**, oxy-, and vitamin B<sub>1</sub> metabolism (rat), 84.  
antagonist to allithiamine, 376.  
effect on thiamine triphosphate in tissues (pigeon), 85.  
**Thiamine**, propylalli-, vitamin B<sub>1</sub> activity (man, rat), 376.  
**Thiamine**, S-acyl-, study, 663.\*  
**Thiamine**, thio-, oxidation by chlorine dioxide, 663.\*  
**Thioctic acid**, effect on alcohol intake (rat), 177.  
**Thiopental**, metabolism, effect of vitamin B complex deficiency, 81.  
**Thiouracil**  
effect on cholesterol metabolism (mouse), 447.  
effect on growth of pigs and chickens, 1109.  
effect on incidence of caries (rat), 204.  
effect on nitrogen metabolism (rabbit), 711.  
effect on thyroid, collagen content (rat), 134.  
relation to iodine intake (rat), 419.  
effect on wool growth (ram), 1104.  
with or without thyroprotein, effect on basal metabolism and thyroid weight (chicken), 135.  
**Thiouracil** derivatives, effect on basal metabolism (rat), 140.\*  
**Thiouracil**, methyl-, effect on adaptation to cold (guinea-pig), 134.  
effect on cholesterol formation (rat), 710.  
effect on nitrogen and mineral metabolism (pig), 1132.  
effect on trace elements in liver (cattle), 417.  
for pigs, 307.\*  
production of muscle degeneration in pigs, 291, 1132.  
with Aurofex, effect on growth and efficiency of chickens, 848.  
with soya bean oil meal, effect on growth of chickens, 1116.  
**Thirst**, regulation by kidney (rat), 461.  
**Thrombosis**  
deprivation, production of fatty liver (rat), 435.  
effect on fat deposition in liver (rat), 159.  
effect on liver enzymes and fat (rat), 732.  
in cheese, meat, milk and *Torula utilis* protein, 634.  
requirement of man, 207.  
supplement to milled wheat, effect on growth and food utilisation (rat), 956.\*  
supplement to wheat flour, algae as source (rat), 1040.\*  
**Thymol**, antivitamin E action (rat), 660.  
**Thymus**  
prenatal growth in dog, 138.\*  
relation to thyroid and gonads (guinea-pig), 137.  
weight, effect of vitamin C and adrenocorticotrophic hormone (rat), 400.  
relation to bodyweight (mouse), 188.  
**Thymus** extract, effect on resistance to undernutrition (rat), 981.  
**Thyroglobulin**, carbohydrate content (cattle), 980.  
iodinated, effect on metabolism (rat), 133.  
**Thyroid**: the entries are divided into two groups:  
(a) those relating to the thyroid as an organ;  
(b) those relating to thyroid preparations.  
see also *Thyroxine*.  
activity, effect of handling (rat), 199.  
measurement (man), 899.  
anti-thyroid effect of ascorbic acid and deoxycorticosterone (rat), 962.  
collagen content, effect of thiouracil (rat), 135.  
deficiency, effect on bone, influence of age, sex and strain (mouse), 710.  
**Thyroid disorders**  
basal metabolism and protein-bound iodine in blood (man), 421.\*  
caused by linseed meal (mouse, sheep), 864.  
congenital, pathology, Switzerland, 805.  
treatment with thyroxine, 805.  
effect of dietary habits on incidence, India, 307.\*  
endemic, in Austria, 805.  
in Belgian Congo, 636.  
in Brazil, 805.  
in Ceylon and Nigeria, 1078.\*  
in Latin America, 249.\*  
in Southern Rhodesia, 594.\*  
prevention, 805.\*  
prophylaxis with iodised plants, 641.  
relation to iodine content of drinking water, 535.  
report of W.H.O. study group, 249.\*  
use of iodised salt, 531.  
oxophthalmic, iodine compounds in thyroid (man), 978.  
iodine, inorganic and organic, 899.  
in oretins without iodine deficiency, 134.  
in newborn lambs from ewes grazing kale, 864.  
incidence, effect of crops fertilised with iodine (rat), 743.  
malignant, incidence, effect of iodine prophylaxis for endemic goitre, Switzerland, 635.  
mortality, Finland (man), 805.  
produced by  $\gamma$ -aminosuccinic acid (man), 419.  
produced by calcium (rat), 451.  
produced by diet, roles of iodine and salt (mouse), 983.  
relation to sterility (man), 536.  
Sierra Leone (man), 635.  
Uruguay, Chile, 249.\*  
Graves' disease, effects of triiodothyronine and sodium iodide, 249.\*  
histology (man), 134.  
hyperthyroidism, effect on phosphate fractions of liver (rat), 104.

## Thyroid disorders

- hypothyroidism, Norway, 1078.  
 recurrent, treatment with radio-active iodine, 249.\*  
 relation of tryptophan to vitamin B<sub>6</sub>, 1085.\*  
 role of diet, 64.\*  
 hypothyroidism, experimental, effect on carotene metabolism (dog), 922.  
 effect on utilisation of carotene and vitamin A (rat), 362.  
 Norway, 1078.  
 possible relation to reproductive disorders (cow), 294.  
 iodinated substances in blood (man), 972.  
 metaplasia, effect of vitamin A (rat), 648.  
 rate of thyroxine output (man), 418.  
 relation between serum protein-bound iodine and basal metabolic rate (man), 713.\*  
 struma in children, Japan, 536.  
 thyrotoxicosis, antithyrotic factor, preparation and relation to intestinal xanthine oxidase (rat), 751.  
 with osteoporosis (man), 982.  
 thyrotropic hormone in urine (man), 134.\*  
 Thyroid, effect of antibiotics (chick), 420.  
 (chicken, rat), 135.  
 effect of feeding rapeseed meal (pig), 585.  
 effect of milk of cows fed on turnips (cuckoo), 710.  
 effect of potassium perchlorate (rat), 420.  
 effect of radio-active iodine and astatine (monkey, rat), 467.  
 effect on body temperature (rabbit, sheep), 134.  
 effect on cholesterol in blood in arterio-sclerosis (man), 160.\*  
 effect on cholesterol metabolism (mouse), 447, 1011.  
 effect on incidence of caries (rat), 204.  
 effect on lipid metabolism in pantheonic acid deficiency (rat), 948.\*  
 excess and deficiency, effect in fat deficiency (rat), 135.\*  
 foetal, accumulation of radio-active iodine (man), 981.  
 Thyroid function, estimation from basal metabolic rate, value of sedation (man), 713.  
 evolution, and utilisation of iodine, review, 981.\*  
 measurement (man), 336, 625.  
 relation to blood composition (man), 1059.  
 Thyroid, histology, effect of biotin deprivation (rat), 388.  
 effect of vitamin B<sub>12</sub> deficiency (chicken embryo), 954.\*  
 in America (U.S.) (man), 982.  
 in dogs in goitre area, Spain, 134.  
 Thyroid hormone (see also *Thyroxine*) and iodine metabolism, review, 133.\*  
 effect on mammary gland metabolism *in vitro* (rat), 1025.  
 exogenous and endogenous, metabolism (rabbit), 710.\*  
 formation outside thyroid gland, 133.\*  
 metabolic effects, 133.\*  
 secretion, effect of season, age, breed, pregnancy and lactation (sheep), 983.\*  
 Thyroid, inorganic iodide metabolism *in vitro*, 183.\*  
 interaction of iodine and thiouracil (rat), 419.  
 iodide transport *in vitro*, effect of metabolic inhibitors (sheep), 1028.\*  
 iodine, inorganic and organic, in normal subjects and patients with exophthalmic goitre, 899.  
 iodine compounds, separation, 620.

## Thyroid

- iodine metabolism, effect of fluoride (rat), 455.\*  
 iodine uptake, changes during oestrous cycle (rat), 136.  
 effect of fluoride (man), 1019.  
 effect of rice diet (man), 982.  
 in infants, newborn, 455.  
 metabolism and iodide-concentrating capacity, relation *in vitro*, 1028.\*  
*in vivo*, 467.  
 physiology, review, 133.\*  
 relation to energy exchange and pituitary (rat), 983.  
 relation to lactation, growth and sex (sheep), 419.\*  
 relation to nervous disorder produced in rats by purified diet with sulphaguanidine, 687.  
 relation to teeth caries (rat), 711.  
 relation to thymus and gonads (guinea-pig), 137.  
 Thyroid removal  
 effect of environmental temperature on ascorbic acid in adrenals, 690.\*  
 effect on glucose tolerance tests (rat), 427.  
 Thyroid, role in caries (rat), 1042.  
 role in cholesterol formation and fatty acid metabolism (rat), 710.  
 role in phosphorus metabolism of adrenal in cold, 981.\*  
 status of mother, effect on offspring (rat), 135.  
 tumour production by alternate hypoplasia and involution (rat), 419.  
 weight, effect of thiouracil, with or without thyrotropic hormone (chicken), 135.  
 relation to bodyweight (chicken), 141.  
 Thyroid, dried  
 antagonistic to cortisone (rat), 984.  
 effect in vitamin B<sub>12</sub> deprivation (rat), 92.  
 effect on serum lipoproteins and cholesterol (man), 982.  
 production of muscle changes, effect of vitamin E deficiency (rat), 659.  
 Thyroid-active supplement, milk yield and bodyweight after withdrawal (cow), 474.  
 Thyroidectomy (see *Thyroid removal*)  
 Thyronine, derivatives, metabolism, review, 418.\*  
 triodo-, effects (man), 711.\*  
 Thyroprotein (see also *Iodinated protein*)  
 effect on egg production, 284.  
 effect on nitrogen metabolism (rabbit), 711.  
 for beef cattle, 548.\*  
 for cows, effect on milk yield and efficiency of production, 264.  
 Thyrotropic hormone (see under *Pituitary anterior*)  
 Thyroxine (see also *Thyroid*)  
 de-iodination after thyroid removal (rat), 711.\*  
 effect on blood serum protein fractions in vitamin A deficiency, 648.\*  
 effect on course of protein depletion (rat), 136.  
 effect on embryonic bone growth *in vitro*, 754.  
 effect on food consumption, influence of environmental temperature (rat), 710.\*  
 effect on growth, feed utilisation, muscle, thyroid gland and pork quality (pig), 1132.  
 effect on milk yield, cow and buffalo, Pakistan, 264.  
 effect on rate of depletion of vitamin B<sub>12</sub> during deprivation of vitamin B<sub>1</sub> (mouse), 664.  
 effect on rickets (rat), 76.

## Thyroxine

- effect on vitamin B<sub>12</sub> content of liver (rat), 683.  
 effect on wool growth (ram), 1104.  
 in iodinated proteins, 330.\*  
 metabolism, effect of thyroid state (rat), 456.  
 secretion, estimation (man), 418.  
 transport in blood, in health and thyroid disorders (man), 972.  
 treatment of congenital goitre, 805.  
 with or without pantothenic acid, effect on oxygen consumption of liver homogenates (pigeon), 386.  
 Thyroxine, related compounds, biological activity, 983.\*  
 L-Thyroxine, effect of pre-salting treatment on growth and production of heifers, 308.\*  
 effect on fleece growth (sheep), 561.\*  
 effect on growth and milk production (cow), 1095.  
*Thyranosaurus rasilii* (see *Krill*)  
 Tiger, fat, fatty acid composition, 638.  
 Tin, estimation, in milk and milk products, 621.\*  
 In preserved foods, 37.  
 Tissue(s) (see also *Cells* and specific tissues, effect *Aluscle*)  
 albumin and electrolyte distribution, effect of surgical trauma and burns (man), 416.\*  
 animal, taurine content, 1001.\*  
 chromatography, 885.  
 freeze-drying apparatus, 333.\*  
 granulatin, nucleoprotein content, effect of method of administering vitamin C, 690.\*  
 lambs treated with oestrogens, oestrogen content, 208.  
 metabolism, effect of ascorbic acid, cortisone and glutathione, 962.\*  
 effect of vitamin B<sub>12</sub> deficiency (rat), 583.  
 muscle, pectoral, action on adenosine-triphosphate, effect of vitamin B<sub>12</sub> deficiency, 939.  
 osteoid, mineralisation, relation of vitamin D and thyroxine, 76.  
 oxygen consumption and cyclophosphase activity, effects of altitude and cold (rat), 178.  
 effect of adaptation of rats to cold, 179.  
 palmitate metabolism *in vitro* (pigeon, rat), 181.  
 permeability, effect of dextran and urea, 402.  
 protein-bound iodine content (man), 130.  
 proteins, hydrolysis, 889.  
 respiration, after diptheria toxin, effect of vitamin K, 79.  
 diaphragm, effect of vitamin A deficiency (rat), 647.  
 intestinal mucosa, effect of amino-acids (rat), 99.  
 sampling (pig), 45.  
 subcutaneous, thickness, measurement, modified callipers, 1054.  
 vitamin C contents, effect of experimental fractures (rat), 689.  
 vitamin C supplies, effect of vitamin C deficiency, 159.  
 Tissue extracts, effect on amine toxicity (rat), 104.  
 Tissue homogenates, nicotinic acid, amidation, 670.  
 Tissue juice, studies, 898.  
 Toad, clawed, visual pigments and vitamin A, 646.  
 Tobacco seed cake, composition and nutritive value, 1087.  
 Tocopherol(s) (see also *Vitamin E*)  
 deficiency, experimental, in calves, 77.

- Tocopherol(s)**  
effect on fatty acid metabolism in liver preparations, 931.\*  
effect on incidence of encephalomalacia in chickens, 371.\*  
estimation, 370.  
in natural oils and foodstuffs, 929.  
in blood, effect of vitamin E preparations (man), 229.  
effect on red cell haemolysis (man), 1063.\*  
in pregnancy (woman), 788.  
lipoproteins as carriers, 517.  
relation to *in vitro* haemolysis of red cells by hydrogen peroxide (pre-natal infant), 330.  
in blood and milk of cows and blood of foetal calves, 932.  
in blood serum, effect of *DL*- $\alpha$ -tocopheryl acetate, 1082.  
in butterfat, and detection of adulteration, 932.  
in egg, effect of tocopherol in diet (turkey), 370.  
in soya bean oil, loss after aeration in glass or iron tubes, 933.  
in tissues, foetal, immature and adult (man), 78.  
inhibition of oxidation of fats and fatty acids catalysed by haematin compounds, 77.
- $\alpha$ -Tocopherol**  
chromatography, 657.\*  
effect as antagonist to cresols in pregnancy (rat), 371.  
effect in lead poisoning (rabbit), 78.  
effect on conversion of carotene to vitamin A (rat), 922.  
effect on growth-promoting activity of yeast (rat), 658.  
effect on heart *in vitro* (dog, rabbit), 660.  
effect on oxygen consumption by liver tissue in necrosis, 931.\*  
synthesis, preparation of pseudocumohydroquinone, 929.  
treatment of diabetic retinopathy, 518.  
with carotene or vitamin A, effect on egg production and hatchability and on composition of yolk (hen), 70.
- $\alpha$ -Tocopheryl acetate**, effect of single dose in vitamin E deficiency, influence of dietary acetylcholine (rabbit), 443.
- Tomato(es)**  
ascorbic acid, effect of fertilisers, 401.  
effect of sunlight, 401.  
carotene distribution, 652.  
Tomato juice, canned, ascorbic acid and sodium chloride, 691.  
*Torula utilis*, composition, 642.  
nutritive value as supplement to poor vegetarian diets (rat), 197.  
protein, threonine content, 634.  
supplement to Indian diets, 778.
- Toxicosis**, experimental, diphtheria toxin, effect of vitamin B complex components (hamster), 935.
- Toxopyrimidine phosphate**, antagonist to pyridoxal phosphate, 385.
- Trace elements**  
and biology, lecture, 1022.\*  
biochemistry (book), 1138.  
clinical lecture, 1129.\*  
detection in biological material, 621, 621.\*  
effect on growth and vitamin B<sub>12</sub> synthesis (cattle), 396.  
effect on sterility in cows, 1129.  
for cattle, 824.  
for fattening pigs, 1107.  
importance in livestock feeding, U.S.S.R., 544.  
in animal nutrition, 253\*, 863\*, 1141.\*  
in foods, effect on quality, review, 52.
- Trace elements**  
in forage plants and soils, America (U.S.), 915.  
in hill pasture plants, U.K., 915.  
in liver of cattle, 417.  
in pasture, deficiencies, Australia, 60.  
in vegetables, Belgium, 58.  
metabolism in young cattle, 822.
- Transaminase**, activity, in blood, effect of vitamin B<sub>6</sub> (man, monkey), 946.  
in tissues, effect of vitamin deficiency (monkey), 946.\*
- Transmethylation**, effect of vitamin B<sub>12</sub>, 684.
- Trapa bispinosa* (see *Chestnut, water*)
- Trauma** (see *Injury*)
- Trees**, bark, vitamin content, 645.  
fodder, 60.
- Tribolium**, nutritive requirements of different species, 206.
- Tribolium castaneum*, effect of DL-carnitine on development, 693.
- Trichloroethylene**, extraction of soya bean, toxicity of meal for calves, 1134.
- Trifolium subterraneum* (see *Clover, subterranean*)
- Trifolium thalicti*, Vill. composition, 643.
- Triglycerides**, conversion to phospholipids in intestinal mucosa and lymph (rat), 734.  
digestion (man), 699.
- Trigonella foenugraecum*, L. (fenugreek) seed proteins, amino-acid composition, 913.
- Trigonellin**, excretion, effect of liver injury or partial removal and administration of vitamin B<sub>1</sub> or choline (rat), 381.  
in urine, during treatment of liver disease (man), 233.
- Triiodothyronine**, transport in blood, in health and thyroid disorders (man), 972.
- Trimethylamine**, estimation in fish, fresh and preserved, 618.
- Triolein**, absorption and distribution (rat), 441.
- Tritium oxide**, in metabolic studies (rat), 148.
- Tropics**  
cancer, liver, 511.  
development (book), 1136.  
haemoglobin levels (man), 410.  
native diet, problems (man), 215.\*  
nutrition problems, French Territories, 215.  
nutritional diseases, liver disorders, 220.\*  
pasture, utilisation, 547.\*  
protein requirement of pigs, 563.\*
- Troat**, rainbow, effect of vitamin B<sub>12</sub> on fin development, 101.
- Trypsin**  
amiation, 896.  
in faeces of infants, newborn, 403.  
in infancy and childhood, 113.\*  
liberation of amino-acids, influence of ovomucoid *in vitro*, 404.  
release of amino-acids from animal and plant proteins, 697.
- Trypsin inhibitor(s)**, in blood (rat), 403.  
in duck egg white, 307.\*  
review, 695.\*
- Tryptophan deficiency**  
effect of feeding beans and lime-treated maize (rat), 944.\*  
effect on bone growth (rat), 152.  
relation to tumour formation (rat), 184.
- Tryptophan**, effect on liver enzymes and fat (rat), 732.  
effect on kynurenine excretion (man), 791.  
effect on xanthurenic acid and kynurenine excretion (rat, woman), 234.
- Tryptophan**  
estimation, in proteins and protein hydrolysates, 30.\*  
in protein solutions and tissue actions, 328.  
microbiological, 40.\*  
excretion, effect of diet (woman), 150.  
in beans, black, 91.  
in casein and fibroin hydrolysates, conservation, 630.  
in milk proteins (cow, ewe), 636.  
in saliva, relation to caries incidence (man), 343.  
intake, effect on pyridine nucleotide in liver (chicken), 942.  
relation to nicotinic acid in production of pellagra, 1064.  
metabolism (rat), 725.  
effect of gelatine or oxidised casein (rat), 1002.  
effect of vitamin B<sub>3</sub> (rat), 383.  
effect of vitamin B<sub>6</sub> deficiency (rat), 93.  
in alloxan diabetes (rat), 942.\*  
in disease, relation to vitamin B<sub>6</sub>, 1005.\*  
in pyridoxine deficiency and after removal of adrenal or pituitary glands, 671.  
in vitamin B<sub>6</sub> deficiency, effect of *iso*-nicotinic acid hydrazide (rat), 945.  
relation to nicotinic acid intake (rat), 90.  
relation to nicotinic acid in the chicken, 382.\*  
requirement of chickens and turkeys, 382.\*  
requirement of chickens on semi-synthetic diets, 546.  
requirement of man, 207, 233, 724.  
supplement for pigs, 564.\*  
synthesis of nicotinic acid and derivatives from, on nicotinic acid-deficient diet (rat), 307.\*  
utilisation by *Neurospora crassa*, effect of biotin, 389.
- DL-Tryptophan**, supplements for pigs, 1106.
- L-Tryptophan**, conversion to nicotinic acid in rat liver slices, effect of vitamin B complex components, 382.
- Tryptophan**, acetyl-, absorption (man), 1000.
- Tryptophan**, isomers, availability, effect of acetylation (man), 734.
- Tryptophanase**, competitive reaction of isonicotinic acid hydrazide and vitamin B<sub>6</sub>, 946.
- Tubercle bacillus**, effect of vitamin B<sub>6</sub> and isoniazid *in vitro* and *in vivo* (guinea pig), 674.
- Tuberculosis**  
incidence, effect of dietary habits, India, 307.\*  
murine, resistance, effect of nicotinamide (mouse), 671.  
non-pulmonary, effect of nutritional state on response to treatment (man), 1082.  
pulmonary, effect of vitamin E on blood coagulation, 1003.  
nitrogen metabolism (man), 147.  
resistance, effect of diet (mouse), 764.  
skin, treatment with calciferol, tubercular complications (man), 787.  
treatment, diet, review, 541.\*
- Tumour(s)** (see also *Cancer*)  
amino-acids, from, 707.  
chemotherapy, role of food intake on survival time (mouse), 185.  
epitheliomas, amino-acids distribution, 183.\*  
fibrosarcoma, growth rate and composition, effect of vitamin D<sub>3</sub>, 309.

- Tumour(s)  
growth, effect of hydrazides, role of pyridoxine, 946.\*  
incidence in *Drosophila melanogaster*, effect of vitamins, 82.  
liver, after diet of milk and egg yolk (rat), 183.  
production by butter yellow (hamster, mouse, rat), 755.  
production by diet, effect on distribution of phosphorus compounds (rat), 733.  
production by *p*-dimethylaminoozonobenzene, effect of diet (rat), 184.  
mammary, fibroadenomas, incidence on high fat diet (rat), 1028.\*  
in mice, alcohol-soluble protein in milk, 55.  
myeloma, effect on iron metabolism, 408.\*  
nucleic acid content, effect of ascorbic and glucosascorbic acids (rat), 900.  
protein, exchange with host (rat), 467.  
incorporation of injected glycine or lysine (rat), 1028.\*  
relation to host, and sulphur amino-acids (rat), 1028.\*  
sarcoma, amino-acid composition (rat), 408.  
effect of phospho-riboflavin-metal complexes (rat), 660.  
experimental, effect of protein intake (rat), 765.  
sarcoma and fibroadenoma, effect of deprivation of animal protein factor (rat), 686.  
thyroid, production by alternate hyperplasia and involution (rat), 419.  
transplantable lymphoid, effect of folic acid antagonists (chicken), 679.  
Walker carcinoma, effect on amino-acids in blood and tissues (rat), 467.  
Tunicates, blood composition, 488.  
Tunisia, children, blindness, 234.  
kwashiorkor, 223.  
Turkey(s)  
body measurements and meat yield, relation, 573.  
digestion of crude fibre, 1085.  
disorders, leg weakness, 586.\*  
perosis-like condition, 586.\*  
egg production, and hatchability, effect of dietary fibre and energy level, 853.  
fertility and hatchability, effect of arsenic acid, 565.  
Turkey(s), feeding  
arsenic acid, 566.  
cottonseed meal, effect on growth and egg hatchability, 1119.  
effect of dietary fibre and energy level, 853.  
Turkey(s), feedingsuffs, composition, digestibility and feeding value, 254.  
growth, effect of high altitude, 579.\*  
growth rate, 572.  
nicotinic acid and tryptophan requirement, 382.\*  
pantothenic acid requirement, 949.  
reproduction, effect of vitamin E, 932.  
Turkey poults, biotin and pantothenic acid requirements, effect of antibiotics, 82.  
energy requirements, effect of fibre content and physical state of ration, 1118.  
Turkey poults, feeding  
effect of low-level methionine supplements, 1117.  
low-protein diets, 573.\*  
rapeseed meal, 576.  
sodium chloride, effect on growth and moisture content of carcasses, 284.  
supplement of tallow, 847.  
Turkey poults, growth, effect of antibiotics fed to dams, 579.  
feed efficiency and carcass quality, effect of high and low energy rations, 279.  
growth and feed consumption, effect of penicillin, 282.  
growth factors, unidentified, multiplicity, 575.\*  
lysine deficiency, 846.  
moisture in carcass, effect of feeding sodium chloride, 284.  
phosphorus availability from different sources, 452, 574.\*  
phosphorus requirements, review, 574.\*  
protein and amino-acid requirements, 278.  
toxicity of dihydrostreptomycin, 866.  
Turkey meat, dressed weight and edible portion yield, effect of age and sex, 47.  
Tween 20, effect on iron absorption and storage (hamster), 174.  
Tween 80, effect on plasma and lymph lipid exchange (rabbit), 1005.  
Twin lamb disease, 201.\*  
Twins  
monozygous, sexual functions in relation to heredity and feeding intensity (bull), 267.  
studies (cattle), 907.  
twin variations, 474.

effect of aurein on chromatix, vestibular (pigeon), 82.  
effect on blood serum complement (rat), 935.  
effect on chronaxia, vestibular (pigeon), 666.  
effect on electrocardiogram (chicken), 64.  
(rat), 661.  
effect on mouth (dog), 373.\*  
effect on thalipental metabolism, 81.  
relation to source of protein (rat), 374.  
**Vitamin B<sub>1</sub> (see also Cocarboxylase; Thiamine)**  
allied compounds, 8-acylthiamine derivatives, 663.\*  
availability in live and non-viable yeast (man), 519.  
complex with copper, formation *in vitro*, 376.

**Vitamin B<sub>1</sub> deficiency (see also Beriberi; Polyneuritis)**

and thyroid or adrenal hormones, effect on adenosinetriphosphatase in liver and kidney (rat), 935.

**Vitamin B<sub>1</sub> deficiency**

cocarboxylase in blood and liver, effect of pyridoxamine, 667.  
detection by examination of blood and urine, 1064.  
digestive organ enlargement (man), 232.  
effect of antibiotics on growth (rat), 662.  
effect of neo-pyridoxamine on sciatic nerve (rat), 938.  
effect of vitamin B<sub>1</sub> on energy exchange (rat), 937.  
effect on alcohol metabolism (dog), 378.  
effect on chronaxia, vestibular (pigeon), 666.  
effect on decarboxylase content of muscle (pigeon), 664.  
effect on enzymes in muscle (pigeon), 938.  
effect on phosphatase in tissue (pigeon), 939.  
effect on production of nicotinamide from ammonium nicotinate by tissue homogenates (pigeon), 939.  
effect on vitamin B<sub>1</sub> pyrophosphate in liver cell fractions (mouse, rat), 939.  
in calves, effect on metabolism and blood picture, 1017.  
in chickens, heart abnormalities, 85.  
phosphatases in brain (chicken), 377, 665.  
relation to pyruvic acid metabolism and treatment, effect of aureomycin (pigeon), 666.

**Vitamin B<sub>1</sub> deficiency and excess, modification of barbituric narcosis, 666.\*****Vitamin B<sub>1</sub> degradation by sulphurous acid, 940.**

depletion, effect on larval banded earth and catfish, 373.  
deprivation, and adrenalectomy, effect on vitamin B<sub>1</sub> content of tissues and pyruvic acid in blood (rat), 664.  
effect of thyroxine and high fat intake on rate of depletion (mouse), 664.  
effect on activity of  $\beta$ -glycerophosphatase, on weight increase and on development of fatty liver, 665.\*  
effect on ethanol metabolism (rat), 462.  
pyruvate content of blood, relation of adrenal and pituitary glands (rat), 938.  
destruction by thiaminase in intestine (man), 940.  
effect on adrenocorticotrophic hormone *in vivo*, 85.  
effect on cholinesterase activity of blood, 789.  
effect on electrocardiogram, normal and in beriberi (pigeon), 376.  
effect on lactation (woman), 473.  
effect on manganese uptake by tissues (rat), 84.  
effect on oxidation of L-ascorbic acid, 688.  
effect on pyruvic acid in blood in heart failure, 1064.\*  
effect on resistance to caries (child), 232.  
effect on serum flocculation tests in syphilis, 789.  
effect on trigonellin excretion in liver injury (rat), 381.  
effect on tryptophan metabolism (rat), 383.  
effect on tyrosine oxidase in liver (rat), 377.  
effect on vitamin B<sub>12</sub> in solution, 682.  
estimation, 80, 83\*, 372, 376, 661, 663.  
in blood, 375.  
in rice, 640.  
in rice and rice products, 594.\*  
excretion, effect of sodium salicylate (man), 232.

**Vitamin B<sub>1</sub>**

excretion, effect of sulphaguandine (rat), 379.  
in urine, normal and in patients with psoriasis, 231.  
formation, by *Bacterium coli*, effect of vitamin B<sub>1</sub>, 664.  
effect of typical Indian diets (rat), 664.  
in intestine, effect of protein quality (rat), 663.  
in groundnut flour, tapioca flour and mixtures, effect of storage, 905.  
in liver, frozen and cooked, 930.  
in milk, human, 594.\*  
in muscle, effect of aureomycin (lamb), 664.  
in purebred strains of cereals and pulses, India, 307.\*  
in rice, effect of milling, 640.  
undermilled, effect of storage, 342.  
in rumen contents (calf), 936.  
in rumen juice, effect of aureomycin, 259.  
in tissues, during regeneration and degeneration (guinea-pig, tadpole), 379.  
effect of pituitary gland removal and vitamin B<sub>1</sub> deprivation (rat), 664.  
normal and in heart disease (man), 518.  
in wheat and parboiled wheat, Lebanon, 340.  
injected, fatal effects (man), 789.  
intake, effect on reproduction (rat), 667.  
labelled, sulphur-, metabolism (rat), 84.  
metabolism, effect of acetacetate or  $\beta$ -hydroxybutyrate *in vitro* or *in vivo* (rabbit), 375.  
oxidation by chlorite and chlorine dioxide, 663.\*  
pyrimidine component, antagonism of pyridoxine, 674.  
synthesis, 663.\*  
reaction with ingredients of plants of the *Allium* genus, 663.\*  
requirement, of baby pigs, 370.\*  
of boys, estimation, 1064.\*  
of man, 307.\*  
retention by pigs after loading test, 918.  
review, 375.\*  
treatment of beriberi in alcoholism, case report, 518.  
utilization from topical application, 917.\*  
with ormetrin, effect on blood pressure, uterus and vagina (rabbit), 85.  
with glutanyl choline, treatment of polyomyelitis (monkey), 86.  
**Vitamin B<sub>1</sub> analogues, biological effects, 939.**  
effect on embryonic development and growth (chicken), 667.  
**Vitamin B<sub>1</sub> antagonists, nicopyridoxamine, effect on cocarboxylase system *in vitro*, 85.**  
**Vitamin B<sub>1</sub> derivatives, biochemical effects, 1142.\***  
**Vitamin B<sub>1</sub> monophosphate, treatment of beriberi (pigeon), 937.**  
**Vitamin B<sub>1</sub> phosphoric esters, cocarboxylase activity, 377.**  
oxidation products, preparation, 83.  
separation and estimation, 83\*, 937.\*  
**Vitamin B<sub>1</sub> pyrophosphate, cytological studies (mouse, rat), 939**  
effect on decarboxylation of pyruvic acid, 377.  
**Vitamin B<sub>1</sub> related substances, 83.\***  
8-acylthiamine derivatives, 937.\*  
allthiamine homologues, synthesis, 937.\*  
compound with cysteine, 937.\*  
thiol-type derivatives, 937.\*  
**Vitamin B<sub>1</sub> tablets, variation in vitamin B<sub>1</sub> content, 379\*, 937.\***  
**Vitamin B<sub>1</sub> triphosphate, in tissues, effect of oxythiamine (pigeon), 85.**

- Vitamin B<sub>3</sub> complex components, in eggs, 375.\*
- Vitamin B<sub>3</sub>, antagonism to pyrimidine component of vitamin B<sub>12</sub>, 674.
- Vitamin B<sub>3</sub> deficiency  
after removal of adrenal or pituitary glands, effect on tryptophan metabolism, 671.  
and malaria, 307.\*  
biochemical lesions (rat), 384.  
effect (rat), 383.  
effect of iso-nicotinic acid hydrazide on growth and tryptophan metabolism (rat), 845.  
effect of penicillin and aureomycin (rat), 940.\*  
effect of tryptophan and butyrate on blood sugar (rat), 945.  
effect on anterior pituitary gonadotrophic hormones (rat), 673.  
effect on antibody production (rat), 673.  
effect on deamination of L-amino-acids by liver and kidney *in vitro* (rat), 385.  
effect on decarboxylation of cysteine sulphonic acid by homogenates, 946.  
effect on glutaminase in kidney (rat), 672.  
effect on mercapturic acid formation and sulphur transfer (rat), 94.  
effect on metabolism of glutamic acid, aspartic acid, glycine and ammonium acetate (rat), 94.  
effect on metabolism of heart muscle (duck), 384.  
effect on metabolism of tissues (rat), 383.  
effect on response to pituitary hormone (rat), 945.\*  
effect on sulphur transfer in different organs (rat), 94.  
effect on transformation of L- and D-phenylalanine (rat), 93.  
effect on tryptophan metabolism (rat), 93, 385.  
effect on water metabolism (rat), 96.  
excretion of tryptophan metabolites (rat), 234.  
in infants, review, 521.  
in maternal diet, production of convulsions in young (rat), 944.\*  
transaminase in liver (rat), 672.
- Vitamin B<sub>3</sub>, deprivation, effect of dried thyroid (rat), 92.  
effect on adrenals (rat), 92.  
effect on blood picture (rat), 383.  
effect on carbohydrate metabolism (rat), 384, 945.  
effect on urea formation in liver slices (rat), 94.  
effect on acetone body production (rat), 95.  
effect on acetylation of sulphonamides, 917.  
effect on alcoholic intoxication (man, mouse), 791.  
effect on anaemia, haemolytic (rat), 944.  
effect on antibody production and phagocytosis (rat), 935.  
effect on conversion of L-tryptophan to nicotinic acid in rat liver slices, 382.  
effect on decarboxylase in liver (small mammals), 675.  
effect on fat metabolism in phrynomerma (man), 791.  
effect on growth and blood picture (rat), 672.  
effect on refeeding after fasting (rat), 954.  
effect on tryptophanase activity, competitive reaction with isonicotinic acid hydrazide, 946.  
effect on vitamin B<sub>3</sub> and transaminase in blood (man, monkey), 946.  
estimation, 80.
- Vitamin B<sub>3</sub>  
excretion, as 4-pyridoxic acid by pregnant and non-pregnant women, 521.  
functions, 92.\*  
in heated milk, availability (rat), 947.  
in milk and milk products, 95.  
inhibition of toxic effects of a substituted pyrimidine (mouse), 92.  
metabolism, disorders (man), 521.\*  
effect of isonicotinic acid hydrazide (man), 790.  
in disease, relation to tryptophan, 1065.\*  
in perosis, effect of manganese, 1066.  
relation to protein metabolism, 92.\*  
role in action of hydrazides on bacterial and tumour growth, 946.\*  
treatment of Parkinsonian syndrome, 254.  
with isonicotinic acid hydrazide, effect on tubercle bacillus *in vitro* and *in vivo* (guinea pig), 674.
- Vitamin B<sub>3</sub> analogues, effect on growth of *Streptococcus faecalis* and synthesis of amino-acids, 946.
- Vitamin B<sub>3</sub> antagonist, deoxypyridoxine (see *Pyridoxine, deoxy-*)
- Vitamin B<sub>3</sub> group (see also *Pyridoxal*)  
paper chromatography, 671.\*
- Vitamin B<sub>3</sub>, phosphate, effect on serine formation, enzymic, 385.
- Vitamin B<sub>3</sub>  
absorption (man), 236, 336.\*  
(dog), 953.  
(rat), 953.\*  
after stomach removal (man), 237.  
and excretion, 1068.\*  
and utilisation (man), 794.  
by normal subjects and patients after gastrectomy, 524.  
by patients with pernicious anaemia, effect of stomach bacteria, 794.  
effect of intrinsic factor intake (man), 794.  
in pernicious anaemia, 793.  
effect of iodinated casein (chicken), 104.  
from nasal mucosa, normal and in pernicious anaemia, 1068.  
in old age, effect of intrinsic factor, 1068.\*  
and antibiotics, for chickens, effect on subsequent egg hatchability, 1124.  
for pigs, effect of continuous or intermittent feeding of the drug on growth and carcass characteristics, 838.  
vitamin K content, 934.  
and aureomycin (aureofac), for chickens, effect when combined with methylthiouracil on growth and efficiency, 848.  
and biological value of proteins, 101.  
and choline formation, 955.\*  
(rat), 955.\*  
and citrovorum factor, treatment of megaloblastic anaemia, 791.  
and folic acid, treatment of pernicious anaemia, 792.  
and growth hormone, effect on weight of organs (hypophysectomised rat), 956.\*  
and growth of children, 594.\*  
and intrinsic factor, review, 792.\*  
and metabolism of labile methyl groups (rat), 955.\*  
and methionine, supplement to a maize and soya bean ration for hens, 684.  
and protein metabolism (child), 594.\*  
and terramycin, for chickens, with different levels of animal protein, 102.  
negative effect on growth, 281.  
chemistry, 682.\*
- Vitamin B<sub>12</sub>  
deficiency, after gastrectomy, total, 1067.\*  
and congenital malformations (rat), 380.  
and neuropathology, 239.\*  
betaine, homocysteine and mono-methylaminoethanol as precursors of choline and methionine (chicken), 102.  
detection in presence of folic acid deficiency, 235.  
effect on glutathione in blood and liver (mouse), 1002.  
effect on glycine metabolism (pig), 955.  
effect on histology of thyroid and liver (chicken embryo), 954.\*  
effect on liver before and after partial hepatectomy (rat), 393.  
effect on liver nucleoproteins (rat), 955.  
effect on nucleic acid in tissues of offspring (rat), 956.  
in chickens, effect on nitrogen retention, 307.\*  
in hen, effect on chick embryo, 683.  
degradation products, crystalline nucleotide-free component, 682.  
deprivation, effect of antibiotics (rat), 685.  
effect on amino-acids in fasting blood (chicken), 394.  
effect on vitamin B<sub>12</sub> content of liver (baby pig, chicken, rat), 684.  
effect of ingestion and injection, on vitamin B<sub>12</sub> in egg and blood (hen), 683.  
effect of vitamin B<sub>12</sub> and nicotinamide in solution, 682.  
effect on anaemia of folic acid deficiency (rat), 678.  
effect on anaphylactic shock (guinea pig), 917.  
effect on basal metabolic rate (rat), 683.  
effect on beriberi (pigeon), 376.  
effect on biological value of rice proteins (pig), 956.\*  
effect on blood glutathione (chicken), 395.\*  
effect on blood picture before or after X-ray exposure (guinea pig), 956.  
effect on broiler yield and quality, 395.\*  
effect on calcium and protein utilisation, 1142.\*  
effect on carotene and vitamin A metabolism (rat), 923.\*  
effect on catabolic action of cortisone, 956.\*  
effect on chicken embryo development, 395.\*  
effect on cholesterol in blood (rat), 446.  
effect on choline formation from methanol (rat), 954.  
effect on choline formation *in vivo* (baby pig), 684.  
effect on creatine formation (mouse), 678.  
effect on depression of growth rate caused by ethionine (chicken), 1116.  
effect on emetine toxicity (rat), 104.  
effect on fatty liver produced by cholesterol (rat), 446.  
effect on fatty liver produced by diet (rat), 102.  
effect on fatty liver produced by ligation of pancreatic duct (rat), 684.  
effect on fatty liver production (rat), 954.  
effect on fin development in rainbow trout, 101.  
effect on growth (rat), 686.  
effect on growth and phosphorus uptake by tissues (rat), 393.  
effect on growth and vitamin B<sub>12</sub> content of liver (chicken), 394.

Vitamin B<sub>12</sub>

effect on growth inhibition by iodinated casein (chicken), 103.  
 effect on growth-promoting activity of yeast (rat), 655.  
 effect on growth, reproduction and lactation (mouse), 954.  
 effect on growth retardation by molybdenum (rat), 175.  
 effect on lipids of heart fibroblasts in *chick* (chicken), 955.  
 effect on liver fat deposition in alcohol poisoning (rat), 1010.  
 effect on metabolism of nucleic acid by micro-organisms, 394.  
 effect on metanemphosis (frog), 103.  
 effect on nitrogen metabolism (infant), 525.  
 effect on nucleic acids in bone marrow of patients with megaloblastic anaemia, 238.  
 effect on production of vitamin B<sub>12</sub> by *Bacterium coli*, 664.  
 effect on protein metabolism (man), 1069.  
 effect on refed after fasting (rat), 934.  
 effect on riboflavin requirements of pigs, 941.  
 effect on storage of folic acid and citrovorum factor in eggs (hen), 684.  
 effect on sugar and sulphhydryl in blood in diabetes, 1008.  
 effect on toxicity of arsenic or selenium, 102.  
 effect on toxicity of pyrimethamine (monkey), 394.  
 effect on transmethylation by liver homogenates, 684.  
 effect on work capacity (man), 1070.  
 estimation, 99, 100, 392, 392\*, 393, 393\*, 680, 951, 951\*.  
 in blood, 523, 795.  
 in liver extracts, 392.  
 in poultry feeds, 100.  
 excretion (cow), 685.  
 effect of anaemia, pernicious, or stomach removal, 523.  
 in nutritional macrocytic anaemia, effect of antibiotics, 397\*.  
 in urine, test, 1068\*.  
 folic acid and citrovorum factor, interrelations in anaemia, 594\*.  
 for chickens, effect on growth, 395\*, 957.  
 effect on growth and survival on diets of maize and soya bean, 395.  
 for children, effect on growth, 230, 240\*.  
 effect on red cells and haemoglobin, 1070.  
 for cows, effect on milk production and composition, 103.  
 for lambs with cobalt deficiency, comparison with cobalt, New Zealand, 308\*.  
 given by mouth, 957.  
 for laying hens, 957.  
 for pigs, 103.  
 effect of yeast product on fattening, 395.  
 for poultry, effect of yeast product on growth, 395.  
 for pregnant sows, 594\*.  
 for weanling pigs, effect on growth, 396.  
 formation, by *Actinomyces* in intestine (duck), 952.  
 by *Bacterium coli*, effect of antibiotics, 394.  
 by propionic acid bacteria, 952.  
 effect of antibiotics (chicken), 395.  
 effect of trace elements (cattle), 396.  
 in cancerous mammary tissue (mouse), 952.  
 formed in intestine, utilisation by poultry, 374\*.  
 free and bound, estimation, 100.

Vitamin B<sub>12</sub>

function for micro-organisms, 954\*.  
 in algae, 958.  
 in blood, effect of ageing (man), 523.  
 in leukaemia (man), 238, 239, 623.  
 normal, and in diabetic retinopathy, 525\*.  
 and in megaloblastic anaemia (man), 522.  
 and in megaloblastic anaemia or idiopathic steatorrhea (man), 235.  
 and in patients with anaemia and liver cirrhosis, 795.  
 and in pernicious anaemia, 523, 795\*.  
 in blood and eggs, effect of method of administering vitamin B<sub>12</sub> (hen), 683.  
 in blood and plasma (different species), 104.  
 in blood and urine, effect of vitamin B<sub>12</sub> injected or by mouth (man), 236.  
 in blood serum, normal and in vitamin deficiency (monkey), 953.  
 normal and nutritionally deficient monkeys, 683\*.  
 in carbon tetrachloride poisoning, effect on nucleotides in liver (rat), 955.  
 in diet of mother, effect on choline deficiency of young (rat), 1024.  
 in foods and vitamin concentrates for chickens, 99.  
 in foods from animal sources, 397.  
 in human milk and colostrum, 795.  
 in liver (different species), 99.  
 effect of pseudo-vitamin B<sub>12</sub> in ration (calf), 685.  
 effect of thyroxine, 683.  
 effect of vitamin B<sub>12</sub> and pantothenic acid intakes (chicken), 386.  
 effect of vitamin B<sub>12</sub> deprivation (baby pig, chicken, rat), 664.  
 in old age (man), 1068\*.  
 in selenium poisoning (rat), 685.  
 in liver extracts, availability for *Bacterium coli* mutant, 100.  
 protection against heat destruction by iron, 951.  
 in liver homogenates (man), 796.  
 in liver tissue, fractionation under pressure (calf), 952.  
 in maternal and post-weaning diet, effect on onset of maturity in female rat, 393.  
 in metabolism, 954\*.  
 in milk (cow, woman), 105.  
 (different species), 392, 99.  
 effect of administration of vitamin B<sub>12</sub> and cobalt (woman), 1070.  
 in mother's diet, effect on liver fat in young rats, 1009.  
 in Nioco-man, 105.  
 in organ meats, 397.  
 in rumen contents, effect of cobalt (sheep), 685.  
 in tissues, effect of iodinated casein (chicken), 104.  
 intake, relation to appearance of signs of pantothenic acid deficiency (chicken), 396.  
 relation to vitamin D intake (chicken), 101.  
 interrelation with folic acid and ascorbic acids, 678.  
 interrelation with folic acid and citrovorum factor in anaemia, 594\*.  
 interaction with folic acid in tissues, 522.  
 intravenous administration, no toxic or allergic effects (man), 1008.  
 isolation and chemistry, 951\*.  
 labelled, in study of anaemia, 237.  
 labelled with <sup>57</sup>Co, use in biological studies, 101.

Vitamin B<sub>12</sub>

labelled with <sup>60</sup>Co, treatment of pernicious anaemia and sprue, Schilling test, 795\*.  
 metabolism, in children, 795.  
 parenteral administration (day-old chicken), 954\*.  
 precursors, 952.  
 protein complex, in milk (various species), 682.  
 pseudo-, estimation, 392\*.  
 for baby pigs, 100.  
 utilisation (calf), 685.  
 radio-active, \* sorption and excretion (man), 524.  
 excretion, Schilling's test, normal and in disease, 1068.  
 test for intrinsic factor activity, 1068\*.  
 uptake and excretion, in estimation of intrinsic factor, 1068\*.  
 normal and in pernicious anaemia, surface measurement (man), 794.  
 utilisation (man), 524\*.  
 reactions with proteins, 951\*.  
 recent advances, 392\*.  
 relation to cobalt deficiency (ruminant), 1141\*.  
 requirement, of bobwhite hawk, 952.  
 of chickens, effect of fat intake, high, 955\*.  
 of poultry, 1142\*.  
 of rat, effect of insulin, 956\*.  
 retention from vegetable rations (chicken), 102\*.  
 retention of radio-activity after irradiation, 683.  
 role in anaemia in S. Indian labourers, 594\*.  
 role in diabetic retinopathy, 525\*.  
 role in megaloblastic anaemia, 1068.  
 role in protein, fat and carbohydrate metabolism, 240.  
 structure, X-ray photographic study, 682.  
 supplement to milled wheat, effect on growth and food utilisation (rat), 956\*.  
 supplement to vitamin B complex in rations for pigs, 375.  
 supplement to wheat proteins in processed food (rat), 397.  
 treatment of Addison-Biermer's disease, 1007\*.  
 treatment of anaemia (horse), 101.  
 after total gastrectomy (man), 803.  
 and substance combined degeneration of the cord, effect on amino-acids in urine, 250.  
 macrocytic, effect on serum iron content, 807.  
 megaloblastic, effect on vitamin B<sub>12</sub> in blood (man), 235.  
 in pregnancy, 522.  
 pernicious, 525, 792.  
 effect on gastric epithelial cells, 807.  
 intranasal, 792\*.  
 parenterally, or by mouth with folic acid, evaluation, 792\*.  
 without megakaryoblasts in bone marrow, 792.  
 treatment of delirium tremens, 795.  
 treatment of fat dyspepsia in infants, 1070.  
 treatment of growth failure (child), 1064.  
 treatment of ketosis in cattle, 957.  
 treatment of lead anaemia (rabbit), 685.  
 treatment of multiple sclerosis, 790\*.  
 treatment of nerve disorders, 1070.  
 treatment of poliomyelitis, 239, 1070.  
 treatment of polyneuritis, diabetic, 239.  
 treatment of schizophrenia, 1070.  
 uptake by liver, test for absorption and intrinsic factor activity (man), 236.

- Vitamin B<sub>12</sub>**  
 utilisation, effect of intrinsic factor (rat), 681.  
 with aurocynein, supplements to gelatine, effect on nitrogen retention from low-nitrogen diet (infant), 525.  
 with dried pyloric mucosa, oral treatment of pernicious anaemia, 525.  
 with folic acid, treatment of hepatitis, 796.  
 with gastric mucosa, dried, treatment of pernicious anaemia, 793.  
 with intrinsic factor, treatment of pernicious anaemia, 524, 793, 1068.\*  
 with penicillin, effect on growth and fattening (pig), 396.  
 with or without anti-anaemia factor, intrinsic, metabolic, normal and in pernicious anaemia, 236.  
 with or without iodinated casein, effect on phosphate fractions of liver (rat), 104.  
**Vitamin B<sub>12</sub>-active substances**, compound of cobalt with ribonucleic acid, properties, 951.  
 electrophoretic mobility, 951.  
**Vitamin B<sub>12</sub> analogue(s)**, biosynthesis, 681.  
 new, biosynthesis, 394.\*  
 production by *Streptomyces griseus* in presence of *o*-phenylenediamine, 681.  
**Vitamin B<sub>12</sub> and related compounds**, identification and composition, 681.  
**Vitamin B<sub>12</sub>-binding capacity**, of gastric juice, 237.  
 of intrinsic factor, 953.  
 of pig gastric mucosa extract, 681, 953, 953.\*  
 of serum, normal and from patients with pernicious anaemia, 795.

 review, 681.  
**Vitamin B<sub>12</sub>-like compounds**, biosynthesis, 394.\*  
**Vitamin B<sub>12</sub> related substances**, 951.\*  
**Vitamin B<sub>12</sub> (see *Orotic acid*)**  
**Vitamin B<sub>6</sub> (see *Folic acid*; *Lactobacillus casei* factor; *Phenylglutamic acid*)**  
**Vitamin B<sub>7</sub>**, carnitine analogues, effect on *Tenebrio molitor* larvae, 682.  
 deprivation, in *Tenebrio molitor* larvae, histological changes, 402.  
 distribution in animal tissues, 105.  
**Vitamin C (see also *Ascorbic acid*)**  
 and adrenal cortex, 525.\*  
 and adrenocorticotrophic hormone, effect on weight of glands (adrenalectomised rat), 400.  
 deficiency (see also *Scurvy*)  
 effect of X-ray exposure on ascorbic acid in tissues and urine (rat), 960.  
 effect on coagulation by heat of blood plasma proteins (guinea-pig), 960.  
 effect on haemoglobin, red cell count and serum iron (monkey), 959.  
 effect on supply to tissues, 959.  
 in onyala, 242.\*  
 effect of method of administration on nucleoprotein in granululation tissue, 990.\*  
 effect on adrenal function in stress produced by cold (mouse), 961.  
 effect on antistress production (guinea-pig), 917.  
 effect on esterase in blood (man), 240.  
 effect on elderly patients with chronic disease, 241.  
 effect on growth of pathogenic cocci, 645.  
 effect on gums of schoolchildren, 526.  
 effect on insulin sensitivity (rat), 109.  
 effect on osmotic resistance of red blood cells *in vitro*, 1071.\*  
 effect on subhamamide metabolism (guinea-pig), 917.\*
- Vitamin C**  
 effect on utilisation of sulphate by cartilage (guinea-pig), 109.  
 estimation, 107\*, 397.\*  
 in foods, 1142.\*  
 excess, effect on gestation (guinea-pig), 691.  
 for industrial workers, effect on absences, 798.  
 formation *in vitro* from 2-ketogulononic acid methyl ester, 108.  
 in acerola, availability (man), 1071.\*  
 in ascorbic acid, 111.  
 in blood and cerebrospinal fluid, in poliomyelitis, effect of vitamin C injection, 1071.  
 in canned fruit, loss during sterilisation, 692.  
 in guava, 691.  
 in milk (mare), 55.  
 in swede turnips, America (U.S.), 401.  
 in tissues, effect of experimental fractures (rat), 689.  
 in vegetables, effect of maturation, 1142.\*  
 sliced, 963.  
 in vetch, 401.  
 in West Indian cherry, 963.  
 intake, effect on change in ascorbic acid and cholesterol in adrenal produced by alcohol (guinea-pig, rat), 399.  
 effect on pathological changes produced by vitamin D excess (guinea-pig), 928.  
 losses from vegetable foods in preparation, 112.  
 massive doses, in treatment of inoperable cancer (man), 227.  
 requirement of man, 797.  
 status, effect of oestrus (cow, ewe, goat, sow), 399.  
 with high tyrosine intake, effect on growth (chicken), 109.  
**Vitamin C analogue(s)**, *D*-glucoascorbic acid, effect on experimental leucemia (mouse), 110.  
*iso*-Vitamin C (see under *Ascorbic acid*, *D-arabo*-)  
**Vitamin C<sub>2</sub> (see *Vitamin P*)**  
**Vitamin D**  
 action, 515.  
 addition to foods, Holland, 1061.  
 and calcium requirements (man), 1060.\*  
 balance in rats, 367.\*  
 deficiency (see also *Rickets*; and for Osteomalacia see under *Bone disorders*)  
 anaerobic glycolysis and pyruvate oxidation by epiphyseal cartilage *in vitro* (rat), 75.  
 effect of oestradiol or maize oil on bone formation (chicken), 368.  
 effect on phosphorus and sulphur metabolism (rat), 75.  
 in etiology of marble bone disease, 516.  
 effect of dietary level in removing lead from blood and bones (rat), 655.  
 effect on calcium absorption (chicken), 927.  
 effect on calcium absorption from rectum (man), 229.  
 effect on calcium absorption in teeth and bones from different compounds (rat), 1015.  
 effect on calcium and phosphorus metabolism (rat), 653.  
 effect on changes produced by malonate injection (rat), 515.  
 effect on citrate excretion (rat), 75.  
 effect on citric acid metabolism (rat), 654.  
 effect on gallstone formation (hamster), 360.  
 effect on growth of pigs, 655.
- Vitamin D**  
 effect on phosphorus reabsorption by kidney (parathyroidectomised rat), 623.  
 effect on uptake of labelled sulphate by bones, 654.  
 effect on uptake of phosphorus, normal and in rickets (rat), 367.  
 effect on weight and feed utilisation (sheep), 655.  
 estimation, 73, 396, 504\*, 652.  
 biological, radiographical technique (rat), 926.  
 in calciferol solutions B.P., 652.  
 preparation of sample, 652.  
 excess, in infants, case report, 788.  
 pathological changes, effect of vitamin C (guinea-pig), 928.  
 studies (rabbit, rat), 928.\*  
 fortification of milk, 76.  
 in butter, India, 76.  
 in butterfat, India, 307.\*  
 in forage crops, 369.  
 in margarine, prevention of rickets, New Zealand, 1061.  
 in milk, irradiated, 369, 928.  
 intake, infants, relation to idiopathic hypercalcaemia, 229.  
 relation to feather picking and cannibalism (chicken), 919.  
 relation to vitamin B<sub>12</sub> intake (chicken), 101.  
 loss of activity during exposure, 74.  
 massive doses, effect on calcium and phosphorus metabolism in children with rickets, 786.  
 effect on calcium metabolism (rat), 655.  
 for cows, prevention of milk fever, 656.  
 production of cardiovascular disorders, effect of choline (rat), 368.  
 treatment of primary vitamin D refractory rickets (child), 228.  
 mode of action in relation to carbohydrate metabolism (rat), 594.\*  
 mode of action on rachitic cartilage, 307.\*  
 poisoning, effect on calcium in blood and on thiocyanate space (infant), 1062.  
 treatment (infant), 1062.  
 precursors, in tissues (various species), 927.  
 requirement for growth (man), 1060.\*  
 sources for pigs, comparative value, 650.\*  
 treatment of craniotabes (infant), 785.  
 treatment of sarcoidosis (man), 516.  
 utilisation from topical application, 917.\*  
**Vitamin D<sub>3</sub> as international standard**, 73.  
**Vitamin D<sub>2</sub>**  
 activity of preparations in parathyroid disorder, 1060.  
 effect on ossification (rat), 75.  
 effect on phosphorus metabolism in liver (rat), 1017.  
 effect on vitamin D content of tissues (rat), 74.  
 estimation, by rat assay, 926.  
 excess, effect on growth and composition of fibrosarcoma (rat), 369.  
 massive doses, effect on phosphorus metabolism (rat), 928.  
 treatment of *Lepus vulgaris*, tubercular complications (man), 787.  
 treatment of rheumatoid arthritis in children, 1061.  
 treatment of rickets and spasmophilia, effect on blood alkaline phosphatase (infant), 227.  
 with protein, treatment of alopecia and acropia (man), 788.  
**Vitamin D<sub>2</sub>**  
 activity of preparations in parathyroid disorders, 1060.

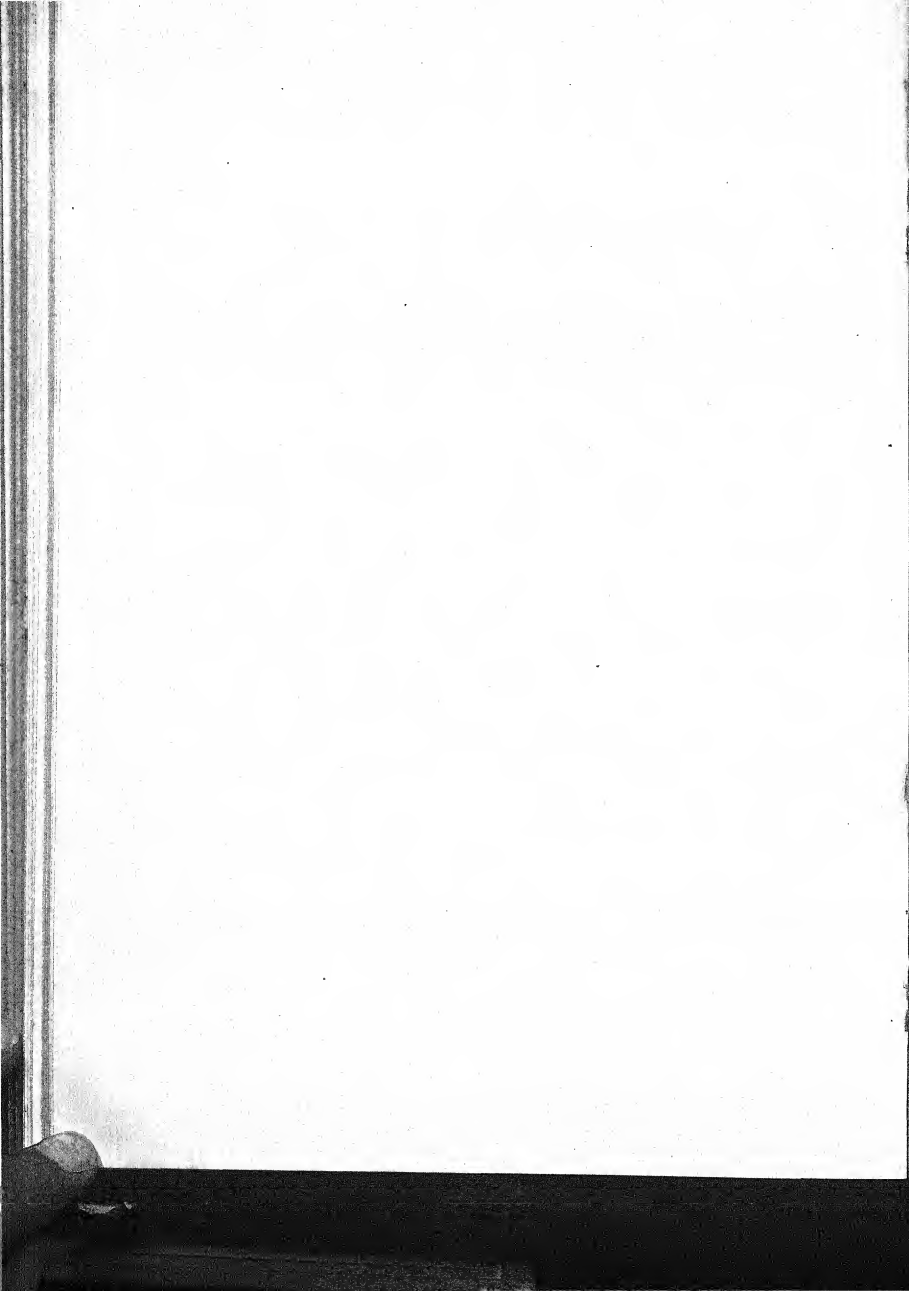

- Vitamin D<sub>3</sub>  
excess, effect on bone (rat), 368.  
international standard for vitamin D, 73.  
massive doses, toxic effects, influence of  
*lotus alba* (rat), 656.  
stability, in feedingstuffs for chickens,  
651.
- Vitamin D<sub>3</sub><sup>34</sup>C, synthesis, 74.\*
- Vitamin E (see also *Tocopherols* and under  
*Wheat germ*)  
absorption by pregnant or non-pregnant  
woman, effect of methods of  
administration, 517.  
activity, in yeast, brewer's, dried  
(chicken), 929.\*  
of redox dyes, 77.\*  
and carbohydrate metabolism, 658.\*  
antagonistic action to aloxan in carbo-  
hydrate metabolism of muscle *in*  
*vitro*, 658.  
biochemical role, 929.\*  
deficiency, effect on electrocardiogram  
(chicken), 64, 371.\*  
effect on feeding behaviour (chicken,  
rat), 78.  
effect on glycogen and phosphate in  
heart muscle (rabbit), 660.  
effect on glycogen metabolism *in vitro*  
(rabbit), 930.\*  
effect on incorporation of formate and  
glycine in protein (rabbit), 930.\*  
effect on muscle changes induced by  
dried thyroid (rat), 659.  
effect on pigmentation and iron of  
teeth (rat), 920.  
effect on proteolytic activity of muscle  
(rabbit), 930.  
effect on resistance to reduced atmo-  
spheric pressure (rabbit), 600.  
failure of methylene blue to protect  
the enamel organ, 657.\*  
production of heart lesions (mouse),  
660.  
production of paralysis, effect of  
supplementary trace elements in  
diet (mouse), 930.  
deprivation, and muscular dystrophy  
produced by  $\alpha$ -erosol succinate (rat),  
371.  
effect on structure of muscle fibres  
(rabbit), 659.  
effect on antipeptolysin production  
(guinea pig), 917.  
effect on blood coagulation (infant,  
pregnant woman), 617.  
in tuberculosis, 1063.  
mechanism (man), 230.  
effect on blood prothrombin and plasma  
coagulation time, 617.  
effect on blood sugar, in normal and  
diabetic subjects, 231.  
effect on carbohydrate metabolism  
(rabbit, rat), 930.  
normal and diabetic subjects, 231.  
of diaphragm (rat), 78.  
effect on conversion of glycine to uric  
acid, normal and in gout, 1063.  
effect on epymyomerisation of oxidised  
fats with protein *in vitro*, 637.  
effect on egg production, fertility and  
hatchability, 660.  
effect on eye development in bird  
embryo, 370.  
effect on haemolysis *in vitro* (man), 1063.  
effect on hatchability of eggs (turkey),  
371.\*  
effect on nerve disorders, experimental,  
931.  
effect on rep-reduction (turkey), 932.  
effect on tocopherol in blood (man), 229.  
estimation, 657.  
in cottonseed, 370.  
in blood, maternal, relation to erythro-  
blastosis in infant, 231.
- Vitamin E  
in forage, dehydrated and stored,  
stability after removal from storage,  
933.  
in lead poisoning, effect on metabolism  
and pathological changes (rabbit),  
931.  
in olive oil, biological estimation (rat),  
933.  
intake, low, effect on maintenance of  
*Myodactylus leprae* (hamster, rat),  
932.\*  
metabolism (man), 516.  
relation of alcohol extract of sperm  
antagglutinin from prostate, 370.  
requirement, of chickens, 931.  
of laying hens, relation to vitamin A  
intake, 69.  
role in regulating turnover of nucleic  
acids, 659.  
stability, effect of sodium bisulphite,  
657.  
treatment of dysmenorrhoea, 1063.  
treatment of stasis (out), 77.  
treatment of sterility (man), 229.  
Vitamin E derivative, in urine (man),  
1063.\*
- Vitamin F (see *Fatty acids, unsaturated*)
- Vitamin H (see *Biotin*)
- Vitamin H' (see *p-Aminobenzoic acid*)
- Vitamin K  
at parturition, prophylaxis against  
haemorrhagic disease in infant, 242.  
haemostatic action, 70.\*  
deficiency, in poultry, Israel, 79.  
production of heart lesions (mouse),  
660.  
effect on blood loss during adenoton-  
silectomy, 799.\*  
effect on mammary development (guinea-  
pig), 661.  
effect on oxygen consumption of heart  
muscle after diphtheria toxin  
(rabbit), 79.  
in photosynthetic phosphorylation, 934.  
in vitamin B<sub>12</sub> and antibiotic products,  
934.  
injection during labour, effect on blood  
prothrombin of infant, 242.  
metabolism in germ-free and conven-  
tional chicks, 918.  
pharmacological studies, 372.\*  
role in prothrombin activity, 372.\*  
treatment of bracken poisoning in cattle,  
866.  
treatment of haemorrhagic conditions  
(chicken), 933.  
treatment of haemorrhagic diathesis  
(man), 1073.  
treatment of onyala, case report, 1056.  
Vitamins K and K<sub>1</sub>, effect on blood pro-  
thrombin in liver disease (man),  
799.\*
- Vitamin K preparations, effect on pro-  
thrombin in blood after dicoumarol  
(dog), 79.
- Vitamin K<sub>1</sub>, and water-soluble vitamin K,  
clinical trials, 798.  
antidote against anticoagulants, 529.  
effect on blood prothrombin deficiency,  
dicoumarol-induced (man), 798.  
effect on blood prothrombin in patients  
taking anticoagulant drugs, 529.  
effect on osmotic resistance of red blood  
cells *in vitro*, 1071.\*  
emulsion, treatment of haemorrhage  
induced by dicoumarol, 529.  
radio-active, metabolism (rat), 372.  
role in respiratory enzyme chain, 372.  
synthetic, effect on blood prothrombin  
in infancy, 529.  
treatment of prothrombin deficiency  
induced by coumarol, 529, 1072.
- Vitamin K<sub>2</sub>, radio-active, metabolism (rat),  
372.
- Vitamin K<sub>2</sub>, co-enzyme in oxidation of  
phosphogluconate, 79.  
loss from animal feeds, 372.
- Vitamin M (see *Folic acid*; *Pteroylglutamic*  
*acid*)
- Vitamin P (see also *Hesperidin*; *Quercetin*;  
*Rutin*)  
activity, of tea catechins, grape tannins  
and buckwheat rutin, 693.  
deficiency, nervous chronic as mea-  
sure, 112.  
effect on atherosclerosis (rabbit), 402.  
preparation from tea leaves, 112.  
protective effect against X-ray injury  
(man), 530.
- Vitamin PP, effect on refeeding after  
fasting (rat), 934.
- Vitamin T, clinical and biochemical study  
(infant, rat), 630.  
effect on growth (fish), 964.  
(rat), 693.
- Vitamin T complex, effect on resistance of  
invertebrates to alcohol, 694.
- Vomiting sickness, glycogen in liver (man),  
428.
- WALNUTS, fatty acids, 346.
- War (see also *Army*; *Navy*)  
prisoners, nutritional disorders, In-  
donesia, 220.
- Waste, in food preparation, 339.
- Waste products, kitchen, as food for live-  
stock, 1089.\*
- Water (see also *Dehydration*)  
absorption, effect of distilled water (dog),  
700.  
effect of Pitressin (dog), 700.  
and fat, in pig carcasses, relation to  
physical measurements, 570.\*  
and salt metabolism, review, 165.\*  
balance, in potassium and sodium  
depletion (man), 1017.  
body, distribution, effect of low blood  
chloride (man), 453.\*  
in pregnancy (woman), 790.  
effect of altitude (man), 707.  
effect of ammonium chloride acidosis  
(woman), 749.  
effect of exercise (man), 461.  
extracellular, effect of vitamin D  
poisoning (infant), 1062.  
volume in infants, newborn, 970.  
isotomically, 137.\*  
partition, changes during growth of  
children, 808.\*  
proportion in digestive tract (labora-  
tory animals), 415.  
total (mouse, rat), 707.  
distribution in adults (man), 453.  
estimation (man), 625, 808.  
consumption, by chickens, effect of  
source of protein, 1116.  
thermal effect of light intensity (cow),  
898.  
deprivation, effect on blood composition  
(cattle), 125.  
detection in milk, 618.  
diuresis, in pernicious anaemia (man),  
625.  
riboflavin excretion (rat), 668.  
drinking, composition, relation to in-  
cidence of endemic goitre, 536.  
fluoride content, effect on caries and  
fluorosis, 245.  
fluorine addition, Chile, 800.  
effect on caries, 800.  
effect on fluorine content of tissues  
(man), 531.\*  
effect on lactobacillus counts and  
caries incidence, 1074.  
effect on lactobacillus counts in  
untreated rats, 531.\*  
Netherlands, 1074.

calcium retention, from different sources, 1014.  
elderly, utilisation of nutrients, 1051.\*  
fluorine balance, 170.  
food habits, unusual, 502.  
lactating (see under *Lactation*)  
lysine and methionine requirements, 1044.\*  
nutrition, 503.\*  
parturition (see *Parturition*)  
phenylalanine requirement, 1044.\*  
pregnant (see under *Pregnancy*)  
Wood yeast, for pigs, 594.\*  
Wool (see also under *Ewe*; *Sheep*; *Lamb*)  
amino-acids, 707.  
elasticity, effect of sulphur in ration, 269.  
growth, and protein metabolism (sheep), 1141.\*  
effect of thyroxine, 561.\*  
effect of thyroxine and thiouracil in feed of sheep, 1104.  
effect of urea and soya bean meal supplements on fleece weight of pregnant ewes, 1100.  
production, and nutrition (sheep), 1141.\*  
clipped area as index, 834.  
effect of source of dietary protein, 559.  
relation to bodyweight and body size (ewe), 561, 594.\*  
seasonal variation, 1141.\*

- Work, and nutrition, review, 714.\*  
effect on nitrogenous constituents of milk (cow), 324.  
effect on water loss through lungs (man), 1024.  
physiology, review, 139.\*
- Work performance (see *Energy output; Exercise; Physical performance*)
- Workers, energy requirement, measurement, 1043.
- Workers, industrial  
Angola, feeding and common diseases, 500.  
diet study, America (U.S.), 494, 1040.  
Canada, 212.  
elderly, diet study, America (U.S.), 776.  
feeding, during exposure to poisons, 503.  
in hot environment, classification of work in relation to salt requirement, 772.  
hot work index in relation to sweating, 715.  
influenza and colds, early treatment with ascorbic acid and drugs, 241.  
negro, nutrition problems, 215.\*  
salt requirement, Italy, 215.  
vitamin C and reduction of absences, 798.
- Workers, urban, diet studies, Japan, 1142.\*
- Worm(s) (see also under specific headings, e.g., *Tapeeworm*)  
marine, *Eudistylia vancouveri*, volatile fatty acids, 206.
- Worm infestation  
effect of early weaning (lamb), 831.  
effect of treatment and milk feeding on weight (child), 1078.  
in lambs, effect on growth, 1135.  
protective effect of minerals (lamb), 588.\*  
relation to pasture management (cattle, sheep), 1141.\*
- Wounds, metabolic response, review, 1075.\*
- Wound healing  
effect of previous protein intake (rat), 998.  
incorporation of sulphate, normal and in scurvy (guinea pig), 960.\*  
sulphur metabolism (rat), 726.  
utilisation of sulphur amino-acids (rat), 726.
- XANTHINE oxidase (see *Oxidase, xanthine*)
- Xanthomatosis, relation between blood serum proteins and lipids (man), 123.
- Xanthophylls  
estimation, 335.\*
- Xanthophylls, stability in mixed feeds, effect of animal fat and anti-oxidants, 925.
- Xanthuronic acid, effect on acetone body production (rat), 95.  
effect on glutathione in blood (rat), 945.  
effect on glycogen in liver, heart muscle and skeletal muscle (rat), 94.\*  
excretion, effect of hydrazide (dog), 945.\*  
in urine, 671.  
in urine in diabetes (man), 1065.  
interaction with acetone bodies (rat), 384.\*  
production of diabetes (rabbit, rat), 94\*, 95, 945.
- Xanthurenicase, effect on production of diabetes by xanthurenic acid (rabbit, rat), 95.  
study, 384.\*
- Xenopus laevis* (see *Toad, clawed*)
- Ximenia* spp., fruits and kernel oils, composition, 59.\*
- X-ray exposure  
effect of diet and sex on lethal dose (rat), 1041.\*  
effect of vitamin B<sub>12</sub> and folic acid on blood picture (guinea pig), 856.  
effect on acetylation of *p*-aminobenzoic acid (rat), 97.  
effect on bodyweight and food consumption (rat), 202.  
effect on vitamin and steroid excretion (man), 233.  
lethal, effect on nitrogen excretion (rat), 432.  
mortality, effect of low-fat diets (rat), 440.  
nitrogen loss, effect of protein intake (rat), 998.  
protection by cysteine, 1002.\*  
protective effect of hypoxia with cysteine injection (mouse), 153.\*  
protective effect of linoleic and linolenic acids (rat), 1007.  
protective effect of vitamin P (man), 530.  
resistance, effect of vitamin B complex and liver extract (rat), 686.  
with scorbutogenic diet, effect on ascorbic acid in tissues and urine (rat), 960.  
with and without exercise, effect on growth (rat), 202.\*
- Xylulose, utilisation *in vitro*, and excretion (guinea pig, man), 426.
- YEAST(s) (see also specific yeasts, e.g., *Torula*)  
baker's, for pigs, 274.
- Yeast(s)  
brewer's, dried, vitamin E activity (chicken), 929.\*  
for chickens, 285.  
for pigs, 274, 594.\*  
nicotinamidase, purification, 89.  
brewer's and wood, for pigs, 594.\*  
carotenoids, 67.\*  
distiller's, feeding value, effect of method of drying (pig), 274, 566.  
effect of method of preparation (chicken), 576.  
for chickens and laying hens, 285.  
effect on emetine toxicity (rat), 104.  
fat formation, effect of pH, temperature and composition of medium, 52.  
rate, 346.\*  
fodder, irradiated, for laying hens, 855.  
food, value as supplements to cereal proteins (rat), 1040.  
growth factor for *Tribolium*, 206.  
growth-promoting activity, effect of methionine, vitamin B<sub>12</sub> and vitamin E (rat), 658.  
irradiated, effect on hatchability of eggs (hen), 856.  
live, effect on growth of chickens, 307.\*  
live and non-viable, availability of vitamin B<sub>12</sub> and riboflavin (man), 519.  
nutritive value and use in human diets, 1052.  
organic acids, 330.\*  
protein source, Brazil, 778.  
wood, for poultry, 852.
- Yeast extract and liver, for pigs, 839.
- Yellow fat disease (see *Steatitis*)
- Yoghurt, as source of calcium and phosphorus (rat), 1014.
- Yugoslavia (see *Jugoslavia*)
- ZINC  
deficiency and parakeratosis (pig), 1130.  
distribution in eye (carnivores, rabbit), 131.  
estimation, 37.  
in blood, 896.\*  
in foods, 896.\*  
in plant materials, 37.  
in liver (cattle), 417.  
normal and caecorous (man), 130.  
in pancreas, distribution (dog, guinea pig, mouse, rabbit, rat), 460.  
in tissues (man), 416.  
metabolism (cattle), 459.  
in surgical patients, 747.\*  
role in blood formation, review, 737.

# NUTRITION ABSTRACTS & REVIEWS

ISSUED UNDER THE DIRECTION OF THE COMMONWEALTH  
AGRICULTURAL BUREAUX COUNCIL, THE MEDICAL  
RESEARCH COUNCIL, AND THE REID LIBRARY

VOLUME 26  
1956

ABERDEEN:

PUBLISHED BY THE COMMONWEALTH BUREAU OF ANIMAL NUTRITION,  
ROWETT RESEARCH INSTITUTE, BUCKSBURN, ABERDEENSHIRE, SCOTLAND

---

PRINTED AT THE ABERDEEN UNIVERSITY PRESS LTD

## NUTRITION ABSTRACTS AND REVIEWS

### COMMITTEE OF MANAGEMENT

*Chairman:* COL. E. BIRNIE REID, O.B.E., T.D., C.A.

*Representing the Commonwealth Agricultural Bureaux Council:*

MR. J. E. C. COVENTRY.

DR. V. ARMSTRONG.

SIR HERBERT HOWARD.

*Representing the Medical Research Council:*

PROFESSOR SIR RUDOLPH PETERS, M.C., M.D., F.R.S.

PROFESSOR B. S. PLATT, C.M.G., Ph.D., M.B.

HARRIETTE CHICK, D.B.E., D.Sc.

*Representing the Reid Library:*

PRINCIPAL SIR THOMAS TAYLOR, C.B.E., Q.C., M.A.,  
LL.B., D.D., LL.D.

PROFESSOR E. W. H. CRUICKSHANK, M.D., D.Sc., M.R.C.P., F.R.S.E.

PROFESSOR V. C. WYNNE-EDWARDS, M.A., F.R.S.C., F.R.S.E.

All communications should be addressed to the Secretary, NUTRITION ABSTRACTS AND REVIEWS, ROWETT INSTITUTE, BUCKSBURN, ABERDEENSHIRE, SCOTLAND.

The Executive Council of the Commonwealth Agricultural Bureaux is a signatory to the Fair Copying Declaration, details of which can be obtained from the Royal Society, Burlington House, London, W.1.

## CONSULTING EDITORS

LORD BOYD ORR, Newton of Stracathro, Brechin, Angus.

HARRIETTE CHICK, D.B.E., D.Sc.

## EDITORS

D. P. CUTHBERTSON, Rowett Research Institute, Aberdeen (*Chairman*).

I. LEITCH, Commonwealth Bureau of Animal Nutrition, Aberdeen.

E. M. HUME, Lister Institute, London.

S. J. COWELL, University College Hospital Medical School, London.

J. A. B. SMITH, Hannah Dairy Research Institute, Kirkhill, Ayr.

A. M. THOMSON, Department of Midwifery, University of Aberdeen.

### *Secretary :*

J. S. THOMSON, Commonwealth Bureau of Animal Nutrition, Rowett  
Institute, Bucksburn, Aberdeenshire.

## TABLE OF CONTENTS

	PAGE
Committee of Management . . . . .	iii
Editors . . . . .	v
Review Articles	
Early Nutritional Researches on Beri beri leading to the discovery of Vitamin B <sub>1</sub> . B. C. P. Jansen . . . . .	1
The Distribution of Vitamins Within the Tissues of Common Foodstuffs. W. I. M. Holman . . . . .	277
Land Use and Farming Potential of New Zealand. R. H. Soott . . . . .	565
Iron-Deficiency Anæmia in the Pregnant Woman and its Relation to Normal Physiological Changes. F. E. Hytten and D. L. Duncan . . . . .	855

## ABSTRACTS

	PAGES		PAGES
<b>1. TECHNIQUE</b>		<b>3. VITAMINS</b>	
Chemical		General . . . . .	52, 840, 621, 918
APPARATUS . . . . .	15, 305, 583, 869	Vitamin A . . . . .	55, 342, 624, 919
ANALYTICAL METHODS . . . . .		" D . . . . .	62, 351, 632, 928
General . . . . .	15, 305, 583, 869	" E . . . . .	66, 355, 635, 931
Carbohydrate Constituents . . . . .	16, 306, 583, 870	" K . . . . .	69, 357, 640, 935
Nitrogenous . . . . .	17, 308, 585, 872	" B Complex: General . . . . .	69, 358, 641, 936
Lipoid . . . . .	20, 312, 589, 875	" B <sub>1</sub> (Aneurin, Thiamine) . . . . .	70, 360, 643, 939
Other Organic . . . . .	23, 314, 592, 878	Riboflavin . . . . .	75, 362, 645, 941
Inorganic . . . . .	24, 314, 593, 879	Nicotinic Acid (Niacin) . . . . .	76, 365, 647, 942
Hydrogen Ion Concentra- tion . . . . .	— 317, — 881	Vitamin B <sub>6</sub> (Pyridoxine, Adermin) . . . . .	78, 367, 648, 943
Enzyme Activity . . . . .	27, 317, — 881	Pantothenic Acid . . . . .	79, 370, 650, 946
Miscellaneous . . . . .	28, 318, 596, 882	Biotin . . . . .	81, 372, 650, 948
Microbiological . . . . .	29, 318, 597, 884	p-Aminobenzoic Acid . . . . .	— 373, —
Cooking and Experimental . . . . .	29, 319, 597, 884	Folic Acid (Pteroylglutamic Acid) . . . . .	81, 373, 651, 949
Cooking, Sterilisation and Pre- servation of Food . . . . .	33, 323, 603, 891	Vitamin B <sub>12</sub> . . . . .	83, 375, 653, 950
Culture of Micro-Organisms for Food . . . . .	40, 328, 609, 897	Other B Vitamins . . . . .	89, 380, 659, —
		Vitamin C (Ascorbic Acid) . . . . .	89, 380, 659, 953
		Other Vitamins . . . . .	95, 384, — 960
<b>2. CHEMICAL COMPOSITION OF FOODSTUFFS</b> (except Vitamins, for which see Section 3)		<b>4. PHYSIOLOGY OF NUTRITION</b>	
Energy Value, Proximate Prin- ciples and Inorganic Constitu- ents		Enzymes . . . . .	96, 385, 665, 960
GENERAL . . . . .	40, 328, 609, 898	Digestion and Absorption . . . . .	96, 387, 666, 963
FOODSTUFFS OF ANIMAL ORIGIN		Composition of Body Fluids and Tissues	
General . . . . .	40, — 610, —	BLOOD . . . . .	103, 393, 672, 969
Milk and Milk Products . . . . .	40, 328, 610, 898	LYMPH, CEREBROSPINAL FLUID, ETC. . . . .	109, 400, 678, 977
Eggs . . . . .	43, — 613, 905	TISSUES . . . . .	109, 400, 679, 978
Meat (all kinds) . . . . .	43, 331, 614, 905	Ductless Glands and Hormones . . . . .	110, 403, 683, 982
Fish . . . . .	43, 332, 615, 906	Energy Exchange and Specific Dynamic Action . . . . .	116, 406, 687, 986
Other Types . . . . .	45, — 616, 908	Carbohydrates . . . . .	118, 411, 690, 990
FOODSTUFFS OF VEGETABLE ORIGIN		Proteins and Protein Derivatives . . . . .	124, 417, 695, 995
General . . . . .	46, 333, 616, 908	Fats and Other Lipids . . . . .	132, 425, 704, 1004
Cereals . . . . .	46, 333, 616, 909	Minerals	
Roots . . . . .	47, 334, 618, 910	GENERAL . . . . .	143, 434, 711, 1010
Leafy Vegetables . . . . .	47, — 618, 911	CALCIUM AND PHOSPHORUS AND STRONTIUM . . . . .	143, 435, 711, 1010
Legumes . . . . .	48, 334, 618, 912	MAGNESIUM . . . . .	143, 438, 715, 1013
Fruits . . . . .	48, 335, 618, 913	SODIUM, POTASSIUM, AND SODIUM CHLORIDE . . . . .	143, 438, 715, 1014
Other Types . . . . .	49, 336, 619, 913	HALOGENS . . . . .	147, 440, 716, 1015
Pasture, Hay and Silage . . . . .	49, 337, 619, 914	IRON AND COPPER . . . . .	149, 441, 719, 1017
MISCELLANEOUS . . . . .	52, 339, — 917	OTHER MINERALS . . . . .	150, 443, 721, 1020

# TABLE OF CONTENTS

vii

	PAGES
Acid Base Equilibrium . . .	150, 445, 723, 1022
Metabolism of Water . . .	150, 445, 723, 1022
Metabolism of Other Substances	151, 446, 724, 1023
Metabolism of Cells, Tissues, etc.	
GENERAL PHYSIOLOGY . . .	162, 447, 725, 1024
GROWTH AND METABOLISM OF TUMOUR CELLS . . .	157, 452, 729, 1031
Metabolism of Growth, Repro- duction and Senescence	
GROWTH . . .	158, 453, 732, 1032
REPRODUCTION AND LACTA- TION: MAMMALS . . .	161, 457, 735, 1034
REPRODUCTION: BIRDS . . .	162, 459, 740, 1038
SENESCENCE . . .	163, 459, 741, 1038
Experimental Studies of Im- munity and Micro-organisms	163, 460, 742, 1039
Miscellaneous Feeding Experi- ments . . .	166, 462, 746, 1042
General Metabolism and Feed- ing Habits of Animals other than Mammals and Birds . . .	173, 467, 753, 1050
5. HUMAN DIET IN RELATION TO HEALTH AND DISEASE	
Diet	
REQUIREMENTS . . .	175, 469, 756, 1053
FEEDING OF INFANTS AND CHILDREN . . .	175, 469, 758, 1054
DIETARY SURVEYS AND IN- DIVIDUAL STUDIES . . .	179, 474, 760, 1055
GENERAL STUDIES: DIET PLANNING: EDUCATION . . .	184, 478, 761, 1062
Food Economics and Statistics	185, 481, 765, 1063
Diet in Etiology of Disease
